H. B. 96 **CHAPTER 701**

AN ACT TO SIMPLIFY AND CODIFY THE RULES OF EVIDENCE.

The General Assembly of North Carolina enacts:

Section 1. A new Chapter is added to the General Statutes to read:

"CHAPTER 8B.

"Evidence Code.

"§ 8B-1. *Rules of evidence.*—The North Carolina Rules of Evidence are as follows:

"ARTICLE 1.

"General Provisions.

"Rule 101. *Scope.*

These rules govern proceedings in the courts of this State to the extent and with the exceptions stated in Rule 1101.

"Rule 102. *Purpose and Construction.*

(a) In General. These rules shall be construed to secure fairness in administration, elimination of unjustifiable expense and delay, and promotion of growth and development of the law of evidence to the end that the truth may be ascertained and proceedings justly determined.

(b) Subordinate Divisions. For the purpose of these rules only, the subordinate division of any rule which is labeled with a lower case letter shall be a subdivision.

"Rule 103. *Rulings on Evidence.*

(a) Effect of Erroneous Ruling. Error may not be predicated upon a ruling which admits or excludes evidence unless a substantial right of the party is affected, and

(1) Objection. In case the ruling is one admitting evidence, a timely objection or motion to strike appears of record. No particular form is required in order to preserve the right to assert the alleged error upon appeal if the motion or objection clearly presented the alleged error to the trial court;

(2) Offer of Proof. In case the ruling is one excluding evidence, the substance of the evidence was made known to the court by offer or was apparent from the context within which questions were asked.

(b) Record of Offer and Ruling. The court may add any other or further statement which shows the character of the evidence, the form in which it was offered, the objection made, and the ruling thereon. It may direct the making of an offer in question and answer form.

(c) Hearing of Jury. In jury cases, proceedings shall be conducted, to the extent practicable, so as to prevent inadmissible evidence from being suggested to the jury by any means, such as making statements or offers of proof or asking questions in the hearing of the jury.

(d) Review of Errors Where Justice Requires. Notwithstanding the requirements of subdivision (a) of this rule, an appellate court may review errors affecting substantial rights if it determines, in the interest of justice, it is appropriate to do so.

"Rule 104. *Preliminary Questions.*

(a) Questions of Admissibility Generally. Preliminary questions concerning the qualification of a person to be a witness, the existence of a privilege, or the admissibility of evidence shall be determined by the court, subject to the

provisions of subdivision (b). In making its determination it is not bound by the rules of evidence except those with respect to privileges.

(b) Relevancy Conditioned on Fact. When the relevancy of evidence depends upon the fulfillment of a condition of fact, the court shall admit it upon, or subject to, the introduction of evidence sufficient to support a finding of the fulfillment of the condition.

(c) Hearing of Jury. Hearings on the admissibility of confessions or other motions to suppress evidence in criminal trials in Superior Court shall in all cases be conducted out of the hearing of the jury. Hearings on other preliminary matters shall be so conducted when the interests of justice require or, when an accused is a witness, if he so requests.

(d) Testimony by Accused. The accused does not, by testifying upon a preliminary matter, subject himself to cross-examination as to other issues in the case.

(e) Weight and Credibility. This rule does not limit the right of a party to introduce before the jury evidence relevant to weight or credibility.

"Rule 105. *Limited Admissibility.*

When evidence which is admissible as to one party or for one purpose but not admissible as to another party or for another purpose is admitted, the court, upon request, shall restrict the evidence to its proper scope and instruct the jury accordingly.

"Rule 106. *Remainder of or Related Writings or Recorded Statements.*

When a writing or recorded statement or part thereof is introduced by a party, an adverse party may require him at that time to introduce any other part or any other writing or recorded statement which ought in fairness to be considered contemporaneously with it.

"ARTICLE 2.

"Judicial Notice.

"Rule 201. *Judicial Notice of Adjudicative Facts.*

(a) Scope of Rule. This rule governs only judicial notice of adjudicative facts.

(b) Kinds of Facts. A judicially noticed fact must be one not subject to reasonable dispute in that it is either (1) generally known within the territorial jurisdiction of the trial court or (2) capable of accurate and ready determination by resort to sources whose accuracy cannot reasonably be questioned.

(c) When Discretionary. A court may take judicial notice, whether requested or not.

(d) When Mandatory. A court shall take judicial notice if requested by a party and supplied with the necessary information.

(e) Opportunity to be Heard. In a trial court, a party is entitled upon timely request to an opportunity to be heard as to the propriety of taking judicial notice and the tenor of the matter noticed. In the absence of prior notification, the request may be made after judicial notice has been taken.

(f) Time of Taking Notice. Judicial notice may be taken at any stage of the proceeding.

(g) Instructing Jury. In a civil action or proceeding, the court shall instruct the jury to accept as conclusive any fact judicially noticed. In a criminal case, the court shall instruct the jury that it may, but is not required to, accept as conclusive any fact judicially noticed.

"ARTICLE 3.

"Presumptions in Civil Actions and Proceedings.

"Rule 301. *Presumptions in General in Civil Actions and Proceedings.*

In all civil actions and proceedings when not otherwise provided for by statute, by judicial decision, or by these rules, a presumption imposes on the party against whom it is directed the burden of going forward with evidence to rebut or meet the presumption, but does not shift to such party the burden of proof in the sense of the risk of nonpersuasion, which remains throughout the trial upon the party on whom it was originally cast. The burden of going forward is satisfied by the introduction of evidence sufficient to permit reasonable minds to conclude that the presumed fact does not exist. If the party against whom a presumption operates fails to meet the burden of producing evidence, the presumed fact shall be deemed proved, and the court shall instruct the jury accordingly. When the burden of producing evidence to meet a presumption is satisfied, the court must instruct the jury that it may, but is not required to, infer the existence of the presumed fact from the proved fact.

"Rule 302. *Applicability of Federal Law in Civil Actions and Proceedings.*

In civil actions and proceedings, the effect of a presumption respecting a fact which is an element of a claim or defense as to which federal law supplies the rule of decision is determined in accordance with federal law.

"ARTICLE 4.

"Relevancy and Its Limits.

"Rule 401. *Definition of 'Relevant Evidence'.*

'Relevant evidence' means evidence having any tendency to make the existence of any fact that is of consequence to the determination of the action more probable or less probable than it would be without the evidence.

"Rule 402. *Relevant Evidence Generally Admissible; Irrelevant Evidence Inadmissible.*

All relevant evidence is admissible, except as otherwise provided by the Constitution of the United States, by the Constitution of North Carolina, by Act of Congress, by Act of the General Assembly or by these rules. Evidence which is not relevant is not admissible.

"Rule 403. *Exclusion of Relevant Evidence on Grounds of Prejudice, Confusion, or Waste of Time.*

Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or misleading the jury, or by considerations of undue delay, waste of time, or needless presentation of cumulative evidence.

"Rule 404. *Character Evidence not Admissible to Prove Conduct; Exceptions; Other Crimes.*

(a) Character Evidence Generally. Evidence of a person's character or a trait of his character is not admissible for the purpose of proving that he acted in conformity therewith on a particular occasion, except:

(1) Character of Accused. Evidence of a pertinent trait of his character offered by an accused, or by the prosecution to rebut the same;

(2) Character of Victim. Evidence of a pertinent trait of character of the victim of the crime offered by an accused, or by the prosecution to rebut the same, or evidence of a character trait of peacefulness of the victim offered by the prosecution in a homicide case to rebut evidence that the victim was the first aggressor;

(3) Character of Witness. Evidence of the character of a witness, as provided in Rules 607, 608, and 609.

(b) Other Crimes, Wrongs, or Acts. Evidence of other crimes, wrongs, or acts is not admissible to prove the character of a person in order to show that he acted in conformity therewith. It may, however, be admissible for other purposes, such as proof of motive, opportunity, intent, preparation, plan, knowledge, identity, or absence of mistake, entrapment or accident.

"Rule 405. *Methods of Proving Character.*

(a) Reputation or Opinion. In all cases in which evidence of character or a trait of character of a person is admissible, proof may be made by testimony as to reputation or by testimony in the form of an opinion. On cross-examination, inquiry is allowable into relevant specific instances of conduct. Expert testimony on character or a trait of character is not admissible as circumstantial evidence of behavior.

(b) Specific Instances of Conduct. In cases in which character or a trait of character of a person is an essential element of a charge, claim, or defense, proof may also be made of specific instances of his conduct.

"Rule 406. *Habit; Routine Practice.*

Evidence of the habit of a person or of the routine practice of an organization, whether corroborated or not and regardless of the presence of eyewitnesses, is relevant to prove that the conduct of the person or organization on a particular occasion was in conformity with the habit or routine practice.

"Rule 407. *Subsequent Remedial Measures.*

When, after an event, measures are taken which, if taken previously, would have made the event less likely to occur, evidence of the subsequent measures is not admissible to prove negligence or culpable conduct in connection with the event. This rule does not require the exclusion of evidence of subsequent measures when offered for another purpose, such as proving ownership, control, or feasibility of precautionary measures, if those issues are controverted, or impeachment.

"Rule 408. *Compromise and Offers to Compromise.*

Evidence of (1) furnishing or offering or promising to furnish, or (2) accepting or offering or promising to accept, a valuable consideration in compromising or attempting to compromise a claim which was disputed as to either validity or amount, is not admissible to prove liability for or invalidity of the claim or its amount. Evidence of conduct or evidence of statements made in compromise negotiations is likewise not admissible. This rule does not require the exclusion of any evidence otherwise discoverable merely because it is presented in the course of compromise negotiations. This rule also does not require exclusion when the evidence is offered for another purpose, such as proving bias or prejudice of a witness, negativing a contention of undue delay, or proving an effort to obstruct a criminal investigation or prosecution.

"Rule 409. *Payment of Medical and Other Expenses.*

Evidence of furnishing or offering or promising to pay medical, hospital, or other expenses occasioned by an injury is not admissible to prove liability for the injury.

"Rule 410. *Inadmissibility of Pleas, Plea Discussions, and Related Statements.*

Except as otherwise provided in this rule, evidence of the following is not, in any civil or criminal proceeding, admissible for or against the defendant who made the plea or was a participant in the plea discussions:

(1) a plea of guilty which was later withdrawn;

(2) a plea of no contest;

(3) any statement made in the course of any proceedings under Article 58 of Chapter 15A of the General Statutes or comparable procedure in district court, or proceedings under Rule 11 of the Federal Rules of Criminal Procedure or comparable procedure in another state, regarding a plea of guilty which was later withdrawn or a plea of no contest;

(4) any statement made in the course of plea discussions with an attorney for the prosecuting authority which do not result in a plea of guilty or which result in a plea of guilty later withdrawn.

However, such a statement is admissible in any proceeding wherein another statement made in the course of the same plea or plea discussions has been introduced and the statement ought in fairness be considered contemporaneously with it.

"Rule 411. *Liability Insurance.*

Evidence that a person was or was not insured against liability is not admissible upon the issue whether he acted negligently or otherwise wrongfully. This rule does not require the exclusion of evidence of insurance against liability when offered for another purpose, such as proof of agency, ownership, or control, or bias or prejudice of a witness.

"Rule 412. *Rape or Sex Offense Cases; Relevance of Victim's Past Behavior.*

(a) As used in this rule, the term 'sexual behavior' means sexual activity of the complainant other than the sexual act which is at issue in the indictment on trial.

(b) Notwithstanding any other provision of law, the sexual behavior of the complainant is irrelevant to any issue in the prosecution unless such behavior:

(1) was between the complainant and the defendant; or

(2) is evidence of specific instances of sexual behavior offered for the purpose of showing that the act or acts charged were not committed by the defendant; or

(3) is evidence of a pattern of sexual behavior so distinctive and so closely resembling the defendant's version of the alleged encounter with the complainant as to tend to prove that such complainant consented to the act or acts charged or behaved in such a manner as to lead the defendant reasonably to believe that the complainant consented; or

(4) is evidence of sexual behavior offered as the basis of expert psychological or psychiatric opinion that the complainant fantasized or invented the act or acts charged.

(c) Sexual behavior otherwise admissible under this rule may not be proved by reputation or opinion.

(d) Notwithstanding any other provision of law, no evidence of sexual behavior shall be introduced at any time during the trial of a charge of rape or any lesser included offense thereof or a sex offense or any lesser included offense thereof, nor shall any reference to any such behavior be made in the presence of the jury, unless and until the court has determined that such behavior is relevant under subdivision (b). Before any questions pertaining to such evidence are asked of any witness, the proponent of such evidence shall first apply to the

court for a determination of the relevance of the sexual behavior to which it relates. The proponent of such evidence may make application either prior to trial pursuant to G.S. 15A-952, or during the trial at the time when the proponent desires to introduce such evidence. When application is made, the court shall conduct an *in camera* hearing, which shall be transcribed, to consider the proponent's offer of proof and the arguments of counsel, including any counsel for the complainant, to determine the extent to which such behavior is relevant. In the hearing, the proponent of the evidence shall establish the basis of admissibility of such evidence. Notwithstanding subdivision (b) of Rule 104, if the relevancy of the evidence which the proponent seeks to offer in the trial depends upon the fulfillment of a condition of fact, the court, at the *in camera* hearing or at a subsequent *in camera* hearing scheduled for that purpose, shall accept evidence on the issue of whether that condition of fact is fulfilled and shall determine that issue. If the court finds that the evidence is relevant, it shall enter an order stating that the evidence may be admitted and the nature of the questions which will be permitted.

(e) The record of the *in camera* hearing and all evidence relating thereto shall be open to inspection only by the parties, the complainant, their attorneys and the court and its agents, and shall be used only as necessary for appellate review. At any probable cause hearing, the judge shall take cognizance of the evidence, if admissible, at the end of the *in camera* hearing without the questions being repeated or the evidence being re-submitted in open court.

"ARTICLE 5.

"Privileges.

"Rule 501. *General Rule.*

Except as otherwise required by the Constitution of the United States, the privileges of a witness, person, government, state, or political subdivision thereof shall be determined in accordance with the law of this State.

"ARTICLE 6.

"Witnesses.

"Rule 601. *General Rule of Competency; Disqualification of Witness.*

(a) General Rule. Every person is competent to be a witness except as otherwise provided in these rules.

(b) Disqualification of Witness in General. A person is disqualified to testify as a witness when the court determines that he is (1) incapable of expressing himself concerning the matter as to be understood, either directly or through interpretation by one who can understand him, or (2) incapable of understanding the duty of a witness to tell the truth.

(c) Disqualification of Interested Persons. Upon the trial of an action, or the hearing upon the merits of a special proceeding, a party or a person interested in the event, or a person from, through or under whom such a party or interested person derives his interest or title by assignment or otherwise, shall not be examined as a witness in his own behalf or interest, or in behalf of the party succeeding to his title or interest, against the executor, administrator or survivor of a deceased person, or the committee of a lunatic, or a person deriving his title or interest from, through or under a deceased person or lunatic, by assignment or otherwise, concerning any oral communication between the witness and the deceased person or lunatic. However, this subdivision shall not apply when:

(1) The executor, administrator, survivor, committee or person so deriving title or interest is examined in his own behalf regarding the subject matter of the oral communication.

(2) The testimony of the lunatic or deceased person is given in evidence concerning the same transaction or communication.

(3) Evidence of the subject matter of the oral communication is offered by the executor, administrator, survivor, committee or person so deriving title or interest.

Nothing in this subdivision shall preclude testimony as to the identity of the operator of a motor vehicle in any case.

"Rule 602. *Lack of Personal Knowledge.*

A witness may not testify to a matter unless evidence is introduced sufficient to support a finding that he has personal knowledge of the matter. Evidence to prove personal knowledge may, but need not, consist of the testimony of the witness himself. This rule is subject to the provisions of Rule 703, relating to opinion testimony by expert witnesses.

"Rule 603. *Oath or Affirmation.*

Before testifying, every witness shall be required to declare that he will testify truthfully, by oath or affirmation administered in a form calculated to awaken his conscience and impress his mind with his duty to do so.

"Rule 604. *Interpreters.*

An interpreter is subject to the provisions of these rules relating to qualification as an expert and the administration of an oath or affirmation that he will make a true translation.

"Rule 605. *Competency of Judge as Witness.*

The judge presiding at the trial may not testify in that trial as a witness. No objection need be made in order to preserve the point.

"Rule 606. *Competency of Juror as Witness.*

(a) At the Trial. A member of the jury may not testify as a witness before that jury in the trial of the case in which he is sitting as a juror. If he is called so to testify, the opposing party shall be afforded an opportunity to object out of the presence of the jury.

(b) Inquiry Into Validity of Verdict or Indictment. Upon an inquiry into the validity of a verdict or indictment, a juror may not testify as to any matter or statement occurring during the course of the jury's deliberations or to the effect of anything upon his or any other juror's mind or emotions as influencing him to assent to or dissent from the verdict or indictment or concerning his mental processes in connection therewith, except that a juror may testify on the question whether extraneous prejudicial information was improperly brought to the jury's attention or whether any outside influence was improperly brought to bear upon any juror. Nor may his affidavit or evidence of any statement by him concerning a matter about which he would be precluded from testifying be received for these purposes.

"Rule 607. *Who May Impeach.*

The credibility of a witness may be attacked by any party, including the party calling him.

"Rule 608. *Evidence of Character and Conduct of Witness.*

(a) Opinion and Reputation Evidence of Character. The credibility of a witness may be attacked or supported by evidence in the form of reputation or opinion as provided in Rule 405(a), but subject to these limitations: (1) the

evidence may refer only to character for truthfulness or untruthfulness, and (2) evidence of truthful character is admissible only after the character of the witness for truthfulness has been attacked by opinion or reputation evidence or otherwise.

(b) Specific Instances of Conduct. Specific instances of the conduct of a witness, for the purpose of attacking or supporting his credibility, other than conviction of crime as provided in Rule 609, may not be proved by extrinsic evidence. They may, however, in the discretion of the court, if probative of truthfulness or untruthfulness, be inquired into on cross-examination of the witness (1) concerning his character for truthfulness or untruthfulness, or (2) concerning the character for truthfulness or untruthfulness of another witness as to which character the witness being cross-examined has testified.

The giving of testimony, whether by an accused or by any other witness, does not operate as a waiver of his privilege against self-incrimination when examined with respect to matters which relate only to credibility.

"Rule 609. *Impeachment by Evidence of Conviction of Crime.*

(a) General Rule. For the purpose of attacking the credibility of a witness, evidence that he has been convicted of a crime punishable by more than 60 days confinement shall be admitted if elicited from him or established by public record during cross-examination or thereafter.

(b) Time Limit. Evidence of a conviction under this rule is not admissible if a period of more than 10 years has elapsed since the date of the conviction or of the release of the witness from the confinement imposed for that conviction, whichever is the later date, unless the court determines, in the interests of justice, that the probative value of the conviction supported by specific facts and circumstances substantially outweighs its prejudicial effect. However, evidence of a conviction more than 10 years old as calculated herein is not admissible unless the proponent gives to the adverse party sufficient advance written notice of intent to use such evidence to provide the adverse party with a fair opportunity to contest the use of such evidence.

(c) Effect of Pardon. Evidence of a conviction is not admissible under this rule if the conviction has been pardoned.

(d) Juvenile Adjudications. Evidence of juvenile adjudications is generally not admissible under this rule. The court may, however, in a criminal case allow evidence of a juvenile adjudication of a witness other than the accused if conviction of the offense would be admissible to attack the credibility of an adult and the court is satisfied that admission in evidence is necessary for a fair determination of the issue of guilt or innocence.

(e) Pendency of Appeal. The pendency of an appeal therefrom does not render evidence of a conviction inadmissible. Evidence of the pendency of an appeal is admissible.

"Rule 610. *Religious Beliefs or Opinions.*

Evidence of the beliefs or opinions of a witness on matters of religion is not admissible for the purpose of showing that by reason of their nature his credibility is impaired or enhanced; provided, however, such evidence may be admitted for the purpose of showing interest or bias.

"Rule 611. *Mode and Order of Interrogation and Presentation.*

(a) Control by Court. The court shall exercise reasonable control over the mode and order of interrogating witnesses and presenting evidence so as to (1) make the interrogation and presentation effective for the ascertainment of the

truth, (2) avoid needless consumption of time, and (3) protect witnesses from harassment or undue embarrassment.

(b) Scope of Cross-examination. A witness may be cross-examined on any matter relevant to any issue in the case, including credibility.

(c) Leading Questions. Leading questions should not be used on the direct examination of a witness except as may be necessary to develop his testimony. Ordinarily leading questions should be permitted on cross-examination. When a party calls a hostile witness, an adverse party, or a witness identified with an adverse party, interrogation may be by leading questions.

"Rule 612. *Writing or Object Used to Refresh Memory.*

(a) While Testifying. If, while testifying, a witness uses a writing or object to refresh his memory, an adverse party is entitled to have the writing or object produced at the trial, hearing, or deposition in which the witness is testifying.

(b) Before Testifying. If, before testifying, a witness uses a writing or object to refresh his memory for the purpose of testifying and the court in its discretion determines that the interests of justice so require, an adverse party is entitled to have those portions of any writing or of the object which relate to the testimony produced, if practicable, at the trial, hearing, or deposition in which the witness is testifying.

(c) Terms and Conditions of Production and Use. A party entitled to have a writing or object produced under this rule is entitled to inspect it, to cross-examine the witness thereon, and to introduce in evidence those portions which relate to the testimony of the witness. If production of the writing or object at the trial, hearing, or deposition is impracticable, the court may order it made available for inspection. If it is claimed that the writing or object contains privileged information or information not directly related to the subject matter of the testimony, the court shall examine the writing or object *in camera*, excise any such portions, and order delivery of the remainder to the party entitled thereto. Any portion withheld over objections shall be preserved and made available to the appellate court in the event of an appeal. If a writing or object is not produced, made available for inspection, or delivered pursuant to order under this rule, the court shall make any order justice requires, but in criminal cases if the prosecution elects not to comply, the order shall be one striking the testimony or, if justice so requires, declaring a mistrial.

"Rule 613. *Prior Statements of Witnesses.*

In examining a witness concerning a prior statement made by him, whether written or not, the statement need not be shown nor its contents disclosed to him at that time, but on request the same shall be shown or disclosed to opposing counsel.

"Rule 614. *Calling and Interrogation of Witnesses by Court*

(a) Calling by Court. The court may, on its own motion or at the suggestion of a party, call witnesses, and all parties are entitled to cross-examine witnesses thus called.

(b) Interrogation by Court. The court may interrogate witnesses, whether called by itself or by a party.

(c) Objections. No objections are necessary with respect to the calling of a witness by the court or to questions propounded to a witness by the court but it shall be deemed that proper objection has been made and overruled.

"Rule 615. *Exclusion of Witnesses.*

At the request of a party the court may order witnesses excluded so that they cannot hear the testimony of other witnesses, and it may make the order of its own motion. This rule does not authorize exclusion of (1) a party who is a natural person, or (2) an officer or employee of a party that is not a natural person designated as its representative by its attorney, or (3) a person whose presence is shown by a party to be essential to the presentation of his cause, or (4) a person whose presence is determined by the court to be in the interest of justice.

"ARTICLE 7.

"Opinions and Expert Testimony.

"Rule 701. *Opinion Testimony by Lay Witness.*

If the witness is not testifying as an expert, his testimony in the form of opinions or inferences is limited to those opinions or inferences which are (a) rationally based on the perception of the witness and (b) helpful to a clear understanding of his testimony or the determination of a fact in issue.

"Rule 702. *Testimony by Experts.*

If scientific, technical or other specialized knowledge will assist the trier of fact to understand the evidence or to determine a fact in issue, a witness qualified as an expert by knowledge, skill, experience, training, or education, may testify thereto in the form of an opinion.

"Rule 703. *Bases of Opinion Testimony by Experts.*

The facts or data in the particular case upon which an expert bases an opinion or inference may be those perceived by or made known to him at or before the hearing. If of a type reasonably relied upon by experts in the particular field in forming opinions or inferences upon the subject, the facts or data need not be admissible in evidence.

"Rule 704. *Opinion on Ultimate Issue.*

Testimony in the form of an opinion or inference is not objectionable because it embraces an ultimate issue to be decided by the trier of fact.

"Rule 705. *Disclosure of Facts or Data Underlying Expert Opinion.*

The expert may testify in terms of opinion or inference and give his reasons therefor without prior disclosure of the underlying facts or data, unless an adverse party requests otherwise, in which event the expert will be required to disclose such underlying facts or data on direct examination or *voir dire* before stating the opinion. The expert may in any event be required to disclose the underlying facts or data on cross-examination. There shall be no requirement that expert testimony be in response to a hypothetical question.

"Rule 706. *Court Appointed Experts.*

(a) Appointment. The court may on its own motion or on the motion of any party enter an order to show cause why expert witnesses should not be appointed, and may request the parties to submit nominations. The court may appoint any expert witnesses agreed upon by the parties, and may appoint witnesses of its own selection. An expert witness shall not be appointed by the court unless he consents to act. A witness so appointed shall be informed of his duties by the court in writing, a copy of which shall be filed with the clerk, or at a conference in which the parties shall have opportunity to participate. A witness so appointed shall advise the parties of his findings, if any; his deposition may be taken by any party; and he may be called to testify by the court or any party. He shall be subject to cross-examination by each party, including a party calling him as a witness.

(b) Compensation. Expert witnesses so appointed are entitled to reasonable compensation in whatever sum the court may allow. The compensation thus fixed is payable from funds which may be provided by law in criminal cases and civil actions and proceedings involving just compensation for the taking of property. In other civil actions and proceedings the compensation shall be paid by the parties in such proportion and at such time as the court directs, and thereafter charged in like manner as other costs.

(c) Disclosure of Appointment. In the exercise of its discretion, the court may authorize disclosure to the jury of the fact that the court appointed the expert witness.

(d) Parties' Experts of Own Selection. Nothing in this rule limits the parties in calling expert witnesses of their own selection.

"ARTICLE 8.

"Hearsay.

"Rule 801. *Definitions and Exception for Admissions of a Party-Opponent.*

The following definitions apply under this Article:

(a) Statement. A 'statement' is (1) an oral or written assertion or (2) nonverbal conduct of a person, if it is intended by him as an assertion.

(b) Declarant. A 'declarant' is a person who makes a statement.

(c) Hearsay. 'Hearsay' is a statement, other than one made by the declarant while testifying at the trial or hearing, offered in evidence to prove the truth of the matter asserted.

(d) Exception for Admissions by a Party-Opponent. (5) Recorded Recollection. A memorandum or record concerning a matter about which a witness once had knowledge but now has insufficient recollection to enable him to testify fully and accurately, shown to have been made or adopted by the witness when the matter was fresh in his memory and to reflect that knowledge correctly. If admitted, the memorandum or record may be read into evidence but may not itself be received as an exhibit unless offered by an adverse party.

(6) Records of Regularly Conducted Activity. A memorandum, report, record, or data compilation, in any form, of acts, events, conditions, opinions, or diagnoses, made at or near the time by, or from information transmitted by, a person with knowledge, if kept in the course of a regularly conducted business activity, and if it was the regular practice of that business activity to make the memorandum, report, record, or data compilation, all as shown by the testimony of the custodian or other qualified witness, unless the source of information or the method or circumstances of preparation indicate lack of trustworthiness. The term 'business' as used in this paragraph includes business, institution, association, profession, occupation, and calling of every kind, whether or not conducted for profit.

(7) Absence of Entry in Records Kept in Accordance with the Provisions of Paragraph (6). Evidence that a matter is not included in the memoranda, reports, records, or data compilations, in any form, kept in accordance with the provisions of paragraph (6), to prove the nonoccurrence or nonexistence of the matter, if the matter was of a kind of which a memorandum, report, record, or data compilation was regularly made and preserved, unless the sources of information or other circumstances indicate lack of trustworthiness.

Records, reports, statements, or data compilations, in any form, of public offices or agencies, setting forth (A) the activities of the office or agency, or (B) matters observed pursuant to duty imposed by law as to which matters there was a duty to report, excluding, however, in criminal cases matters observed by police officers and other law enforcement personnel, or (C) in civil actions and proceedings and against the State in criminal cases, factual findings resulting from an investigation made pursuant to authority granted by law, unless the sources of information or other circumstances indicate lack of trustworthiness.

(9) Records of Vital Statistics. Records or data compilations, in any form, of births, fetal deaths, deaths, or marriages, if the report thereof was made to a public office pursuant to requirements of law.

(10) Absence of Public Record or Entry. To prove the absence of a record, report, statement, or data compilation, in any form, or the nonoccurrence or nonexistence of a matter of which a record, report, statement, or data compilation, in any form, was regularly made and preserved by a public office or agency, evidence in the form of a certification in accordance with Rule 902, or testimony, that diligent search failed to disclose the record, report, statement, or data compilation, or entry.

(15) Statements in Documents Affecting an Interest in Property. A statement contained in a document purporting to establish or affect an interest in property if the matter stated was relevant to the purpose of the document, unless dealings with the property since the document was made have been inconsistent with the truth of the statement or the purport of the document.

If admitted, the statements may be read into evidence but may not be received as exhibits.

(19) Reputation Concerning Personal or Family History. Reputation among members of his family by blood, adoption, or marriage, or among his associates, or in the community, concerning a person's birth, adoption, marriage, divorce, death, legitimacy, relationship by blood, adoption, or marriage, ancestry, or other similar fact of his personal or family history.

A statement not specifically covered by any of the foregoing exceptions but having equivalent circumstantial guarantees of trustworthiness, if the court determines that (A) the statement is offered as evidence of a material fact; (B) the statement is more probative on the point for which it is offered than any other evidence which the proponent can procure through reasonable efforts; and (C) the general purposes of these rules and the interests of justice will best be served by admission of the statement into evidence. However, a statement may not be admitted under this exception unless the proponent of it gives written notice stating his intention to offer the statement and the particulars of it, including the name and address of the declarant, to the adverse party sufficiently in advance of offering the statement to provide the adverse party with a fair opportunity to prepare to meet the statement.

"Rule 804. *Hearsay Exceptions; Declarant Unavailable.*

(a) Definition of Unavailability. 'Unavailability as a witness' includes situations in which the declarant:

(1) Is exempted by ruling of the court on the ground of privilege from testifying concerning the subject matter of his statement; or

(2) Persists in refusing to testify concerning the subject matter of his statement despite an order of the court to do so; or

(3) Testifies to a lack of memory of the subject matter of his statement; or

(4) Is unable to be present or to testify at the hearing because of death or then existing physical or mental illness or infirmity; or

(5) Is absent from the hearing and the proponent of his statement has been unable to procure his attendance (or in the case of a hearsay exception under subdivision (b) (2), (3), or (4), his attendance or testimony) by process or other reasonable means.

A declarant is not unavailable as a witness if his exemption, refusal, claim of lack of memory, inability, or absence is due to the procurement or wrongdoing of the proponent of his statement for the purpose of preventing the witness from attending or testifying.

(b) Hearsay Exceptions. The following are not excluded by the hearsay rule if the declarant is unavailable as a witness:

(1) Former Testimony. Testimony given as a witness at another hearing of the same or a different proceeding, or in a deposition taken in compliance with law in the course of the same or another proceeding, if the party against whom the testimony is now offered, or, in a civil action or proceeding, a predecessor in interest, had an opportunity and similar motive to develop the testimony by direct, cross, or redirect examination.

(2) Statement Under Belief of Impending Death. A statement made by a declarant while believing that his death was imminent, concerning the cause or circumstances of what he believed to be his impending death.

(3) Statement Against Interest. A statement which was at the time of its making so far contrary to the declarant's pecuniary or proprietary interest, or so far tended to subject him to civil or criminal liability, or to render invalid a claim by him against another, that a reasonable man in his position would not have made the statement unless he believed it to be true. A statement tending to expose the declarant to criminal

liability is not admissible in a criminal case unless corroborating circumstances clearly indicate the trustworthiness of the statement.

(4) Statement of Personal or Family History. (A) A statement concerning the declarant's own birth, adoption, marriage, divorce, legitimacy, relationship by blood, adoption, or marriage, ancestry, or other similar fact of personal or family history, even though declarant had no means of acquiring personal knowledge of the matter stated; or (B) a statement concerning the foregoing matters, and death also, of another person, if the declarant was related to the other by blood, adoption, or marriage or was so intimately associated with the other's family as to be likely to have accurate information concerning the matter declared.

(5) Other Exceptions. A statement not specifically covered by any of the foregoing exceptions but having equivalent circumstantial guarantees of trustworthiness, if the court determines that (A) the statement is offered as evidence of a material fact; (B) the statement is more probative on the point for which it is offered than any other evidence which the proponent can procure through reasonable efforts; and (C) the general purposes of these rules and the interests of justice will best be served by admission of the statement into evidence. However, a statement may not be admitted under this exception unless the proponent of it gives written notice stating his intention to offer the statement and the particulars of it, including the name and address of the declarant, to the adverse party sufficiently in advance of offering the statement to provide the adverse party with a fair opportunity to prepare to meet the statement.

"Rule 805. *Hearsay Within Hearsay.*

Hearsay included within hearsay is not excluded under the hearsay rule if each part of the combined statements conforms with an exception to the hearsay rule provided in these rules.

"Rule 806. *Attacking and Supporting Credibility of Declarant.*

When a hearsay statement has been admitted in evidence, the credibility of the declarant may be attacked, and if attacked may be supported, by any evidence which would be admissible for those purposes if declarant had testified as a witness. Evidence of a statement or conduct by the declarant at any time, inconsistent with his hearsay statement, is not subject to any requirement that he may have been afforded an opportunity to deny or explain. If the party against whom a hearsay statement has been admitted calls the declarant as a witness, the party is entitled to examine him on the statement as if under cross-examination.

"ARTICLE 9.

"Authentication and Identification.

"Rule 901. *Requirement of Authentication or Identification.*

(a) General Provision. The requirement of authentication or identification as a condition precedent to admissibility is satisfied by evidence sufficient to support a finding that the matter in question is what its proponent claims.

(b) Illustrations. By way of illustration only, and not by way of limitation, the following are examples of authentication or identification conforming with the requirements of this rule:

(1) Testimony of Witness with Knowledge. Testimony that a matter is what it is claimed to be.

(2) Nonexpert Opinion on Handwriting. Nonexpert opinion as to the genuineness of handwriting, based upon familiarity not acquired for purposes of the litigation.

(3) Comparison by Trier or Expert Witness. Comparison by the trier of fact or by expert witnesses with specimens which have been authenticated.

(7) Public Records or Reports. Evidence that a writing authorized by law to be recorded or filed and in fact recorded or filed in a public office, or a purported public record, report, statement, or data compilation, in any form, is from the public office where items of this nature are kept.

(8) Ancient Documents or Data Compilations. Evidence that a document or data compilation, in any form, (A) is in such condition as to create no suspicion concerning its authenticity, (B) was in a place where it, if authentic, would likely be, and (C) has been in existence 20 years or more at the time it is offered.

(9) Process or System. Evidence describing a process or system used to produce a result and showing that the process or system produces an accurate result.

(10) Methods Provided by Statute. Any method of authentication or identification provided by statute.

"Rule 902. *Self-Authentication.*

Extrinsic evidence of authenticity as a condition precedent to admissibility is not required with respect to the following:

(1) Domestic Public Documents Under Seal. A document bearing a seal purporting to be that of the United States, or of any state, district, commonwealth, territory or insular possession thereof, or the Trust Territory of the Pacific Islands, or of a political subdivision, department, officer, or agency thereof, and a signature purporting to be an attestation or execution.

(2) Domestic Public Documents Not Under Seal. A document purporting to bear the signature in his official capacity of an officer or employee of any entity included in paragraph (1) hereof, having no seal, if a public officer having a seal and having official duties in the district or political subdivision of the officer or employee certifies under seal that the signer has the official capacity and that the signature is genuine.

(3) Foreign Public Documents. A document purporting to be executed or attested in his official capacity by a person authorized by the laws of a foreign country to make the execution or attestation, and accompanied by a final

certification as to the genuineness of the signature and official position (A) of the executing or attesting person, or (B) of any foreign official whose certificate of genuineness of signature and official position relates to the execution or attestation or is in a chain of certificates of genuineness of signature and official position relating to the execution or attestation. A final certification may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or a diplomatic or consular official of the foreign country assigned or accredited to the United States. If reasonable opportunity has been given to all parties to investigate the authenticity and accuracy of official documents, the court may, for good cause shown, order that they be treated as presumptively authentic without final certification or permit them to be evidenced by an attested summary with or without final certification.

(4) Certified Copies of Public Records. A copy of an official record or report or entry therein, or of a document authorized by law to be recorded or filed and actually recorded or filed in a public office, including data compilations in any form, certified as correct by the custodian or other person authorized to make the certification, by certificate complying with paragraph (1), (2), or (3) or complying with any law of the United States or of this State.

"Rule 903. *Subscribing Witness' Testimony Unnecessary.*

The testimony of a subscribing witness is not necessary to authenticate a writing unless required by the laws of the jurisdiction whose laws govern the validity of the writing.

"ARTICLE 10.

"Contents of Writings, Recordings and Photographs.

"Rule 1001. *Definitions.*

For the purposes of this Article the following definitions are applicable:

(1) Writings and Recordings. 'Writings' and 'recordings' consist of letters, words, sounds, or numbers, or their equivalent, set down by handwriting, typewriting, printing, photostating, photographing, magnetic impulse, mechanical or electronic recording, or other form of data compilation.

(2) Photographs. 'Photographs' include still photographs, x-ray films, video tapes, and motion pictures.

(3) Original. An 'original' of a writing or recording is the writing or recording itself or any counterpart intended to have the same effect by a person executing or issuing it. An 'original' of a photograph includes the negative or any print therefrom. If data are stored in a computer or similar device, any printout or other output readable by sight, shown to reflect the data accurately, is an 'original'.

(4) Duplicate. A 'duplicate' is a counterpart produced by the same impression as the original, or from the same matrix, or by means of photography, including enlargements and miniatures, or by mechanical or electronic re-recording, or by chemical reproduction, or by other equivalent techniques which accurately reproduce the original.

"Rule 1002. *Requirement of Original.*

To prove the content of a writing, recording, or photograph, the original writing, recording, or photograph is required, except as otherwise provided in these rules or by statute.

"Rule 1003. *Admissibility of Duplicates.*

A duplicate is admissible to the same extent as an original unless (1) a genuine question is raised as to the authenticity of the original or (2) in the circumstances it would be unfair to admit the duplicate in lieu of the original.

"Rule 1004. *Admissibility of Other Evidence of Contents.*

The original is not required, and other evidence of the contents of a writing, recording, or photograph is admissible if:

(1) Originals Lost or Destroyed. All originals are lost or have been destroyed, unless the proponent lost or destroyed them in bad faith; or

(2) Original Not Obtainable. No original can be obtained by any available judicial process or procedure; or

(3) Original in Possession of Opponent. At a time when an original was under the control of a party against whom offered, he was put on notice, by the pleadings or otherwise, that the contents would be a subject of proof at the hearing, and he does not produce the original at the hearing; or

(4) Collateral Matters. The writing, recording, or photograph is not closely related to a controlling issue.

"Rule 1005. *Public Records.*

The contents of an official record, or of a document authorized to be recorded or filed and actually recorded or filed, including data compilations in any form, if otherwise admissible, may be proved by copy, certified as correct in accordance with Rule 902 or testified to be correct by a witness who has compared it with the original. If a copy which complies with the foregoing cannot be obtained by the exercise of reasonable diligence, then other evidence of the contents may be given.

"Rule 1006. *Summaries.*

The contents of voluminous writings, recordings, or photographs which cannot conveniently be examined in court may be presented in the form of a chart, summary, or calculation. The originals, or duplicates, shall be made available for examination or copying, or both, by other parties at a reasonable time and place. The court may order that they be produced in court.

"Rule 1007. *Testimony or Written Admission of Party.*

Contents of writings, recordings, or photographs may be proved by the testimony or deposition of the party against whom offered or by his written admission, without accounting for the nonproduction of the original.

"Rule 1008. *Functions of Court and Jury.*

When the admissibility of other evidence of contents of writings, recordings, or photographs under these rules depends upon the fulfillment of a condition of fact, the question whether the condition has been fulfilled is ordinarily for the court to determine in accordance with the provisions of Rule 104. However, when an issue is raised (a) whether the asserted writing ever existed, or (b) whether another writing, recording, or photograph produced at the trial is the original, or (c) whether other evidence of contents correctly reflects the contents, the issue is for the trier of fact to determine as in the case of other issues of fact.

"ARTICLE 11.

"Miscellaneous Rules.

"Rule 1101. *Applicability of Rules.*

(a) Proceedings Generally. Except as otherwise provided in subdivision (b) or by statute, these rules apply to all actions and proceedings in the courts of this State.

(b) Rules Inapplicable. The rules other than those with respect to privileges do not apply in the following situations:

Sec. 3. This act shall become effective July 1, 1984, and shall apply to actions and proceedings commenced after that date. This act shall also apply to further procedure in actions and proceedings then pending, except to the extent that application of the act would not be feasible or would work injustice, in which event former evidentiary principles apply.

(23) 'Person' means every natural person, partnership, corporation, association, trust or estate or other legal entity."

Sec. 4. G.S. 20-294(9) is amended following the word "application" and before the "." by adding the following "; or conviction of a felony involving moral turpitude, under the laws of this State or any other state, or territory, or the District of Columbia".

Sec. 5. G.S. 20-305(1) is amended in the first line after the word "To" and before the word "coerce" by adding the words and punctuation "require,".

Sec. 6. G.S. 20-305(2) is amended in the first line after the word "To" and before the word "coerce" by adding the words and punctuation "require,".

Sec. 7. G.S. 20-305(5) is rewritten to read:

"To enter into a franchise establishing an additional new motor vehicle dealer or relocating an existing new motor vehicle dealer into a relevant market area where the same line make is then represented without first notifying in writing the Commissioner and each new motor vehicle dealer in such line make in the relevant market area of the intention to establish an additional dealer or to relocate an existing dealer within or into that market area. Within 30 days of receiving such notice or within 30 days after the end of any appeal procedure provided by the manufacturer, any such new motor vehicle dealer may file with the Commissioner a protest to the establishing or relocating of the new motor vehicle dealer. When such a protest is filed, the Commissioner shall promptly inform the manufacturer that a timely protest has been filed, and that the manufacturer shall not establish or relocate the proposed new motor vehicle dealer until the Commissioner has held a hearing, nor thereafter, if the Commissioner has determined that there is good cause for not permitting the addition or relocation of such new motor vehicle dealer.

(a) This section does not apply:

(i) To the relocation of an existing new motor vehicle dealer within that dealer's relevant market area, provided that the relocation not be at a site within 10 miles of a licensed new motor vehicle dealer for the same line make of motor vehicle; or

(ii) If the proposed additional new motor vehicle dealer is to be established at or within two miles of a location at which a former licensed new motor vehicle dealer for the same line make of new motor vehicle had ceased operating within the previous two years;

(iii) To the relocation of an existing new motor vehicle dealer within two miles of the existing site of the new motor vehicle dealership;

(iv) To the relocation of an existing new motor vehicle dealer if the proposed site of the relocated new motor vehicle dealership is further away from all other new motor vehicle dealers of the same line make in that relevant market area.

(b) In determining whether good cause has been established for not entering into or relocating an additional new motor vehicle dealer for the same line make, the Commissioner shall take into consideration the existing circumstances, including, but not limited to:

(i) The permanency of the investment of both the existing and proposed additional new motor vehicle dealers;

(ii) Growth or decline in population, density of population, and new car registrations in the relevant market area;

(iii) Effect on the consuming public in the relevant market area;

(iv) Whether it is injurious or beneficial to the public welfare for an additional new motor vehicle dealer to be established;

(v) Whether the new motor vehicle dealers of the same line make in that relevant market area are providing adequate competition and convenient customer care for the motor vehicles of the same line make in the market area which shall include the adequacy of motor vehicle sales and service facilities, equipment, supply of motor vehicle parts, and qualified service personnel;

(vi) Whether the establishment of an additional new motor vehicle dealer or relocation of an existing new motor vehicle in the relevant market area would increase competition in a manner such as to be in the long-term public interest; and

(vii) The effect on the relocating dealer of a denial of its relocation into the relevant market area.

(c) The Commissioner must conduct the hearing and render his final determination as expeditiously as possible, but in any event no later than 180 days after a protest is filed. Unless waived by the parties, failure to do so shall be deemed the equivalent of a determination that good cause does not exist for refusing to permit the proposed additional or relocated motor vehicle dealer, unless such delay is caused by acts of the manufacturer, or the relocating or additional dealer.

(d) Any parties to a hearing by the Commissioner concerning the establishment or relocating of a new motor vehicle dealer shall have a right of review of the decision in a court of competent jurisdiction pursuant to Chapter 150A of the General Statutes."

Sec. 8. G.S. 20-305(6) is rewritten to read:

"Notwithstanding the terms, provisions or conditions of any franchise or notwithstanding the terms or provisions of any waiver, to terminate, cancel or fail to renew any franchise with a licensed new motor vehicle dealer unless the manufacturer has: satisfied the notice requirements of subparagraph (c); and the Commissioner has determined, if requested in writing by the dealer within the time period specified in G.S. 20-305(6)(c)(i)b, c or d, as applicable, and after a hearing on the matter, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith as defined in this act regarding the termination, cancellation or nonrenewal. When such a petition is made to the Commissioner by a dealer for determination as to the existence of good cause and good faith for the termination, cancellation or nonrenewal of a franchise, the Commissioner shall promptly inform the manufacturer that a timely petition has been filed, and the franchise in question shall continue in effect pending the Commissioner's decision. The Commissioner must conduct the hearing and render his final determination as expeditiously as possible, but in any event no later than 180 days after a petition has been filed. If the termination, cancellation or nonrenewal is pursuant to G.S. 20-305(6)(c)(i)c then the Commissioner shall give the proceeding priority consideration and shall render his final determination no later than 60 days after the petition has been filed. Any parties to a hearing by the Commissioner under this section shall have a right of review of the decision in a court of competent jurisdiction pursuant to Chapter 150A of the General Statutes.

(a) Notwithstanding the terms, provisions or conditions of any franchise or the terms or provisions of any waiver, good cause shall exist for the purposes of a termination, cancellation or nonrenewal when:

(i) There is a failure by the new motor vehicle dealer to comply with a provision of the franchise which provision is both reasonable and of material significance to the franchise relationship provided that the dealer has been notified in writing of the failure within 180 days after the manufacturer first acquired knowledge of such failure;

(ii) If the failure by the new motor vehicle dealer, defined in (i) above, relates to the performance of the new motor vehicle dealer in sales or service, then good cause shall be defined as the failure of the new motor vehicle dealer to comply with reasonable performance criteria established by the manufacturer if the new motor vehicle dealer was apprised by the manufacturer in writing of such failure; and

a. Said notification stated that notice was provided of failure of performance pursuant to this section;

b. The new motor vehicle dealer was afforded a reasonable opportunity, for a period of not less than 180 days, to comply with such criteria; and

c. The new motor vehicle dealer failed to demonstrate substantial progress towards compliance with the manufacturer's performance criteria during such period and the new motor vehicle dealer's failure was not primarily due to economic or market factors within the dealer's relevant market area which were beyond the dealer's control.

(b) The manufacturer shall have the burden of proof under this section.

(c) Notification of Termination, Cancellation and Nonrenewal.

(i) Notwithstanding the terms, provisions or conditions of any franchise prior to the termination, cancellation or nonrenewal of any franchise, the manufacturer shall furnish notification of such termination, cancellation or nonrenewal to the new motor vehicle dealer as follows:

a. In the manner described in G.S. 20-305(6)(c)(ii) below; and

b. Not less than 90 days prior to the effective date of such termination, cancellation or nonrenewal; or

c. Not less than 15 days prior to the effective date of such termination, cancellation or nonrenewal with respect to any of the following:

1. Insolvency of the new motor vehicle dealer, or filing of any petition by or against the new motor vehicle dealer under any bankruptcy or receivership law;

2. Failure of the new motor vehicle dealer to conduct its customary sales and service operations during its customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

3. Revocation of any license which the new motor vehicle dealer is required to have to operate a dealership;

4. Conviction of a felony involving moral turpitude, under the laws of this State or any other state, or territory, or the District of Columbia.

d. Not less than 180 days prior to the effective date of such termination or cancellation where the manufacturer or distributor is discontinuing the sale of the product line.

(ii) Notification under this section shall be in writing; shall be by certified mail or personally delivered to the new motor vehicle dealer; and shall contain:

a. A statement of intention to terminate, cancel or not to renew the franchise;

b. A statement of the reasons for the termination, cancellation or nonrenewal; and

c. The date on which such termination, cancellation or nonrenewal takes effect.

(iii) Notification provided in G.S. 20-305(6)(c)(i)b. of 90 days prior to the effective date of such termination, cancellation or renewal may run concurrent with the 180 days designated in G.S. 20-305(6)(a)(ii)b. provided such notification is clearly designated by a separate written document mailed by certified mail or personally delivered to the new motor vehicle dealer.

(d) Payments.

(i) Upon the termination, nonrenewal or cancellation of any franchise by the manufacturer or distributor, pursuant to this section, the new motor vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer for the:

a. New motor vehicle inventory which has been acquired from the manufacturer within 18 months, at a price not to exceed the original manufacturer's price to the dealer, and which has not been altered or damaged, and which has not been driven more than 200 miles, and for which no certificate of title has been issued;

b. Unused, undamaged and unsold supplies and parts purchased from the manufacturer, at a price not to exceed the original manufacturer's price to the dealer, provided such supplies and parts are currently offered for sale by the manufacturer or distributor in its current parts catalogs and are in salable condition;

c. Equipment and furnishings which have not been altered or damaged and which have been required by the manufacturer or distributor to be purchased by the new motor vehicle dealer from the manufacturer or distributor, or their approved sources; and

d. Special tools which have not been altered or damaged and which have been required by the manufacturer or distributor to be purchased by the new motor vehicle dealer from the manufacturer or distributor, or their approved sources within five years immediately preceding the termination, nonrenewal or cancellation of the franchise.

(ii) Such fair and reasonable compensation for the above shall be paid by the manufacturer within 90 days of the effective date of termination, cancellation or nonrenewal, provided the new motor vehicle dealer has clear title to the inventory and has conveyed title and possession to the manufacturer.

(e) Dealership Facilities Assistance Upon Termination, Cancellation or Nonrenewal.

In the event of the termination, cancellation or nonrenewal by the manufacturer or distributor under this section, except termination, cancellation or nonrenewal for insolvency, license revocation, conviction of a crime involving moral turpitude, or fraud by a dealer-owner:

(i) Subject to paragraph (iii), if the new motor vehicle dealer is leasing the dealership facilities from a lessor other than the manufacturer, the manufacturer shall pay the new motor vehicle dealer a sum equivalent to the rent for the unexpired term of the lease or one year's rent, whichever is less, or such longer term as is provided in the franchise agreement between the dealer and manufacturer; or

(ii) Subject to paragraph (iii), if the new motor vehicle dealer owns the dealership facilities, the manufacturer shall pay the new motor vehicle

dealer a sum equivalent to the reasonable rental value of the dealership facilities for one year.

(iii) Provided nothing in this section (e) shall relieve a lessee or owner, as the case may be, from the obligation to mitigate damages under the lease, nor prevent a manufacturer from occupying and using the dealership facilities while paying rent under subsections (i) and (ii), nor prevent a manufacturer from obligations by negotiating a lease termination, a sublease or a new lease. Any amounts recovered by the lessee or owner resulting from mitigation of damages shall be deducted from the amount due from the manufacturer.

(f) The provisions of paragraphs (d) and (e) above shall not be applicable when the termination, nonrenewal or cancellation of the franchise agreement is the result of the voluntary act of the dealer."

Sec. 9. G.S. 20-305(7) is rewritten to read:

"Notwithstanding the terms of any franchise agreement, to prevent or refuse to honor the succession to a dealership by the designated family member as provided for under this subsection.

(a) Any owner of a new motor vehicle dealership may appoint by will, or any other written instrument, a designated family member to succeed in the ownership interest of the said owner in the new motor vehicle dealership.

(b) Unless there exists good cause for refusal to honor succession on the part of the manufacturer or distributor, any designated family member of a deceased or incapacitated owner of a new motor vehicle dealership may succeed to the ownership of the new motor vehicle dealership under the existing franchise provided that:

(i) The designated family member gives the manufacturer or distributor written notice of his or her intention to succeed to the ownership of the new motor vehicle dealership within 60 days of the owner's death or incapacity; provided, however, that the failure of the designated family member to give the manufacturer or distributor written notice as provided above within 60 days of the owner's death or incapacity shall not result in the waiver or termination of the designated family member's right to succeed to the ownership of the new motor vehicle dealership unless the manufacturer or distributor gives written notice of this provision to either the designated family member or the deceased or incapacitated owner's executor, administrator, guardian or other fiduciary by certified or registered mail, return receipt requested, and said written notice grants not less than 30 days time within which the designated family member may give the notice required hereunder, provided the designated family member or the deceased or incapacitated owner's executor, administrator, guardian or other fiduciary has given the manufacturer reasonable notice of death or incapacity; and

(ii) The designated family member agrees to be bound by all terms and conditions of the franchise.

(c) The manufacturer or distributor may request, and the designated family member shall provide, promptly upon said request, personal and financial data that is reasonably necessary to determine whether the succession should be honored.

(d) If a manufacturer or distributor believes that good cause exists for refusing to honor the succession to the ownership of a new motor vehicle dealership by a family member of a deceased or incapacitated owner of a new motor vehicle dealership under the existing franchise agreement, the manufacturer or distributor may, not more than 60 days following receipt of:

(i) Notice of the designated family member's intent to succeed to the ownership of the new motor vehicle dealer; or

(ii) Any personal or financial data which it has requested, serve upon the designated family member and the Commissioner notice of its refusal to honor the succession and of its intent to discontinue the existing franchise with the dealer.

(e) The notice must state the specific grounds for the refusal to honor the succession and of its intent to discontinue the existing franchise with the new motor vehicle dealer no sooner than 90 days from the date such notice is served.

(f) If notice of refusal and discontinuance is not timely served upon the family member, the franchise shall continue in effect subject to termination only as otherwise permitted by this act.

(g) Within 30 days of receiving the manufacturer's or distributor's notice of its intent to discontinue the existing franchise as provided in subsection (d) above, the designated family member may file a written protest of the manufacturer's or distributor's decision with the Commissioner. When such a protest is filed, the Commissioner shall promptly inform the manufacturer that a timely protest has been filed, and that the franchise shall continue in effect until the Commissioner has held a hearing, and thereafter, unless the Commissioner has determined that there is good cause for the manufacturer's or distributor's refusal to honor the succession. The Commissioner must conduct the hearing and render his final determination as expeditiously as possible, but in any event no later than 180 days after a protest is filed. Any parties to a hearing by the Commissioner concerning whether good cause exists for the refusal to honor the succession shall have a right of review of the decision in a court of competent jurisdiction pursuant to Chapter 150A of the General Statutes.

(h) In determining whether good cause for the refusal to honor the succession exists, the manufacturer, distributor, factory branch, or importer has the burden of proving that the successor is a person who is not of good moral character or does not meet the franchisor's existing and reasonable standards and, considering the volume of sales and service of the new motor vehicle dealer, uniformly applied minimum business experience standards in the market area.

(i) This section does not preclude the owner of a new motor vehicle dealership from designating any person as his successor by written instrument filed with the manufacturer or distributor, and, in the event there is a conflict between such written instrument and the provisions of this section, and that written instrument has not been revoked by the owner of the new motor vehicle dealership in writing to the manufacturer or distributor, then the written instrument shall govern."

Sec. 10. G.S. 20-305 is amended by adding the following new subdivisions to read:

"(8) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to order or accept delivery of any new motor vehicle with special

features, accessories or equipment not included in the list price of such motor vehicles as publicly advertised by the manufacturer or distributor.

(9) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to participate monetarily in an advertising campaign or contest, or to purchase unnecessary or unreasonable quantities of any promotional materials, training materials, training programs, showroom or other display decorations or materials at the expense of the new motor vehicle dealer, provided that nothing in this subsection shall preclude a manufacturer or distributor from including an unitemized uniform charge in the base price of the new motor vehicle charged to the dealer where such charge is attributable to advertising costs incurred or to be incurred by the manufacturer or distributor in the ordinary courses of its business.

(10) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to change the capital structure of the new motor vehicle dealer or the means by or through which the new motor vehicle dealer finances the operation of the dealership provided that the new motor vehicle dealer at all times meets any reasonable capital standards determined by the manufacturer in accordance with uniformly applied criteria; and also provided that no change in the capital structure shall cause a change in the principal management or have the effect of a sale of the franchise without the consent of the manufacturer or distributor, provided that said consent shall not be unreasonably withheld.

(11) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to refrain from participation in the management of, investment in, or the acquisition of any other line of new motor vehicle or related products; provided, however, that this subsection does not apply unless the new motor vehicle dealer maintains a reasonable line of credit for each make or line of new motor vehicle, and the new motor vehicle dealer remains in compliance with any reasonable capital standards and facilities requirements of the manufacturer.

(12) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to change location of the dealership, or to make any substantial alterations to the dealership premises or facilities, when to do so would be unreasonable, or without written assurance of a sufficient supply of new motor vehicles so as to justify such an expansion, in light of the current market and economic conditions.

(13) To require, coerce, or attempt to coerce any new motor vehicle dealer in this State to prospectively assent to a release, assignment, novation, waiver or estoppel which would relieve any person from liability to be imposed by this law or to require any controversy between a new motor vehicle dealer and a manufacturer, distributor, or representative, to be referred to any person other than the duly constituted courts of the State or the United States of America, or to the Commissioner, if such referral would be binding upon the new motor vehicle dealer.

(14) To delay, refuse, or fail to deliver motor vehicles or motor vehicle parts or accessories in reasonable quantities relative to the new motor vehicle dealer's facilities and sales potential in the new motor vehicle dealer's relevant market area, and within a reasonable time, after receipt of an order from a dealer having a franchise for the retail sale of any new motor vehicle sold or distributed by the manufacturer or distributor, any new vehicle, parts or accessories to new vehicles as are covered by such franchise, and such vehicles,

parts or accessories as are publicly advertised as being available or actually being delivered. The delivery to another dealer of a motor vehicle of the same model and similarly equipped as the vehicle ordered by a motor vehicle dealer who has not received delivery thereof, but who has placed his written order for the vehicle prior to the order of the dealer receiving the vehicle, shall be evidence of a delayed delivery of, or refusal to deliver, a new motor vehicle to a motor vehicle dealer within a reasonable time, without cause. This subsection is not violated, however, if such failure is caused by acts or causes beyond the control of the manufacturer, distributor, factory branch, or factory representative.

(15) To refuse to disclose to any new motor vehicle dealer, handling the same line make, the manner and mode of distribution of that line make within the State.

(16) To award money, goods, services, or any other benefit to any new motor vehicle dealership employee, either directly or indirectly, unless such benefit is promptly accounted for, and transmitted to, or approved by, the new motor vehicle dealer.

(17) To increase prices of new motor vehicles which the new motor vehicle dealer had ordered and which the manufacturer or distributor has accepted for immediate delivery for private retail consumers prior to the new motor vehicle dealer's receipt of the written official price increase notification. A sales contract signed by a private retail consumer shall constitute evidence of each such order provided that the vehicle is in fact delivered to that customer. Price differences applicable to new model or series shall not be considered a price increase or price decrease. Price changes caused by either: (1) the addition to a new motor vehicle of required or optional equipment; or (2) revaluation of the United States dollar, in the case of foreign-make vehicles or components; or (3) an increase in transportation charges due to increased rates imposed by carriers; or (4) new tariffs or duties imposed by the United States of America or any other governmental authority, shall not be subject to the provisions of this subsection.

(18) To prevent or attempt to prevent a dealer from receiving fair and reasonable compensation for the value of the franchised business transferred in accordance with G.S. 20-305(4) above.

(19) To offer any refunds or other types of inducements to any person for the purchase of new motor vehicles of a certain line make to be sold to the State or any political subdivision thereof without making the same offer available upon request to all other new motor vehicle dealers in the same line make within the State.

(20) To release to any outside party, except under subpoena or as otherwise required by law or in an administrative, judicial or arbitration proceeding involving the manufacturer or new motor vehicle dealer, any confidential business, financial, or personal information which may be from time to time provided by the new motor vehicle dealer to the manufacturer, without the express written consent of the new motor vehicle dealer.

(21) To deny any new motor vehicle dealer the right of free association with any other new motor vehicle dealer for any lawful purpose.

(22) To unfairly discriminate among its new motor vehicle dealers with respect to warranty reimbursements or authority granted its new motor vehicle dealers to make warranty adjustments with retail customers.

(23) To engage in any predatory practice against or unfairly compete with a new motor vehicle dealer located in this State.

(24) To terminate any franchise solely because of the death or incapacity of an owner who is not listed in the franchise as one on whose expertise and abilities the manufacturer relied in the granting of the franchise.

(25) To require, coerce, or attempt to coerce a new motor vehicle dealer to either establish or maintain exclusive facilities, personnel, or display space when such requirements would not be justified by reasonable business considerations.

(26) To resort to or to use any false or misleading advertisement in the conducting of its business as a manufacturer or distributor in this State.

(27) To knowingly make, either directly or through any agent or employee, any material statement which is false or misleading and which induces any new motor vehicle dealer to enter into any agreement or franchise or to take any action which is materially prejudicial to that new motor vehicle dealer or his business.

(28) To require, coerce, or attempt to coerce any new motor vehicle dealer to purchase or order any new motor vehicle as a precondition to purchasing, ordering, or receiving any other new motor vehicle or vehicles. Nothing herein shall prevent a manufacturer from requiring that a new motor vehicle dealer fairly represent and inventory the full line of new motor vehicles which are covered by the franchise agreement."

Sec. 11. G.S. 20-305.1(b) is rewritten to read:

"(b) Notwithstanding the terms of any franchise agreement, it is unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to perform any of its warranty obligations with respect to a motor vehicle, to fail to compensate its motor vehicle dealers licensed in this State for warranty parts, or, in service in accordance with the schedule of compensation provided the dealer pursuant to subsection (a) above, and to fail to indemnify and hold harmless its franchised dealers licensed in this State against any judgment for damages or settlements agreed to by the manufacturer, including, but not limited to, court costs and reasonable attorneys' fees of the motor vehicle dealer, arising out of complaints, claims or lawsuits including, but not limited to, strict liability, negligence, misrepresentation, express or implied warranty, or recision or revocation of acceptance of the sale of a motor vehicle as defined in G.S. 25-2-608, to the extent that the judgment or settlement relates to the alleged defective negligent manufacture, assembly or design of new motor vehicles, parts or accessories or other functions by the manufacturer, factory branch, distributor or distributor branch, beyond the control of the dealer."

Sec. 12. G.S. 20-305.1(c) is amended following the word "above" and before the "," in the third line by adding the following "and subsection (d) below".

Sec. 13. G.S. 20-305.1 is further amended by adding following subsection (c) new subsection (d), to read as follows:

"(d) Transportation damages.

(1) Notwithstanding the terms, provisions or conditions of any agreement or franchise, the manufacturer is liable for all damages to motor vehicles before delivery to a carrier or transporter.

(2) If a new motor vehicle dealer determines the method of transportation, the risk of loss passes to the dealer upon delivery of the vehicle to the carrier.

(3) In every other instance, the risk of loss remains with the manufacturer until such time as the new motor vehicle dealer or his designee accepts the vehicle from the carrier.

(4) Whenever a motor vehicle is damaged while in transit when the carrier or the means of transportation is designated by the manufacturer or distributor, or whenever a motor vehicle is otherwise damaged prior to delivery to the dealer, the dealer must:

a. Notify the manufacturer or distributor of such damage within three working days or within such additional time as authorized by the franchise agreement of the occurrence of the delivery of the motor vehicle as defined in subsection (1) of this section; and

b. Must request from the manufacturer or distributor authorization to repair the damages sustained or to replace the parts or accessories damaged.

(5) In the event the manufacturer or distributor refuses or fails to authorize repair or replacement of any such damage within ten working days after receipt of notification of damage by the dealer, ownership of the motor vehicle shall revert to the manufacturer or distributor, and the dealer shall incur no obligation, financial or othewise, for such damage to the motor vehicle.

(6) Nothing in this section (d) shall relieve the dealer of the obligation to cooperate with the manufacturer as necessary in filing any transportation damage claim with the carrier."

Sec. 14. G.S. 20-305.2 is amended by replacing the words "trade area" with the words "relevant market area" each place the phrase appears.

Sec. 15. G.S. 20-305.2 is further amended in the second paragraph by deleting the sentence "Trade area is that area specified in the franchise agreement or determined by the Motor Vehicle Dealers' Advisory Board."

Sec. 16. G.S. 20-309 is added to read:

"§ 20-309. *Civil actions for violations.*—(a) Notwithstanding the terms, provisions or conditions of any agreement or franchise or other terms or provisions of any novation, waiver or other written instrument, any person who is or may be injured by a violation of a provision of this Article, or any party to a franchise who is so injured in his business or property by a violation of a provision of this Article relating to that franchise, or any person so injured because he refuses to accede to a proposal for an arrangement which, if consummated, would be in violation of this Article may, notwithstanding the initiation or pendency of an administrative proceeding before the Commissioner concerning the same parties or subject matter, bring an action for damages and equitable relief, including injunctive relief, in any court of competent jurisdiction with regard to any matter not within the jurisdiction of the Commissioner.

(b) Where the violation of a provision of this Article can be shown to be malicious or wanton, or if continued multiple violations of a provision or provisions of this Article occur, the court may award punitive damages, attorneys' fees and costs in addition to any other damages under this Article.

(c) A new motor vehicle dealer, if he has not suffered any loss of money or property, may obtain final equitable relief if it can be shown that the violation of a provision of this Article by a manufacturer or distributor may have the effect of causing such loss of money or property.

(d) Where there are continued violations of a provision or provisions of this Article and it can be shown that the violations are willful or wanton, the court, in addition to any other remedy or awards of damages under this Article may assess monetary penalties."

Sec. 17. G.S. 20-310 is added to read:

"§ 20-310. *Applicability of this Article.*—(a) Any person who engages directly or indirectly in purposeful contacts within this State in connection with the offering or advertising for sale, or has business dealings, with respect to a new motor vehicle sale within this State, shall be subject to the provisions of this Article and shall be subject to the jurisdiction of the courts of this State.

(b) The applicability of this Article shall not be affected by a choice of law clause in any franchise, agreement, waiver, novation, or any other written instrument.

(c) Any provision of any agreement, franchise, waiver, novation or any other written instrument which is in violation of any section of this Article shall be deemed null and void and without force and effect.

(d) It shall be unlawful for a manufacturer or distributor to use any subsidiary corporation, affiliated corporation, or any other controlled corporation, partnership, association or person to accomplish what would otherwise be illegal conduct under this Article on the part of the manufacturer or distributor."

Sec. 18. G.S. 20-305.5 is amended by deleting the statutory citation "G.S. 20-305(4), (5), (6), and (7)" and inserting in lieu thereof the statutory citation "G.S. 20-305(4) through G.S. 20-305(28)".

Sec. 19. In the event any of the provisions of this act are held to be invalid, such invalidity shall not affect the validity of any remaining sections of the act.

Sec. 20. The provisions of this act shall be applicable to all franchises and contracts existing between dealers, manufacturers, factory branches, and distributors at the time of its ratification, and to all such future franchises and contracts.

Sec. 21. G.S. 20-286(11) is amended by adding after the word "vehicles" and before the "." the following:

", and who holds or held at the time a cause of action under this Article accrued, a valid sales and service agreement, franchise or contract, granted by the manufacturer or distributor for the retail sale of said manufacturer's or distributor's new motor vehicles."

Sec. 22. As an interim provision, in addition to G.S. 20-305(5)(a)(ii) if the proposed additional new motor vehicle dealer is to be established at or within two miles of a location at which a former licensed new motor vehicle dealer for the same line make of new motor vehicles has ceased operating since June 1, 1980, the new motor vehicle dealer may be established by the manufacturer by giving notice to the Commissioner and obtaining a license for an approved new motor vehicle dealer who must commence business operation within 90 days thereafter.

Sec. 23. G.S. 20-301 is amended by adding a new subsection (d) as follows:

"(d) The Commissioner shall limit the time for discovery in any contested administrative hearing conducted pursuant to Article 12 to a time not to exceed 60 days."

Sec. 24. G.S. 20-307.1 is added following G.S. 20-307 as follows:

Sec. 25. Section 22 of this act shall expire on June 1, 1984. This act shall become effective 30 days after ratification, and shall not affect pending litigation.

Sec. 83. G.S. 105-130.5(a) is amended by adding a new subdivision to read:

"(11) The amount by which the percentage depletion allowance allowed by Sections 613 and 613A of the Code for mines, oil and gas wells, and other natural deposits exceeds the cost depletion allowance for these items under the Code, except as otherwise provided herein. This subdivision does not apply to depletion deductions for clay, gravel, phosphate rock, lime, shells, stone, sand, feldspar, gemstones, mica, talc, lithium compounds, tungsten, coal, peat, olivine, pyrophyllite, and other solid minerals or rare earths extracted from the soil or waters of this State. Corporations required to apportion income to North Carolina shall first add to federal taxable income the amount of all percentage depletion in excess of cost depletion that was subtracted from the corporation's

gross income in computing its federal income taxes and shall then subtract from the taxable income apportioned to North Carolina the amount by which the percentage depletion allowance allowed by Sections 613 and 613A of the Code for solid minerals or rare earths extracted from the soil or waters of this State exceeds the cost depletion allowance for these items."

Sec. 84. G.S. 105-147(12) is rewritten to read:

"(12) Except as provided in this subdivision, an allowance for depreciation and obsolescence of property and an allowance for depletion of mines, oil and gas wells, other natural deposits, and timber to the extent allowed under the Code. When the basis of property differs for State and federal purposes, this difference shall be taken into consideration in determining the depreciation, obsolescence, or depletion allowed under this subdivision.

A taxpayer may deduct as depletion only the amount allowed as a cost depletion allowance for mines, oil and gas wells, and other natural deposits under the Code instead of the amount allowed as a percentage depletion allowance for these items under the Code. This paragraph does not apply to depletion deductions for clay, gravel, phosphate rock, lime, shells, stone, sand, feldspar, gemstones, mica, talc, lithium compounds, tungsten, coal, peat, olivine, pyrophyllite, and other solid minerals or rare earths extracted from the soil or waters of this State."

Sec. 85. G.S. 105-141(b)(28) is repealed.

Sec. 86. Article 4B of Chapter 105 is rewritten to read:

"Article 4B.

"Filing of Declarations of Estimated Income Tax and Installment Payments of Estimated Income Tax by Corporations.

"§ 105-163.25. *Definitions.*—As used in this Article, unless the context requires otherwise:

(1) 'Corporation' means a corporation that has a reasonably estimated tax liability of at least five thousand dollars ($5,000). The term 'corporation' includes joint-stock companies or associations that meet these requirements.

(2) 'Estimated tax' means the amount of income tax the corporation estimates as the amount imposed by Article 4 for the taxable year. The appropriate percentage of estimated tax payable during the taxable year shall be determined by the following table:

For Taxable Years Beginning On and After:	Percentages
June 25, 1983, and before June 25, 1984	25%
June 25, 1984, and before June 25, 1985	50%
June 25, 1985, and before June 25, 1986	75%
June 25, 1986	100%

(3) 'Fiscal year' means an accounting period of 12 months ending on the last day of any month other than December.

(4) 'Secretary' means the Secretary of Revenue.

(5) 'Taxable year' means the calendar year or fiscal year used as a basis to determine net income under Article 4. If no fiscal year has been established, 'fiscal year' means the calendar year. In the case of a return made for a fractional part of the year under Article 4, or under rules prescribed by the Secretary, 'taxable year' means the period for which the return is made.

"§ 105-163.26. *Declarations of estimated income tax required.*—(a) Declaration Required. Every corporation subject to taxation under Article 4 shall submit a declaration of estimated tax to the Secretary. This declaration is

due at the time established in G.S. 105-163.27, and payment of the estimated tax is due at the time and in the manner prescribed in that section.

(b) Content. In the declaration of estimated tax, the corporation shall state its estimated total net income from all sources for the taxable year, the proportion of its total net income allocable to this State, its estimated tax, and any other information required by the Secretary.

(c) Amendments to Declaration. Under rules prescribed by the Secretary, a corporation may amend a declaration of estimated tax.

"§ 105-163.27. *Time for submitting declaration; time and method for paying estimated tax.*—(a) Due Dates of Declarations. Declarations of estimated tax are due at the same time as the corporation's first installment payment. Installment payments are due as follows:

(1) If, before the 1st day of the 4th month of the taxable year, the corporation's estimated tax equals or exceeds five thousand dollars ($5,000), the corporation shall pay the estimated tax in four equal installments on or before the 15th day of the 4th, 6th, 9th and 12th months of the taxable year.

(2) If, after the last day of the 3rd month and before the 1st day of the 6th month of the taxable year, the corporation's estimated tax equals or exceeds five thousand dollars ($5,000), the corporation shall pay the estimated tax in three equal installments on or before the 15th day of the 6th, 9th and 12th months of the taxable year.

(3) If, after the last day of the 5th month and before the 1st day of the 9th month of the taxable year, the corporation's estimated tax equals or exceeds five thousand dollars ($5,000), the corporation shall pay the estimated tax in two equal installments on or before the 15th day of the 9th and 12th months.

(4) If, after the last day of the 8th month and before the 1st day of the 12th month of the taxable year, the corporation's estimated tax equals or exceeds five thousand dollars ($5,000), the corporation shall pay the estimated tax on or before the 15th day of the 12th month of the taxable year.

(b) Payment of Estimated Tax When Declaration Amended. When a corporation submits an amended declaration after making one or more installment payments on its estimated tax, the amount of each remaining installment shall be the amount that would have been payable if the estimate in the amended declaration was the original estimate, increased or decreased as appropriate by the amount computed by dividing:

(1) The absolute value of the difference between:

a. The amount paid and

b. The amount that would have been paid if the estimate in the amended declaration was the original estimate by

(2) The number of remaining installments.

(c) Short Taxable Year. Payment of estimated tax for taxable years of less than 12 months shall be made in accordance with rules promulgated by the Secretary.

"§ 105-163.28. *Penalty for underpayment.*—(a) Except as provided in subsection (d), if the amount of estimated tax paid by a corporation during the taxable year is less than the amount of tax imposed upon the corporation under Article 4 for the taxable year, the corporation shall be assessed an additional tax

as a penalty in an amount determined by multiplying the amount of the underpayment as determined under subsection (b), for the period of the underpayment as determined under subsection (c), by the percentage established as the rate of interest on assessments under G.S. 105-241.1(i) that is in effect for the period of the underpayment.

(b) The amount of the underpayment shall be the difference between:

(1) the amount of the installment the corporation would have been required to pay if the corporation's estimated tax equalled eighty percent (80%) of the tax imposed under Article 4 for the taxable year, assuming the same schedule of installments, or eighty percent (80%) of the tax imposed for the taxable year if the corporation made no installment payments; and

(2) the amount, if any, of the corresponding installment timely paid by the corporation.

(c) The period of the underpayment shall run from the date the installment was required to be paid to the earlier of:

(1) the 15th day of the 3rd month following the close of the taxable year, or

(2) with respect to any portion of the underpayment, the date on which the portion is paid. An installment payment of estimated tax shall be considered a payment of any previous underpayment only to the extent the payment exceeds the amount of the installment determined under subdivision (1) of subsection (b) for that installment date.

(d) The penalty for underpayment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of the installments equals or exceeds the amount that would have been required to be paid on or before that date if the estimated tax was equal to the least of:

(1) the tax shown on the return of the corporation for the preceding taxable year, if the corporation filed a return for the preceding taxable year and the preceding year was a taxable year of 12 months;

(2) an amount equal to the tax computed at the rates applicable to the taxable year but otherwise on the basis of the facts shown on the return of the corporation for, and the law applicable to, the preceding taxable year; or

(3) an amount equal to eighty percent (80%) of the tax for the taxable year computed by placing on an annualized basis the taxable income:

a. for the first three months of the taxable year, in the case of the installment required to be paid in the 4th month;

b. for the first three months or for the first five months of the taxable year, in the case of the installment required to be paid in the 6th month;

c. for the first six months or for the first eight months of the taxable year, in the case of the installment required to be paid in the 9th month; and

d. for the first nine months or for the first 11 months of the taxable year, in the case of the installment required to be paid in the 12th month of the taxable year.

(4) For purposes of this subdivision, the taxable income shall be placed on an annualized basis by multiplying by 12 the taxable income referred to in the preceding sentence, and dividing the resulting amount by the

number of months in the taxable year (3, 5, 6, 8, 9, or 11 as the case may be) referred to in that sentence.

"§ 105-163.29. *Filing of declarations and other returns.*—The declarations, amended declarations, or any information returns required under the provisions of this Article from any corporation shall be signed by its president, vice-president, treasurer, assistant treasurer, secretary, or assistant secretary. If a receiver, trustee in bankruptcy, or assignee, by order of a court of competent jurisdiction or by operation of law or otherwise, has possession of or holds title to all or substantially all of the property or business of a corporation, whether or not the property or business is being operated, the receiver, trustee, or assignee shall make and sign the declarations, amended declarations, or any information returns for the corporation in the same manner and form as required of the corporation.

"§ 105-163.30. *Overpayment refunded.*—Any overpayment of estimated tax shall be credited to the taxpayer and applied to the tax imposed upon the taxpayer by Article 4. The Secretary shall not refund any overpayment before the corporation files its annual return. If, upon examining the annual return, the Secretary finds that the estimated tax paid by the corporation exceeds the amount of tax imposed upon the corporation under Article 4, the Secretary shall refund the amount of the overpayment in accordance with the provisions of Article 9.

"§ 105-163.31. *Willful failure to pay estimated tax.*—Any person required by this Article to pay any estimated tax who willfully fails to pay the estimated tax at the time or times required by law or rules shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be punishable by a fine not to exceed five hundred dollars ($500.00) or by imprisonment not to exceed six months, or both."

Part VI. Sales and Use Taxes; Salvage Vehicle Changes.

Sec. 87. The first sentence of G.S. 105-164.3(15) is amended by inserting between the words "lease," and "or" the phrase "license to use or consume,".

Sec. 88. G.S. 105-164.3(20) is amended by adding the following at the end of the subdivision:

"The term includes all 'canned' or prewritten computer programs, either in the form of written procedures or in the form of storage media on which or in which the program is recorded, held, or existing for general or repeated sale, lease, or license to use or consume. The term does not include the design, development, writing, translation, fabrication, lease, license to use or consume, or transfer for a consideration of title or possession of a custom computer program, other than a basic operational program, either in the form of written procedures or in the form of storage media on which or in which the program is recorded, or any required documentation or manuals designed to facilitate the use of the custom computer program.

As used in this subdivision:

a. 'Basic operational program' or 'control program' means a computer program that is fundamental and necessary to the functioning of a computer. A basic operational program is that part of an operating system, including supervisors, monitors, executives, and control or master programs, which consists of the control program elements of that system. A control or master program, as opposed to a processing program, controls the operation of a computer by managing the

allocation of all system resources, including the central processing unit, main storage, input/output devices, and processing programs. A processing program is used to develop and implement the specific applications the computer is to perform.

b. 'Computer program' means the complete plan for the solution of a problem, such as the complete sequence of automatic data-processing equipment instructions necessary to solve a problem, and includes both systems and application programs and subdivisions, such as assemblers, compliers, routines, generators, and utility programs.

c. 'Custom computer program' means a computer program prepared to the special order of the customer. Custom computer programs include one of the following elements:

1. Preparation or selection of the programs for the customer's use requires an analysis of the customer's requirements by the vendor; or
2. The program requires adaptation by the vendor to be used in a particular make and model of computer utilizing a specified output device.

d. 'Storage media' means punched cards, tapes, disks, diskettes, or drums."

Sec. 89. G.S. 105-164.4(1) is amended as follows:

(1) by deleting the phrase "one hundred twenty dollars ($120.00)" in the first paragraph of that subdivision and inserting in lieu thereof the phrase "three hundred dollars ($300.00)"; and

(2) by deleting the third paragraph of that subdivision and inserting the following paragraphs in lieu thereof:

"Notwithstanding G.S. 105-164.3(16), the sales price of a motor vehicle is the gross sales price of the motor vehicle less any allowance given for a motor vehicle taken in trade as part of the consideration for the purchased motor vehicle.

The tax levied under this section applies to all retail sales of motor vehicles, regardless whether the seller is engaged in business as a retailer of motor vehicles and regardless whether a tax has previously been paid under this Article with respect to the vehicle. Purchasers of motor vehicles from sellers who are not retailers are liable for payment of the tax. These purchasers shall pay the tax to the Commissioner of Motor Vehicles when applying for a certificate of title, registration, or registration plate for the vehicle. The sales price of a motor vehicle purchased from a seller who is not a retailer is considered to be either the standard value for the year, make, and model of that vehicle as established in schedules of value adopted by the Secretary or the amount paid by the purchaser for that vehicle, whichever is greater, provided the seller does not take a motor vehicle in trade as part of the purchase price. If the seller takes a motor vehicle in trade as part of the purchase price, the sales price of the motor vehicle sold is considered to be the difference in the standard value of the sold vehicle and the traded-in vehicle or the net amount paid by the purchaser, whichever is greater.

Every retail dealer of motor vehicles who sells a motor vehicle shall, when applying for a transfer of title for that vehicle, certify to the Commissioner of Motor Vehicles that he has collected the sales tax due on the sale of that vehicle and will remit the tax to the Secretary, and shall report the following information to the Commissioner:

(1) his name;

(2) the name of the purchaser; and

(3) the make and serial number of the vehicle sold.

The Commissioner of Motor Vehicles shall prepare forms to be used by retailers to make the certification and report required by this subsection. A retail dealer of motor vehicles who transfers a motor vehicle to another person by means other than a retail sale shall state on the certification form that no tax is due on the transfer of the motor vehicle because the transfer is not a retail sale.

No certificate of title, registration, or registration plate, shall be issued for any motor vehicle transferred pursuant to a retail sale unless the tax levied under this section is paid when application is made for transfer of title or the retailer who sold the vehicle makes the required certification and report when applying for transfer of title. The Commissioner of Motor Vehicles shall remit taxes collected by him under this subsection to the Secretary.

Persons who lease or rent motor vehicles shall collect and remit the tax imposed by this Article on the separate retail sale of a motor vehicle in addition to the tax imposed on the proceeds from the lease or rental of the motor vehicle."

Sec. 90. G.S. 105-164.6(3a) is amended as follows:

(1) by rewriting the first two sentences of that subdivision to read:

"Every person, firm, or corporation that purchases or acquires a motor vehicle shall pay a tax at the rate of two percent (2%) of the sales or purchase price of the vehicle, as determined in accordance with G.S. 105-164.4(1), not to exceed three hundred dollars ($300.00) per vehicle. This tax shall be paid to the Commmissioner of Motor Vehicles when applying for a certificate of title or registration plate for the vehicle. A purchaser who furnishes to the Commissioner of Motor Vehicles a certificate from a retailer of motor vehicles engaged in business in this State stating that the purchaser has paid the tax levied on the vehicle by this Article to the retailer is relieved of liability for the tax.";

(2) by adding a new sentence at the end of the first paragraph to read: "The Commissioner of Motor Vehicles shall remit use taxes collected by him under this subdivision to the Secretary."; and

(3) by deleting the second paragraph of the subdivision and inserting the following paragraphs in lieu thereof:

"The tax levied under this section applies to all owners of motor vehicles, regardless whether the owner purchased or acquired the vehicle from a retailer of motor vehicles and regardless whether a tax has previously been paid under this Article with respect to the vehicle. The sales price of a motor vehicle acquired from a person who is not a retailer shall be determined in accordance with G.S. 105-164.4(1).

Persons who lease or rent motor vehicles shall collect and remit the tax imposed by this Article on the separate retail sale of a motor vehicle in addition to the tax imposed on the proceeds from the lease or rental of the motor vehicle."

Sec. 91. G.S. 105-164.13(16) is amended by inserting after the word "articles" the first time and the last time it appears in that subdivision the phrase "other than motor vehicles".

Sec. 92. G.S. 105-164.13(32) is amended by adding a new sentence at the end thereof to read:

"For sales made by a seller who is not a retailer, this exemption applies if the purchaser furnishes the Secretary an affidavit containing the information otherwise required from a retailer within 45 days of the date of the sale."

Sec. 93. G.S. 105-164.4(3) is rewritten to read:

"(3) Operators of hotels, motels, tourist homes, tourist camps, and similar type businesses and persons who rent private residences and cottages to transients are considered retailers under this Article. There is levied upon every such retailer a tax of three percent (3%) of the gross receipts derived from the rental of any room or rooms, lodgings, or accommodations furnished to transients for a consideration. This tax does not apply to any private residence or cottage that is rented for less than 15 days in a calendar year or to any room, lodging, or accommodation supplied to the same person for a period of 90 or more continuous days.

As used in this subdivision, the term 'persons who rent to transients' means (i) owners of private residences and cottages who rent to transients and (ii) rental agents, including 'real estate brokers' as defined in G.S. 93A-2, who rent private residences and cottages to transients on behalf of the owners. If a rental agent is liable for the tax imposed by this subdivision, the owner is not liable."

Sec. 94. G.S. 20-109.1 is amended as follows:

(1) by adding a new sentence at the end of subsection (d) to read:

"In addition to these criminal penalties, any person who violates this section is subject to a civil penalty of up to one hundred dollars ($100.00), to be imposed in the discretion of the Commissioner."; and

(2) by adding a new subsection to read:

"(e) The Commissioner shall charge a fee of ten dollars ($10.00) for issuing a title or forms as required by this section."

Sec. 95. G.S. 105-164.44A is rewritten to read:

"§ 105-164.44A. *Tax on motor vehicle items transferred to Highway Fund.*— Sales and use taxes collected on motor vehicle items and accessories shall be transferred from the General Fund to the Highway Fund as follows:

On a quarterly basis during the fiscal year ending June 30, 1984, the State Treasurer shall transfer from the General Fund to the Highway Fund the amount of twenty-five million eight hundred thousand dollars ($25,800,000), which represents fifteen percent (15%) of the estimated 1983-84 fiscal year sales and use tax collections from motor vehicles, motor vehicle parts, supplies, and accessories, and other transportation items. The quarterly transfers required by this section shall be made during September, December, March, and June of the fiscal year."

Part VII. Certificate-of-Need Fees.

Sec. 96. G.S. 131-177 is amended as follows:

(1) by changing the period at the end of subdivision (9) to a semicolon and adding the word "and"; and

(2) by adding a new subdivision to read:

"(10) Establish and collect fees for submitting applications for certificates-of-need, which fees shall be based on the total cost of the project for which the applicant is applying. This fee may not exceed fifteen thousand dollars ($15,000) and may not be less than four hundred dollars ($400.00)."

Sec. 97. G.S. 131-180 is amended by adding a new subsection to read:

"(c) All fees established by the Department for submitting an application for a certificate-of-need are due when the application is submitted. These fees are not refundable, regardless whether a certificate-of-need is issued."

Part VIII. Video Game Privilege License Tax.

Sec. 98. G.S. 105-66(b) is rewritten to read:

"The tax imposed under this section does not apply to machines and other devices licensed under G.S. 105-64, 105-65, or 105-66.1."

Sec. 99. Article 2 of Chapter 105 is amended by adding a new section to read:

"§ 105-66.1. *Electronic video games.*—(a) Every person, firm, or corporation engaged in the business of owning or operating machines that play electronic video games when a coin or other thing of value is deposited in the machine shall obtain from the Secretary of Revenue a statewide license for each machine owned or operated and shall pay a tax of fifteen dollars ($15.00) for each license. An application for a license shall include the serial number of the machine operated. The licensee shall attach the license to the machine in a conspicuous place. No person may allow an unlicensed video game machine in a place of business occupied by that person. Licenses issued under this section are not transferable from one machine to another. The Secretary may seize any machine not licensed in accordance with this section and may hold the machine until it is duly licensed. All machines licensed under this section shall have a counter that records the number of games played or the amount of money deposited in the machine, or both.

(b) As used in this section, a person, firm, or corporation is 'engaged in the business of owning an electronic video game machine' if he owns the machine and locates it in his own place of business; and a person, firm, or corporation is 'engaged in the business of operating an electronic video game machine' if he locates, exhibits, displays, or permits to be exhibited or displayed an electronic video game machine in a place of business other than his own.

(c) Counties, cities, and towns may levy a tax, not to exceed five dollars ($5.00) per machine, on the business taxed under this section."

Part IX. Alcoholic Beverage Fees and Taxes.

Sec. 103. G.S. 18B-805(b)(3) is amended by deleting the phrase "ten percent (10%)" and substituting the phrase "six and two-thirds percent (6-2/3%)".

Sec. 104. G.S. 18B-805(c)(1) is amended by inserting between the citation "18B-804(b)(5)" and the comma the phrase "and the bottle charge provided for in G.S. 18B-804(b)(6a)".

Sec. 105. G.S. 18B-902(d)(10) is rewritten to read:

S. B. 196 **CHAPTER 714**

AN ACT TO APPROVE THE SOUTHEAST INTERSTATE LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT COMPACT.

The General Assembly of North Carolina enacts:

Section 1. A new Chapter is added to the General Statutes to read:

"Chapter 104F.

"Southeast Interstate Low-Level

Radioactive Waste Management Compact.

"§ 104F-1. *Compact entered into; form of compact.*—The Southeast Interstate Low-Level Radioactive Waste Management Compact is enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

Southeast Interstate Low-Level

Radioactive Waste Management Compact

ARTICLE I. Policy and purpose

There is hereby created the Southeast Interstate Low-Level Radioactive Waste Management Compact. The party states recognize and declare that each

state is responsible for providing for the availability of capacity either within or outside the state for disposal of low-level radioactive waste generated within its borders, except for waste generated as a result of defense activities of the federal government or federal research and development activities. They also recognize that the management of low-level radioactive waste is handled most efficiently on a regional basis. The party states further recognize that the Congress of the United States, by enacting the Low-Level Radioactive Waste Policy Act (P.L. 96-573), has provided for and encouraged the development of low-level radioactive waste compacts as a tool for disposal of such waste. The party states recognize that the safe and efficient management of low-level radioactive waste generated within the region requires that sufficient capacity to dispose of such waste be properly provided.

It is the policy of the party states to: enter into a regional low-level radioactive waste management compact for the purpose of providing the instrument and framework for a cooperative effort, provide sufficient facilities for the proper management of low-level radioactive waste generated in the region, promote the health and safety of the region, limit the number of facilities required to effectively and efficiently manage low-level radioactive waste generated in the region, encourage the reduction of the amounts of low-level waste generated in the region, distribute the costs, benefits and obligations of successful low-level radioactive waste management equitably among the party states, and ensure the ecological management of low-level radioactive wastes.

Implicit in the congressional consent to this compact is the expectation by the Congress and the party states that the appropriate federal agencies will actively assist the Compact Commission and the individual party states to this compact by:

1. expeditious enforcement of federal rules, regulations and laws; and
2. imposition of sanctions against those found to be in violation of federal rules, regulations and laws; and
3. timely inspection of their licensees to determine their capability to adhere to such rules, regulations and laws; and
4. timely provision of technical assistance to this compact in carrying out their obligations under the Low-Level Radioactive Waste Policy Act, as amended.

ARTICLE II. Definitions

As used in this compact, unless the context clearly requires a different construction:

(a) 'Commission' or 'Compact Commission' means the Southeast Interstate Low-Level Radioactive Waste Management Commission.

(b) 'facility' means a parcel of land, together with the structures, equipment and improvements thereon or appurtenant thereto, which is used or is being developed for the treatment, storage or disposal of low-level radioactive waste.

(c) 'generator' means any person who produces or possesses low-level radioactive waste in the course of or as an incident to manufacturing, power generation, processing, medical diagnosis and treatment, research, or other industrial or commercial activity. This does not include persons who provide a service to generators by arranging for the collection, transportation, storage or disposal of wastes with respect to such waste generated outside the region.

(d) 'high-level waste' means irradiated reactor fuel, liquid wastes from reprocessing irradiated reactor fuel and solids into which such liquid wastes have been converted, and other high-level radioactive waste as defined by the U.S. Nuclear Regulatory Commission.

(e) 'host state' means any state in which a regional facility is situated or is being developed.

(f) 'low-level radioactive waste' or 'waste' means radioactive waste not classified as high-level radioactive waste, transuranic waste, spent nuclear fuel or by-product material as defined in section 11e.(2) of the Atomic Energy Act of 1954, or as may be further defined by federal law or regulation.

(g) 'party state' means any state which is a signatory party to this compact.

(h) 'person' means any individual, corporation, business enterprise or other legal entity (either public or private).

(i) 'region' means the collective party states.

(j) 'regional facility' means (1) a facility as defined in this Article which has been designated, authorized, accepted or approved by the Commission to receive waste or (2) the disposal facility in Barnwell County, South Carolina, owned by the State of South Carolina and as licensed for the burial of low-level radioactive waste on July 1, 1982, but in no event shall this disposal facility serve as a regional facility beyond December 31, 1992.

(k) 'state' means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands or any other territorial possession of the United States.

(l) 'transuranic wastes' means waste material containing transuranic elements with contamination levels as determined by the regulations of (1) the U.S. Nuclear Regulatory Commission or (2) any host state, if it is an agreement state under section 274 of The Atomic Energy Act of 1954.

(m) 'waste management' means the storage, treatment or disposal of waste.

ARTICLE III. Rights and obligations

The rights granted to the party states by this compact are additional to the rights enjoyed by sovereign states, and nothing in this compact shall be construed to infringe upon, limit or abridge those rights.

(a) Subject to any license issued by the U.S. Nuclear Regulatory Commission or a host state each party state shall have the right to have all wastes generated within the borders stored, treated, or disposed of, as applicable at regional facilities, and additionally shall have the right of access to facilities made available to the region through agreements entered into by the Commission pursuant to Article IV (e)(9). The right of access by a generator within a party state to any regional facility is limited by its adherence to applicable state and federal law and regulation.

(b) If no operating regional facility is located within the borders of a party state and the waste generated within its borders must therefore be stored, treated, or disposed of at a regional facility in another party state, the party state without such facilities may be required by the host state or states to establish a mechanism which provides compensation for access to the regional facility according to terms and conditions established by the host states and approved by a two-thirds vote of the Commission.

(c) Each party state shall establish the capability to regulate, license and ensure the maintenance and extended care of any facility within its borders. Host states are responsible for the availability, the subsequent post closure

observation and maintenance, and the extended institutional control of their regional facilities, in accordance with the provisions of Article V, section (b).

(d) Each party state shall establish the capability to enforce any applicable federal or state laws and regulations pertaining to the packaging and transportation of waste generated within or passing through its borders.

(e) Each party state shall provide to the Commission on an annual basis, any data and information necessary to the implementation of the Commission's responsibilities. Each party state shall establish the capability to obtain any data and information necessary to meet its obligation herein defined.

(f) Each party state shall, to the extent authorized by federal law, require generators within its borders to use the best available waste management technologies and practices to minimize the volumes of wastes requiring disposal.

ARTICLE IV. The Commission

(a) There is hereby created the Southeast Interstate Low-Level Radioactive Waste Management Commission, ("the Commission" or "Compact Commission"). The Commission shall consist of two voting members from each party state to be appointed according to the laws of each state. The appointing authorities of each state must notify the Commission in writing of the identity of its members and any alternates. An alternate may act on behalf of the member only in the member's absence.

(b) Each Commission member shall be entitled to one vote. No action of the Commission shall be binding unless a majority of the total membership cast their vote in the affirmative, or unless a greater than majority vote is specifically required by any other provision of this compact.

(c) The Commission shall elect from among its members a presiding officer. The Commission shall adopt and publish, in convenient form, by-laws which are consistent with this compact.

(d) The Commission shall meet at least once a year and shall also meet upon the call of the presiding officer, by petition of a majority of the party states, or upon the call of a host state. All meetings of the Commission shall be open to the public.

(e) The Commission has the following duties and powers:

(1) to receive and approve the application of a non-party state to become an eligible state in accordance with Article VII (b); and

(2) to receive and approve the application of an eligible state to become a party state in accordance with Article VII (c); and

(3) to submit an annual report and other communications to the governors and to the presiding officer of each body of the legislature of the party states regarding the activities of the Commission; and

(4) to develop and use procedures for determining, consistent with considerations for public health and safety, the type and number of regional facilities which are presently necessary and which are projected to be necessary to manage waste generated within the region; and

(5) to provide the party states with reference guidelines for establishing the criteria and procedures for evaluating alternative locations for emergency or permanent regional facilities; and

(6) to develop and adopt within one year after the Commission is constituted as provided for in Article VII, section (d), procedures and criteria for identifying a party state as a host state for a regional facility as determined pursuant to the requirements of this Article. In

accordance with these procedures and criteria, the Commission shall identify a host state for the development of a second regional disposal facility within three years after the Commission is constituted as provided for in Article VII, section (d) and shall seek to ensure that such facility is licensed and ready to operate as soon as required but in no event later than 1991.

In developing criteria, the Commission must consider the following: the health, safety, and welfare of the citizens of the party states; the existence of regional facilities within each party state; the minimization of waste transportation; the volumes and types of wastes generated within each party state; and the environmental, economic and ecological impacts on the air, land, and water resources of the party states.

The Commission shall conduct such hearings; require such reports, studies, evidence and testimony; and do what is required by its approved procedures in order to identify a party state as a host state for a needed facility; and

(7) in accordance with the procedures and criteria developed pursuant to section (e)(6) of this Article, to designate, by a two-thirds vote, a host state for the establishment of a needed regional facility. The Commission shall not exercise this authority unless the party states have failed to voluntarily pursue the development of such facility. The Commission shall have the authority to revoke the membership of a party state that willfully creates barriers to the siting of a needed regional facility; and

(8) to require of and obtain from party states, eligible states seeking to become party states, and non-party states seeking to become eligible states, data and information necessary to the implementation of Commission responsibilities; and

(9) notwithstanding any other provision of this compact, to enter into agreements with any person, state, or similar regional body or group of states for the importation of waste into the region and for the right of access to facilities outside the region for waste generated within the region. Such authorization to import requires a two-thirds majority vote of the Commission, including an affirmative vote of both representatives of the host state in which any affected regional facility is located. This shall be done only after an assessment of the affected facilities' capability to handle such wastes; and

(10) to act or appear on behalf of any party state or states, only upon written request of both members of the Commission for such state or states, as an intervenor or party in interest before Congress, state legislatures, any court of law, or federal, state or local agency, board or commission which has jurisdiction over the management of wastes. The authority to act, intervene or otherwise appear shall be exercised by the Commission only after approval by a majority vote of the Commission; and

(11) to revoke the membership of a party state in accordance with Article VII (f).

(f) The Commission may establish such advisory committees as it deems necessary for the purpose of advising the Commission on any and all matters pertaining to the management of low-level radioactive waste.

(g) The Commission may appoint or contract for and compensate such limited staff necessary to carry out its duties and functions. The staff shall serve at the Commission's pleasure irrespective of the civil service, personnel or other merit laws of any of the party states or the federal government and shall be compensated from funds of the Commission. In selecting any staff, the Commission shall assure that the staff has adequate experience and formal training to carry out such functions as may be assigned to it by the Commission. If the Commission has a headquarters it shall be in a party state.

(h) Funding for the Commission shall be provided as follows:

(1) each eligible state, upon becoming a party state, shall pay twenty-five thousand dollars ($25,000) to the Commission which shall be used for costs of the Commission's services.

(2) each state hosting a regional disposal facility shall annually levy special fees or surcharges on all users of such facility, based upon the volume of wastes disposed of at such facilities, the total of which:

a. shall be sufficient to cover the annual budget of the Commission; and

b. shall represent the financial commitments of all party states to the Commission; and

c. shall be paid to the Commission, provided, however, that each host state collecting such fees or surcharges may retain a portion of the collection sufficient to cover its administrative costs of collection, and that the remainder be sufficient only to cover the approved annual budgets of the Commission.

(3) The Commission shall set and approve its first annual budget as soon as practicable after its initial meeting. Host states for disposal facilities shall begin imposition of the special fees and surcharges provided for in this section as soon as practicable after becoming party states, and shall remit to the Commission funds resulting from collection of such special fees and surcharges within 60 days of their receipt.

(i) The Commission shall keep accurate accounts of all receipts and disbursements. An independent certified public accountant shall annually audit all receipts and disbursements of Commission funds, and submit an audit report to the Commission. Such audit report shall be made a part of the annual report of the Commission required by Article IV (e)(3).

(j) The Commission may accept for any of its purposes and functions any and all donations, grants of money, equipment, supplies, materials and services (conditional or otherwise) from any State or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm or corporation, and may receive, utilize and dispose of the same. The nature, amount and condition, if any, attendant upon any donation or grant accepted pursuant to this paragraph together with the identity of the donor, grantor or lendor, shall be detailed in the annual report of the Commission.

(k) The Commission shall not be responsible for any costs associated with (1) the creation of any facility, (2) the operation of any facility, (3) the stabilization and closure of any facility, (4) the post-closure observation, and maintenance of any facility, or (5) the extended institutional control, after post-closure observation and maintenance of any facility.

(l) As of January 1, 1986, the management of wastes at regional facilities is restricted to wastes generated within the region, and to wastes generated within non-party states when authorized by the Commission pursuant to the

provisions of this compact. After January 1, 1986, the Commission may prohibit the exportation of waste from the region for the purposes of management.

(m) (1) The Commission herein established is a legal entity separate and distinct from the party states, capable of acting in its own behalf, and shall be so liable for its actions. Liabilities of the Commission shall not be deemed liabilities of the party states. Members of the Commission shall not be personally liable for action taken by them in their official capacity.

(2) Except as specifically provided in this compact, nothing in this compact shall be construed to alter the incidence of liability of any kind for any act, omission, course of conduct, or on account of any causal or other relationships. Generators, transporters of wastes, owners and operators of sites shall be liable for their acts, omissions, conduct, or relationships in accordance with all laws relating thereto.

ARTICLE V. Development and operation of facilities

(a) Any party state which becomes a host state in which a regional facility is operated, shall not be designated by the Compact Commission as a host state for an additional regional facility until each party state has fulfilled its obligation, as determined by the Commission, to have a regional facility operated within its borders.

(b) A host state desiring to close a regional facility located within its borders may do so only after notifying the Commission in writing of its intention to do so and the reasons therefor. Such notification shall be given to the Commission at least four years prior to the intended date of closure. Notwithstanding the four year notice requirement herein provided, a host state is not prevented from closing its facility or establishing conditions of use and operations as necessary for the protection of the health and safety of its citizens. A host state may terminate or limit access to its regional facility if it determines Congress has materially altered the conditions of this compact.

(c) Each party state designated as a host state for a regional facility shall take appropriate steps to ensure that an application for a license to construct and operate a facility of the designated type is filed with and issued by the appropriate authority.

(d) No party state shall have any form of arbitrary prohibition on the treatment, storage or disposal of low-level radioactive waste within its borders.

ARTICLE VI. Other laws and regulations

(a) Nothing in this compact shall be construed to:

(1) abrogate or limit the applicability of any act of Congress or diminish or otherwise impair the jurisdiction of any federal agency expressly conferred thereon by the Congress;

(2) abrogate or limit the regulatory responsibility and authority of the U.S. Nuclear Regulatory Commission or of an agreement state under section 274 of the Atomic Energy Act of 1954 in which a regional facility is located;

(3) make inapplicable to any person or circumstance any other law of a party state which is not inconsistent with this compact;

(4) make unlawful the continued development and operation of any facility already licensed for development or operation on the date this compact becomes effective, except that any such facility shall comply with Article III, Article IV and Article V and shall be subject to any action lawfully taken pursuant thereto;

(5) prohibit any storage or treatment of waste by the generator on its own premises;

(6) affect any judicial or administrative proceeding pending on the effective date of this compact;

(7) alter the relations between, and the respective internal responsibilities of, the government of a party state and its subdivisions;

(8) affect the generation, treatment, storage or disposal of waste generated by the atomic energy defense activities of the Secretary of the U.S. Department of Energy or federal research and development activities as defined in P.L. 96-573;

(9) affect the rights and powers of any party state and its political subdivisions to regulate and license any facility within its borders or to affect the rights and powers of any party state and its political subdivisions to tax or impose fees on the waste managed at any facility within its borders.

(b) No party state shall pass any law or adopt any regulation which is inconsistent with this compact. To do so may jeopardize the membership status of the party state.

(c) Upon formation of the compact no law or regulation of a party state or of any sub-division or instrumentality thereof may be applied so as to restrict or make more inconvenient access to any regional facility by the generators of another party state than for the generators of the state where the facility is situated.

(d) Restrictions of waste management of regional facilities pursuant to Article IV(l) shall be enforceable as a matter of state law.

ARTICLE VII. Eligible parties, withdrawal, revocation, entry into force, termination

(a) This compact shall have as initially eligible parties the States of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee and Virginia.

(b) Any state not expressly declared eligible to become a party state to this compact in section (a) of this Article may petition the Commission, once constituted, to be declared eligible. The Commission may establish such conditions as it deems necessary and appropriate to be met by a state wishing to become eligible to become a party state to this compact pursuant to the provisions of this section. Upon satisfactorily meeting such conditions and upon the affirmative vote of two-thirds of the Commission, including the affirmative vote of both representatives of a host state in which any affected regional facility is located, the petitioning state shall be eligible to become a party state to this compact and may become a party state in the same manner as those states declared eligible in section (a) of this Article.

(c) Each state eligible to become a party state to this compact is declared a party state upon enactment of this compact into law by that state and upon payment of the fees required by Article IV (h)(1). **See exception in G.S. 20-118(c)(1).

(4) The Department of Transportation may establish light-traffic roads and further restrict the axle weight limit on such light-traffic roads lower than the statutory limits. The Department of Transportation shall have authority to designate any highway on the State Highway

System, excluding routes designated by I, U.S. and N.C., as a light-traffic road when in the opinion of the Department of Transportation, such road is inadequate to carry and will be injuriously affected by vehicles using the said road carrying the maximum axle weight. All such roads so designated shall be conspicuously posted as light-traffic roads and the maximum axle weight authorized shall be displayed on proper signs erected thereon.

(c) Exceptions. The following exceptions apply to G.S. 20-118(b) and G.S. 20-118(e).

(1) Two consecutive sets of tandem axles may carry a gross weight of 34,000 pounds each without penalty provided the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more.

(2) When a vehicle is operated in violation of G.S. 20-118(b)(1), G.S. 20-118(b)(2), or G.S. 20-118(b)(3), but the gross weight of the vehicle or combination of vehicles does not exceed that permitted by G.S. 20-118(b)(3), the owner of the vehicle shall be permitted to shift the load within the vehicle, without penalty, from one axle to another to comply with the weight limits in the following cases:

a. Where the single-axle load exceeds the statutory limits, but does not exceed 21,000 pounds.

b. Where the vehicle or combination of vehicles has tandem axles, but the tandem-axle weight does not exceed 36,000 pounds.

(3) When a vehicle is operated in violation of G.S. 20-118(b)(4) the owner of the vehicle shall be permitted, without penalty, to shift the load within the vehicle from one axle to another to comply with the weight limits where the single-axle weight does not exceed the posted limit by 2,500 pounds.

(4) A truck or other motor vehicle shall be exempt from such light-traffic road limitations provided for pursuant to G.S. 20-118(b)(4), when transporting supplies, material or equipment necessary to carry out a farming operation engaged in the production of meats and agricultural crops and livestock or poultry by-products or a business engaged in the harvest or processing of seafood when the destination of such vehicle and load is located solely upon said light-traffic road.

(5) A truck or other motor vehicle shall be exempt from such light-traffic road limitations provided for pursuant to G.S. 20-118(b)(4), when transporting processed and unprocessed seafood from boats or any other point of origin, meats and agricultural crop products originating from a farm, or forest products originating from a farm or from woodlands, or livestock or poultry by-products from point of origin, on a light-traffic road to the nearest State maintained road which is not posted to prohibit the transportation of statutory load limits.

(6) A truck or other motor vehicle shall be exempt from such light-traffic road limitations provided by G.S. 20-118(b)(4) when such motor vehicles are owned, operated by or under contract to a public utility, electric or telephone membership corporation or municipality and such motor vehicles are used in connection with installation, restoration or emergency maintenance of utility services.

(7) A wrecker may tow a disabled vehicle or combination of vehicles in an emergency to the nearest feasible point for parking or storage without being in violation of G.S. 20-118 provided that the wrecker and towed vehicle or combination of vehicles otherwise meet all requirements of this section.

(d) The Department of Transportation is authorized to abrogate certain exceptions. The exceptions provided for in G.S. 20-118(c)(4) and G.S. 20-118(c)(5) as applied to any light-traffic road may be abrogated by the Department of Transporation upon a determination of the Department of Transportation that undue damage to such light-traffic road is resulting from such vehicles exempted by G.S. 20-118(c)(4) and G.S. 20-118(c)(5). In those cases where the exemption to the light-traffic roads are abrogated by the Department of Transportation, the Department shall post the road to indicate no exemptions.

(e) Penalties.

(1) Except as provided in G.S. 20-118(e)(2), for each violation of the single-axle or tandem-axle weight limits as provided in G.S. 20-118(b)(1), G.S. 20-118(b)(2), and G.S. 20-118(b)(4), the owner or registrant of the vehicle shall pay to the Department of Transportation a civil penalty in accordance with the following schedule: for the first 1,000 pounds or any part thereof, four cents (4¢) per pound; for the next 1,000 pounds or any part thereof, six cents (6¢) per pound; and for each additional pound, ten cents (10¢) per pound. The foregoing schedule of penalties shall apply separately to each weight limit violated. (2) For each violation of the single-axle or tandem-axle weight limit as provided in G.S. 20-118(b)(1) and G.S. 20-118(b)(2) by vehicles transporting processed and unprocessed seafood from boats or any other point of origin to a processing plant or a point of further distribution, meats and agricultural crop products originating from a farm, or forest products originating from a farm or from woodlands to first market, or livestock or poultry by-products from point of origin to a rendering plant, the owner or registrant of the vehicle shall pay to the Department a civil penalty which equals the amount produced by applying one-half of the rate indicated in the schedule in G.S. 20-118(e)(1) to the weight in pounds on each axle in excess of the maximum weight in pounds allowed under G.S. 20-118 (b)(1) and G.S. 20-118(b)(2).

(3) Except as provided in G.S. 20-118(e)(4), for each violation of any axle-group weight limit as provided in G.S. 20-118(b)(3), the owner or registrant shall pay the Department of Transportation in accordance with the following schedule: for the first 2,000 pounds or any part thereof, two cents (2¢) per pound, for the next 3,000 pounds or any part thereof, four cents (4¢) per pound; for each pound in excess of 5,000 pounds, ten cents (10¢) per pound. (4) For each violation of any weight limit as provided in G.S. 20-118(b)(3) by vehicles transporting processed and unprocessed seafood from boats or any other point of origin to a processing plant or a point of further distribution, meats and agricultural crop products originating from a farm or forest products originating from a farm or woodlands to first market, or livestock or poultry by-products from point of origin to a rendering plant, the owner or registrant shall pay to the Department a civil penalty which equals the amount produced by applying one-half of the rate indicated in the schedule in G.S. 20-118(e)(3) to the weight in pounds on each axle group in excess of the maximum weight in pounds allowed under G.S. 20-118(b)(3).

(5) The civil penalties provided in this section shall constitute the sole penalty for violations of G.S. 20-118(b)(1), G.S. 20-118(b)(2), G.S. 20-118(b)(3), G.S. 20-118(b)(4), G.S. 20-118(i), and G.S. 20-118(j), and violators thereof shall not be subject to criminal action except as provided in G.S. 20-96 and as provided in G.S. 136-72 for any vehicle or combination of vehicles exceeding the safe load carrying capacity for bridges on the State Highway System as established and posted by the Department of Transportation.

(f) Passenger buses are required to have a license issued by the Commissioner of Motor Vehicles to operate in North Carolina. For the purpose of issuing a license and determining the maximum weight to be allowed for passenger buses to be operated upon the highways of this State, a certificate showing the weight of such bus when fully equipped for the road shall be furnished the Commissioner of Motor Vehicles. H. B. 1129 CHAPTER 758

AN ACT TO INCLUDE VESTED PENSION OR RETIREMENT RIGHTS IN MARITAL PROPERTY FOR PURPOSES OF EQUITABLE DISTRIBUTION.

The General Assembly of North Carolina enacts:

Section 1. G.S. 50-20(b)(1) is amended by adding a new sentence to the end to read: "Marital property includes all vested pension and retirement rights, including military pensions eligible under the federal Uniformed Services Former Spouses' Protection Act."

Sec. 2. G.S. 50-20(b)(2) is amended by rewriting the last sentence to read:

"The expectation of nonvested pension or retirement rights shall be considered separate property."

Sec. 3. G.S. 50-20(b)(3) is amended by adding a new paragraph to the end to read:

"The distributive award of vested pension and retirement benefits may be payments payable:

(1) as a lump sum by agreement;

(2) over a period of time in fixed amounts by agreement; or

(3) as a prorated portion of the benefits made to the designated recipient at the time the party against whom the award is made actually begins to receive the benefits.

Notwithstanding the foregoing, the court shall not require the administrator of the fund or plan involved to make any payments until the party against whom the award is made actually begins to receive the benefits. The award shall be based upon the proportion of the amount of time the marriage existed simultaneously with the employment which earned the vested pension or retirement rights to the total amount of time of employment. Said award shall not be based on contributions made after the separation, but shall include any growth on the amount of the pension or retirement account vested at the time of the separation. In the event the person receiving the distributive award dies, full rights to vested pension and retirement benefits, including military pensions eligible under the federal Uniformed Services Former Spouses' Protection Act, shall belong to the party against whom the award is made. In the event the party against whom the award is made dies, the person receiving the distributive award shall receive no further benefits. The total amount of contributions, years of service and pension and retirement benefits shall be certified by the administrator of the plan or fund involved upon receipt of a court order to do so. No award shall exceed fifty percent (50%) of the cash benefits by the party against whom the award is made is entitled to receive. The provisions of this section and G.S. 50-21 shall apply to all retirement and pension systems and funds administered by the State pursuant to General Statutes Chapters 118, 120, 127A, 128, 135 and 143 to the extent of a member's accrued benefit at retirement or withdrawal as determined by the system's or fund's consulting actuary."

Sec. 4. G.S. 50-20(c)(5) is rewritten to read:

"(5) The expectation of nonvested pension or retirement rights, which is separate property;".

Sec. 5. This act is effective August 1, 1983.

In the General Assembly read three times and ratified, this the 14th day of July, 1983.

H. B. 1143 CHAPTER 759

AN ACT TO PROVIDE FAIR DISCOVERY TO DEFENDANTS IN CRIMINAL PROSECUTIONS.

The General Assembly of North Carolina enacts:

Section 1. G.S. 15A-903(d) is amended by inserting between the phrase "mechanical or electronic recordings" and the phrase "tangible objects" the phrase "buildings and places, or any other crime scene,".

Sec. 2. G.S. 15A-903 is amended by adding two new subsections to read:

"(f) Statements of State's Witnesses.

(1) In any criminal prosecution brought by the State, no statement or report in the possession of the State that was made by a State witness or prospective State witness, other than the defendant, shall be the subject of subpoena, discovery, or inspection until that witness has testified on direct examination in the trial of the case.

(2) After a witness called by the State has testified on direct examination, the court shall, on motion of the defendant, order the State to produce any statement of the witness in the posession of the State that relates to the subject matter as to which the witness has testified. If the entire contents of that statement relate to the subject matter of the testimony of the witness, the court shall order it to be delivered directly to the defendant for his examination and use.

(3) If the State claims that any statement ordered to be produced under this section contains matter that does not relate to the subject matter of the testimony of the witness, the court shall order the State to deliver that statement for the inspection of the court *in camera*. Upon delivery the court shall excise the portions of the statement that do not relate to the subject matter of the testimony of the witness. With that material excised, the court shall then direct delivery of the statement to the defendant for his use. If, pursuant to this procedure, any portion of the statement is withheld from the defendant and the defendant objects to the withholding, and if the trial results in the conviction of the defendant, the entire text of the statement shall be preserved by the State and, in the event the defendant appeals, shall be made available to the appellate court for the purpose of determining the correctness of the ruling of the trial judge. Whenever any statement is delivered to a defendant pursuant to this subsection, the court, upon application of the defendant, may recess proceedings in the trial for a period of time that it determines is reasonably required for the examination of the statement by the defendant and his preparation for its use in the trial.

(4) If the State elects not to comply with an order of the court under subdivision (2) or (3) to deliver a statement to the defendant, the court shall strike from the record the testimony of the witness, and direct the jury to disregard the testimony, and the trial shall proceed unless the court determines that the interests of justice require that a mistrial be declared.

(5) The term 'statement', as used in subdivision (2), (3), and (4) in relation to any witness called by the State means

a. a written statement made by the witness and signed or otherwise adopted or approved by him;

b. a stenographic, mechanical, electrical, or other recording, or a transcription thereof, that is a substantially verbatim recital or an oral statement made by the witness and recorded contemporaneously with the making of the oral statements."

Sec. 3. G.S. 15A-903(a)(2) is rewritten to read as follows:

"(2) To divulge, in written or recorded form, the substance of any oral statement made by the defendant, regardless of to whom the statement was made, within the possession, custody, or control of the State, the existence of

which is known or by the exercise of due diligence may become known to the prosecutor."

Sec. 4. This act is effective upon ratification.

In the General Assembly read three times and ratified, this the 14th day of July, 1983.

S. B. 666 CHAPTER 760

AN ACT TO GRANT A PARTIAL TAX EXEMPTION FOR GASOHOL MADE FROM AGRICULTURAL OR FORESTRY WASTE PRODUCTS OR BY-PRODUCTS.

The General Assembly of North Carolina enacts:

Section 1. Notwithstanding G.S. 105-436.1(a) and G.S. 105-449.16(b) the tax on the blends of alcohol fuels described in those statutes is seven cents (7¢) per gallon from October 1, 1983, through June 30, 1985, if the ethanol used in the blend was produced from agricultural or forestry waste products or by-products.

Sec. 2. Notwithstanding G.S. 105-436.1(a) and G.S. 105-449.24 the annual refunds and rebates for the blends described in Section 1 of this act shall be at the following rates: for the year ending December 31, 1983, eight and one-half cents (8 1/2¢); for subsequent years, six cents (6¢).

Sec. 3. The Secretary of Revenue may adopt rules to implement this act. The rules shall provide that if a blend is made from ethanol that qualifies for the partial exemption allowed by this act as well as nonqualifying ethanol, the tax rate stated in this act applies in proportion to the amount of qualifying ethanol used in the blend. The rules shall also provide that if only part of a blend made from a mixture of qualifying and nonqualifying ethanol is sold in this State, the Secretary may presume that all of that blend sold in this State contained the qualifying ethanol and shall apply the tax rate allowed by this act accordingly.

Sec. 4. This act is effective upon ratification and expires on June 30, 1985.

In the General Assembly read three times and ratified, this the 14th day of July, 1983.

S. B. 23 CHAPTER 761

AN ACT TO MAKE APPROPRIATIONS FOR CURRENT OPERATIONS OF STATE DEPARTMENTS, INSTITUTIONS, AND AGENCIES, AND FOR OTHER PURPOSES.

The General Assembly of North Carolina enacts:

Section 1. The appropriations made herein are for maximum amounts necessary to provide the services and accomplish the purposes described in the budget. Savings shall be effected where the total amounts appropriated are not required to perform these services and accomplish these purposes and, except as allowed by the Executive Budget Act, or as hereinafter provided, the savings shall revert to the appropriate fund at the end of the biennium.

These continuation costs shall be computed using the same budget preparation guidelines and rules prepared by the Office of State Budget and Management for use in State agency and institution budgets. Furthermore, in the projections for expansion costs related to employee compensation, the budget shall include the expansion costs necessary to cover the State's share of salary and salary-related items for employees in locally operated State-funded programs. Local governments or organizations spending State funds to operate local programs shall provide necessary information to the Office of State Budget and Management to establish the necessary continuation and expansion costs."

(b) This section is effective beginning with the State Budget prepared for the 1985-87 biennium.

Sec. 16. (a) Required employer salary-related contributions for employees whose salaries are paid from department, office, institution, or agency receipts shall be paid from the same source as the source of employee's salary. If an employee's salary is paid in part from the General Fund and in part from department, office, institution, or agency receipts, required employer salary-related contributions shall be paid from the General Fund only to the extent of the proportionate part paid from the General Fund in support of the salary of the employee, and the remainder of the employer's requirements shall be paid from the source which supplies the remainder of the employee's salary. Shift premium pay for employees in medically related positions shall be limited to ten percent (10%) of salary or one dollar ($1.00) per hour, whichever is greater. The State Personnel Commission shall set the higher shift premium pay for employees in medically related positions only after finding that the higher pay is necessary to meet existing competition from private employers.

The State Personnel Commission shall not adopt a shift premium pay schedule higher than those stated in this section unless the higher schedule is first approved by the General Assembly and funds are appropriated to implement the higher pay. The Commission may, however, request authorization to pay shift premium pay to employees in grades above those stated in this section when the Commission determines that there is a critical shortage of employees in a position because of competition from private

employers who pay shift premium pay for that type work. Such a request shall be made to the General Assembly if it is in session; otherwise, the request shall be approved by the Director of the Budget with the advice of the Advisory Budget Commission.

The State Personnel Commission is directed to strictly enforce its regulation requiring that employees who receive shift premium pay be regularly assigned to night or shift work. PART VII.——HUMAN RESOURCES/PUBLIC EDUCATION

——FUNDS FOR MEMBERS OF THE CLASS IDENTIFIED IN WILLIE M., *et al.* vs. HUNT, *et al.*

Sec. 77. (a) Legislative Findings. The General Assembly finds:

(1) That there is a need in North Carolina to provide appropriate treatment and education programs to children under the age of 18 who suffer from emotional, mental, or neurological handicaps accompanied by violent or assaultive behavior;

(2) That children meeting these criteria have been identified as a class in the case of Willie M., *et al.* vs. Hunt, *et al.*; and

(3) That these children have a need for a variety of services, in addition to those normally provided, that may include but are not limited to residential treatment programs, educational programs, and independent living arrangements.

(b) Funds for Department of Human Resources. It is the intent of the General Assembly that funds appropriated in Section 2 of this act to the Department of Human Resources for programs serving members of the Willie M. Class be expended only for programs serving members of the Willie M. Class identified in Willie M., *et al.* vs. Hunt, *et al.*, including evaluations of potential class members. It is recognized that therapeutic or economic reasons may, at times, require certain of these programs to serve a mixed clientele of Willie M. class members and other clients. To the maximum extent possible, however, these funds shall be expended solely for the benefit of Willie M. class members.

(c) Funds for Department of Public Education. Funds appropriated to the Department of Public Education in Section 2 of this act for members of the

Willie M. Class are to establish a supplemental reserve fund to serve only members of the class identified in Willie M., *et al.* vs. Hunt, *et al.* These funds shall be allocated by the State Board of Education to the local education agencies to serve those class members who were not included in the regular average daily membership and the census of children with special needs, and to provide the additional program costs which exceed the per pupil allocation from the State Public School Fund and other State and federal funds for children with special needs.

(d) The Department of Human Resources shall develop a prospective unit cost reimbursement system to be used to pay for services to Willie M. class members identified as a class in Willie M., *et al.* vs. Hunt, *et al.* This reimbursement system shall be submitted to the General Assembly for review by May 1, 1984, and implemented on July 1, 1984.

(e) Reporting Requirements. The Department of Human Resources and the Department of Public Education shall submit by April 1, 1984, a joint report to the Governor and the General Assembly on the progress achieved in serving members of the Willie M. Class. The report shall include the following unduplicated data for each county: (i) the number of children nominated for the Willie M. Class; (ii) the number of children actually identified as members of the class in each county; (iii) the number of children served as members of the class in each county; (iv) the number of children that remains unserved; (v) the types and locations of treatment and education services provided to class members; (vi) the cost of services, by type, to members of the class; (vii) information on the impact of treatment and education services on members of the class.

(f) The Departments of Human Resources and Public Education shall provide periodic reports of expenditures on behalf of the Willie M. Class to the Joint Legislative Commission on Governmental Operations.

(g) In fulfilling the responsibilities vested in it by the Constitution of North Carolina, the General Assembly finds:

(1) That the responsible State agencies have made a *bona fide* good faith effort to comply fully with the requirements of the Court Orders in the case of Willie M., *et al.* vs. Hunt, *et al.*, and that services and placements for Willie M. class members are very greatly improved.

(2) That the General Assembly is responsible for assessing all of the vital needs of the citizens of the State of North Carolina, for evaluating the extent of its economic resources and the prevailing economic climate, and for determining how best to meet the needs of all of its citizens within the resources available to the State.

(3) That the funds hereby appropriated will enable the development and implementation of placement and services for the class members in Willie M., *et al.* vs. Hunt, *et al.* within a reasonable period of time considered within the context of the needs of the class members, the other needs of the State and the resources available to the State.

(4) That additional expenditures of funds for these purposes at this time would result in an accelerated expenditure of and an unreasonable waste of State funds inasmuch as such expenditures could not reasonably be expected to actually secure a higher degree of treatment or education for the class members than can be accomplished with the funds hereby appropriated.

(h) The General Assembly supports the efforts of the responsible officials and agencies of the State of North Carolina to meet the requirements of the Court Order in Willie M., *et al.* vs. Hunt, *et al.* However, in view of the findings in subsection (g) above, the General Assembly expressly directs that no State funds shall be expended on the placement and services of class members in Willie M., *et al.* vs. Hunt, *et al.*, or for any other thing or purpose arising out of this litigation, now or at any time in the biennium, except for those funds appropriated in Section 2 of this act to the Departments of Human Resources and Public Education for program serving members of the Willie M. Class identified in Willie M. *et al.* vs. Hunt, *et al.*, and for such funds as may be elsewhere appropriated by the General Assembly specifically for such purposes.

(i) This section is effective July 1, 1983.

——PUPIL TRANSPORTATION

Sec. 79. (b) The State Board of Education is directed to provide a written progress report on its actions to implement the recommendation of that report to the General Assembly at least 15 days prior to the convening date of the 1984 Regular Session of the 1983 General Assembly.

(c) As a result of the new directions set out in subsection (a) above, and in Chapter 630 of the 1983 Session Laws, it is anticipated that cost containment can be achieved and new directions forged.

(d) To that end, General Fund appropriations for pupil transportation to the Department of Public Education in Section 2 of this act shall be the maximum State expenditures for the pupil transportation program. The State Board of Education may request that funds be transferred pursuant to the Executive Budget Act for the school transportation program only if the funds are required due to an increase in gasoline prices or other critical transportation costs which are not included in the approved budget.

Local school administrative units may use other federal or local revenues to supplement State funds for pupil transportation, if necessary.

(e) To provide the strongest possible incentives for improved management at State and local levels, the Director of the Budget may authorize the State Board of Education to use State funds in the pupil transportation program to expedite its implementation of specific items in the Office of State Budget and Management Study, including the development of cost accounting, inventory control, and preventive maintenance systems, development of a comprehensive

(1) the level of support provided for exceptional children for the 1979-80 fiscal year shall continue to be a minimum level of State support;

(2) the eligible headcount shall include only those pupils identified according to criteria established by the State Board of Education and for whom an approved education plan is on file as of the reporting date;

(3) the eligible headcount may be revised as of June 1 each year to reflect the number of children which have entered the system since the fall counts, the number of children which left the system including those projected to have left the system by the end of the school year.

(b) Beginning July 1, 1984, all of subsection (a) of this section except for subdivision (a)(1) shall continue to apply; and

(1) a local education agency shall receive the amount it would receive under the formula set out under subsection (a) above less one-half the difference between what it would receive under that formula and what it received under the formula allocations in 1983-84; and

(2) funds for legislative salary increases provided in Section 2 of this act are exempt from (b)(1) above and are to be allocated in accordance with the remainder of this section.

(c) Beginning July 1, 1985, all of subsection (a) of this section except for subdivision (a)(1) and all of subsection (b) except for subdivision (b)(1) continue to apply and the level of support provided for exceptional children for the 1979-80 fiscal year shall have no effect on the level of State support.

the Controller; and (iii) by the creation of an auditing section in the Controller's Office whose responsibility it shall be to audit pupil headcounts and to monitor compliance by each local education agency with Board policies and rules. Two positions shall be transferred from the Department of Public Instruction to the Controller's Office to support the auditing section outlined in this subsection. The Director of the Budget, with advice of the Advisory Budget Commission, is authorized to transfer additional personnel if necessary for this purpose. All positions transferred to this auditing section shall be supported by federal funds to the extent permitted by federal law.

To this end, the State Board shall:

(1) Define the State's basic educational program and determine its cost and report its progress to the General Assembly by March 1984

(2) Develop and propose to the General Assembly a system for allocating funds on a per pupil basis which is responsive to both State and locally determined needs and to local resources, and which would be a pilot program in the 1984-85 school year and if need be, would be modified for the 1985-86 school year, and

(3) Develop an accountability system by July 1985 which would allow the Board to assess the effectiveness of the programs it funds through the allocation procedure described above.

The State Board shall submit interim reports on its progress to each session of the Legislature beginning in 1984.

In order to ensure equitable funding under the plan, the selected pilot educational agencies will be funded at the same level as current procedures would provide.

If any such program established by the State Board conflicts with any provision of the statutes, the program may be implemented only with the

approval of the Director of the Budget after consultation with the Advisory Budget Commission, and in case such approval is granted, such program shall supersede the conflicting statute to the extent of the conflict.

(b) The State Board of Education shall recommend to the 1985 General Assembly a definition of State and local responsibilities for funding of the public schools which is consistent with current statutes, taking into consideration the ability of the various counties to finance their schools.

Local school administrative units may rotate professional and paraprofessional staff to provide the duty free period. If a local board of education can provide the duty free period without the expenditure of funds allocated to it pursuant to the provisions of this section, it may use the allotment for other educational goals such as in-service training.

In any district where the Administrative Office of the Courts determines that implementation of an alternative plan is not in compliance with the requirements of this section, the Administrative Office of the Courts may implement and administer a program authorized by this Article.

All verbal or written communications from either or both parties to the mediator or between the parties in the presence of the mediator made in a proceeding pursuant to this section are absolutely privileged and inadmissible in court.

Upon such conditions as may be required and to the extent necessary to prevent irreparable injury, a judge of the Court of Appeals is authorized to issue all necessary and appropriate process to postpone the effective date of any action by the Board or take such action as may be necessary to preserve status or rights of any of the parties pending conclusion of the proceedings on appeal. The court may require the applicant for such stay to post adequate bond as required by the court.

"§ 143-135.13. *Appeal to Supreme Court.*—In all appeals heard in the Court of Appeals, any party may file a motion for review in the Supreme Court of the decision of the Court of Appeals under G.S. 7A-31, and in cases entitled to be appealed as a matter of right under G.S. 7A-30 any party may appeal to the Supreme Court from the decision of the Court of Appeals under the same rules and regulations as are prescribed by law for appeals, and such court may advance the cause on its docket.

Sec. 193. (a) The salaries in effect on June 30, 1983, for all permanent State employees paid from the General Fund or the Highway Fund shall be increased on July 1, 1983, by an average of five percent (5%) rounded to conform to the steps in the salary ranges which the State Personnel Commission adopts. If the salary in effect on June 30, 1983, for an employee is not equal to a specific pay rate in the salary schedule effective on that date, his annual increase shall

be five percent (5%) with the annual salary adjusted so as to be divisible by twelve. The Director of the Budget is authorized to transfer from the salary reserve fund created in Sections 2 and 3 of this act for this purpose all funds necessary for the five percent (5%) average increase, including funds for the employer's retirement and Social Security contributions.

Except as otherwise provided in this act, the salaries of State officials, department secretaries, and persons in exempt positions which are recommended by the Governor or the Governor and the Advisory Budget Commission and set by the General Assembly shall be increased an average of five percent (5%) commencing July 1, 1983. The Director of the Budget is authorized to transfer from the salary reserve fund created in Sections 2 and 3 of this act for this purpose all funds necessary for the five percent (5%) average increase, including funds for the employer's retirement and Social Security contributions.

The Director of the Budget is authorized to allocate out of special operating funds or from other sources of the employing agency, except tax revenues, sufficient funds to allow a salary increase averaging five percent (5%), including funds for the employer's retirement and Social Security contributions, for the employees of the agency, provided that the employing agency elects to make available the necessary funds.

The Director of the Budget is authorized to promulgate special rules and regulations to apply to salary increases for employees whose salaries are paid from interagency receipts where payments for the services of those employees originate from State appropriations to the end that the effective purchasing power of the appropriations is not materially reduced as a result of these salary increases. The salary increase may average up to five percent (5%), and funds made available for it shall include amounts necessary for the increase and the employer's retirement and Social Security contributions. Any questions as to the applicability of the provisions of this paragraph shall be resolved by the Director of the Budget.

Salaries for positions which are funded partially from the General Fund and partially from sources other than the General Fund shall be increased from the General Fund appropriation only to the extent of the proportionate part of the salaries paid from the General Fund.

The granting of the legislative salary increases under this section does not affect the status of eligibility for salary increments for which employees may be eligible.

The salary range maximums for all employees under the State Personnel Act shall be increased to accommodate the legislative salary increase so that

every employee will continue to have the same relative position with respect to salary increases and future increments as he would have had if the legislative salary increases had not been made.

The salary increases provided in this act to be effective July 1, 1983, do not apply to persons separated from State service due to resignation, dismissal, reduction in force, death, or retirement whose last workday is prior to July 1, 1983.

Any remaining appropriations for legislative salary increases not required for that purpose may be used to supplement the Salary Adjustment Fund.

Within regular Executive Budget Act procedures as limited by this act, all State agencies and departments are authorized to increase on an equitable basis the rate of pay of temporary State employees, subject to availability of funds in the particular agency or department by pro rata amounts approximately equal to five percent (5%) commencing July 1, 1983.

System of North Carolina or the Uniform Clerks of Court Retirement System of North Carolina. If he should become a member of any of these systems, payment of his service retirement allowance shall be suspended until he withdraws from membership in that system.

"§ 120-4.16. *Disability retirement benefits.*—(a) Eligibility; application. Upon application by or on behalf of the member, any member in service who has completed at least eight years of creditable service but less than 25 years and who has not reached his 60th birthday may, after medical certification, be retired on a disability retirement allowance by the Board of Trustees on the first day of the particular calendar month designated by the applicant. The designated date shall be no less than 30 nor more than 90 days from the filing of the application.

(b) Medical certification. After a medical examination of the member, the medical board shall certify to the Board of Trustees that the member is mentally or physically incapacitated for further performance of duty as a member of the General Assembly, that the incapacity was incurred at the time of active employment and has been continuous thereafter, that the incapacity is likely to be permanent and whether the member should be retired.

(c) Computation. Upon retirement for disability pursuant to subsection (a) of this section, a member shall receive a disability retirement allowance equal to a service retirement allowance calculated on the basis of the member's 'highest annual salary' and the creditable service he would have had by the age of 60 had he continued in service.

(d) Limitations. In no event shall any member receive a disability retirement allowance greater than seventy-five percent (75%) of his 'highest annual salary' nor shall he receive any disability retirement allowance whatever while employed in a position that makes him a member of any of the following retirement systems: The Teachers' and State Employees' Retirement System, the North Carolina Local Governmental Employees' Retirement System, the Law Enforcement Officers' Benefit and Retirement Fund, the Uniform Judicial Retirement System of North Carolina, the Uniform Solicitorial Retirement System of North Carolina or the Uniform Clerks of Court Retirement System of North Carolina. The computation of the amount of benefits to which he may subsequently become entitled under this Article shall be computed as follows:

The allowance to which he would have been entitled if he were retiring for the first time, calculated on the basis of his total creditable service, reduced by the actuarial equivalent of the retirement benefits he previously received.

"§ 120-4.19. *Return of accumulated contributions.*—If a member ceases to be a member of the General Assembly except by death or retirement he shall, upon submission of an application, be paid, not earlier than 60 days from receipt in

the Raleigh offices of the Board of Trustees of an acceptable application on a form provided by the Retirement System, the sum of his contributions, if he has not in the meantime returned to service. Upon payment of this sum his membership in the System ceases. If he becomes a member afterwards, no credit shall be allowed for any service previously rendered except as provided in G.S. 120-4.9 and the payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable under this Article. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member, there shall be paid to the person or persons he nominated by written designation duly acknowledged and filed with the Board of Trustees, if the person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of G.S. 120-4.22. There shall be deducted from any amount otherwise payable any amount due any agency or subdivision of the State by the member by reason of any outstanding overpayment of salary or by any other reason. Even if the member fails to demand the return of his accumulated contributions within 90 days from the day he ceases to be a member of the General Assembly, any amount due the agency or subdivision by reason of any outstanding overpayment of salary or any other reason shall be paid to the agency or subdivision by the Retirement System upon demand. After the agency or subdivision has notified the executive director of any amount due. The Retirement System has no liability for amounts deducted and transmitted to the agency or subdivision nor for any failure by the Retirement System for any reason to make the deductions.

"§ 120-4.20. *Benefit payment options.*—Any member may elect to receive his benefits in a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent of the retirement allowance in a reduced allowance payable throughout life under the provisions of one of the options set forth below. No election may be made after the first payment becomes due, or the first retirement check cashed, nor may an election be revoked or a nomination changed. The election of option 2 or option 3 or the nomination of the person thereunder shall be revoked if the person nominated dies prior to the date the first payment becomes normally due or until the first retirement check has been cashed. The election may be revoked by the member prior to the date the first payment becomes normally due or until his first retirement check has been cashed.

Option 1. If a member dies within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less 1/120th for each month for which he has received a retirement allowance payment, shall be paid to his legal representative or to the person he nominates by written designation acknowledged and filed with the Board of Trustees;

Option 2. Upon his death, his reduced retirement allowance shall be continued throughout the life of and paid to the person he nominates by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement. The General Assembly of North Carolina enacts:

Section 1. G.S. 115C-325(a)(3) is rewritten to read:

If a majority of the board votes to reemploy the teacher, and if it has notified him of the decision, it may not rescind that action but must proceed under the provisions of this section for the demotion or dismissal of a teacher if it decides to terminate his employment."

Sec. 4. G.S. 115C-325(d)(2) is rewritten to read:

"(2) Whether or not he has previously attained career status as a teacher, a person who has performed the duties of a principal in the school system for three consecutive years or has performed the duties of a supervisor in the school system for three consecutive years shall not be transferred from that position to a lower paying administrative position or to a lower paying nonadministrative position without his consent except for the reasons given in G.S. 115C-325(e)(1) and in accordance with the provisions for the dismissal of a career teacher set out in this section. Transfer of a principal or a supervisor is not a transfer to a lower paying position if the principal's or supervisor's salary is maintained at the previous salary amount.

When a teacher has performed the duties of supervisor or principal for three consecutive years, the board, near the end of the third year, shall vote upon his employment for the next school year. The board shall give him written notice of that decision by June 1 of his third year of employment as a supervisor or principal. If a majority of the board votes to reemploy the teacher as a principal

or supervisor, and it has notified him of that decision, it may not rescind that action but must proceed under the provisions of this section. If a majority of the board votes not to reemploy the teacher as a principal or supervisor, he shall retain career status as a teacher if that status was attained prior to assuming the duties of supervisor or principal. A supervisor or principal who has not held that position for three years and whose contract will not be renewed for the next school year shall be notified by June 1 and shall retain career status as a teacher if that status was attained prior to assuming the duties of supervisor or principal."

"(2) Before recommending to a board the dismissal or demotion of the career teacher pursuant to G.S. 115C-325(e)(1)l., the superintendent shall give written notice to the career teacher by certified mail of his intention to make such recommendation and shall set forth as part of his recommendation the grounds upon which he believes such dismissal is justified. The notice shall include a statement to the effect that if the teacher within 15 days after receipt of the notice requests a review, he shall be entitled to have the proposed recommendations of the superintendent reviewed by the board. Within the 15-day period after receipt of the notice, the career teacher may file with the superintendent a written request for a hearing before the board within 10 days. If the teacher requests a hearing before the board, the hearing procedures provided in G.S. 115C-325(j) shall be followed. If no request is made within the 15-day period, the superintendent may file his recommendation with the board. If, after considering the recommendation of the superintendent and the evidence adduced at the hearing if there is one, the board concludes that the grounds for the recommendation are true and substantiated by a preponderance of the evidence, the board, if it sees fit, may by resolution order such dismissal. Provisions of this section which permit appointment of, and investigation and review by, a panel of the Professional Review Committee shall not apply to a dismissal or demotion recommended pursuant to G.S. 115C-325(e)(1)1.

When a career teacher is dismissed pursuant to G.S. 115C-325(e)(1)1. above, his name shall be placed on a list of available teachers to be maintained by the board. Career teachers whose names are placed on such a list shall have a priority on all positions for which they are qualified which become available in that system for the three consecutive years succeeding their dismissal. However, if the local school administrative unit offers the dismissed teacher a position for which he is certified and he refuses it, his name shall be removed from the priority list."

Sec. 6. G.S. 115C-325(f) is rewritten to read:

"(f) Suspension without pay. If a superintendent believes that cause exists for dismissing a probationary or career teacher for any reason specified in G.S. 115C-325(e)(1)a. through G.S. 115C-325(e)(1)j. and that immediate suspension of the teacher is necessary, the superintendent may suspend him without pay and without giving notice and a hearing. Within five days after a suspension under this paragraph, the superintendent shall initiate a dismissal as provided in this section. If it is finally determined that no grounds for dismissal exist, the teacher shall be reinstated immediately and shall be paid for the period of suspension.

A teacher recommended for suspension without pay pursuant to G.S. 115C-325(a)(4) may request a hearing before the board. If the teacher requests a

hearing before the board, the procedures provided in G.S. 115C-325(j) shall be followed. If no request is made within 15 days, the superintendent may file his recommendation with the board. If, after considering the recommendation of the superintendent and the evidence adduced at the hearing if one is held, the board concludes that the grounds for the recommendation are true and substantiated by a preponderance of the evidence, the board, if it sees fit, may by resolution order such suspension. Provisions of this section which permit appointment of, and investigation and review by, a panel of the Professional Review Committee shall not apply to a suspension without pay pursuant to G.S. 115C-325(a)(4)."

"The report shall contain an outline of the scope of its investigation, its findings as to whether or not the grounds for the recommendation are true and substantiated by a preponderance of the evidence, and a statement of the reasons for its findings."

Sec. 10. G.S. 115C-325(i)(5) and (6) are rewritten to read:

"(5) Within five days after the superintendent receives the report of the panel, the superintendent shall decide whether or not to submit a written recommendation for dismissal to the board or to drop the charges against the teacher and shall notify the teacher, in writing, of the decision. Within five days after receiving the superintendent's notice of his intent to recommend the teacher's dismissal to the board, the teacher shall decide whether to request a hearing before the board and shall notify the superintendent, in writing, of the decision. If the teacher requests a hearing before the board, the superintendent shall submit his written recommendation to the board with a copy to the teacher within five days after receiving the teacher's request. The superintendent's recommendation shall state the grounds for the recommendation and shall be accompanied by a copy of the report of the panel of the Committee.

"(6) Within seven days after receiving the superintendent's recommendation and before taking any formal action, the board shall set a time and place for the hearing and notify the teacher by certified mail of the date, time and place of the hearing. The time specified shall not be less than seven nor more than 20 days after the board has notified the teacher. If the teacher did not request a hearing, the board may, by resolution, dismiss the teacher. If the teacher can show that his request for a hearing was postmarked within the time provided, his right to a hearing is not forfeited."

Sec. 11. G.S. 115C-325(j) is amended by deleting the period at the end of the first sentence and substituting the words "or to any hearing conducted by a board pursuant to G.S. 115C-325(h)(3)." and by adding two new subdivisions to read:

"(4) Rules of evidence shall not apply to a hearing conducted pursuant to this act and boards and panels of the Professional Review Committee may give

'probative effect to evidence that is of a kind commonly relied on by reasonably prudent persons in the conduct of serious affairs.

"(5) At least five days before the hearing, the superintendent shall provide to the teacher a list of witnesses the superintendent intends to present, a brief statement of the nature of the testimony of each witness and a copy of any documentary evidence he intends to present. At least three days before the hearing, the teacher shall provide to the superintendent a list of witnesses the teacher intends to present, a brief statement of the nature of the testimony of each witness and a copy of any documentary evidence he intends to present. Additional witnesses or documentary evidence may not be presented except upon consent of both parties or upon a majority vote of the board or panel."

Sec. 12. G.S. 115C-325(k)(2) is amended by adding after the word "substantiated" the words "by a preponderance of the evidence."

Sec. 13. G.S. 115C-325(l)(4) is amended by adding a second sentence to read:

(1) to construct, equip, operate, and maintain hospital facilities;

(2) to levy property taxes pursuant to G.S. 153A-149 or G.S. 160A-209 and to allocate those and other revenues whose use is not otherwise restricted by law to fund hospital facilities; a hospital district may levy annually a tax on property having a situs in the district under the rules and according to the procedures prescribed in the Machinery Act, Chapter 105 of the General Statutes, Subchapter II, and a hospital district may allocate those and other revenues whose use is not otherwise restricted by law to fund hospital facilities;

(b) A municipality may contract with or otherwise arrange with other municipalities of this or other states, federal or public agencies or with any person, private organization or nonprofit association for the provision of hospital, clinical, or similar services. The municipality may pay for these services from appropriations or other moneys available for these purposes.

(c) Any two or more municipalities may enter into agreements to jointly exercise the powers, privileges, and authorities granted by this Part. These agreements may provide for:

(1) The appointment of a board, composed of representatives of the parties to the agreement, to supervise and manage a hospital facility;

(d) A municipality may lease any hospital facility, or part, to a nonprofit association on terms and conditions consistent with the purposes of this Part. The municipality will determine the length of the lease. No lease executed under this subsection shall be deemed to convey a freehold interest.

(e) A municipality shall not sell nor convey any rights of ownership the municipality has in any hospital facility, including the buildings, land and equipment associated with the hospital, to any corporation or other business entity operated for profit, except that nothing herein shall prohibit the sale of surplus buildings, surplus land or surplus equipment by a municipality to any corporation or other business entity operated for profit.

A municipality may lease any hospital facility, or part, to any corporation, foreign or domestic, authorized to do business in North Carolina on terms and conditions consistent with the purposes of this Part and with G.S. 160A-272. The municipality shall determine the length of the lease; however, no lease under this subsection shall be longer than 10 years, including options to renew or extend the original term of the lease, except that leases of surplus buildings, surplus land or surplus equipment may be for any length of time determined by the municipality. "§ 131E-8. *Sale of hospital facilities to nonprofit corporations.*—(a) A municipality as defined in G.S. 131E-6(5) or hospital authority as defined in G.S. 131E-16(14), upon such terms and conditions as it deems wise, with or without monetary consideration, may sell or convey to a nonprofit corporation

organized under Chapter 55A of the General Statutes any rights of ownership the municipality or hospital authority has in a hospital facility including the building, land and equipment associated with the hospital, if the nonprofit corporation is legally committed to continue to operate the facility as a community general hospital open to the general public, free of discrimination based upon race, creed, color, sex or national origin. The nonprofit corporation shall also agree, as a condition of the municipality or hospital authority's conveying ownership, to provide such services to indigent patients as the municipality or hospital authority and the nonprofit corporation shall agree. The nonprofit corporation shall further agree that should it fail to operate the facility as a community general hospital open to the general public or should the nonprofit corporation dissolve without a successor nonprofit corporation to carry out the terms and conditions of the agreement of conveyance, all ownership rights in the hospital facility, including the building, land and equipment associated with the hospital, shall revert to the municipality or hospital authority or successor entity originally conveying the hospital.

(b) When either general obligation bonds or revenue bonds issued for the benefit of the hospital to be conveyed are outstanding at the time of sale or conveyance, then the nonprofit corporation must agree to the following:

By the effective date of sale or conveyance, the nonprofit corporation shall place into an escrow fund money or direct obligations of, or obligations the principal of and interest on which, are unconditionally guaranteed by the United States of America (as approved by the Local Government Commission), the principal of and interest on which, when due and payable, will provide sufficient money to pay the principal of and the interest and redemption premium, if any, on all bonds then outstanding to the maturity date or dates of such bonds or to the date or dates specified for the redemption thereof. The nonprofit corporation shall furnish to the Local Government Commission such evidence as the Commission may require that the securities purchased will satisfy the requirements of this section.

A hospital which has placed funds in escrow to retire outstanding general obligation or revenue bonds, as provided in this section, shall not be considered a public hospital, and G.S. 159-39(a)(3) shall be inapplicable to such hospitals.

(c) Any sale or conveyance under this section must be approved by the municipality or hospital authority by a resolution adopted at a regular meeting of the governing body on 10 days' public notice. Notice shall be given by publication describing the hospital facility to be conveyed, the proposed monetary consideration or lack thereof, and the governing body's intent to authorize the sale or conveyance.

(d) Neither G.S. 153A-176 nor Article 12 of Chapter 160A of the General Statutes shall apply to sales or conveyances pursuant to this section.

"§ 131E-9. *Governing authority of hospital facilities.*—(a) The governing body of a municipality may establish by resolution an office, board, or other municipal agency to plan, establish, construct, maintain, or operate a hospital facility. (3) The appointed members of the authority shall be appointed by the county board of commissioners. All appointed members shall be residents of the county. Three of the members shall be residents of a city in the county and the remaining three members shall not be residents of the same city or cities in which the other three members appointed under this subdivision reside.

(4) For the initial appointments to the county hospital authority, two of the members shall be appointed for a term of three years, two for a term of four years, and two for a term of five years to achieve staggered terms. All subsequent appointments shall be for five-year terms.

(5) The ex officio member of the county hospital authority shall be a member of the county board of commissioners. The ex officio member's term on the hospital authority shall be commensurate with his or her term as a member of the county board of commissioners.

(6) When any member of the county hospital authority resigns or is removed from office before the expiration of the member's term, the county board of commissioners shall appoint a person to serve the unexpired portion of the term.

(c) Any authority vested in a county under this Part or any authority or power that may be exercised by a hospital authority under the Hospital Authorities Act, Chapter 131E, Article 2, Part B, may be vested by resolution of the county board of commissioners in a county hospital authority established under this section. However, a county hospital authority shall exercise only the powers and duties prescribed in the county board of commissioners' resolution. The county board of commissioners shall determine in the resolution the compensation, traveling and any other expenses which shall be paid to each member of the county hospital authority. However, the expenses to plan, establish, construct and operate the hospital facility shall remain the responsibility of the county.

"§ 131E-10. *Condemnation.*—Every municipality is authorized to condemn property to carry out the purposes of this Part. In condemning property, a municipality shall proceed in the manner provided in Chapter 40A of the General Statutes or in the charter of the municipality. A municipality or its agents is authorized to enter upon land, provided no unnecessary damage is done, to make surveys and examinations relative to any condemnation proceeding. Notwithstanding the provisions of any other statute or of any applicable municipal charter, the municipality may take possession of property to be condemned at any time after the commencement of the condemnation proceeding. The municipality shall not be precluded from abandonment of the condemnation of property in any case where possession has not taken place.

"§ 131E-11. *Federal and State aid.*—Every municipality or nonprofit association is authorized to accept and disburse federal and State moneys, whether made available by grant, loan, gift or devise, to carry out the purposes of this Part. All federal moneys shall be accepted and disbursed upon the terms

and conditions prescribed by the United States, if the terms and conditions are consistent with State law. All State moneys shall be accepted and disbursed upon the terms and conditions prescribed by either or both the State and the North Carolina Medical Care Commission. Unless the terms and conditions provide otherwise, the chief financial officer of the municipality shall deposit all moneys received under this section and keep them in separate trust funds.

"§ 131E-12. *Public purposes.*—The exercise of the powers, privileges, and authorities conferred on municipalities by this Part are public and governmental functions, exercised for a public purpose and matters of public necessity. In the case of a county, the exercise of the powers, privileges and authorities conferred by this Part is a county function and purpose, as well as a public and governmental function. In the case of any municipality other than a county, the exercise of the powers, privileges, and authorities conferred by this Part is a municipal function and purpose, as well as a public and governmental function.

The application shall be subscribed and sworn to by each of the commissioners before an officer authorized by the laws of this State to take and certify oaths. (2) have any interest, direct or indirect, in any contract or proposed contract for materials or services to be furnished or used in connection with any hospital facility, except an employment contract for an employee. The foregoing restriction shall not apply to any contract, undertaking, or other transaction with a bank or banking institution, savings and loan association or public utility in the regular course of its business; provided that any such contract, undertaking, or other transaction shall be authorized by the commissioners by specific resolution on which no commissioner having an interest, direct or indirect, shall vote.

If a commissioner or employee of an authority owns or controls an interest, direct or indirect, in any property included or planned to be included in any hospital facility, the commissioner or employee shall immediately disclose the same in writing to the authority and the disclosure shall be entered upon the minutes of the authority. Failure to disclose shall constitute misconduct in office and shall be grounds for a commissioner's removal from office under G.S. 131E-22.

"§ 131E-22. *Removal of commissioners.*—(a) The appointing authority, as stated in G.S. 131E-18, may remove a commissioner for inefficiency, neglect of duty, or misconduct in office. A commissioner is entitled to at least 10 days after receipt of the notice to prepare for a hearing before the mayor or the chairman of the county.

(b) An obligee of the authority may file with the mayor or the chairman of the county board of commissioners written charges that the authority is willfully violating the laws of the State or a term, provision, or covenant to any contract to which the authority is a party. The mayor or the chairman of the

county board of commissioners shall give each of the commissioners a copy of the charges at least 10 days prior to the hearing on the charges. The commissioners shall be provided an opportunity to be heard in person or by counsel. The mayor or the chairman of the county board of commissioners shall, within 15 days after receipt of the charges, remove any commissioners of the authority who are found to have acquiesced in any willful violation. If a commissioner has not filed a written statement before the hearing with the authority stating his or her objections to or lack of participation in the violation, the commissioner shall be deemed to have acquiesced in a willful violation.

(c) If, after due and diligent search, a commissioner to whom charges are required to be delivered cannot be found within the county where the authority is located, the charges shall be deemed to be served upon the commissioner when it is mailed to the commissioner at the commissioner's last known address as the same appears on the records of the authority.

An owner of a removed vehicle as a condition of regaining possession of the vehicle, shall reimburse the hospital authority for all reasonable costs, not to exceed fifty dollars ($50.00), incidental to the removal and storage of the vehicle provided that the designation of the area as a no parking or restricted parking zone clearly indicates that the owner may be subject to these costs;

(30) To plan and operate hospital facilities;

(31) To provide teaching and instruction programs and schools for medical students, interns, physicians, nurses, technicians and other health care professionals;

(32) To provide and maintain continuous resident physician and intern medical services;

(33) To adopt, amend and repeal rules and regulations governing the admission of patients and the care, conduct, and treatment of patients;

(34) To establish a fee schedule for services received from hospital facilities and make the services available regardless of ability to pay;

(35) To maintain and operate isolation wards for the care and treatment of mental, contagious, or other similar diseases;

(36) To sell a hospital facility pursuant to G.S. 131E-8; and

(37) To agree to limitations upon the exercise of any powers conferred upon the hospital authority by this Part in connection with any loan by a government.

(b) A hospital authority may exercise any or all of the powers conferred upon it by this Part, either generally or with respect to any specific hospital facility or facilities, through or by designated agents, including any corporation or corporations which are or shall be formed under the laws of this State.

(c) A hospital authority shall not sell nor convey any rights of ownership the authority has in any hospital facility as defined in G.S. 131E-6(4), including the buildings, land and equipment associated with the hospital, to any corporation or other business entity operated for profit, except that nothing herein shall prohibit the sale of surplus buildings, land or equipment by a hospital authority to any corporation or other business entity operated for profit.

A hospital authority may lease any hospital facility or part to any corporation, foreign or domestic, authorized to do business in North Carolina, on terms and conditions consistent with the purposes of this Part. The hospital authority shall determine the length of the lease; however, no lease under this subsection shall be longer than 10 years, including options to renew or extend the original term of the lease, except that leases of surplus buildings, land or equipment may be for any length of time determined by the hospital authority. The lease shall provide that the hospital facility will be operated as a community general hospital open to the general public and that the lessee will accept Medicare and Medicaid patients. No lease executed under this subsection shall be deemed to convey a freehold interest. No bonds, notes nor other evidences of indebtedness shall be issued by a hospital authority to finance

equipment for or the acquisition, extension, construction, reconstruction, improvement, enlargement, or betterment of any hospital facility when the facility is leased to a corporation, foreign or domestic, authorized to do business in North Carolina.

For purposes of this subsection, 'surplus' means any building, land or equipment which is not required for use in the delivery of necessary health care services by a hospital facility at the time of the sale, conveyance of ownership rights, or lease.

This subsection shall not be construed to affect any pending litigation nor to reflect any legislative intent as to any prior authorized or executed agreements. This subsection shall be effective from the effective date of this Part until June 30, 1984.

(d) No provisions with respect to the acquisition, operation or disposition of property by other public bodies shall be applicable to a hospital authority unless otherwise specified by the General Assembly.

"§ 131E-24. *Eminent domain.*—(a) A hospital authority may acquire by eminent domain any real property, including fixtures and improvements, which it deems necessary to carry out the purposes of this Part. The hospital authority may exercise the power of eminent domain under the provisions of Chapter 40A of the General Statutes or any other statute now in force or subsequently enacted for the exercise of the power of eminent domain.

(b) No property belonging to any city, town, or county, any government, religious or charitable organization, or to any existing hospital or clinic may be acquired without its consent. No property belonging to a public utility corporation may be acquired without the approval of the commission or other officer or agency, if any, having regulatory power over the corporation.

(c) The right of eminent domain shall not be exercised unless and until a certificate of public convenience and necessity for the facility has been issued by the North Carolina Utilities Commission. The proceedings leading up to issuing of the certificate of public convenience and necessity, and the right of appeal from the proceedings shall be governed by the Public Utilities Act, Chapter 62 of the General Statutes, and the rights under that act are hereby expressly reserved to all interested parties in the proceedings. In addition to the powers now granted by law to the North Carolina Utilities Commission, the Utilities Commission is authorized to investigate and examine all facilities set up or attempted to be set up under this Part and to determine the question of public convenience and necessity for the facility.

"§ 131E-25. *Zoning and building laws.*—All hospital facilities of the authority shall be subject to the planning, zoning, sanitary and building laws, ordinances and regulations applicable to the locality in which the hospital facility is situated.

"§ 131E-26. *Revenue bonds and notes.*—(a) A hospital authority shall have the power to issue revenue bonds under the Local Government Revenue Bond Act, Chapter 159 of the General Statutes, Article 5, or the bond and revenue anticipation provisions of Chapter 159 of the General Statutes, Article 9, for the purpose of acquiring, constructing, reconstructing, improving, enlarging, bettering, equipping, extending or operating hospital facilities.

(b) A hospital authority shall have the power to borrow for the purposes above enumerated upon its notes or other evidences of indebtedness, subject to the approval of the Local Government Commission as provided in G.S.

131E-32(c). Such approval shall be required regardless of the amount of any such borrowing. Any borrowing by a hospital authority before the date of ratification of Part B of Article 2 of this Chapter, whether or not approved by the Local Government Commission, is valid, ratified and confirmed.

"§ 131E-27. *Contracts with federal government.*—A hospital authority is authorized:

(1) To borrow money and accept grants from the federal government for or to aid in the construction of a hospital facility;

(2) To acquire any land acquired by the federal government for the construction of a hospital facility; and

(3) To acquire, lease or manage any hospital facility constructed or owned by the federal government.

To these ends, a hospital authority is authorized to enter into contracts, mortgages, trust indentures, leases or other agreements giving the federal government the right to supervise and approve the construction, maintenance and operation of the hospital facility. It is the purpose and intent of this Part to authorize every hospital authority to do any and all things necessary to secure the financial aid and cooperation of the federal government in the construction, maintenance, and operation of hospital facilities.

"§ 131E-28. *Tax exemptions.*—(a) Hospital authorities shall be exempt from the payment of taxes or fees to the State or any of its subdivisions, or to any officer or employee of the State or any of its subdivisions.

(b) Hospital authority property used for public purposes shall be exempt from all local and municipal taxes and for the purposes of this tax exemption, an authority shall be deemed to be a municipal corporation.

(c) Bonds, notes, debentures or other evidences of indebtedness of a hospital authority issued under the Local Government Revenue Bond Act, Chapter 159 of the General Statutes, Article 5, or issued pursuant to the bond and revenue anticipation provisions of Chapter 159 of the General Statutes, Article 9, or issued pursuant to G.S. 131E-26(b) or contracted pursuant to G.S. 131E-32 and the transfer of and income from such instruments, including profits on sales, shall at all times be free from taxation by the State or any of its subdivisions, except for inheritance or gift taxes.

"§ 131E-29. *Audits and recommendations.*—Each hospital authority shall file with the mayor of the city or the chairman of the county board of commissioners at least annually an audit report by a certified public accountant of its activities for the preceding year, and shall make any recommendations necessary to carry out the purposes of this Part.

"§ 131E-30. *Appropriations.*—Each year the governing body of a city or county in which the hospital authority is located may appropriate and transfer funds to the authority. The appropriations shall be from the General Fund and may not exceed five percent (5%) of the General Fund. Money appropriated and paid to the hospital authority by a city or county shall be deemed a necessary expense of the city or county. However, the appropriations shall not be deemed to be a revenue of the authority for the purpose of bonds of the hospital authority issued under the Local Government Revenue Bond Act, Chapter 159 of the General Statutes, Article 5.

"§ 131E-31. *Transfers of property by a city or county to a hospital authority.*—(a) A city or county may lease, sell, convey, or otherwise transfer, with or without consideration or with nominal consideration, any property,

whether real or personal or mixed, to a hospital authority whose territorial boundaries include at least part of the city or county. A hospital authority is authorized to accept such lease, transfer, assignment or conveyance and to bind itself to the performance and observation of any agreements and conditions required by the city or county.

(b) If a city or county sells, conveys, or otherwise irrevocably transfers to a hospital authority property with a market value in excess of two hundred fifty thousand dollars ($250,000), and if the hospital authority accepts this property, the mayor of the city or the chairman of the county board of commissioners shall have the right to name additional commissioners to serve on the authority. The number of additional commissioners shall be such that the proportion of additional commissioners to existing commissioners is approximately equal to the proportion of the total value being transferred to the hospital authority to the total value of property already held by the authority. The determination of the ratios will be made solely by the governing body of the city or county transferring the property to the hospital authority; however, in no event shall fewer than two nor more than nine commissioners be added to the hospital authority. The total number of commissioners shall be increased by the number of commissioners added under this subsection. The times of commencement and expiration of the initial terms of the commissioners being added shall be determined by agreement between the hospital authority and the governing body of the city or county. After the expiration of the initial terms, subsequent terms will be three years. Copies of the agreement setting out the number of persons being added and the terms of each shall be filed with the clerk of the city or the clerk of the county board of commissioners making the transfer and, thereafter, copies of the reports referred to in G.S. 131E-29 shall be filed with the clerk of the city or the clerk of the county board of commissioners.

"§ 131E-32. *Purchase money security interests.*—(a) An authority shall have the power and authority to purchase real or personal property under installment contracts, purchase money mortgages or deeds of trust, or other instruments, which create in the property purchased a security interest to secure payment of the purchase price and interest thereon. No deficiency judgment may be rendered against any authority for breach of an obligation authorized by this section. Any contract made or entered into by an authority before the date of ratification of Part B of Article 2 of this Chapter which would have been valid hereunder is valid, ratified and confirmed.

(b) A hospital authority may contract pursuant to this section in an amount of less than seven hundred fifty thousand dollars ($750,000), adjusted, as hereinafter provided, in any single transaction without the approval of the Local Government Commission: provided, however, that the approval of the Local Government Commission shall be required for any single contract pursuant to this section if the aggregate dollar amount of all such contracts outstanding after any such single transaction, exclusive of revenue bonds issued pursuant to G.S. 131E-26 and federal contracts entered pursuant to G.S. 131E-27, would exceed ten percent (10%) of the total operating revenues, as hereinafter defined, of the hospital authority for its most recently completed fiscal year as set forth in the audited financial statements of such authority for such fiscal year. The approval of the Local Government Commission shall be required with respect to any single contract pursuant to this section in an

amount of seven hundred fifty thousand dollars ($750,000) or more, adjusted as hereinafter provided.

(c) Approval of the Local Government Commission under this section or as required by G.S. 131E-26(b) shall be obtained in accordance with such rules and regulations as the Local Government Commission may prescribe and shall be evidenced by the secretary's certificate on the contract or note or other evidence of indebtedness. In determining whether to approve any such contract or borrowing, the Local Government Commission shall consider whether the hospital authority can demonstrate the financial responsibility and capability of the hospital authority to fulfill its obligations with respect to such contract or borrowing. The Local Government Commission may approve the application without other findings, if it finds that (i) the proposed project or the purpose of the borrowing is necessary and expedient, (ii) the contract or the borrowing, under the circumstances, is preferable to a bond issue for the same purpose, (iii) the sums to fall due under the contract or borrowing are adequate and not excessive for the proposed purpose, (iv) the authority's debt management procedures are good, or that reasonable assurances have been given that its debt will henceforth be managed in strict compliance with law and (v) the authority is not in default on any of its debt service obligations. Any contract or borrowing subject to this subsection requiring the approval of the Local Government Commission that does not bear the secretary's certificate thereon shall be void, and it shall be unlawful for any officer, employee or agent of a hospital authority to make any payments of money thereunder. An order of the Local Government Commission approving any such contract or borrowing shall not be regarded as an approval of the legality of the contract or borrowing in any respect.

(d) The seven hundred fifty thousand dollar ($750,000) amount referred to in G.S. 131E-32(b) shall be in effect from the date of ratification of Part B of Article 2 of this Chapter through September 30, 1984. For each twelve-month period thereafter, the seven hundred fifty thousand dollar ($750,000) amount shall be the figure in effect for the preceding twelve-month period, adjusted to reflect the change in the preceding twelve-month period in the Department of Commerce Composite Construction Cost Index.

(e) For purposes of G.S. 131E-32(b), the 'total operating revenues' of a hospital authority for a fiscal year means patient revenue, less provisions for contractual adjustments, uncompensated care and bad debts, plus other operating revenues, all as determined in accordance with generally accepted accounting principles.

"§ 131E-33. *Part controlling.*—Insofar as the provisions of this Part are inconsistent with the provisions of any other law, the provisions of this Part shall be controlling; however this Part shall not be construed as preventing a city, town, or county from establishing and operating a hospital under the authority of any other law now or hereafter in effect.

"§ 131E-34. *Part applicable to City of High Point.*—All the provisions of this Part shall apply to the City of High Point, Guilford County, North Carolina, as fully as if the population of the city exceeded 75,000 inhabitants.

"§ 131E-35 through 131E-39: Reserved for future codification purposes.

"Part C. Hospital District Act.

"§ 131E-40. *Title and purpose.*—(a) This Part shall be known as the 'Hospital District Act'.

(b) It is the purpose of this Part to authorize the creation of hospital districts to furnish hospital, clinical and similar services to the people of this State.

(c) This Part provides an additional and alternative method for the provision of hospital, clinical and similar services.

(d) This Part shall be construed liberally to effect its purposes.

"§ 131E-41. *Methods of creation of a hospital district.*—(a) The voters of an area may petition their county board of commissioners and the North Carolina Medical Care Commission for the creation of a hospital district. All of the area proposed to be included within a hospital district must be located within one county. The petition shall be signed by at least 500 voters of the area described in the petition. However, if the area has less than 1,100 voters, then the minimum number of petitioners shall be 250 voters. The petition shall set forth:

(1) A description of the area to be included within the proposed hospital district;

(2) The names of all municipalities located in whole or in part in the proposed hospital district;

(3) The names of all publicly owned hospitals in the proposed hospital district;

(4) The purpose or purposes sought to be accomplished by the creation of the hospital district; and

(5) The proposed name of the hospital district.

The petition shall be delivered to the county board of commissioners of the county in which the proposed hospital district would be located. If the county board of commissioners approves the creation of the hospital district, they shall have the petition delivered to the North Carolina Medical Care Commission for review under G.S. 131E-42.

(b) In the alternative, the county board of commissioners, in its discretion, may create a hospital district by resolution. This authority exists only when one hospital district already exists in the county, or when a special tax levy for hospital purposes has been authorized or is now authorized with respect to a portion of the county. This power is limited to establishing a hospital district in the area lying outside the existing hospital district or outside the portion of the county in which a hospital tax levy has been or is now authorized. When a county board of commissioners exercises its power under this subsection, all other provisions of this Part shall be applicable, except as modified by this subsection.

"§ 131E-42. *Hearing and determination.*—(a) After receipt of a petition for the creation of a hospital district that meets the requirements of G.S. 131E-41(a) and that has been approved by the county board of commissioners, the North Carolina Medical Care Commission shall give notice of a hearing on the creation of a hospital district. The notice of hearing shall be posted at the county courthouse door and at three public places within the proposed district. In addition, notice of hearing shall be published at least once for three successive weeks in a newspaper circulating in the proposed district. The notice of hearing shall specify:

(1) The date of hearing which shall not be earlier than 20 days after the first posting and publication of notice;

(2) The location of the hearing, which shall be within the county in which the proposed district would be located; and

(3) That any interested person may appear and be heard at the hearing.

(b) At the time and place specified in the notice of hearing, the North Carolina Medical Care Commission, or its designee, shall hear all interested persons, and, if necessary, adjourn and reconvene at a later time.

(c) After the hearing, the North Carolina Medical Care Commission shall determine if it is in the public interest and beneficial to the residents of the area to create a hospital district, and, if it is, shall adopt a resolution creating the hospital district. The resolution shall define the area to be included in the hospital district. The area shall either be the one described in the petition or a part of that area. However, no municipality, in whole or in part, shall be included in a hospital district unless the governing body of the municipality shall have approved by resolution the inclusion and shall have filed a certified copy of the resolution with the North Carolina Medical Care Commission.

(d) Each hospital district shall be designated by the North Carolina Medical Care Commission as the '____ Hospital District of ____County,' inserting in the blank spaces a name identifying the locality and the name of the county.

(e) The North Carolina Medical Care Commission shall give notice of the creation of a hospital district. The notice shall be published at least once for two successive weeks in the newspaper in which the notice of hearing required by G.S. 131E-42(a) was published. A notice substantially in the following form, the blanks first being properly filled in, with the printed or written signature of the executive secretary of the North Carolina Medical Care Commission appended, shall be published with the resolution:

> The foregoing resolution was passed by the North Carolina Medical Care Commission on the ____ day of _____, 19__; it was first published on the ____ day of _____, 19__.
>
> Any action or proceeding questioning the validity of the resolution or creation of the _____ Hospital District of _____ County or the inclusion in the district of any of the areas described in the resolution must be commenced within thirty days after the first publication of this resolution.
>

"§ 131E-43. *Limitation of actions.*—Any action or proceeding in any court to set aside a resolution of the North Carolina Medical Care Commission creating any hospital district, or questioning the validity of the resolution, or the creation of any hospital district, or the inclusion in the district of any of the territory described in the resolution creating the district, must be commenced within 30 days after the first publication of the resolution and notice required by G.S. 131E-42(e). Thereafter, no right of action or defense founded upon the invalidity of a resolution or the creation of a district or the inclusion of any territory in the district shall be asserted, nor shall the validity of the resolution or the creation of the district or the inclusion of any territory be open to question in any court upon any ground, except in any action or proceeding commenced within the 30-day period.

"§ 131E-44. *General powers.*—(a) The inhabitants of a hospital district are a body corporate and politic by the name specified by the North Carolina Medical Care Commission. Under that name they:

(3) may sue or be sued;

"§ 131E-45. *County taxes.*—The county board of commissioners may levy a tax for the financing of the operation, equipment, and maintenance of any hospital operated by the district, including any public or nonprofit hospital, if the tax is approved by a majority of the qualified voters of the hospital district who shall vote on the question of levying the tax. The county board of commissioners shall determine the rate or amount of taxes that will be levied if approved by the voters of the district. The election on the question of levying the tax may be held at any time fixed by the county board of commissioners and shall be conducted in the same manner as bond elections held under G.S. 159-61.

"§ 131E-46. *Referendum on repeal of tax levy.*—(a) The board of commissioners of the county in which a hospital district was created under the provisions of this Part may, if a tax levy was authorized by referendum under G.S. 131E-45, call a referendum on the repeal of the authority to levy a tax. Such referendum may be called only if there are no outstanding general obligation bonds of the district.

(b) The question on the ballot shall be:

(d) If a majority of the votes cast are in favor of the question, then beginning on the first day of the fiscal year following the date of the referendum, the board of county commissioners shall have no authority to levy a tax in the

hospital district unless the voters approve under G.S. 131E-45. No referendum may be held within one year of the date of a referendum under this section.

"§ 131E-47. *Governing body.*—The board of county commissioners of the county in which a hospital district is located shall be the governing body of the district. All of the provisions of the Municipal Hospital Act, Chapter 131E, Article 2, Part A, shall apply to the hospital district and to the county board of commissioners as the governing body.

(e) The Department shall issue the license to the operator of the hospital who shall not transfer or assign it except with the written approval of the Department.

(f) The operator shall post the license on the licensed premises in an area accessible to the public.

"§ 131E-78. *Adverse action on a license.*—(a) The Department shall have the authority to deny, suspend, revoke, annul, withdraw, recall, cancel, or amend a license in any case when it finds a substantial failure to comply with the provisions of this Part or any rule promulgated under this Part.

(b) The Department shall conduct a hearing in accordance with Chapter 150A of the General Statutes, the Administrative Procedure Act, when:

(1) The Department denies an application and the applicant requests a hearing; or

(2) The Department initiates proceedings under subsection (a).

(c) Any applicant or operator who is dissatisfied with the decision of the Department as a result of the hearing provided in this section and after a written copy of the decision is served, may request a judicial review under Chapter 150A of the General Statutes, the Administrative Procedure Act.

"§ 131E-79. *Rules and enforcement.*—(a) The Commission shall promulgate rules necessary to implement this Article.

(b) The Department shall enforce this Article and the rules of the Commission.

"§ 131E-80. *Inspections.*—(a) The Department shall make or cause to be made inspections as it may deem necessary. Any hospital licensed under this Part shall at all times be subject to inspections by the Department according to the rules of the Commission.

(b) The Department may delegate to any state officer or agency the authority to inspect hospitals. The Department may revoke this delegated authority at its discretion and make its own inspections.

(c) Authorized representatives of the Department shall have at all times the right of proper entry upon any and all parts of the premises of any place in which entry is necessary to carry out the provisions of this Part or the rules

adopted by the Commission; and it shall be unlawful for any person to resist a proper entry by such authorized representative upon any premises other than a private dwelling. However, no representative shall, by this entry onto the premises, endanger the health or well being of any patient being treated in the hospital.

(d) To enable the Department to determine compliance with this Part and the rules promulgated under the authority of this Part and to investigate complaints made against a hospital licensed under this Part, while maintaining the confidentiality of the complainant, the Department shall have the authority to review any writing or other record in any recording medium which pertains to the admission, discharge, medication, treatment, medical condition, or history of persons who are or have been patients of the hospital licensed under this Part and the personnel records of those individuals employed by the licensed hospital. The examinations of these records is permitted notwithstanding the provisions of G.S. 8-53, 'Communications between physician and patient', or any other provision of law relating to the confidentiality of communications between physician and patient. Proceedings of medical review committees are exempt from the provisions of this section. The hospital, its employees, and any person interviewed during these inspections shall be immune from liability for damages resulting from the disclosure of any information to the Department. Any confidential or privileged information received from review of records or interviews shall be kept confidential by the Department and not disclosed without written authorization of the patient, employee or legal representative, or unless disclosure is ordered by a court of competent jurisdiction. The Department shall institute appropriate policies and procedures to ensure that this information shall not be disclosed without authorization or court order. The Department shall not disclose the name of anyone who has furnished information concerning a hospital without the consent of that person. Any officer, administrator, or employee of the Department who willfully discloses confidential or privileged information without appropriate authorization or court order shall be guilty of a misdemeanor and upon conviction shall be fined in the discretion of the court but not in excess of five hundred dollars ($500.00). Neither the names of persons furnishing information nor any confidential or privileged information obtained from records or interviews shall be considered 'public records' within the meaning of G.S. 132-1, 'Public Records' defined.

(e) Information received by the Commission and the Department through filed reports, license applications, or inspections that are required or authorized by the provisions of this Part, may be disclosed publicly except where this disclosure would violate the confidential relationship existing between physician and patient. However, no such public disclosure shall identify the patient involved without permission of the patient or court order.

"§ 131E-81. *Penalties.*—(a) Any person establishing, conducting, managing, or operating any hospital without a license shall be guilty of a misdemeanor, and upon conviction shall be liable for a fine of not more than fifty dollars ($50.00) for the first offense and not more than five hundred dollars ($500.00) for each subsequent offense. Each day of a continuing violation after conviction shall be considered a separate offense.

(b) Except as otherwise provided in this Part, any person who willfully violates any provision of this Part or who willfully fails to perform any act

required, or who willfully performs any act prohibited by this Part, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine or by imprisonment for a period not to exceed two years or by both such fine and imprisonment in the discretion of the court. However, any person who willfully violates any rule adopted by the Commission under this Part or who willfully fails to perform any act required by, or who willfully does any act prohibited by, these rules shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed fifty dollars ($50.00) or by imprisonment for a period not to exceed 30 days.

"§ 131E-82. *Injunction.*—(a) Notwithstanding the existence or pursuit of any other remedy, the Department may, in the manner provided by law, maintain an action in the name of the State for injunction or other process against any person or governmental unit to restrain or prevent the establishment, conduct, management or operation of a hospital without a license.

(b) If any person shall hinder the proper performance of duty of the Secretary or a representative in carrying out the provisions of this Part, the Secretary may institute an action in the superior court of the county in which the hindrance occurred for injunctive relief against the continued hindrance, irrespective of all other remedies at law.

(c) Actions under this section shall be in accordance with Article 37 of Chapter 1 of the General Statutes, and Rule 65 of the Rules of Civil Procedure.

"§ 131E-83 through 131E-84: Reserved for future codification purposes.

"Part B. Hospital Privileges.

"§ 131E-85. *Hospital privileges and procedures.*—(a) The granting or denial of privileges to practice in hospitals to physicians licensed under Chapter 90 of the General Statutes, Article 1, dentists and podiatrists and the scope and delineation of such privileges shall be determined by the governing body of the hospital. Such determinations shall be based upon the applicant's education, training, experience, demonstrated competence and ability, and judgment and character of the applicant, and the reasonable objectives and regulations of the hospital, including, but not limited to appropriate utilization of hospital facilities, in which privileges are sought. Nothing in this Part shall be deemed to mandate hospitals to grant or deny to any such individuals or others privileges to practice in hospitals.

(b) The procedures to be followed by a licensed hospital in considering applications of dentists and podiatrists for privileges to practice in such hospitals shall be similar to those applicable to applications of physicians licensed under Chapter 90 of the General Statutes, Article 1. Such procedures shall be available upon request.

(c) In addition to the granting or denial of privileges, the governing body of each hospital may suspend, revoke, or modify privileges.

(d) All applicants or individuals who have privileges shall comply with all applicable medical staff bylaws, rules and regulations, including the policies and procedures governing the qualifications of applicants and the scope and delineation of privileges.

"§ 131E-86. *Limited privileges.*—(a) It shall be unlawful for an individual who is not licensed under Chapter 90 of the General Statutes, Article 1, to admit a patient to a hospital without written proof in accordance with the policy of the governing body of the hospital that a physician licensed under Chapter 90 of the General Statutes, Article 1, who is a member of the medical staff will be

responsible for the performance of a basic medical appraisal and for the medical needs of the patient. The governing body of a hospital may waive this requirement for a dentist licensed under Chapter 90 of the General Statutes, Article 2, to the extent authorized by this statute, who has successfully completed a postgraduate program in oral and maxillofacial surgery accredited by the American Dental Association.

(b) The governing body of each hospital shall not grant privileges that exceed the scope of a license.

"§ 131E-87. *Reports of disciplinary action; immunity from liability.*—The chief administrative officer of every licensed hospital in the State shall report to the appropriate occupational licensing board any revocation, suspension, or limitation of privileges to practice in that hospital. Each hospital shall also report to the board its medical staff resignations. Any person making a report required by this section shall be immune from any resulting criminal prosecution or civil liability unless the person knew the report was false or acted in reckless disregard of whether the report was false.

"§ 131E-88 through 131E-89: Reserved for future codification purposes.

"Part C. Discharge from Hospital.

"§ 131E-90. *Authority of administrator; refusal to leave after discharge.*—The case of a patient who refuses or fails to leave the hospital upon discharge by the attending physician shall be reviewed by two physicians licensed to practice medicine in this State, one of whom may be the attending physician. If in the opinion of the physicians, the patient should be discharged as cured or as no longer needing treatment or for the reason that treatment cannot benefit the patient's case or for other good and sufficient reasons, the patient's refusal to leave shall constitute a trespass. The patient shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine not to exceed fifty dollars ($50.00) or imprisoned not more than 30 days.

"§ 131E-91 through 131E-94: Reserved for future codification purposes.

"Part D. Medical Review Committee.

"§ 131E-95. *Medical review committee.*—(a) A member of a duly appointed medical review committee who acts without malice or fraud shall not be subject to liability for damages in any civil action on account of any act, statement or proceeding undertaken, made, or performed within the scope of the functions of the committee.

(b) The proceedings of a medical review committee, the records and materials it produces and the materials it considers shall be confidential and not considered public records within the meaning of G.S. 132-1, 'Public Records' defined, and shall not be subject to discovery or introduction into evidence in any civil action against a hospital or a provider of professional health services which results from matters which are the subject of evaluation and review by the committee. No person who was in attendance at a meeting of the committee shall be required to testify in any civil action as to any evidence or other matters produced or presented during the proceedings of the committee or as to any findings, recommendations, evaluations, opinions, or other actions of the committee or its members. However, information, documents, or records otherwise available are not immune from discovery or use in a civil action merely because they were presented during proceedings of the committee. A member of the committee or a person who testifies before the committee may

testify in a civil action but cannot be asked about his testimony before the committee or any opinions formed as a result of the committee hearings.

"§ 131E-96 through 131E-99: Reserved for future codification purposes.

"Article 6.

"Health Care Facility Licensure Act.

"Part A. Nursing Home Licensure Act.

"§ 131E-100. *Title; purpose.*—(a) This Part shall be known as the 'Nursing Home Licensure Act'.

(b) The purpose of the Nursing Home Licensure Act is to establish authority and duty for the Department to inspect and license private nursing homes.

"§ 131E-101. *Definitions.*—As used in this Part, unless otherwise specified:

(a) 'Combination home' means a nursing home offering one or more levels of care, including any combination of skilled nursing, intermediate care, and domiciliary home.

(b) 'Commission' means the North Carolina Medical Care Commission.

(c) 'Community advisory committee' means a nursing home advisory committee established for the statutory purpose of working to carry out the intent of the Nursing Home Patients' Bill of Rights (Chapter 131E, Article 6, Part B) in accordance with G.S. 143B-181.1.

(d) 'Domiciliary home', as distinguished from a nursing home, means a facility operated as a part of a nursing home and which provides residential care for aged or disabled persons whose principal need is a home with the sheltered or personal care their age or disability requires. Medical care in a domiciliary home is usually occasional or incidental, such as may be required in the home of any individual or family, but the administration of medication is supervised. Continuing planned medical and nursing care to meet the resident's needs may be provided under the direct supervision of a physician, nurse, or home health agency. Domiciliary homes are to be distinguished from nursing homes subject to licensure under this Part. The three types of domiciliary homes are homes for the aged and disabled, family care homes and group homes for developmentally disabled adults.

(e) 'Medical review committee' means a committee of a State or local professional society, of a medical staff of a licensed hospital, of physicians having privileges within the nursing home or of a peer review corporation or organization which is formed for the purpose of evaluating the quality, cost of or necessity for health care services under applicable federal statutes.

(f) 'Nursing home' means a facility, however named, which is advertised, announced, or maintained for the express or implied purpose of providing nursing or convalescent care for three or more persons unrelated to the licensee. A 'nursing home' is a home for chronic or convalescent patients, who, on admission, are not as a rule, acutely ill and who do not usually require special facilities such as an operating room, X-ray facilities, laboratory facilities, and obstetrical facilities. A 'nursing home' provides care for persons who have remedial ailments or other ailments, for which medical and nursing care are indicated; who, however, are not sick enough to require general hospital care. Nursing care is their primary need, but they will require continuing medical supervision.

(g) 'Peer review committee' means any committee appointed in accordance with G.S. 131E-108, 'Peer review'.

"§ 131E-102. *Licensure requirements.*—(a) No person shall operate a nursing home without a license obtained from the Department. Any person may operate a nursing home or a combination home, as defined in this Part, in the same building or in two or more buildings adjoining or next to each other on the same site. Both a nursing home and a combination home must be licensed by the Department under this Part.

(b) Applications shall be available from the Department, and each application filed with the Department shall contain all necessary and reasonable information that the Department may by rule require. A license shall be granted to the applicant upon a determination by the Department that the applicant has complied with the provisions of this Part and the rules promulgated under this Part.

(c) A license to operate a nursing home shall be annually renewed upon the filing and the Department's approval of the renewal application. The renewal application shall be available from the Department and shall contain all necessary and reasonable information that the Department may by rule require.

(d) Each license shall be issued only for the premises and persons named in the application and shall not be transferable or assignable except with the written approval of the Department.

(e) In order for a nursing home to maintain its license it shall not intentionally impede the proper performance of the duties of a lawfully appointed community advisory committee as set forth in G.S. 131E-128(h).

"§ 131E-103. *Adverse action on a license.*—(a) Subject to subsection (b), the Department shall have the authority to deny a new or renewal application for a license, and to amend, recall, suspend or revoke an existing license upon a determination that there has been a substantial failure to comply with the provisions of this Part or the rules promulgated under this Part.

(b) The provisions of Chapter 150A of the General Statutes, the Administrative Procedure Act, shall govern all administrative action and judicial review in cases where the Department has taken the action described in subsection (a).

"§ 131E-104. *Rules and enforcement.*—(a) The Commission is authorized to adopt, amend, and repeal all rules necessary for the implementation of this Part.

(b) The Commission shall adopt rules for the operation of the domiciliary portion of a combination home that are equal to the rules adopted by the Social Services Commission for the operation of freestanding domiciliary homes. The domiciliary portion of a combination home in existence on January 1, 1982, shall be exempt from physical plant minimum standards, unless the Department determines the exemption to be an imminent hazard to health, safety and welfare of the residents.

(c) The Department shall enforce the rules adopted or amended by the Commission with respect to nursing homes.

"§ 131E-105. *Inspections.*—(a) The Department shall inspect any nursing home and any domiciliary home operated as a part of a nursing home in accordance with rules adopted by the Commission.

(b) Notwithstanding the provisions of G.S. 8-53, 'Communications between physician and patient', or any other provision of law relating to the confidentiality of communications between physician and patient, the representatives of the Department, when necessary for investigating

compliance with this Part or rules promulgated by the Commission, may review any writing or other record in any recording medium which pertains to the admission, discharge, medication, treatment, medical condition, or history of persons who are or have been patients of the facility being inspected unless that patient objects in writing to review of that patient's records. Physicians, psychologists, psychiatrists, nurses, and anyone else interviewed by representatives of the Department may disclose to these representatives information related to any inquiry, notwithstanding the existence of the physician-patient privilege in G.S. 8-53, 'Communications between physician and patient', or any other rules of law, if the patient has not made written objection to this disclosure. The facility, its employees, and any person interviewed during these inspections shall be immune from liability for damages resulting from the disclosure of any information which is provided without malice or fraud to the Department. Any confidential or privileged information received from review of records or interviews shall be kept confidential by the Department and not disclosed without written authorization of the patient or legal representative or unless disclosure is ordered by a court of competent jurisdiction. The Department shall institute appropriate policies and procedures to ensure that this information shall not be disclosed without authorization or court order. The Department shall not disclose the name of anyone who has furnished information concerning a facility without consent of that person. Neither the names of persons furnishing information nor any confidential or privileged information obtained from records or interviews shall be considered 'public records' within the meaning of G.S. 132-1, 'Public Records' defined. Prior to releasing any information or allowing any inspections referred to in this subsection, the patient must upon admission be advised in writing by the facility that the patient has the right to object in writing to the release of information or review of the records and that by an objection in writing the patient may prohibit the inspection or release of the records.

(c) Authorized representatives of the Department with identification to this effect shall have at all times the right of proper entry upon any and all parts of the premises of any place in which entry is necessary to carry out the provisions of this Part or the rules adopted by the Commission. It shall be unlawful for any person to resist a proper entry by an authorized representative upon any premises other than a private dwelling.

"§ 131E-106. *Evaluation of residents in domiciliary homes.*—The Department shall prescribe the method of evaluation of residents in the domiciliary portion of a combination home in order to determine when any of these residents is in need of professional medical and nursing care as provided in licensed nursing homes.

"§ 131E-107. *Medical or peer review committees.*—A member of a duly appointed medical or peer review committee shall not be subject to liability for damages in any civil action on account of any act, statement or proceeding undertaken, made, or performed within the scope of the functions of the committee, if the committee member acts without malice or fraud, and if such peer review committee is approved and operates in accordance with G.S. 131E-108.

"§ 131E-108. *Peer review.*—It is not a violation of G.S. 131E-117(5) for medical records to be disclosed to a private peer review committee if:

(1) The peer review committee has been approved by the Department;

(2) The purposes of the peer review committee are to:

(a) Survey facilities to verify a high level of quality care through evaluation and peer assistance;

(b) Resolve written complaints in a responsible and professional manner; and

(c) Develop a basic core of knowledge and standards useful in establishing a means of measuring quality of care; and

(3) The peer review committee keeps such records confidential.

"§ 131E-109. *Penalties.*—(a) Any person establishing, conducting, managing or operating any nursing home without a license shall be guilty of a misdemeanor, and upon conviction shall be liable for a fine of not more than five hundred dollars ($500.00) for the first offense and not more than five hundred dollars ($500.00) for each subsequent offense. Each day of a continuing violation after conviction shall be considered a separate offense.

(b) Any person acting under the authority of the Department who gives advance notice to an operator of a nursing home of the date or time that the nursing home is to be inspected shall be guilty of a misdemeanor, and upon conviction shall be liable for a fine of not more than five hundred dollars ($500.00) or imprisonment for a period not to exceed 30 days, or both. The inspection of a nursing home for initial licensure shall be exempt from the prohibition of prior notice. All subsequent inspections must comply with the provisions of this subsection.

(c) The Secretary or a designee may suspend the admission of any new patients or residents at any nursing home or domiciliary home where the conditions of the nursing home or domiciliary home are detrimental to the health or safety of the patient or resident. This suspension shall remain in effect until the Secretary is satisfied that conditions or circumstances merit the removal of the suspension. This subsection shall be in addition to authority to suspend or revoke the license of the home.

(d) Except as otherwise provided in this Part, any person who violates any provision of this Part or who willfully fails to perform any act required, or who willfully performs any act prohibited by this Part, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine or by imprisonment for a period not to exceed two years or by both such fine and imprisonment in the discretion of the court; provided, however, that any person who willfully violates any rule adopted by the Commission under this Part or who willfully fails to perform any act required by, or who willfully performs any act prohibited by, these rules shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed fifty dollars ($50.00) or by imprisonment for a period not to exceed 30 days.

"§ 131E-110. *Injunction.*—(a) Notwithstanding the existence or pursuit of any other remedy, the Department may, in the manner provided by law, maintain an action in the name of the State for injunction or other process against any person to restrain or prevent the establishment, conduct, management or operation of a nursing home without a license.

(b) If any person shall hinder the proper performance of duty of the Secretary or a representative in carrying out the provisions of this Part, the Secretary may institute an action in the superior court of the county in which the

hindrance occurred for injunctive relief against the continued hindrance, irrespective of all other remedies at law.

(c) Actions under this section shall be in accordance with Article 37 of Chapter 1 of the General Statutes and Rule 65 of the Rules of Civil Procedure.

"§ 131E-111 through 131E-114: Reserved for future codification purposes.

"Part B. Nursing Home Patients' Bill of Rights.

"§ 131E-115. *Legislative intent.*—It is the intent of the General Assembly to promote the interests and well-being of the patients in nursing homes and homes for the aged and disabled licensed pursuant to G.S. 131E-102. It is the intent of the General Assembly that every patient's civil and religious liberties, including the right to independent personal decisions and knowledge of available choices, shall not be infringed and that the facility shall encourage and assist the patient in the fullest possible exercise of these rights.

"§ 131E-116. *Definitions.*—As used in this Part, unless otherwise specified:

(a) 'Administrator' means an administrator of a facility.

(b) 'Facility' means a nursing home and a home for the aged or disabled licensed pursuant to G.S. 131E-102.

(c) 'Patient' means a person who has been admitted to a facility.

(d) 'Representative payee' means a person certified by the federal government to receive and disburse benefits for a recipient of governmental assistance.

"§ 131E-117. *Declaration of patients' rights.*—All facilities shall treat their patients in accordance with the provisions of this Part. Every patient shall have the following rights:

(1) To be treated with consideration, respect, and full recognition of personal dignity and individuality;

(2) To receive care, treatment and services which are adequate, appropriate, and in compliance with relevant federal and State statutes and rules;

(3) To receive at the time of admission and during the stay, a written statement of the services provided by the facility, including those required to be offered on an as-needed basis, and of related charges. Charges for services not covered under Medicare or Medicaid shall be specified. Upon receiving this statement, the patient shall sign a written receipt which must be on file in the facility and available for inspection;

(4) To have on file in the patient's record a written or verbal order of the attending physician containing any information as the attending physician deems appropriate or necessary, together with the proposed schedule of medical treatment. The patient shall give prior informed consent to participation in experimental research. Written evidence of compliance with this subdivision, including signed acknowledgements by the patient, shall be retained by the facility in the patient's file;

(5) To receive respect and privacy in the patient's medical care program. Case discussion, consultation, examination, and treatment shall remain confidential and shall be conducted discreetly. Personal and medical records shall be confidential and the written consent of the patient shall be obtained for their release to any individual, other than family members, except as needed in case of the patient's transfer to another health care institution or as required by law or third party payment contract;

(6) To be free from mental and physical abuse and, except in emergencies, to be free from chemical and physical restraints unless authorized for a specified period of time by a physician according to clear and indicated medical need;

(7) To receive from the administrator or staff of the facility a reasonable response to all requests;

(8) To associate and communicate privately and without restriction with persons and groups of the patient's choice on the patient's initiative or that of the persons or groups at any reasonable hour; to send and receive mail promptly and unopened, unless the patient is unable to open and read personal mail; to have access at any reasonable hour to a telephone where the patient may speak privately; and to have access to writing instruments, stationery, and postage;

(9) To manage the patient's financial affairs unless authority has been delegated to another pursuant to a power of attorney, or written agreement, or some other person or agency has been appointed for this purpose pursuant to law. Nothing shall prevent the patient and facility from entering a written agreement for the facility to manage the patient's financial affairs. In the event that the facility manages the patient's financial affairs, it shall have an accounting available for inspection and shall furnish the patient with a quarterly statement of the patient's account. The patient shall have reasonable access to this account at reasonable hours; the patient or facility may terminate the agreement for the facility to manage the patient's financial affairs at any time upon five days' notice.

(10) To enjoy privacy in visits by the patient's spouse, and, if both are inpatients of the facility, they shall be afforded the opportunity where feasible to share a room;

(11) To enjoy privacy in the patient's room;

(12) To present grievances and recommend changes in policies and services, personally or through other persons or in combination with others, on the patient's personal behalf or that of others to the facility's staff, the community advisory committee, the administrator, the Department, or other persons or groups without fear of reprisal, restraint, interference, coercion, or discrimination;

(13) To not be required to perform services for the facility without personal consent and the written approval of the attending physician;

(14) To retain, to secure storage for, and to use personal clothing and possessions, where reasonable;

(15) To not be transferred or discharged from a facility except for medical reasons, the patient's own or other patients' welfare, nonpayment for the stay, or when the transfer or discharge is mandated under Title XVIII (Medicare) or Title XIX (Medicaid) of the Social Security Act. The patient shall be given at least five days' advance notice to ensure orderly transfer or discharge, unless the attending physician orders immediate transfer, and these actions, and the reasons for them, shall be documented in the patient's medical record.

"§ 131E-118. *Transfer of management responsibilities.*—The patient's representative who has been given the power in writing by the patient to manage the patient's financial affairs or the patient's legal guardian as appointed by a court or the patient's attorney-in-fact as specified in the power of attorney agreement may sign any documents required by the provisions of this Part, may perform any other act, and may receive or furnish any information required by this Part.

"§ 131E-119. *No waiver of rights.*—No facility may require a patient to waive the rights specified in this Part.

"§ 131E-120. *Notice to patient.*—(a) A copy of G.S. 131E-115 through G.S. 131E-127 shall be posted conspicuously in a public place in all facilities. Copies of G.S. 131E-115 through G.S. 131E-127 shall be furnished to the patient upon admittance to the facility, to all patients currently residing in the facility, to the sponsoring agency, to a representative payee of the patient, or to any person designated in G.S. 131E-118, and to the patient's next of kin, if requested. Receipts for the statement signed by these persons shall be retained in the facility's files.

(b) The address and telephone number of the section in the Department responsible for the enforcement of the provisions of this Part shall be posted and distributed with copies of the Part. The address and telephone number of the county social services department shall also be posted and distributed.

"§ 131E-121. *Responsibility of administrator.*—Responsibility for implementing the provisions of this Part shall rest on the administrator of the facility.

"§ 131E-122. *Staff training.*—Each facility shall provide appropriate staff training to implement each patient's rights included in this Part.

"§ 131E-123. *Civil action.*—Every patient shall have the right to institute a civil action for injunctive relief to enforce the provisions of this Part. The Department, a general guardian, or any person appointed as guardian ad litem pursuant to law, may institute an action pursuant to this section on behalf of the patient or patients. Any agency or person named above may enforce the rights of the patient specified in this Part which the patient is unable to personally enforce.

"§ 131E-124. *Enforcement and investigation; confidentiality.*—(a) The Department shall be responsible for the enforcement of the provisions of this Part. The Department shall investigate complaints made to it and reply within a reasonable time, not to exceed 60 days, upon receipt of a complaint.

(b) The Department is authorized to inspect patients' medical records maintained at the facility when necessary to investigate any alleged violation of this Part.

(c) The Department shall maintain the confidentiality of all persons who register complaints with the Department and of all medical records inspected by the Department.

"§ 131E-125. *Revocation of a license.*—The Department shall have the authority to revoke a license issued pursuant to G.S. 131E-102 in any case where it finds that there has been a substantial failure to comply with the provisions of this Part or any failure that endangers the health, safety or welfare of patients.

Such revocation shall be effected by mailing to the licensee by registered mail, or by personal service of, a notice setting forth the particular reasons for such action. Such revocation shall become effective 20 days after the mailing or service of the notice, unless the applicant or licensee, within such 20-day period, shall give written notice to the Department requesting a hearing, in which case the notice shall be deemed to be suspended. If a hearing has been requested, the licensee shall be given a prompt and fair hearing pursuant to the Administrative Procedure Act. At any time at or prior to the hearing, the

Department may rescind the notice of revocation upon being satisfied that the reasons for the revocation have been or will be removed.

"§ 131E-126. *Penalties.*—(a) The Department shall impose an administrative penalty in accordance with provisions of this Part on any facility:

(1) Which fails to comply with either the entire section of patients' rights listed in G.S. 131E-117 or with any one of these rights which endangers the health, safety or welfare of a patient.

(2) Which refuses to allow an authorized representative of the Department to inspect the premises and records of the facility.

(b) Each day of a continued violation shall constitute a separate violation. The penalty for each violation shall be ten dollars ($10.00) per day per patient affected by the violation.

(c) Any facility wishing to contest a penalty shall be entitled to an administrative hearing as provided in the Administrative Procedure Act, Chapter 150A of the General Statutes.

(d) The Secretary may bring a civil action in the Superior Court of Wake County to recover the amount of the administrative penalty whenever a facility:

(1) Which has not requested an administrative hearing fails to pay the penalty within 60 days after being notified of the penalty, or

(2) Which has requested an administrative hearing fails to pay the penalty within 60 days after receipt of a written copy of the decision as provided in G.S. 150A-36.

"§ 131E-127. *No interference with practice of medicine or physician-patient relationship.*—Nothing in this Part shall be construed to interfere with the practice of medicine or the physician-patient relationship.

"§ 131E-128. *Nursing home advisory committees.*—(a) It is the purpose of the General Assembly that community advisory committees work to maintain the intent of this Part within the nursing homes in this State. It is the further purpose of the General Assembly that the committees promote community involvement and cooperation with nursing homes and an integration of these homes into a system of care for the elderly.

(b) (1) A community advisory committee shall be established in each county which has a nursing home, shall serve all the homes in the county, and shall work with each home in the best interest of the persons residing in each home. In a county which has one, two, or three nursing homes, the committee shall have five members. In a county with four or more nursing homes, the committee shall have one additional member for each nursing home in excess of three.

(2) In each county with four or more nursing homes, the committee shall establish a subcommittee of no more than five members and no fewer than three members from the committee for each nursing home in the county. Each member must serve on at least one subcommittee.

(3) Each committee shall be appointed by the board of county commissioners. Of the members, a minority (not less than one-third, but as close to one-third as possible) must be chosen from among persons nominated by a majority of the chief administrators of nursing homes in the county. If the nursing home administrators fail to make a nomination within 45 days after written notification has been sent to them by the board of county commissioners requesting a nomination,

these appointments may be made by the board of county commissioners without nominations.

(c) Each committee member shall serve an initial term of one year. Any person reappointed to a second or subsequent term in the same county shall serve a three-year term. Persons who were originally nominees of nursing home chief administrators, or who were appointed by the board of county commissioners when the nursing home administrators failed to make nominations, may not be reappointed without the consent of a majority of the nursing home chief administrators within the county. If the nursing home chief administrators fail to approve or reject the reappointment within 45 days of being requested by the board of county commissioners, the commissioners may reappoint the member if they so choose.

(d) Any vacancy shall be filled by appointment of a person for a one-year term. Any person replacing a member nominated by the chief administrators or a person appointed when the chief administrators failed to make a nomination shall be selected from among persons nominated by the administrators, as provided in subsection (b). If the county commissioners fail to appoint members to a committee, or fail to fill a vacancy, the appointment may be made or vacancy filled by the Secretary or the Secretary's designee no sooner than 45 days after the commissioners have been notified of the appointment or vacancy if nomination or approval of the nursing home administrators is not required. If nominations or approval of the nursing home administrators is required, the appointment may be made or vacancy filled by the Secretary or the Secretary's designee no sooner than 45 days after the commissioners have received the nomination or approval, or no sooner than 45 days after the nursing home administrators' 45-day period for action has expired.

(e) The committee shall elect from its members a chair, to serve a one-year term.

(f) Each member must be a resident of the county which the committee serves. No person or immediate family member of a person with a financial interest in a home served by a committee, or employee or governing board member or immediate family member of an employee or governing board member of a home served by a committee, or immediate family member of a patient in a home served by a committee may be a member of a committee. Membership on a committee shall not be considered an office as defined in G.S. 128-1 or G.S. 128-1.1. Any county commissioner who is appointed to the committee shall be deemed to be serving on the committee in an ex officio capacity. Members of the committee shall serve without compensation, but may be reimbursed for the amount of actual expenses incurred by them in the performance of their duties. The names of the committee members and the date of expiration of their terms shall be filed with the Division of Aging, which shall supply a copy to the Division of Facility Services.

(g) The Division of Aging, Department of Human Resources, shall develop training materials which shall be distributed to each committee member and nursing home. Each committee member must receive training as specified by the Division of Aging prior to exercising any power under subsection (h) of this section. The Division of Aging, Department of Human Resources, shall provide the committees with information, guidelines, training, and consultation to direct them in the performance of their duties.

(h) (1) Each committee shall apprise itself of the general conditions under which the persons are residing in the homes, and shall work for the best interests of the persons in the homes. This may include assisting persons who have grievances with the home and facilitating the resolution of grievances at the local level.

(2) Each committee shall quarterly visit the nursing home it serves. For each official quarterly visit, a majority of the committee members shall be present. In addition, each committee may visit the nursing home it serves whenever it deems it necessary to carry out its duties. In counties with four or more nursing homes, the subcommittee assigned to a home shall perform the duties of the committee under this subdivision, and a majority of the subcommittee members must be present for any visit.

(3) Each member of a committee shall have the right between 10:00 A.M. and 8:00 P.M. to enter into the facility the committee serves in order to carry out the members' responsibilities. In a county where subcommittees have been established, this right of access shall be limited to homes served by those subcommittees to which the member has been appointed.

(4) The committee or subcommittee may communicate through its chair with the Department or any other agency in relation to the interest of any patient. The names of all complaining persons shall remain confidential unless written permission is given for disclosure.

(5) Each home shall cooperate with the committee as it carries out its duties.

(6) Before entering into any nursing home, the committee, subcommittee, or member shall identify itself to the person present at the facility who is in charge of the facility at that time.

confidentiality of communications between physician and patient, the representatives of the Department who make these inspections may review any writing or other record in any recording medium which pertains to the admission, discharge, medication, treatment, medical condition, or history of persons who are or have been patients of the facility being inspected unless that patient objects in writing to review of that patient's records. (b) If any person shall hinder the proper performance of duty of the Secretary or a representative in carrying out the provisions of this Part, the Secretary may institute an action in the superior court of the county in which the hindrance occurred for injunctive relief against the continued hindrance, irrespective of all other remedies at law.

(c) Actions under this section shall be in accordance with Article 37 of Chapter 1 of the General Statutes and Rule 65 of the Rules of Civil Procedure.

Permits issued for ambulances shall be valid for a period specified by the Department, not to exceed one year.

(2) 'Certification' means the issuance of a certificate by the Department upon determination that cardiac rehabilitation services offered at a given program site meet all cardiac rehabilitation program rules.

"§ 131E-167. *Certificate requirement.*—(a) Applications for certification shall be available from the Department, and each application filed with the Department shall contain all necessary and reasonable information that the Department may by rule require. A certificate shall be granted to the applicant for a period not to exceed two years upon a determination by the Department

that the applicant has substantially complied with the provisions of this Article and the rules promulgated by the Department under this Article.

(b) A provisional certificate may be issued for a period not to exceed six months to a program:

(1) That does not substantially comply with the rules, when failure to comply does not endanger the health, safety, or welfare of the clients being served by the program;

(2) During the initial stages of operation if determined appropriate by the Department.

(c) Prior to offering a cardiac rehabilitation program as defined in this Article, such a program must be inspected, evaluated, and certified as having substantially met the rules adopted by the Department under this Article.

(d) A certificate to operate a Cardiac Rehabilitation Program shall be renewed upon the successful re-evaluation of the program as stated in the rules adopted pursuant to this Article.

(e) Each certificate shall be issued only for the premises and persons named in the application and shall not be transferable or assignable except with the written approval of the Department.

(f) A certificate shall be posted in a conspicuous place on the certified premises.

"§ 131E-168. *Adverse action on a certificate.*—(a) Subject to subsection (b), the Department is authorized to deny a new or renewal certificate and to suspend or revoke an existing certificate upon determination that there has been a substantial failure to comply with the provisions of this Article or the rules promulgated under this Article.

(b) The provisions of Chapter 150A of the General Statutes, the Administrative Procedure Act, shall govern all administrative action and judicial review in cases where the Department has taken the action described in subsection (a).

(b) The Department shall enforce the rules adopted for the certification of cardiac rehabilitation programs.

"§ 131E-170. *Inspections.*—(a) The Department shall make or cause to be made inspections of Cardiac Rehabilitation Programs as it deems necessary. The Department is empowered to delegate to a State officer, agent, board, bureau or division of State government the authority to make these inspections according to the rules promulgated by the Department. In addition, an individual who is not a State officer or agent and who is delegated the authority to make these inspections must be approved by the Department. The Department may revoke this delegated authority in its discretion.

(b) Notwithstanding the provisions of G.S. 8-53, 'Communications between physician and patient,' or any other provision of law relating to the confidentiality of communications between physician and patient, the representatives of the Department who make these inspections may review any writing or other record in any recording medium which pertains to the admission, discharge, medication, treatment, medical condition, or history of persons who are or have been patients of the program being inspected unless that patient objects in writing to review of that patient's records. Neither the names of persons furnishing information nor any confidential or privileged information obtained from records or interviews shall be considered 'public records' within the meaning of G.S. 132-1, 'Public Records' defined. Prior to releasing any information or allowing any inspections referred to in this section, the patient must be advised in writing by the program that the patient has the right to object in writing to the release of information or review of the records and that by an objection in writing the patient may prohibit the inspection or release of the records.

"§ 131E-171 through 131E-174: Reserved for future codification purposes.

"Article 9.

"Certificate of Need.

"§ 131E-175. *Findings of fact.*—The General Assembly of North Carolina makes the following findings:

(1) That, because of the manner in which health care is financed, the forces of free market competition are largely absent and that government regulation is therefore necessary to control the cost, utilization, and distribution of health services.

(2) That the continuously increasing cost of health care services threatens the health and welfare of the citizens of this State in that citizens need assurance of economical and readily available health care.

(3) That the current system of planning for health care facilities and equipment has led to the proliferation of new inpatient acute care facilities and medical equipment beyond the need of many localities in this State and an inadequate supply of health personnel and of resources for long term, intermediate, and ambulatory care in many localities.

(4) That this trend of proliferation of unnecessary health care facilities and equipment results in costly duplication and underuse of facilities, with the availability of excess capacity leading to unnecessary use of expensive resources and overutilization of acute care hospital services by physicians.

(5) That a certificate of need law is required by Title XV of the Public Health Service Act as a condition for receipt of federal funds. If these funds were withdrawn the State of North Carolina would lose in excess of fifty-five million dollars ($55,000,000).

(6) That excess capacity of health facilities places an enormous economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance subscribers, health plan contributors, and taxpayers.

(7) That the general welfare and protection of lives, health, and property of the people of this State require that new institutional health services to be offered within this State be subject to review and evaluation as to type, level, quality of care, feasibility, and other criteria as determined by provisions of this Article or by the North Carolina Department of Human Resources pursuant to provisions of this Article prior to such services being offered or developed in order that only appropriate and needed institutional health services are made available in the area to be served.

"§ 131E-176. *Definitions.*—As used in this Article, unless the context clearly requires otherwise, the following terms have the meanings specified:

The expenditure minimum is six hundred thousand dollars ($600,000) for the 12-month period beginning October 1, 1979. For each 12-month period thereafter the expenditure minimum shall be the figure in effect for the preceding 12-month period, adjusted to reflect the change in the preceding 12-month period in the Department of Commerce Composite Construction Cost Index. The cost of any studies, surveys, designs, plans, working drawings, specifications, and other activities, including staff effort and consulting and other services, essential to the

f. The offering of a health service by or on behalf of a health care facility if the service was not offered by or behalf of the health care facility in the previous 12 months and if the annual operating costs of the service equal or exceed the expenditure minimum. "§ 131E-177. *Department of Human Resources is designated State Health Planning and Development Agency; powers and duties.*—The Department of Human Resources is designated as the State Health Planning and Development Agency for the State of North Carolina, and is empowered to fulfill responsibilities defined in Title XV of the Public Health Service Act.

The Department shall exercise the following powers and duties:

(1) To establish standards and criteria or plans required to carry out the provisions and purposes of this Article and to adopt rules and regulations pursuant to Chapter 150A of the General Statutes;

(2) Adopt, amend, and repeal such rules and regulations, consistent with the laws of this State, as may be required by the federal government for grants-in-aid for health care facilities and health planning which may be made available by the federal government. This section shall be liberally construed in order that the State and its citizens may benefit from such grants-in-aid;

(3) Define, by regulation, procedures for submission of periodic reports by persons or health facilities subject to agency review under this Article;

(4) Develop policy, criteria, and standards for health care facilities planning, conduct statewide inventories of and make determinations of need for health care facilities, and develop a State plan coordinated with other plans of health systems agencies with other pertinent plans and with the State health plan of the Department;

(5) Implement, by regulation, criteria for project review;

(6) Have the power to grant, deny, suspend, or revoke a certificate of need;

(7) Solicit, accept, hold and administer on behalf of the State any grants or bequests of money, securities or property to the Department for use by the Department or health systems agencies in the administration of this Article;

(8) Develop procedures for appeals of decisions to approve or deny a certificate of need, as provided by G.S. 131E-188.

The Secretary of Human Resources shall have final decision-making authority with regard to all functions described in this section.

"§ 131E-178. *Activities requiring certificate of need.*—(a) No person shall offer or develop a new institutional health service without first obtaining a certificate of need from the Department.

(b) No person shall make an acquisition by donation, lease, transfer, or comparable arrangement without first obtaining a certificate of need from the Department, if the acquisition would have been a new institutional health service if it had been made by purchase. In determining whether an acquisition would have been a new institutional health service the fair market value of the asset shall be deemed to be the purchase price.

(c) No person shall incur an obligation for a capital expenditure which is a new institutional health service without first obtaining a certificate of need from the Department. An obligation for a capital expenditure is incurred by or on behalf of a health care facility when:

(1) An enforceable contract, excepting contracts which are expressly contingent upon issuance of a certificate of need, is entered into by or on behalf of the health care facility for the construction, acquisition, lease or financing of a capital asset;

(2) The governing body of a health care facility takes formal action to commit its own funds for a construction project undertaken by the health care facility as its own contractor; or

(3) In the case of donated property, the date on which the gift is completed.

(d) Where the estimated cost of a proposed capital expenditure is certified by a licensed architect or engineer to be equal to or less than the expenditure minimum for capital expenditure, such expenditure shall be deemed not to exceed the expenditure minimum for capital expenditures regardless of the actual amount expended, provided that the following conditions are met:

(1) The certified estimated cost is prepared in writing 60 days or more before the obligation for the capital expenditure is incurred. Certified cost estimates shall be available for inspection at the facility and sent to the Department upon its request.

(2) The facility on whose behalf the expenditure was made notifies the Department in writing within 30 days of the date on which such expenditure is made if the expenditure exceeds the expenditure minimum for capital expenditures. The notice shall include a copy of the certified cost estimate.

(e) The Department may grant certificates of need which permit capital expenditures only for predevelopment activities. Predevelopment activities include the preparation of architectural designs, plans, working drawings, or specifications, the preparation of studies and surveys, and the acquisition of a potential site.

"§ 131E-179. *Research activities.*—(a) Notwithstanding any other provisions of this Article, a health care facility may acquire major medical equipment to be used solely for research, offer institutional health services to be used solely for research, or incur the obligation of a capital expenditure solely for research, without a certificate of need, if the Department grants an exemption. The Department shall grant an exemption if the health care facility files a notice of intent with the Department in accordance with rules promulgated by the Department and if the Department finds that the acquisition, offering or obligation will not:

(1) Affect the charges of the health care facility for the provision of medical or other patient care services other than services which are included in the research;

(2) Substantially change the bed capacity of the facility; or

(3) Substantially change the medical or other patient care services of the facility.

(b) After a health care facility has received an exemption pursuant to subsection (a) of this section, it shall not use the major medical equipment, offer the institutional health services, or use the equipment or facility acquired through the capital expenditure, in a manner which affects the charges of the facility for the provision of medical or other patient care services, other than the services which are included in the research, without first obtaining a certificate of need from the Department.

(c) Any of the activities described in subsection (a) of this section shall be deemed to be solely for research even if they include patient care provided on an occasional and irregular basis and not as a part of the research program.

"§ 131E-180. *Health maintenance organization.*—(a) Subject to the provisions of subsection (b) of this section, no inpatient health care facility controlled, directly or indirectly, by a health maintenance organization, hereinafter referred to as HMOs, or combination of HMOs, shall offer or develop new institutional health services without first obtaining a certificate of need from the Department. Further, subject to the provisions of subsection (b) of this section, no health care facility of an HMO shall offer or develop any of the new institutional health services specified in G.S. 131E-176(16)g, h, and i without first obtaining a certificate of need from the Department. This section shall not be construed as requiring that a certificate of need be obtained before an HMO is established.

(b) The requirements of subsection (a) of this section shall not apply to any person who receives an exemption under this subsection. In order to receive an exemption an application must be submitted to the Department and the appropriate health systems agency or agencies. The application shall be on forms prescribed by the Department and contain the information required by the Department. The application shall be submitted at a time and in a manner prescribed by the rules and regulations of the Department. The Department shall grant an exemption if it finds that the applicant is qualified or will be qualified on the date the activity is undertaken. Any of the following are qualified applicants:

(1) An HMO or combination of HMOs, if (i) the HMO or combination of HMOs has an enrollment of at least 50,000 individuals in its service area, (ii) the facility in which the service will be provided is or will be geographically located so that the service will be reasonably accessible to the enrolled individuals, and (iii) at least seventy-five percent (75%) of the patients who can be reasonably expected to receive the health service will be individuals enrolled in the HMO or HMOs in combination; or

(2) A health care facility, or portion thereof, if (i) the facility primarily provides or will provide inpatient health services, (ii) the facility is or will be controlled, directly or indirectly, by an HMO or combination of HMOs with an enrollment of at least 50,000 individuals in its service area, (iii) the facility is or will be geographically located so that the service will be reasonably accessible to the enrolled individuals, and (iv) at least seventy-five percent (75%) of the patients who can be reasonably expected to receive the health service will be individuals enrolled with the HMO or HMOs in combination; or

(3) A health care facility, or portion thereof, if (i) the facility is or will be leased by an HMO or combination of HMOs with an enrollment of at least 50,000 individuals in its service area and on the date the application for exemption is submitted at least 15 years remain on the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to the enrolled individuals, and (iii) at least seventy-five percent (75%) of the patients who can be reasonably expected to receive the health service will be individuals enrolled with the HMO or HMOs in combination.

(c) If a fee-for-service component of an HMO or combination of HMOs qualifies for an exemption under subsection (b) of this section, then it must be granted an exemption.

(d) In reviewing certificate of need applications submitted pursuant to this section, the Department shall not deny the application solely because the proposal is not addressed in the applicable health systems plan, annual implementation plan or State health plan.

(e) Notwithstanding the review criteria of G.S. 131E-183(a), if an HMO or a health care facility which is controlled, directly or indirectly, by an HMO applies for a certificate of need, the Department shall grant the certificate if it finds, in accordance with G.S. 131E-183(a)(10), that (i) granting the certificate is required to meet the needs of the members of the HMO and of the new members which the HMO can reasonably be expected to enroll, and (ii) the HMO is unable to provide, through services or facilities which can reasonably be expected to be available to the HMO, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operations of the HMO and which makes these services available on a long-term basis through physicians and other health professionals associated with it.

"§ 131E-181. *Nature of certificate of need.*—A certificate of need shall be valid only for the defined scope, physical location, and person named in the application. A certificate of need shall not be transferred or assigned.

"§ 131E-182. *Application.*—(a) The Department in its rules and regulations shall establish schedules for submission and review of completed applications. The schedules, which shall be consistent with federal law and regulations, shall provide that applications for similar proposals in the same health service area will be reviewed together.

(b) An application for a certificate of need shall be made on forms provided by the Department. The application forms, which may vary according to the type of proposal, shall require such information as the Department, by its rules and regulations, deems necessary to conduct the review. An applicant shall be required to furnish only that information necessary to determine whether the proposed new institutional health service is consistent with the review criteria implemented under G.S. 131E-183 and with duly adopted standards, plans and criteria.

"§ 131E-183. *Review criteria.*—(a) The Department shall promulgate rules implementing criteria outlined in this subsection to determine whether an applicant is to be issued a certificate for the proposed project. Criteria so implemented are to be consistent with federal law and regulations and shall cover:

(1) The relationship of the proposed project to the State Medical Facilities Plan, the State Health Plan, and the State Mental Health Plan.

(2) The relationship of services reviewed to the long-range development plan, if any, of the persons providing or proposing such services.

(3) The need that the population served or to be served by such services has for such services, and the extent to which all residents of the area, and in particular low income persons, racial and ethnic minorities, women, handicapped persons and other underserved groups, and the elderly, are likely to have access to those services.

(3a) In the case of a reduction or elimination of a service, including the relocation of a facility or a service, the need that the population presently served has for the service, the extent to which that need will be met adequately by the proposed relocation or by alternative arrangements, and the effect of the reduction, elimination or relocation of the service on the ability of low income persons, racial and ethnic minorities, women, handicapped persons, and other underserved groups and the elderly to obtain needed health care.

(4) The availability of less costly or more effective alternative methods of providing the services to be offered, expanded, reduced, relocated or eliminated.

(5) The immediate and long-term financial feasibility of the proposal, as well as the probable impact of the proposal on the costs of and charges for providing health services by the person proposing the service.

(6) The relationship of the services proposed to be provided to the existing health care system of the area in which such services are proposed to be provided.

(7) The availability of resources, including health manpower, management personnel, and funds for capital and operating needs, for the provision of the services proposed to be provided and the need for alternative uses of these resources as identified by the applicable health systems plan, annual implementation plan or State Health Plan.

(8) The relationship, including the organizational relationship, of the health services proposed to be provided to ancillary or support services.

(9) Special needs and circumstances of those entities which provide a substantial portion of their services or resources, or both, to individuals not residing in the health service areas in which the entities are located or in adjacent health service areas. Such entities may include medical and other health professions schools, multidisciplinary clinics and specialty centers.

(10) The special needs and circumstances of HMOs. These needs and circumstances shall be limited to:

a. The needs of enrolled members and reasonably anticipated new members of the HMO for the health service to be provided by the organization; and

b. The availability of new health services from non-HMO providers or other HMOs in a reasonable and cost-effective manner which is consistent with the basic method of operation of the HMO. In assessing the availability of these health services from these providers, the Department shall consider only whether the services from these providers:

1. Would be available under a contract of at least five years' duration;

2. Would be available and conveniently accessible through physicians and other health professionals associated with the HMO;

3. Would cost no more than if the services were provided by the HMO; and

4. Would be available in a manner which is administratively feasible to the HMO.

(11) The special needs and circumstances of biomedical and behavioral research projects which are designed to meet a national need and for which local conditions offer special advantages.

(12) In the case of a construction project, the costs and methods of the proposed construction, including the costs and methods of energy provision, and the probable impact of the construction project reviewed on the costs of providing health services by the person proposing the construction project and on the costs and charges to the public of providing health services by other persons.

(13) The contribution of the proposed service in meeting the health-related needs of members of medically underserved groups, such as low income persons, racial and ethnic minorities, women, and handicapped persons, which have traditionally experienced difficulties in obtaining equal access to health services, particularly those needs identified in the applicable health systems plan, annual implementation plan, and State Health Plan as deserving of priority. For the purpose of determining the extent to which the proposed service will be accessible, the Department shall consider:

a. The extent to which medically underserved populations currently use the applicant's proposed services in comparison to the percentage of the population in the applicant's service area which is medically underserved, and the extent to which medically underserved populations are expected to use the proposed services if approved;

b. The performance of the applicant in meeting its obligation, if any, under any applicable regulations requiring provision of uncompensated care, community service, or access by minorities and handicapped persons to programs receiving federal assistance, including the existence of any civil rights access complaints against the applicant;

c. The extent to which Medicare, Medicaid and medically indigent patients are served by the applicant; and

d. The extent to which the applicant offers a range of means by which a person will have access to its services. Examples of a range of means are outpatient services, admission by house staff, and admission by personal physicians.

(14) The effect of the means proposed for delivery of the health services on the clinical needs of health professional training programs in the area in which the services are to be provided.

(15) If the proposed health services are to be available in a limited number of facilities, the extent to which the health professions schools in the area will have access to the services for training purposes.

(16) The special circumstances of health care facilities with respect to the need for conserving energy.

(17) In accordance with Section 1502(b) of the Public Health Service Act, 42 U.S.C. 300k-2(b), the factors which influence the effect of competition on the supply of the health services being reviewed.

(18) Improvements or innovations in the financing and delivery of health services which foster competition, in accordance with Section 1502(b) of the Public Health Service Act, 42 U.S.C. 300k-2(b), and serve to promote quality assurance and cost effectiveness.

(19) In the case of proposed health services or facilities, the efficiency and appropriateness of the use of existing, similar services and facilities.

(20) In the case of existing services or facilities, the quality of care provided in the past.

(21) When an application is made by an osteopathic or allopathic facility for a certificate of need to construct, expand, or modernize a health care facility, acquire major medical equipment, or add services, the need for that construction, expansion, modernization, acquisition of equipment, or addition of services shall be considered on the bases of the need for and availability in the community of services and facilities for osteopathic and allopathic physicians and their patients. The Department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathy and medicine at the student, internship, and residency training levels.

(b) Criteria adopted for reviews in accordance with subsection (a) of this section may vary according to the purpose for which a particular review is being conducted or the type of health service reviewed.

"§ 131E-184. *Required approvals.*—(a) Except as provided in subsection (b), the Department shall issue a certificate of need for a proposed capital expenditure if:

(1) The capital expenditure is required (i) to eliminate or prevent imminent safety hazards as defined in federal, State, or local fire, building, or life safety codes or regulations, or (ii) to comply with State licensure standards, or (iii) to comply with accreditation or certification standards which must be met to receive reimbursement under Title XVIII of the Social Security Act or payments under a State plan for medical assistance approved under Title XIX of that act; and

(2) The Department determines that (i) the facility or services for which the capital expenditure is proposed is needed, and (ii) the obligation of the capital expenditure is consistent with the State Health Plan. Even though the proposal is inconsistent with the State Health Plan, the Department may issue a certificate of need if emergency circumstances pose an imminent threat to public health.

(b) Those portions of a proposed project which are not to eliminate or prevent safety hazards or to comply with certain licensure, certification, or accreditation standards are subject to review under the criteria developed under G.S. 131E-183.

"§ 131E-185. *Review process.*—(a) Except as provided in subsection (c) of this section there shall be a time limit of 90 days for review of the project beginning on the day the Department declares the application 'complete for review,' as established by departmental regulations.

(1) The appropriate health systems agency or agencies shall have 60 days to review each application as to consistency with duly adopted plans, standards, and criteria. Following the review the health systems agency shall submit to the Department its comments and recommendations. The comments may include a recommendation to approve the application, to approve the application with conditions, to defer the application, or to deny the application. Suggested modifications, if any, shall relate directly to the project under review.

(2) The appropriate health systems agency shall, during the course of its review, provide an opportunity for a public meeting at which interested persons may introduce testimony and exhibits.

(3) Any person may file written comments and exhibits concerning a proposal under review with the appropriate health systems agency and the Department.

(b) The Department shall issue as provided in this Article a certificate of need with or without conditions or reject the application within the review period.

(c) The Department shall promulgate rules establishing criteria for determining when it would not be practicable to complete a review within 90 days from receipt of a completed application. If the Department finds that these criteria are met for a particular project, it may extend the review period for a period not to exceed 60 days and provide notice of such extension to all affected persons.

"§ 131E-186. *Final decision.*—The Department shall send its decision along with written findings to the person proposing the new institutional health service and to the Health Systems Agency for the health service area in which the new service is proposed to be offered or developed. In the case of a final decision to 'approve' or 'approve with conditions' a proposal for a new institutional health service, the Department shall issue a certificate of need to the person proposing the new institutional health service.

"§ 131E-187. *Written notice of decision.*—The Department shall, within 15 days after it makes a final decision on an application, provide in writing to the applicant, to the appropriate Health Systems Agency and, upon request to affected persons, the findings and conclusions on which it based its decision, including but not limited to, the criteria used by the Department in making its decision.

"§ 131E-188. *Administrative and judicial review.*—(a) After a decision of the Department to issue, deny or withdraw a certificate of need or exemption, any affected person shall be entitled to a contested case hearing under Article 3 of Chapter 150A of the General Statues, if the Department receives a request therefor within 30 days after its decision.

(b) Any affected person who was a party in a contested case hearing shall be entitled to judicial review of the final agency decision pursuant to Article 4 of Chapter 150A of the General Statutes.

(c) The term 'affected persons' includes: the applicant; the health systems agency for the health service area in which the proposed project is to be located; health systems agencies serving contiguous health service areas or located within the same standard metropolitan statistical area; any person residing within the geographic area served or to be served by the applicant; any person who regularly uses health care facilities within that geographic area; health

care facilities and health maintenance organizations (HMOs) located in the health service area in which the project is proposed to be located, which provide services similar to the services of the facility under review; health care facilities and HMOs which, prior to receipt by the agency of the proposal being reviewed, have formally indicated an intention to provide similar services in the future; third party payers who reimburse health care facilities for services in the health service area in which the project is proposed to be located; and any agency which establishes rates for health care facilities or HMOs located in the health service area in which the project is proposed to be located.

"§ 131E-189. *Withdrawal of a certificate of need.*—(a) The Department shall specify in each certificate of need the time the holder has to make the service or equipment available or to complete the project and the timetable to be followed. The timetable shall be the one proposed by the holder of the certificate of need unless at the time the certificate of need is issued the Department determines by a preponderance of the evidence that the timetable proposed by the holder is unreasonable and that a different timetable should be followed by the holder. The holder of the certificate shall submit such periodic reports on his progress in meeting the timetable as may be required by the Department. If, after reviewing the progress, the Department determines that the holder of the certificate is not meeting the timetable and not making a good faith effort to meet it, the Department may, after considering any recommendation made by the appropriate health systems agency, withdraw the certificate.

(b) The Department may withdraw any certificate of need which was issued subject to a condition or conditions, if the holder of the certificate fails to satisfy such condition or conditions.

(c) The Department may withdraw any certificate of need if the holder of the certificate, before completion of the project or operation of the facility, transfers ownership or control of the facility. Transfers resulting from personal illness or other good cause, as determined by the Department, shall not result in withdrawal if the Department receives prior written notice of the transfer and finds good cause. Transfers resulting from death shall not result in withdrawal.

"§ 131E-190. *Enforcement and sanctions.*—(a) Only those new institutional health services which are found by the Department to be needed as provided in this Article and granted certificates of need shall be offered or developed within the State.

(b) No formal commitments made for financing, construction, or acquisition regarding the offering or development of a new institutional health service shall be made by any person unless a certificate of need for such service or activities has been granted.

(c) Nothing in this Article shall be construed as terminating the P.L. 92-603, Section 1122, capital expenditure program or the contract between the State of North Carolina and the United States under that program. The sanctions available under that program and contract, with regard to the determination of whether the amounts attributable to an applicable project or capital expenditure project should be included or excluded in determining payments to the proponent under Titles V, XVIII, and XIX of the Social Security Act, shall remain available to the State.

(d) If any health care facility proceeds to offer or develop a new institutional health service without having first obtained a certificate of need for such services, the penalty for such violation of this Article and rules and regulations

hereunder is the withholding of federal and State funds under Titles V, XVIII, and XIX of the Social Security Act for reimbursement of capital and operating expenses related to the provision of the new institutional health service.

(e) If any health care facility proceeds to offer or develop a new institutional health service without having first obtained a certificate of need for such services, the licensure for such facility may be revoked or suspended by the Medical Care Commission, or the Commission for Health Services, as appropriate.

(f) A civil penalty of not more than twenty thousand dollars ($20,000) may be assessed by the Department against any person who knowingly offers or develops any new institutional health service within the meaning of this Article without a certificate of need issued under this Article and the rules and regulations pertaining thereto, or in violation of the terms of such a certificate. In determining the amount of the penalty the Department shall consider the degree and extent of harm caused by the violation and the cost of rectifying the damage. The Department may assess the penalties provided for in this subsection. Any person assessed shall be notified of the assessment by registered or certified mail, and the notice shall specify the reasons for the assessment. If the person assessed fails to pay the amount of the assessment to the Department within 30 days after receipt of notice, or such longer period, not to exceed 180 days, as the Department may specify, the Department may institute a civil action in the superior court of the county in which the violation occurred or, in the discretion of the Department, in the superior court of the county in which the person assessed has his principal place of business, to recover the amount of the assessment. In any such civil action, the scope of the court's review of the Department's action (which shall include a review of the amount of the assessment), shall be as provided in Chapter 150A of the General Statutes. For the purpose of this subsection, the word 'person' shall not include an individual in his capacity as an officer, director, or employee of a person as otherwise defined in this Article.

(g) No agency of the State or any of its political subdivisions may appropriate or grant funds or financially assist in any way a person, applicant, or facility which is or whose project is in violation of this Article.

(h) If any health care facility proceeds to offer or develop a new institutional health service without having first obtained a certificate of need for such services, the Secretary of Human Resources or any person aggrieved, as defined by G.S. 150A-2(6), may bring a civil action for injunctive relief, temporary or permanent, against the person offering, developing or operating any new institutional health service.

"§ 131E-191. *Venue.*—(a) Any action brought by a 'person aggrieved' as defined by G.S. 150A-2(6), to enforce the provisions of this Article against any health care facility as defined in G.S. 131E-176(9), or its agents or employees, may be brought in the superior court of any county in which the cause of action arose or in the county in which the health care facility is located, or in Wake County.

(b) An action brought by a 'party' as defined by G.S. 150A-2(5), who has exhausted all administrative remedies made available to that party by statute or rules and regulations, may be brought in the Superior Court of Wake County at any time after a final decision by the Department. Such action must be filed not later than 30 days after a written copy of the final decision by the

Department is given by personal service or registered or certified mail to the person seeking judicial review.

Provided, however, the aggregate liability of the surety for all breaches of the condition of bond shall, in no event, exceed the sum of said bond.

(c) The surety on the bond shall have a right to cancel such bond upon giving a 30-day notice to the board. Provided, however, that such cancellation shall not affect any liability on the bond which accrued prior thereto. The bond shall be approved by the board as to form, execution, and sufficiency of the sureties thereon.

(d) No license shall be issued under this act unless the applicant files with the board evidence of a policy of liability insurance which policy must provide for the following minimum coverage: fifty thousand dollars ($50,000) because of bodily injury or death of one person as a result of the negligent act or acts of the principal insured or his agents operating in the course and scope of his employment; subject to said limit for one person, one hundred thousand dollars ($100,000) because of bodily injury or death of two or more persons as the result of the negligent act or acts of the principal insured or his agents operating in the course and scope of his or her agency; twenty thousand dollars ($20,000) because of injury to or destruction of property of others as the result of the negligent act or acts of the principal insured or his agents operating in the course and scope of his or her agency.

The Attorney General, or his representative, shall have concurrent jurisdiction with the district attorneys of this State to prosecute violations of this Chapter.

(c) The regulation of alarm systems businesses shall be exclusive to the board; however, any city or county shall be permitted to require an alarm systems business operating within its jurisdiction to register and to supply information regarding its license, and may adopt an ordinance to require users of alarm systems to obtain revocable permits when alarm usage involves automatic signal transmission to a law enforcement agency.

(11) Any other matters related to the duties or powers exercised by the agency under this Chapter.

"§ 122B-13. *Credit of State not pledged.*—Bonds or notes issued under the provisions of this Chapter shall not be secured by a pledge of the faith and credit of the State or of any political subdivision thereof or be deemed to create an indebtedness of the State, or of any such political subdivision thereof, requiring any voter approval, but shall be payable solely from the revenues and other funds provided therefor. Each bond or note issued under this Chapter shall contain on the face thereof a statement to the effect that the agency shall not be obligated to pay the same nor the interest thereon except from the revenues and other funds pledged therefor and that neither the faith and credit nor the taxing power of the State or of any political subdivision thereof is pledged as security for the payment of the principal of, redemption premium, if any, or the interest on such bond or note.

Expenses incurred by the agency in carrying out the provisions of this Chapter may be made payable from funds provided pursuant to, or made available for use under, this Chapter and no liability shall be incurred by the agency hereunder beyond the extent to which moneys shall have been so provided.

"§ 122B-14. *Bonds and notes.*—(a) The agency is hereby authorized to provide for the issuance, at one time or from time to time, of bonds, or notes in anticipation of the issuance of bonds, of the agency in an amount not to exceed 200 million dollars to carry out and effectuate its corporate purposes. The principal of and the interest on such bonds or notes shall be payable solely from funds provided under this Chapter for such payment. Any such notes may be made payable from the proceeds of bonds or renewal notes or, in the event bond or renewal note proceeds are not available, such notes may be paid from any available revenues or other funds provided therefor. The bonds or notes of each issue shall be dated and may be made redeemable before maturity at the option of the agency at such price or prices and upon such terms and conditions as may be determined by the agency. Any such bonds or notes shall bear interest at such rate or rates as may be determined by the Local Government Commission of North Carolina with the approval of the agency. Notes shall mature at such time or times not exceeding 10 years from their date or dates and bonds shall mature at such time or times not exceeding 40 years from their date or dates, as may be determined by the agency. The agency shall determine the form and manner of execution of the bonds or notes, including any interest coupons to be attached thereto, and shall fix the denomination or denominations and the place or places of payment of principal and interest, which may be any bank or trust company within or without the State. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or notes or coupons attached thereto shall cease to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The agency may also provide for the authentication of the bonds or notes by a trustee or fiscal agent. The bonds or notes may be issued in coupon or in registered form, or both, as the agency may determine, and provision may be made for the registration of any coupon bonds or notes as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds or notes of any bonds or notes registered as to both principal and interest,

and for the interchange of registered and coupon bonds or notes. No bonds or notes may be issued by the agency under this Chapter unless the issuance thereof is approved by the Local Government Commission of North Carolina.

(b) The agency shall file with the Secretary of the Local Government Commission an application requesting approval of the issuance of such bonds or notes which shall contain such information and have attached to it such documents concerning the proposed financing and prospective borrower, vendee or lessee as the Secretary may require.

In determining whether a proposed bond or note issue should be approved, the Local Government Commission may consider, in addition to the criteria and requirements mentioned in this Chapter, the effect of the proposed financing upon any scheduled or proposed sale of tax-exempt obligations by the State or any of its agencies or departments or by any unit of local government in the State.

The Local Government Commission shall approve the issuance of such bonds or notes if, upon the information and evidence it receives, it finds and determines that the proposed financing will effectuate the purposes of this Chapter.

Upon the filing with the Local Government Commission of a resolution of the agency requesting that its bonds or notes be sold, such bonds or notes may be sold in such manner, either at public or private sale, and for such price as the Local Government Commission shall determine to be for the best interest of the agency and shall best effectuate the purposes of this Chapter, provided that such sale shall be approved by the agency.

(c) The proceeds of any bonds or notes shall be used solely for the purposes for which issued and shall be disbursed in such manner and under such restrictions, if any, as the Agency may provide in the resolution authorizing the issuance of, or any trust agreement securing, such bonds or notes.

(d) Prior to the preparation of definitive bonds, the agency may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds, when such bonds shall have been executed and are available for delivery. The agency may also provide for the replacement of any bonds or notes which shall become mutilated or shall be destroyed or lost.

(e) Bonds or notes may be issued under the provisions of this Chapter without obtaining, except as otherwise expressly provided in this Chapter, the consent of any department, division, commission, board, body, bureau or agency of the State, and without any other proceedings or the happening of any conditions or things other than those proceedings, conditions or things which are specifically required by this Chapter and the provisions of the resolution authorizing the issuance of, or any trust agreement securing, such bonds or notes.

"§ 122B-15. *Powers of the State Treasurer.*—Notwithstanding any other provisions of this Chapter, the State Treasurer shall have the exclusive power to issue bonds and notes authorized under this Chapter upon request of the agency and with the approval of the Local Government Commission.

The State Treasurer in his sole discretion shall determine the interest rates, maturities, and other terms and conditions of the bonds and notes authorized by this Chapter.

The agency shall cooperate with the State Treasurer in structuring any bond issue in general, and also in soliciting proposals from financial consultants, underwriters and bond attorneys. The State Treasurer shall have the exclusive power to employ and designate the financial consultants, underwriters and bond attorneys to be associated with the bond issue.

Nothing in this Chapter is intended to abrogate or diminish the inherent power of the State Treasurer to negotiate the terms and conditions of the bonds and notes and to issue the bonds and notes authorized by this Chapter.

"§ 122B-16. *Trust agreement or resolution.*—In the discretion of the agency any bonds or notes issued under the provisions of this Chapter may be secured by a trust agreement by and between the agency and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the State. Such trust agreement or the resolution authorizing the issuance of such bonds or notes may pledge or assign all or any part of the revenues of the agency received pursuant to this Chapter, including, without limitation, fees, loan repayments, charges, insurance proceeds, condemnation awards and any other revenues and funds received in connection with any project loan and may grant a deed of trust or a mortgage on any project. Such trust agreement or resolution may contain such provisions for protecting and enforcing the rights and remedies of the holders of any such bonds or notes as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the agency in relation to the purposes to which bond or note proceeds may be applied, the disposition or pledging of the revenues of the agency, including any payments in respect of any federally guaranteed security or any federally insured mortgage note, the duties, if any, of the agency, with respect to the acquisition, construction, maintenance, repair and operation of any project, the fees, loan repayments, rents and charges to be fixed and collected in connection therewith, the terms and conditions for the issuance of additional bonds or notes, and the custody, safeguarding and application of all moneys. All bonds issued under this Chapter shall be equally and ratably secured by a pledge, charge, and lien upon revenues provided for in such trust agreement or resolution, without priority by reason of number, or of dates of bonds, execution, or delivery, in accordance with the provisions of this Chapter and of such trust agreement or resolution; except that the agency may provide in such trust agreement or resolution that bonds issued pursuant thereto shall to the extent and in the manner prescribed in such trust agreement or resolution be subordinated and junior in standing, with respect to the payment of principal and interest and the security thereof, to any other bonds. It shall be lawful for any bank or trust company incorporated under the laws of the State which may act as depository of the proceeds of bonds or notes, revenues or other money hereunder to furnish such indemnifying bonds or to pledge such securities as may be required by the agency. Any such trust agreement or resolution may set off the rights and remedies, including foreclosure of any deed of trust or mortgage, of the holders of any bonds or notes and of the trustee, and may restrict the individual right of action by any such holders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the agency may deem reasonable and proper for the security of the holders of any bonds or notes. Expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of any project or paid from the revenues pledged or assigned to the payment of the

principal of and the interest on bonds or notes or from any other funds available to the agency.

"§ 122B-17. *Revenues; pledges of revenues.*—(a) The agency is hereby authorized to fix and to collect fees, loan repayments and charges in connection with any project loan, and to contract with any borrower therefor. The agency may require that the borrower shall operate, repair or maintain the project and shall bear the cost thereof and other costs of the agency in connection with the project loan, all as may be provided in a loan agreement or other contract with the agency or a lender, in addition to other obligations imposed under such agreement or contract.

(b) The fees, loan repayments and charges shall be fixed as so to provide a fund sufficient, together with such other funds as may be made available therefor, (i) to pay the costs of operating, repairing and maintaining the project to the extent that adequate provision for the payment of such costs has not otherwise been provided for (ii) to pay the principal of and the interest on all bonds or notes as the same shall become due and payable and (iii) to create and maintain any reserves provided for in the resolution authorizing the issuance of, or any trust agreement securing, such bonds; and such fees, loan repayments and charges may be applied or pledged to the payment of debt service on the bonds prior to the payment of the costs of operating, repairing and maintaining the project.

(c) All pledges of fees, loan repayments, charges and other revenues under the provisions of this Chapter shall be valid and binding from the time when such pledges are made. All such revenues so pledged and thereafter received by the agency shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the agency, irrespective of whether such parties have notice thereof. The resolution or any trust agreement by which a pledge is created or any loan agreement, or other agreement need not be filed or recorded except in the records of the agency.

(d) The State of North Carolina does pledge to and agree with the holders of any bonds or notes issued by the agency that so long as any of such bonds or notes are outstanding and unpaid the State will not limit or alter the rights vested in the agency at the time of issuance of the bonds or notes to fix, revise, charge, and collect or cause to be fixed, revised, charged and collected loan repayments, fees and charges in connection with any project loan and in connection with which the bonds or notes were issued, so as to provide a fund sufficient, with such other funds as may be made available therefor, to pay the cost of operating, repairing and maintaining the project, to pay the principal of and the interest on all bonds and notes as the same shall become due and payable and to create and maintain any reserves provided therefor and to fulfill the terms of any agreements made with the bondholders or noteholders, nor will the State in any way impair the rights and remedies of the bondholders or noteholders until the bonds or notes and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders or noteholders, are fully paid, met and discharged.

"§ 122B-18. *Trust funds.*—Notwithstanding any other provisions of law to the contrary, all moneys received pursuant to the authority of this Chapter, including without limitation, fees, loan repayments, charges, insurance

proceeds, condemnation awards and any other revenues and funds received in connection with any project loan, shall be deemed to be trust funds to be held and applied solely as provided in this Chapter. The resolution authorizing the issuance of, or any trust agreement securing, any bonds or notes may provide that any of such moneys may be temporarily invested pending the disbursement thereof and shall provide that any officer with whom, or any bank or trust company with which, such moneys shall be deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes of this Chapter, subject to such limitations as this Chapter and such resolution or trust agreement may provide. Any such moneys may be invested as provided in G.S. 159-30, as it may from time to time be amended.

"§ 122B-19. *Remedies.*—Any holder of bonds or notes issued under the provisions of this Chapter or any coupons appertaining thereto, and the trustee under any trust agreement or resolution authorizing the issuance of such bonds or notes, except to the extent the rights herein given may be restricted by such trust agreement or resolution, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the State or granted hereunder or under such trust agreement or resolution, or under any other contract executed by the agency pursuant to this Chapter, and may enforce and compel the performance of all duties required by this Chapter or by such trust agreement or resolution to be performed by the agency or by any officer thereof.

"§ 122B-20. *Investment securities.*—All bonds, notes and interest coupons appertaining thereto issued under this Chapter are hereby made investment securities within the meaning of and for all the purposes of Article 8 of the Uniform Commercial Code as enacted in this State, whether or not they are of such form and character as to be investment securities under said Article 8, subject only to the provisions of the bonds and notes pertaining to registration.

"§ 122B-21. *Bonds or notes eligible for investment.*—Bonds or notes issued under the provisions of this Chapter are hereby made securities in which all public officers and public bodies of the State and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds or notes are hereby made securities which may properly and legally be deposited with and received by any State or municipal officer or any agency or political subdivision of the State for any purpose for which the deposit of bonds, notes or obligations of this State is now or may hereafter be authorized by law.

"§ 122B-22. *Refunding bonds or notes.*—The agency is hereby authorized to provide for the issuance of refunding bonds or notes for the purpose of refunding any bonds or notes then outstanding which shall have been issued under the provisions of this Chapter, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds or notes and, if deemed advisable by the agency, for any corporate purpose of the agency.

The issuance of such bonds or notes, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the agency in respect of the same shall be governed by the provisions of this

Chapter which relate to the issuance of bonds or notes, insofar as such provisions may be appropriate therefor.

Refunding bonds or notes may be sold or exchanged for outstanding bonds or notes issued under this Chapter and, if sold, the proceeds thereof may be applied, in addition to any other authorized purposes, to the purchase, redemption or payment of such refunding bonds or notes, with any other available funds, to the payment of the principal, accrued interest and any redemption premium on the bonds or notes being refunded, and, if so provided or permitted in the resolution authorizing the issuance of, or in the trust agreement securing, such bonds or notes, to the payment of any interest on such refunding bonds or notes and any expenses in connection with such refunding, such proceeds may be invested in direct obligations of, or obligations the principal of and the interest on which are unconditionally guaranteed by, the United States of America which shall mature or which shall be subject to redemption by the holders thereof, at the option of such holders, not later than the respective dates when the proceeds, together with the interest accrued thereon will be required for the purposes intended.

"§ 122B-23. *Annual report.*—The agency shall, promptly following the close of each fiscal year, submit an annual report of its activities under this Chapter for the preceding year to the Governor, the State Auditor, the General Assembly, the Advisory Budget Commission and the Local Government Commission. The agency shall cause an audit of its books and accounts relating to its activities under this Chapter to be made at least once in each year by an independent certified public accountant and the cost thereof may be paid from any available moneys of the agency.

"§ 122B-24. *Officers not liable.*—No member or officer of the agency shall be subject to any personal liability or accountability by reason of his execution of any bonds or notes or the issuance thereof.

Any bonds or notes issued by the agency under the provisions of this Chapter, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation by the State or any local unit or political subdivision or other instrumentality of the State, excepting inheritance or gift taxes.

"§ 122B-25. *Conflict of interest.*—If any member, officer or employee of the agency shall be interested either directly or indirectly, or shall be an officer or employee of or have an ownership interest in any firm or corporation interested directly or indirectly, in any contract with the agency, such interest shall be disclosed to the agency and shall be set forth in the minutes of the agency, and the member, officer or employee having such interest therein shall not participate on behalf of the agency in the authorization of any such contract.

"§ 122B-26. *Additional method.*—The foregoing sections of this Chapter shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing; provided, however, that the issuance of bonds or notes under the provisions of this Chapter need not comply with the requirements of any other law applicable to the issuance of bonds or notes.

"§ 122B-27. *Liberal construction.*—This Chapter, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect the purposes thereof.

"§ 122B-28. *Inconsistent laws inapplicable.*—Insofar as the provisions of this Chapter are inconsistent with the provisions of any general or special laws, or parts thereof, the provisions of this Chapter shall be controlling.

"§ 122B-29. *Provisions severable.*—The provisions of this Chapter are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions."

H. B. 322 CHAPTER 795

AN ACT AUTHORIZING THE DEPARTMENT OF HUMAN RESOURCES TO DESIGNATE GEOGRAPHIC AREAS WITHIN WHICH A SOLID WASTE MANAGEMENT PLAN WILL PROVIDE FOR THE COLLECTION AND DISPOSAL OF SOLID WASTE; REQUIRING WASTE GENERATED WITHIN SAID AREAS TO BE DISPOSED OF AT PERMITTED SOLID WASTE MANAGEMENT FACILITIES; AUTHORIZING CITIES AND COUNTIES TO EVALUATE PROPOSALS AND NEGOTIATE CONTRACTS ON THE BASIS OF FACTORS OTHER THAN PRICE ALONE; AND EXPANDING THE POWERS OF MUNICIPALITIES WITH RESPECT TO THE ISSUANCE OF REVENUE BONDS FOR SYSTEMS, FACILITIES AND EQUIPMENT FOR THE COLLECTION, TREATMENT OR DISPOSAL OF SOLID WASTE.

The General Assembly of North Carolina enacts:

Section 1. G.S. 130-166.16 is amended by adding a new subdivision to read:

"(23) 'Unit of local government' means a county, city, town or incorporated village."

Sec. 2. G.S. 130-166.17 is rewritten to read:

"§ 130-166.17. *Solid Waste Unit in Department of Human Resources.*—(a) For the purpose of promoting and preserving an environment that is conducive to public health and welfare, and preventing the creation of nuisances and the depletion of our natural resources, the Department of Human Resources shall maintain an appropriate administrative unit to promote sanitary processing, treatment, disposal, and statewide management of solid waste and the greatest possible recycling and recovery of resources, and the Department shall employ and retain such qualified personnel as may be necessary to effect such purposes. It is the purpose and intent of the State to be and remain cognizant not only of its responsibility to authorize and establish the statewide solid waste management program, but also of its responsibility to monitor and supervise, through the Department of Human Resources, the activities and operations of units of local government implementing a permitted solid waste management facility serving a specified geographic area in accordance with a solid waste management plan.

(b) In furtherance of said purpose and intent, it is hereby determined and declared that it is necessary for the health and welfare of the inhabitants of the State that solid waste management facilities permitted hereunder and serving a specified geographic area shall be used by public or private owners or occupants

of all lands, buildings, and premises within said area, and a unit of local government may, by ordinance, require that all solid waste generated within said area and placed in the waste stream for disposal, shall be delivered to the permitted solid waste management facility or facilities serving such geographic area. Actions taken pursuant to this Article shall be deemed to be acts of the sovereign power of the State of North Carolina, and to the extent reasonably necessary to achieve the purposes of this section, a unit of local government may displace competition with public service for solid waste management and disposal. It is further determined and declared that no person, firm, corporation, association or entity within said geographic area shall engage in any activities which would be competitive with this purpose or with ordinances, rules or regulations adopted pursuant to the authority granted herein."

Sec. 3. G.S. 130-166.18(a) is amended by deleting subdivision (5) and inserting the following new subdivisions in its place:

"(5a) Designate a geographic area within which the collection, transportation, storage and disposal of all solid waste generated within said area shall be accomplished in accordance with a solid waste management plan. Such designation may be made only after the Department has received a request from the unit or units of local government having jurisdiction within said geographic area that such designation be made and after receipt by the Department of a solid waste management plan which shall include:

a. The existing and projected population for such area;
b. The quantities of solid waste generated and estimated to be generated in such area;
c. The availability of sanitary landfill sites and the environmental impact of continued landfill of solid waste on surface and subsurface waters;
d. The method of solid waste disposal to be utilized and the energy or material which shall be recovered from the waste; and
e. Such other data that the Department may reasonably require.

(5b) Authorize units of local government to require by ordinance, that all solid waste generated within the designated geographic area that is placed in the waste stream for disposal be collected, transported, stored and disposed of at a permitted solid waste management facility or facilities serving such area. The provisions of such ordinance shall not be construed to prohibit the source separation of materials from solid waste prior to collection of such solid waste for disposal, or prohibit collectors of solid waste from recycling materials or limit access to such materials as an incident to collection of such solid waste; provided such prohibitions do not authorize the construction and operation of a resource recovery facility unless specifically permitted pursuant to an approved solid waste management plan. If a private solid waste landfill shall be substantially affected by such ordinance then the unit of local government adopting the ordinance shall be required to give the operator of the affected landfill at least two years written notice prior to the effective date of the proposed ordinance.

(5c) Except for the authority to designate a geographic area to be serviced by a solid waste management facility, delegate authority and responsibility to units of local government to perform all or a portion of a solid waste management program within the jurisdictional area of the unit of local government; provided that no authority over or control of the operations or properties of one local government shall be delegated to any other local government.

(5d) Require that an annual report of the implementation of the solid waste management plan within the designated geographic area be filed with the Department."

Sec. 4. Chapter 143 of the General Statutes is amended by adding a new section to read:

"§ 143-129.2. *Construction, design and operation of solid waste management facilities.*—(a) All terms relating to solid waste management and disposal as used in this section shall be defined as set forth in G.S. 130-166.16.

(b) To acknowledge the highly complex and innovative nature of solid waste management technology for processing mixed solid waste, the relatively limited availability of existing and proven proprietary technology involving solid waste management facilities, the desirability of a single point of responsibility for the development of facilities and the economic and technical utility of contracts for solid waste management which include in their scope combinations of design, construction, operation, management and maintenance responsibilities over prolonged periods of time and that in some instances it may be beneficial to a unit of local government to award a contract on the basis of factors other than cost alone, including but not limited to facility design, operational experience, system reliability, energy production efficiency, long-term operational costs, compatibility with source separation and other recycling systems, environmental impact and operational guarantees. Accordingly, and notwithstanding other provisions of this Article 8, or any other general, special or local law, a contract entered into between a unit of local government and any person pursuant to this section may be awarded in accordance with the following provisions for the award of a contract based upon an evaluation of proposals submitted in response to a request for proposals prepared by or for a unit of local government.

(c) The unit of local government shall require in its request for proposals that each proposal to be submitted shall include:

(1) information relating to the experience of the proposer on the basis of which said proposer purports to be qualified to carry out all work required by a proposed contract; the ability of the proposer to secure adequate financing; and proposals for project staffing, implementation of work tasks, and the carrying out of all responsibilities required by a proposed contract;

(2) a proposal clearly identifying and specifying all elements of cost which would become charges to the unit of local government, in whatever form, in return for the fulfillment by the proposer of all tasks and responsibilities established by the request for the proposal for the full lifetime of a proposed contract, including, as appropriate, but not limited to, the cost of planning, design, construction, operation, management and/or maintenance of any facility; provided, that the unit of local government may prescribe the form and content of such proposal and that, in any event, the proposer must submit sufficiently detailed information to permit a fair and equitable evaluation of such proposal;

(3) such other information as the unit of local government may determine to have a material bearing on its ability to evaluate any proposal in accordance with this section.

(d) Proposals received in response to such request for proposals may be evaluated on the basis of a technical analysis of facility design, operational experience of the technology to be utilized in the proposed facility, system reliability and availability, energy production balance and efficiency, environmental impact and protection, recovery of materials, required staffing level during operation, projection of anticipated revenues from the sale of energy and materials recovered by the facility, net cost to the unit of local government for operation and maintenance of the facility for the duration of time to be established in the request for proposals and upon such other factors and information as the unit of local government determined to have a material bearing on its ability to evaluate any proposal, which factors were set forth in said request for proposal.

(e) The unit of local government may make a contract award to any responsible proposer selected pursuant to this section based upon a determination that the selected proposal is more responsive to the request for proposals and may thereupon negotiate a contract with said proposer for the performance of the services set forth in the request for proposals and the response thereto, such determination shall be deemed to be conclusive. Notwithstanding other provisions of this Article 8, or any other general, local or special law, a contract may be negotiated and entered into between a unit of local government and any person selected as a responsible proposer hereunder which may provide for, but not be limited to, the following:

(1) a contract, lease, rental, license, permit or other authorization to design, construct, operate and maintain such a solid waste management facility, upon such terms and conditions for such consideration and for such term or duration, not to exceed 40 years, as may be agreed upon by the unit of local government and such person;

(2) payment by the unit of local government of a fee or other charge to such person for acceptance, processing, recycling, management and disposal of solid waste;

(3) an obligation on the part of a unit of local government to deliver or cause to be delivered to a solid waste management facility guaranteed quantities of solid wastes; and

(4) the sale, utilization or disposal of any form of energy, recovered material or residue resulting from the operation of any solid waste management facility.

(f) The construction work for any facility or structure which is ancillary to the solid waste management facility and which does not involve storage and processing of solid waste or the separation, extraction and recovery of useful or marketable forms of energy and materials from solid waste at the solid waste management facility, shall be procured through competitive bidding procedures described by G.S. 143-128 through G.S. 143-129.1. Such ancillary facilities shall include but shall not necessarily be limited to the following: roads, water and sewer lines to the facility limits, transfer stations, scale house, administration buildings and residue and bypass disposal sites."

Sec. 5. G.S. 159-96 is amended by rewriting the last sentence to read:

"Provided, however, that revenue bonds may be issued for the purpose of financing in whole or in part mass transit systems, aeronautical facilities, marine facilities and systems, facilities and equipment for the collection, treatment or disposal of solid waste, notwithstanding that such systems,

facilities or equipment may be operated for users outside the corporate limits of a municipality where the municipality finds that the system, facilities or equipment so financed would benefit the municipality."

Sec. 6. G.S. 159-97(g)(1) is rewritten to read:

"(1) A 'revenue bond project' is limited, notwithstanding the provisions of G.S. 159-81, to (i) aeronautical facilities, including but not limited to airports, terminals and hangars, (ii) hospitals and other health-related facilities, and (iii) systems, facilities and equipment for the collection, treatment or disposal of solid waste within the meaning of said G.S. 159-81,".

Sec. 7. Sections 5 and 6 of this act shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing.

Sec. 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect the provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 8.1. If Senate Bill 141 is enacted by the 1983 General Assembly, then effective January 1, 1984:

(1) G.S. 130-166.16(23) as enacted by Section 1 of this act is recodified as G.S. 130A-290(25);

AN ACT TO ABOLISH THE SALE OF TAX LIENS TO PRIVATE PURCHASERS.

The General Assembly of North Carolina enacts:

Section 1. G.S. 105-369 is rewritten to read:

"§ 105-369. *Advertisement of tax liens on real property for failure to pay taxes.*—(a) Report of unpaid Taxes that are Liens on Real Property. On the first Monday in February in each year, each county tax collector and on the second Monday in February in each year, each municipal tax collector shall report to the governing body the total amount of unpaid taxes for the current fiscal year that are liens on real property, and the governing body shall thereupon order the tax collector to advertise such tax liens at one of the times specified in subsection (b), below. For purposes of this section, district taxes collected by county tax collectors shall be regarded as county taxes and district taxes collected by municipal tax collectors shall be regarded as municipal taxes.

(b) Time for Advertisement. The county tax lien advertisement shall begin on the first Monday in March, April, May, or June, and the municipal tax lien advertisement shall begin on the second Monday in any of the four specified months. (If the taxes of two or more taxing units are collected by the same tax collector, lien advertisements for both, or all, may begin on either the first or second Monday of a month in which tax lien advertisements may be begun.) Failure to comply with the provisions of this section shall not affect the validity of the taxes or the tax liens.

(c) Contents of Advertisement. Advertisement of tax liens shall be made by posting at some public place at the courthouse (in the case of county taxes) or city or town hall (in the case of municipal taxes) and by advertisement once each week for four successive weeks in one or more newspapers having general circulation in the taxing unit. The costs of newspaper advertising shall be paid by the taxing unit. (If the taxes of two or more taxing units are collected by the same tax collector, the tax liens of each unit shall be advertised separately unless, under the provisions of a special act or contractual agreement between the taxing units, joint advertisement is permitted.)

The posted notice and newspaper advertisement shall set forth the following information:

(1) The name of each person to whom is listed real property on which the taxing unit has a lien for unpaid taxes, together with a brief description of each parcel of land to which such a lien has attached and a statement of the principal amount of the taxes constituting a lien against the parcel.

(2) A statement that the amounts advertised will be increased by interest and costs and that the omission of interest and costs from the amounts advertised will not constitute waiver of the taxing unit's claim for those items.

(3) In the event the list of tax liens has been divided for purposes of advertisement in more than one newspaper, a statement of the names of all newspapers in which advertisements will appear and the dates on which they will be published.

(4) A statement that the taxing unit may foreclose the tax liens and sell the real property subject to the liens in satisfaction of its claim for taxes.

(c) Costs. Each parcel of real property advertised pursuant to this section shall be assessed an advertising fee to cover the actual cost of the advertisement. Actual advertising costs per parcel shall be determined by the tax collector on any reasonable basis. Advertising costs assessed pursuant to this subdivision (c) shall be deemed to be taxes.

(d) Payments during Advertising Period. At any time during the advertisement period, any parcel may be withdrawn from the list by payment of the taxes plus interest that has accrued to the time of payment and a proportionate part of the advertising fee to be determined by the tax collector. Thereafter, the tax collector shall delete that parcel from the advertisement, but if he fails to do so he shall not be liable for his failure to make the decision.

(e) Listing and Advertising in Wrong Name. No tax lien shall be void because the real property to which the lien attached was listed or advertised in the name of a person other than the person in whose name the property should have been listed for taxation if the property was in other respects correctly described on the abstract or in the advertisement.

(f) Wrongful Advertisement. Any tax collector or deputy tax collector who shall willfully advertise any tax lien knowing that the property is not subject to taxation or that the taxes advertised have been paid shall be guilty of a misdemeanor and upon conviction shall be fined not more than five hundred dollars ($500.00) or imprisoned for not more than 30 days, or both, and shall be required to pay the injured party all damages sustained in consequence."

Sec. 2. G.S. 105-370 is repealed.

Sec. 3. G.S. 105-371 is repealed.

Sec. 4. G.S. 105-372 is repealed.

Sec. 5. G.S. 105-373(a)(1) is rewritten to read:

"(1) Preliminary Report. Not later than the third Monday in June, the tax collector shall make a sworn report to the governing body of the taxing unit showing:

a. A list of the persons owning real property whose taxes remain unpaid and the principal amount due; and

b. A list of the persons not owning real property whose personal property taxes remain unpaid. (To this list the tax collector shall append his statement under oath that he has made diligent efforts to collect the taxes due from the persons listed out of their personal property and by other means available to him for collection, and he shall report such other information concerning these taxpayers as may be of interest to or required by the governing body, including a report of his efforts to make collection outside the taxing unit under the provisions of G.S. 105-364.)"

Sec. 6. G.S. 105-373(a)(3)c. is rewritten to read:

"c. The principal amount of taxes constituting liens on real property."

Sec. 7. G.S. 105-373(a)(4) is rewritten to read:

"(4) Disposition of Tax Receipts after Settlement. Uncollected taxes allowed as credits in the settlement prescribed in subdivision (a)(3), above, whether represented by tax liens held by the taxing unit or included in the list of insolvents, shall, for purposes of collection, be recharged to the tax collector or charged to some other person designated by the governing body of the taxing unit under statutory authority.

The person charged with uncollected taxes shall:

a. Give bond satisfactory to the governing body;

b. Receive the tax receipts and tax records representing the uncollected taxes;

c. Have and exercise all powers and duties conferred or imposed by law upon tax collectors; and

d. Receive compensation as determined by the governing body."

Sec. 8. G.S. 105-374(b) is rewritten to read:

"(b) Taxing units may proceed under this section, either on the original tax lien created by G.S. 105-355(a) or on the lien acquired at a tax lien sale held under former G.S. 105-369 before July 1, 1983, with or without a lien sale certificate; and the amount of recovery in either case shall be the same. To this end, it is hereby declared that the original attachment of the tax lien under G.S. 105-355(a) is sufficient to support a tax foreclosure action by a taxing unit, that the issuance of a lien sale certificate to the taxing unit for lien sales held before July 1, 1983, is a matter of convenience in record keeping within the discretion of the governing body of the taxing unit, and that issuance of such certificates is not a prerequisite to perfection of the tax lien."

Sec. 9. G.S. 105-375(b) is amended by striking out the word "sale" in line 3 and inserting in lieu thereof the word "advertisement".

Sec. 10. G.S. 105-394(6) is rewritten to read:

"(6) The failure of the collector to advertise any tax lien."

Sec. 11. G.S. 105-394(7) is repealed.

Sec. 12. This act shall not affect the validity of any tax lien sale held before July 1, 1983.

Sec. 13. Anything in this act to the contrary notwithstanding, any person, firm, or corporation who purchased or took assignment of a tax lien sale certificate before July 1, 1983, pursuant to statutes amended or repealed by this act may initiate a foreclosure action under G.S. 105-374 no earlier than six months after the date of the original lien sale.

Sec. 14. All references in this act to portions of Chapter 105 of the General Statutes of North Carolina refer to the same as contained in 1979 Replacement Volume 3D, the 1981 Cumulative Supplement thereto, and 1982 Interim Supplement.

Sec. 15. This act is effective upon ratification.

In the General Assembly read three times and ratified, this the 18th day of July, 1983.

Payments held in such trust or escrow accounts shall be deemed to belong to the purchaser and not the developer. In lieu of such escrow requirements, the Commission shall have the authority to accept, in its discretion, alternative financial assurances adequate to protect the purchaser's interest during the contract cancellation period, including but not limited to a surety bond, corporate bond, cash deposit or irrevocable letter of credit in an amount equal to the escrow requirements.

(d) If a developer fails to provide a purchaser to whom a time share is transferred with the statement as required by subsection (a), the purchaser, in addition to any rights to damages or other relief, is entitled to receive from the

developer an amount equal to ten percent (10%) of the sales price of the time share not to exceed three thousand dollars ($3,000). A receipt signed by the purchaser stating that he has received the statement required by subsection (a) is *prima facie* evidence of delivery of such statement.

(18) A statement in boldfaced type to the effect that the percentage described in subparagraph (17)c. of subsection (a) is a summary of the exchange requests entered with the exchange company in the period

reported and that the percentage does not indicate a purchaser's/owner's probabilities of being confirmed to any specific choice or range of choices, since availability at individual locations may vary.

The purchaser shall certify in writing to the receipt of the information required by this subsection and any other information which the Commissioners may by rule require.

(b) The information required by subdivisions (a), (2), (3), (13), (14), (15), and (17) shall be accurate as of December 31 of the year preceding the year in which the information is delivered, except for information delivered within the first 180 days of any calendar year which shall be accurate as of December 31 of the year two years preceding the year in which the information is delivered to the purchaser. The remaining information required by subsection (a) shall be accurate as of a date which is no more than 30 days prior to the date on which the information is delivered to the purchaser.

(c) In the event an exchange company offers an exchange program directly to the purchaser or owner, the exchange company shall deliver to each purchaser or owner, concurrently with the offering and prior to the execution of any contract between the purchaser or owner and the exchange company the information set forth in subsection (a) above. The requirements of this paragraph shall not apply to any renewal of a contract between an owner and an exchange company.

(d) All promotional brochures, pamphlets, advertisements, or other materials disseminated by the exchange company to purchasers in this State which contain the percentage of confirmed exchanges described in (a)(17)c. must include the statement set forth in (a)(18).

"§ 93A-49. *Service of process on exchange company.*—Any exchange company offering an exchange program to a purchaser shall be deemed to have made an irrevocable appointment of the Commission to receive service of lawful process in any proceeding against the exchange company arising under this Article.

"§ 93A-50. *Securities laws apply.*—The North Carolina Securities Act, Chapter 78A, shall also apply, in addition to the laws relating to real estate, to time shares deemed to be investment contracts or to other securities offered with or incident to a time share; provided, in the event of such applicability of the North Carolina Securities Act, any offer or sale of time shares registered under this Article shall not be subject to the provisions of G.S. 78A-24 and any real estate broker or salesman registered under Article 1 of this Chapter shall not be subject to the provisions of G.S. 78A-36.

"§ 93A-51. *Rule-making authority.*—The Commission shall have the authority to adopt rules and regulations that are not inconsistent with the provisions of this Article and the General Statutes of North Carolina. The Commission may prescribe forms and procedures for submitting information to the Commission.

"§ 93A-52. *Application for registration of time share project; denial of registration; renewal; reinstatement; and termination of developer's interest.*—(a) Prior to the offering in this State of any time share located in this State, the developer of the time share project shall make written application to the Commission for the registration of the project. The application shall be accompanied by a fee in an amount fixed by the Commission but not to exceed fifteen hundred dollars ($1500), and shall include a description of the project,

copies of proposed time share instruments including public offering statements, sale contracts, deeds, and other documents referred to therein, information pertaining to any marketing or managing entity to be employed by the developer for the sale of time shares in a time share project or the management of the project, information regarding any exchange program available to the purchaser, an irrevocable appointment of the Commission to receive service of any lawful process in any proceeding against the developer or the developer's salesmen arising under this Article, and such other information as the Commission may by rule require.

Upon receipt of a properly completed application and fee and upon a determination by the Commission that the sale and management of the time shares in the time share project will be directed and conducted by persons of good moral character, the Commission shall issue to the developer a certificate of registration authorizing the developer to offer time shares in the project for sale. The Commission shall within 15 days after receipt of an incomplete application, notify the developer by mail that the Commission has found specified deficiencies, and shall, within 45 days after the receipt of a properly completed application, either issue the certificate of registration or notify the developer by mail of any specific objections to the registration of the project. The certificate shall be prominently displayed in the office of the developer on the site of the project.

The developer shall promptly report to the Commission any and all changes in the information required to be submitted for the purpose of the registration. The developer shall also immediately furnish the Commission complete information regarding any change in its interest in a registered time share project. In the event a developer disposes of, or otherwise terminates its interest in a time share project, the developer shall certify to the Commission in writing that its interest in the time share project is terminated and shall return to the Commission for cancellation the certificate of registration.

(b) In the event the Commission finds that there is substantial reason to deny the application for registration as a time share project, the Commission shall notify the applicant that such application has been denied and shall afford the applicant an opportunity for a hearing before the Commission to show cause why the application should not be denied. In all proceedings to deny a certificate of registration, the provisions of Chapter 150A of the General Statutes shall be applicable.

(c) The acceptance by the Commission of an application for registration shall not constitute the approval of its contents or waive the authority of the Commission to take disciplinary action as provided by this Article.

(d) All certificates of registration granted and issued by the Commission under the provisions of this Article shall expire on the 30th day of June following issuance thereof, and shall become invalid after such date unless reinstated. Renewal of such certificate may be effected at any time during the month of June preceding the date of expiration of such registration upon proper application to the Commission and by the payment of a renewal fee fixed by the Commission but not to exceed seven hundred fifty dollars ($750.00) for each time share project. The developer shall, when making application for renewal, also provide a copy of the report required in G.S. 93A-48. Each certificate reinstated after the expiration date thereof shall be subject to a late filing fee of fifty dollars ($50.00) in addition to the required renewal fee. In the event a time

share developer fails to reinstate the registration within 12 months after the expiration date thereof, the Commission may, in its discretion, consider the time share project as not having been previously registered, and thereby subject to the provisions of this Article relating to the issuance of an original certificate. Duplicate certificates may be issued by the Commission upon payment of a fee of one dollar ($1.00) by the registrant developer.

"§ 93A-53. *Register of applicants; roster of registrants; registered projects; financial report to Secretary of State.*—(a) The Executive Director of the Commission shall keep a register of all applicants for certificates of registration, showing for each the date of application, name, business address, and whether the certificate was granted or refused.

(b) The Executive Director of the Commission shall also keep a current roster showing the name and address of all time share projects registered with the Commission. The roster shall be kept on file in the office of the Commission and be open to public inspection.

(c) On or before the first day of September of each year, the Commission shall file with the Secretary of State a copy of the roster of time share projects registered with the Commission and a report containing a complete statement of income received by the Commission in connection with the registration of time share projects for the preceding fiscal year ending June 30th attested by the affidavit of the Executive Director of the Commission. The report shall be made a part of those annual reports required under the provisions of G.S. 93A-5.

"§ 93A-54. *Disciplinary action by Commission.*—(a) The Commission shall have power to take disciplinary action. Upon its own motion, or on the verified complaint of any person, the Commission may investigate the actions of any time share salesman or any developer of a time share project registered under this Article, or any other person or entity who shall assume to act in such capacity. If the Commission finds probable cause that a time share salesman or developer has violated any of the provisions of this Article, the Commission may hold a hearing on the allegations of misconduct. All such hearings shall be conducted in accordance with the provisions of Chapter 150A of the General Statutes.

The Commission shall have power to suspend or revoke at any time a real estate license issued to a time share salesman or a certificate of registration of a time share project issued to a developer, or to reprimand or censure such salesman or developer, or to fine such developer in the amount of five hundred dollars ($500.00) for each violation of this Article, if, after a hearing, the Commission adjudges either the salesman or developer to be guilty of:

(1) Making any willful or negligent misrepresentation or any willful or negligent omission of material fact about any time share or time share project;

(2) Making any false promises of a character likely to influence, persuade, or induce;

(3) Pursuing a course of misrepresentation or making of false promises through agents, salesmen, advertising or otherwise;

(4) Failing, within a reasonable time, to account for all money received from others in a time share transaction, and failing to remit such monies as may be required in G.S. 93A-45 of this Article;

(5) Acting as a time share salesman or time share developer in a manner as to endanger the interest of the public;

(6) Paying a commission, salary, or other valuable consideration to any person for acts or services performed in violation of this Article;

(7) Any other conduct which constitutes improper, fraudulent, or dishonest dealing;

(8) Performing or undertaking to perform any legal service as set forth in G.S. 84-2.1, or any other acts not specifically set forth in that section;

(9) Failing to deposit and maintain in a trust or escrow account in an insured bank or savings and loan association in North Carolina all money received from others in a time share transaction as may be required in G.S. 93A-45 of this Article;

(10) Failing to deliver to a purchaser a public offering statement containing the information required by G.S. 93A-44 and any other disclosures that the Commission may by regulation require;

(11) Failing to comply with the provisions of Chapter 75 of the General Statutes in the advertising or promotion of time shares for sale, or failing to assure such compliance by persons engaged on behalf of a developer;

(12) Failing to comply with the provisions of G.S. 93A-48 in furnishing complete and accurate information to purchasers concerning any exchange program which may be offered to such purchaser;

(13) Making any false or fraudulent representation on an application for registration; or

(14) Violating any rule or regulation promulgated by the Commission.

(b) Following a hearing, the Commission shall also have power to suspend or revoke any certificate of registration issued under the provisions of this Article or to reprimand or censure any developer when the registrant has been convicted or has entered a plea of guilty or no contest upon which final judgment is entered by a court of competent jurisdiction in this State, or any other state, of the criminal offenses of: embezzlement, obtaining money under false pretense, fraud, forgery, conspiracy to defraud, or any other offense involving moral turpitude which would reasonably affect the developer's performance in the time share business.

(c) The Commission may appear in its own name in superior court in actions for injunctive relief to prevent any person or entity from violating the provisions of this Article or rules promulgated by the Commission. The superior court shall have the power to grant these injunctions even if criminal prosecution has been or may be instituted as a result of the violations, or regardless of whether the person or entity has been registered by the Commission.

(d) Each developer shall maintain or cause to be maintained complete records of every time share transaction including records pertaining to the deposit, maintenance, and withdrawal of money required to be held in a trust or escrow account, or as otherwise required by the Commission, under G.S. 93A-45 of this Article. The Commission may inspect these records periodically without prior notice and may also inspect these records whenever the Commission determines that they are pertinent to an investigation of any specific complaint against a registrant.

"§ 93A-55. *Private enforcement.*—The provisions of the Article shall not be construed to limit in any manner the right of a purchaser or other person injured by a violation of this Article to bring a private action.

"§ 93A-56. *Penalty for violation of Article.*—Any person violating the provisions of this Article shall, upon conviction thereof, be deemed guilty of a misdemeanor and shall be punished by a fine or imprisonment, or by both fine and imprisonment, in the discretion of the court.

"§ 93A-57. *Release of liens.*—(a) Prior to any recordation of the instrument transferring a time share the developer shall record or furnish to the purchaser a release of all liens affecting that time share or shall provide a surety bond or insurance against the lien from a company acceptable to the Commission as provided for liens on real estate in this State, or such underlying lien document shall contain a provision wherein the lien holder subordinates its rights to that of a time share purchaser who fully complies with all of the provisions and terms of the contract of sale.

(b) Unless a time share owner or a time share owner who is his predecessor in title agree otherwise with the lienor, if a lien other than a mortgage or deed of trust becomes effective against more than one time share in a time share project, any time share owner is entitled to a release of his time share from a lien upon payment of the amount of the lien attributable to his time share. The amount of the payment must be proportionate to the ratio that the time share owner's liability bears to the liabilities of all time share owners whose interests are subject to the lien. Upon receipt of payment, the lien holder shall promptly deliver to the time share owner a release of the lien covering that time share. After payment, the managing agent may not assess or have a lien against that time share for any portion of the expenses incurred in connection with that lien."

H. B. 177 CHAPTER 832

AN ACT PROVIDING COMPENSATION FOR INNOCENT VICTIMS OF CRIME.

The General Assembly of North Carolina enacts:

Sec. 1. A new Chapter is added to the General Statutes to read:

"CHAPTER 15B.

"Victims Compensation.

"§ 15B-1. *Short title.*—This Chapter may be cited as the 'North Carolina Crime Victims Compensation Act'.

"§ 15B-2. *Definitions.*—As used in this Chapter, unless the context requires otherwise:

(a) 'Allowable expense' means reasonable charges incurred for reasonably needed products, services, and accommodations, including those for medical care, rehabilitation, and other remedial treatment and care.

Allowable expense includes a total charge not in excess of two thousand dollars ($2,000) for expenses in any way related to funeral, cremation, and burial. It does not include that portion of a charge for a room in a hospital, clinic, convalescent home, nursing home, or any other institution engaged in providing nursing care and related services in excess of a reasonable and customary charge for semiprivate accommodations, unless accommodations other than semiprivate accommodations are medically required.

(b) 'Claimant' means any of the following persons who claims an award of compensation under this Chapter:

(1) A victim;

(2) A dependent of a deceased victim;

(3) A third person other than a collateral source;

(4) A person who is authorized to act on behalf of a victim, a dependent, or a third person who is not a collateral source.

The claimant, however, may not be the offender or an accomplice of the offender who committed the criminally injurious conduct.

(c) 'Collateral source' means a source of benefits or advantages for economic loss otherwise compensable that the victim or claimant has received or that is readily available to him from any of the following sources:

(1) The offender;

(2) The government of the United States or any of its agencies, a state or any of its political subdivisions, or an instrumentality of two or more states;

(3) Social security, medicare, and medicaid;

(4) State-required, temporary, nonoccupational disability insurance;

(5) Worker's compensation;

(6) Wage continuation programs of any employer;

(7) Proceeds of a contract of insurance payable to the victim for loss that he sustained because of the criminally injurious conduct;

(8) A contract providing prepaid hospital and other health care services, or benefits for disability.

(d) 'Commission' means the Crime Victim's Compensation Commission established by G.S. 15B-3.

(e) 'Criminally injurious conduct' means conduct that occurs or is attempted in this State which by its nature poses a substantial threat of personal injury or death, and is punishable by fine or imprisonment or death, or would be so punishable but for the fact that the person engaging in the conduct lacked capacity to commit the crime under the laws of this State. Criminally injurious conduct does not include conduct arising out of the ownership, maintenance, or use of a motor vehicle.

(f) 'Dependent' means an individual wholly or substantially dependent upon the victim for care and support and includes a child of the victim born after his death.

(g) 'Dependent's economic loss' means loss after a victim's death of contributions of things of economic value to his dependents, not including services they would have received from the victim if he had not suffered the fatal injury, less expenses of the dependents avoided by reason of the victim's death.

(h) 'Dependent's replacement service loss' means loss reasonably incurred by dependents after a victim's death in obtaining ordinary and necessary services in lieu of those the victim would have performed for their benefit if he had not suffered the fatal injury, less expenses of the dependents avoided by reason of the victim's death and not subtracted in calculating dependent's economic loss.

(i) 'Director' means the director of the Commission appointed pursuant to G.S. 15B-6(2).

(j) 'Economic loss' means economic detriment consisting only of allowable expense, work loss, and replacement services loss. If criminally injurious conduct causes death, economic loss includes a dependent's economic loss and a dependent's replacement service loss. Noneconomic detriment is not economic loss, but economic loss may be caused by pain and suffering or physical impairment.

(k) 'Noneconomic detriment' means pain, suffering, inconvenience, physical impairment, or other nonpecuniary damage.

(l) 'Replacement services loss' means expenses reasonably incurred in obtaining ordinary and necessary services in lieu of those the injured person

would have performed, not for income but for the benefit of himself or his family, if he had not been injured.

(m) 'Victim' means a person who suffers personal injury or death proximately caused by criminally injurious conduct.

(n) 'Work loss' means loss of income from work that the injured person would have performed if he had not been injured and expenses reasonably incurred by him to obtain services in lieu of those he would have performed for income, reduced by any income from substitute work actually performed by him, or by income he would have earned in available appropriate substitute work that he was capable of performing but unreasonably failed to undertake.

"§ 15B-3. *Crime Victims Compensation Commission.*—(a) There is established the Crime Victims Compensation Commission of the Department of Crime Control and Public Safety, consisting of five members to be appointed as follows:

(1) Three members by the Governor, one of whom shall be a physician and one of whom shall be an attorney;

(2) One member by the General Assembly upon the recommendation of the President of the Senate under G.S. 120-121; and

(3) One member by the General Assembly upon the recommendation of the Speaker of the House of Representatives under G.S. 120-121.

(b) Members shall serve terms of four years. A member shall continue to serve until his successor is duly appointed, but a holdover under this provision does not affect the expiration date of the succeeding term.

(c) In case of a vacancy on the Commission before the expiration of a member's term, a successor shall be appointed within 30 days of the vacancy for the remainder of the unexpired term by the appropriate official pursuant to subsection (a). Vacancies in legislative appointments shall be filled under G.S. 120-122.

(d) The Commission shall elect one of its members as chairman to serve until the expiration of his term.

(e) A majority of the Commission constitutes a quorum to transact business.

(f) Members shall receive compensation and reimbursement for expenses as provided in G.S. 138-5.

"§ 15B-4. *Award of compensation.*—Subject to the limitations of G.S. 15B-22, the Commission shall award compensation for economic loss arising from criminally injurious conduct if satisfied by a preponderance of the evidence that the requirements for an award of compensation have been met.

"§ 15B-5. *Attorney General to represent State.*—The Attorney General shall represent the interest of the State when:

(1) A decision of the Commission is appealed to the courts; and

(2) When the State is sued or when it brings or enters a lawsuit pursuant to this Chapter.

"§ 15B-6. *Powers of the Commission.*—In addition to powers authorized by this Chapter and Chapter 150A, the Commission may:

(1) Establish and maintain a principal office and other necessary offices within this State;

(2) Employ a Director, investigators, and other necessary personnel;

(3) Publicize widely the availability of compensation and information regarding the filing of claims for compensation; and

(4) Adopt rules necessary to carry out the purposes of this Chapter.

"§ 15B-7. *Filing of application for compensation award; filing fee; contents.*—(a) A claim for an award of compensation is commenced by filing an application for an award with the Commission. Each application shall be accompanied by a filing fee of ten dollars ($10.00) unless waived pursuant to G.S. 15B-8(b). The application shall be in a form prescribed by the Commission and shall contain the following information:

(1) The name and address of the victim of the criminally injurious conduct, the name and address of the claimant, and the relationship of the claimant to the victim;

(2) If the victim is deceased, the name and address of each dependent of the victim and the extent to which each is dependent upon the victim for care and support;

(3) The nature of the criminally injurious conduct that is the basis for the claim and the date on which the conduct occurred;

(4) The law enforcement agency or officer to whom the criminally injurious conduct was reported and the date on which it was reported;

(5) The nature and extent of the injuries that the victim sustained from the criminally injurious conduct for which compensation is sought, the name and address of any person who gave medical treatment to the victim for the injuries, the name and address of any hospital or similar institution where the victim received medical treatment for the injuries, and whether the victim died as a result of the injuries;

(6) The total amount of the economic loss that the victim, a dependent, or the claimant sustained as a result of the criminally injurious conduct, without regard to the financial limitations set forth in G.S. 15B-11(f) and (g).

(7) The amount of benefits or advantages that the victim, a dependent, or other claimant has received or is entitled to receive from any collateral source for economic loss that resulted from the criminally injurious conduct, and the name of each collateral source;

(8) Whether the claimant is the spouse, parent, child, brother, or sister of the offender, or is similarly related to an accomplice of the offender who committed the criminally injurious conduct;

(9) A release authorizing the Commission and the Commission's staff to obtain any report, document, or information that relates to the determination of the claim for an award of compensation;

(10) Any additional relevant information that the Commission may require. The Commission may require the claimant to submit, with the application, materials to substantiate the facts that are stated in the application.

(b) A person who knowingly and willfully presents or attempts to present a false or fraudulent application, or a State officer or employee who knowingly and willfully participates or assists in the preparation or presentation of a false or fraudulent application is guilty of a misdemeanor if the application is for a claim of not more than four hundred dollars ($400.00). If the application is for a claim of more than four hundred dollars ($400.00), the person is guilty of a Class I felony.

"§ 15B-8. *Procedure for filing application; indigent applicants.*—(a) The Commission shall establish a procedure for the filing, recording, and processing of applications for an award of compensation.

(b) If an applicant files an affidavit stating that he is indigent and that payment of the filing fee would create a financial hardship for him, the Commission may accept the application for filing without payment of the filing fee. If the application is accepted without payment of the filing fee and an award is made pursuant to the application, the amount of the award shall be reduced by the amount of the filing fee.

"§ 15B-9. *Administrative Procedure Act applicable.*—Except as otherwise provided in this Chapter, Chapter 150A applies to the Commission.

"§ 15B-10. *Initial investigation and decision; appeal.*—(a) The Director shall assign each claim to an investigator as soon as it is filed.

(b) The investigator who investigates the claim shall file a report with the Director. The Director shall make an initial decision on the claim based on the application, the investigator's report, and any other written evidence he thinks necessary.

(c) If the claimant is satisfied with the Director's decision, it shall be submitted to the Commission for its approval.

(d) If the claimant is not satisfied with the Director's decision, the claimant may appeal to the Commission for a full hearing.

(e) The Commission may not employ hearing officers but shall conduct its own hearings. The Director shall represent the interest of the State at a full hearing before the Commission.

"§ 15B-11. *Grounds for denial of claim or reduction of award.*—(a) The Commission may not approve an award of compensation:

(1) To a claimant who did not file his application for an award within two years after the date of the occurrence of the criminally injurious conduct that caused the injury or death for which he is seeking an award;

(2) If the criminally injurious conduct upon which the claim is based was not reported to a law enforcement officer or agency within 72 hours after the occurrence of the conduct, unless it is determined that good cause existed for the failure to report the conduct within the 72-hour period;

(3) To a claimant if the award would unjustly benefit the offender or his accomplice. Unless a determination is made that the interests of justice require that an award be approved in a particular case, an award of compensation may not be made to the spouse of, or to a person living in the same household with, the offender or an accomplice of the offender, or to the parent, child, brother, or sister of the offender or his accomplice;

(4) If the injury occurred while the victim was confined in any state, county, or city prison, correctional facility, or local confinement facility.

(b) The Commission, upon a finding of contributory misconduct by the claimant or by a victim through whom he claims, may deny a claim or reduce an award of compensation.

(c) The Commission, upon a finding that the claimant or victim has not fully cooperated with appropriate law enforcement agencies with regard to the criminally injurious conduct that is the basis for the award, may deny a claim, reduce an award of compensation, and may reconsider a claim already approved.

(d) After reaching a decision to approve an award of compensation, but before notifying the claimant, the Commission shall require the claimant to submit

current information as to collateral sources on forms prescribed by the Commission. The Commission shall reduce an award or deny a claim for an award that is otherwise payable to a claimant to the extent that the economic loss upon which the claim is based is or will be recouped from collateral sources. If an award is reduced or a claim is denied because of the expected recoupment of all or part of the economic loss of the claimant from a collateral source, the amount of the award or the denial of the claim shall be conditioned upon the claimant's economic loss being recouped by the collateral source. If it is thereafter determined that the claimant will not receive all or part of the expected recoupment, the claim shall be reopened and an award shall be approved in an amount equal to the amount of expected recoupment that it is determined the claimant will not receive from the collateral source, subject to the limitations set forth in subsections (f) and (g).

(e) Compensation may not be awarded if the economic loss is less than one hundred dollars ($100.00).

(f) Compensation for work loss, replacement services loss, dependent's economic loss, and dependent's replacement services loss may not exceed two hundred dollars ($200.00) per week.

(g) Compensation payable to a victim and to all other claimants sustaining economic loss because of injury to or the death of that victim, together with attorney fees awarded under G.S. 15B-15, may not exceed twenty thousand dollars ($20,000) in the aggregate.

(h) The Commission's right to reconsider or reopen a claim does not affect the finality of its decision for the purpose of judicial review.

"§ 15B-12. *Evidence.*—(a) The hearing shall be conducted so as to disclose all material facts and issues. The Commission may examine or cross-examine witnesses. The Commission may call witnesses or require evidence not produced by the parties and may continue the hearing until some subsequent time to permit a more complete presentation of the claim. A claimant may appear in his own behalf or may be represented by counsel. The usual common law and statutory rules of evidence do not apply at the hearing. The Commission may hear any information that will assist it in determining the factual basis of the claim.

(b) There is no privilege, except the privileges arising from the attorney-client relationship and the North Carolina and United States Constitutions, as to communications or records that are relevant to the physical, mental, or emotional condition of the claimant or victim in a proceeding under this Chapter in which that condition is an element.

(c) If the mental, physical, or emotional condition of a victim or claimant is material to a claim for an award of compensation, the Commission may order the victim or claimant to submit to a mental or physical examination by a physician or psychologist, and may order an autopsy of a deceased victim. The order may be made for good cause shown and upon notice to the person to be examined and to the claimant. The order shall specify the time, place, manner, conditions, and scope of the examination or autopsy and the person by whom it is to be made, and shall require the person who performs the examination or autopsy to file with the Commission a detailed written report of the examination or autopsy. The report shall set out the findings, including the results of all tests made, diagnosis, prognosis, and other conclusions, and reports of earlier examinations of the same conditions. On request of the person

examined, the Commission shall furnish him a copy of the report. If the victim is deceased, the Commission on request, shall furnish the claimant a copy of the report.

(d) The Commission may request that law enforcement officers employed by the State or any political subdivision thereof provide it with copies of any information or data gathered in the investigation of the criminally injurious conduct that is the basis of any claim to enable it to determine whether, and the extent to which, a claimant qualifies for an award of compensation. The Commission may also request that prosecuting attorneys, law enforcement officers, and State agencies conduct investigations and provide information necessary to enable the Commission to determine whether, and the extent to which, a claimant qualifies for an award of compensation. Information obtained pursuant to this subsection is subject to the same privilege against public disclosure that may be asserted by the providing source.

(e) The Commission may require the claimant to supplement the application for an award of compensation with any reasonably available medical or psychological reports relating to the injury for which the award of compensation is claimed.

(f) The Commission may not request the victim or the claimant to supply any evidence that would not be admissible at a trial under G.S. 8-58.6.

(g) Notwithstanding any provision to the contrary relating to the confidentiality of juvenile records, the Commission shall have access to the records of juvenile proceedings which bear upon an application for compensation, but to the extent possible, it shall maintain the confidentiality of those records.

(h) The Commission may exclude from a hearing of any matter at issue all persons, except those engaged in the hearing, during the taking of medical information and law enforcement investigative records and information as evidence.

(i) The Commission shall make available for public inspection all final orders, decisions, and opinions together with the hearing records and all materials that were before it at the time the final order, decision, or opinion was made, except that medical information, law enforcement investigative records and information, and other materials for good cause held confidential shall not be open to the public.

"§ 15B-13. *Contempt sanction not available.*—If a person refuses to comply with an order under this Chapter or asserts a privilege except one authorized by G.S. 15B-12(b) so as to withhold or suppress evidence relevant to a claim for an award of compensation, the Commission may make any just order, including denial of the claim, but may not find the person in contempt. If necessary to carry out any of its powers and duties, the Commission may petition the superior court for an appropriate order, but the court may not find a person in contempt for refusal to submit to a mental or physical examination.

"§ 15B-14. *Effect of prosecution or conviction of offender.*—(a) The Commission may approve an award of compensation whether or not any person is prosecuted or convicted for committing the conduct that is the basis of the award. Proof of conviction of a person whose conduct gave rise to a claim is conclusive evidence that the crime was committed, unless an application for rehearing, an appeal of the conviction, or a writ of certiorari is pending, or a rehearing or new trial has been ordered.

(b) The Commission may, upon a request of the Attorney General, suspend the proceedings in any claim for an award of compensation pending disposition of a criminal prosecution that has been commenced or is imminent.

"§ 15B-15. *Attorney and witness fees.*—(a) As part of an order, the Commission shall determine and award reasonable attorney fees, commensurate with services rendered, to the attorney representing a claimant in a proceeding under this Chapter. Attorney fees may be denied upon a finding that the claim or appeal is frivolous. Attorney fees may be awarded whether or not an award of compensation is approved. An attorney may not contract for or receive any larger sum than the amount allowed under this section.

(b) Each witness called by the Commission to appear in a hearing on a claim for an award of compensation shall receive compensation and expenses in an amount equal to that received by witnesses in civil cases.

"§ 15B-16. *Manner of payment; non-assignability and exemptions.*—(a) The Commission may provide for the payment of an award in a lump sum or in installments. The part of an award equal to the amount of economic loss accrued to the date of the award shall be paid in a lump sum. An award for allowable expense that would accrue after the award is made may not be paid in a lump sum. Except as provided in subsection (b), the part of an award that may not be paid in a lump sum shall be paid in installments.

(b) Upon request of the claimant, the Commission may commute future economic loss, other than allowable expense, to a lump sum but only upon a finding by the Commission that:

(1) The award in a lump sum will promote the interests of the claimant; or

(2) The present value of all future economic loss other than allowable expense does not exceed one thousand dollars ($1,000).

(c) An award for future economic loss payable in installments may be made only for a period as to which the Commission can reasonably determine future economic loss. The Commission may reconsider and modify an award for future economic loss payable in installments upon its finding that a material and substantial change of circumstances has occurred.

(d) An order on reconsideration of an award may not require refund of amounts previously paid unless the award was obtained by fraud.

"§ 15B-17. *Award not subject to taxation or execution.*—(a) An award is exempt from taxation.

(b) An award is not subject to execution, attachment, garnishment, or other process, except that, upon receipt of an award by a claimant, the part of the award that is for allowable expense is not exempt from such an action by a creditor to the extent that he provides products, services, or accommodations the costs of which are included in the award, and the part of the award that is for work loss is not exempt from such an action to secure payment of alimony, maintenance, or child support.

"§ 15B-18. *Subrogation by State.*—(a) If compensation is awarded, the State is subrogated to all the claimant's rights to receive or recover benefits or advantages for economic loss from a source that is, or if readily available to the victim or claimant would be, a collateral source, to the extent of the compensation awarded.

(b) The State is an eligible recipient for restitution under G.S. 15A-1021, 15A-1343, 148-33.1, 148-33.2, 148-57.1, and any other applicable statutes.

(c) As a prerequisite to bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the Commission prior written notice of the proposed action. After receiving the notice the Commission shall immediately notify the Attorney General who shall promptly:

(1) Join in the action as a party plaintiff to recover compensation awarded;

(2) Require that the claimant bring the action in his individual name as a trustee in behalf of the State to recover compensation awarded; or

(3) Reserve its rights and do neither in the proposed action. If, as requested by the Attorney General, the claimant brings the action as trustee and recovers compensation awarded by the Commission, he may deduct from the compensation recovered in behalf of the State the reasonable expenses, including attorney fees, allocable by the court for that recovery.

(d) If a judgment or verdict separately indicates economic loss and noneconomic detriment, payments on the judgment shall be allocated between them in proportion to the amounts indicated. In an action in a court of this State arising out of criminally injurious conduct, the judge, on timely motion, shall direct the jury to return a special verdict, indicating separately the awards for noneconomic detriment, punitive damages, and economic loss.

(e) Any funds recovered by the State pursuant to this section shall be paid to the General Fund.

"§ 15B-19. *Subrogation by collateral sources prohibited.*— Subrogation rights that a collateral source may have may not extend to a recovery from a claimant of all or any part of an award made under this Chapter. A collateral source may not apply in the name of a claimant or otherwise for an award of compensation based upon injury to a claimant to whose rights the collateral source may be subrogated.

"§ 15B-20. *Publicity.*—Any law enforcement agency that investigates an offense committed in this State involving personal injury shall make reasonable efforts to provide information to the victim of the offense and his dependents concerning the availability of an award of compensation and advise those persons that an application for an award may be obtained from the Commission.

"§ 15B-21. *Annual report.*—The Commission shall prepare and transmit annually to the Governor and the General Assembly a report of its activities. The report shall include the number of claims filed; the number of awards made and the amount of each award; a statistical summary of claims denied and awards made, including the average size of claims and awards; separate listing of the administrative costs, compensation of commissioners and Commission personnel, and the amount awarded as attorney fees. The Attorney General and State Auditor shall assist the Commission in the preparation of the report required by this section.

"§ 15B-22. *Disbursements.*—If the Commission cannot pay compensation awarded under this Chapter due to insufficient appropriations, the Commission shall delay payment until sufficient funds are available and shall make no further awards of compensation until sufficient appropriations are made."

(1) The General Assembly's appointee recommended by the President of the Senate shall serve three years.

(2) The General Assembly's appointee recommended by the Speaker of the House of Representatives shall serve three years.

Sec. 6. This act shall become effective when funds are appropriated by the General Assembly to the Department of Crime Control and Public Safety to implement the provisions of this act. No claims may be filed under this act for any criminally injurious conduct occurring before the effective date of this act or after December 31, 1991. Moneys remaining after payment of claims under this Chapter shall revert to the General Fund on July 1, 1993. This act is repealed effective July 1, 1993.

The General Assembly of North Carolina enacts:

H. B. 583 CHAPTER 836

AN ACT TO PROVIDE TIME TO STUDY THE NEED FOR NEW INTERMEDIATE CARE FACILITY BEDS FOR THE MENTALLY RETARDED.

Whereas, the General Assembly finds that there has been a dramatic increase in the number of beds certified as intermediate care facility beds for the mentally retarded in both State and private facilities; and

Whereas, the Department of Human Resources has designated a special task force to address the following issues: (1) the current availability of services for the mentally retarded in both State institutions and community-based programs, (2) the criteria for establishing different levels of services, particularly ICF/MR services, appropriate for mentally retarded individuals, (3) a mechanism for developing a client profile related to the appropriate level of services needed and a mechanism for determining appropriate placement, (4) the number of persons in need of ICF/MR level of services, (5) the appropriate role for the State's mental institutions and psychiatric hospitals and for the public and private community residential settings, including the relationship between the State programs and the non-State programs, and (6) the need for additional ICF/MR beds; and

Whereas, the General Assembly finds that additional time is needed to thoroughly examine the existing service capacity of intermediate care facilities for the mentally retarded and the future need for such beds and services, taking into consideration the effects of a proposed Medicaid Waiver that would allow reimbursement for community services provided to persons presently served by intermediate care facilities for the mentally retarded, changes in the proposed federal funding levels and eligibility criteria, and the costs related to provision of such services; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Notwithstanding the provisions of Article 18 of Chapter 131 of the General Statutes and Section 31 of Chapter 1127, 1981 Session Laws, beginning on the effective date of this act, and until June 30, 1984, the Department of Human Resources shall not issue a certificate of need for:

(1) any new or additional intermediate care facility bed for the mentally retarded;

(2) any new intermediate care facility for the mentally retarded; or

(3) any conversion of an existing bed, whether it is in a health care facility or in a facility that is not a health care facility, to an intermediate care facility bed for the mentally retarded.

The foregoing shall not affect applications for conversion of domiciliary beds to ICF/MR beds that were filed with the Department of Human Resources on or before June 1, 1983; however, the Department shall not issue a certificate of need to an applicant for more than 10 beds. The foregoing shall not prohibit the Department of Human Resources from granting a certificate of need for a

project that the General Assembly has authorized and funded by June 1, 1983, or for a project which has both an application submitted for a certificate of need and an approved Housing and Urban Development (HUD) Section 202/8 fund reservation as of January 1, 1983.

Sec. 2. Any person who has applied for a certificate of need and who has not received one due to the limitations of Section 1 of this act shall not be required to file a new application with the Department of Human Resources in order for that proposal to be reviewed after July 1, 1984. Such a person may request the Department to review the application that already has been filed. Nonetheless, the Department of Human Resources may adopt rules requiring an applicant to review the application and update it where appropriate.

Sec. 3. This act is effective upon ratification.

AN ACT TO APPROPRIATE FUNDS TO REDUCE THE UNDUE BURDEN PLACED ON WARREN COUNTY AFTER HAVING TO ABSORB THE PCB TOXIC WASTE THAT WAS SPREAD OVER SOME FOURTEEN COUNTIES AND FORT BRAGG.

Whereas, the orderly, environmentally sound economic growth of Warren County has been adversely affected by the polychlorinated biphenyl landfill facility being installed into the County; and

Whereas, this adverse impact has both current and potential implication for the citizens of Warren County; and

Whereas, the State of North Carolina, in its responsibility for the health and safety of all North Carolinians, removed the PCB soil from 14 county roadsides and placed this contaminated PCB soil into an Environmental Protection Agency designed and constructed facility; and

Whereas, the State was thereby rendered safer at the potential risk of Warren County citizens; and

Whereas, the economic growth of this disadvantaged County, through industrial recruitment and expansion, has been greatly complicated and made exceedingly difficult by the installation of this hazardous waste facility; and

Whereas, additionally, the social and health considerations of the County have been adversely affected; and

Whereas, there have been several legislative bills introduced by Representative Ballance, Representative Church and others to protect Warren County from the location of additional toxic waste facilities in the County and to request the detoxification of PCB with required monitoring of the current facility; and

Whereas, Governor James B. Hunt has committed to the citizens of Warren County his support in the area of industrial development, health services and social programs; and

Whereas, legislative action to provide tangible assistance through specific allocation to the benefit of the citizens of Warren County would not constitute special treatment to Warren County, but would serve to reduce the undue burden placed on Warren County after having to absorb the PCB toxic waste that was spread over 14 counties and Fort Bragg, North Carolina; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is appropriated from the General Fund to the Board of County Commissioners of Warren County the sum of one hundred thousand dollars ($100,000) for the 1983-84 fiscal year for industrial development in order to reduce the undue burden placed on the County after having to absorb the PCB toxic waste that was spread over 14 counties and Fort Bragg.

(4) A department head appointed by the Governor.

(5) A non-State government representative appointed by the Governor.

(6) A non-State government representative appointed by the General Assembly upon the recommendation of the President of the Senate in accordance with G.S. 120-121.

(7) A non-State government representative appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives in accordance with G.S. 120-121.

Each of the non-State government representatives shall have experience in administering incentive pay programs as used in industry. Vacancies in appointments made by the General Assembly shall be filled in accordance with G.S. 120-122.

"§ 126-65. *Application for incentive awards.*—With the exception of agencies and offices within the General Assembly, the Governor's Office, the Lieutenant Governor's Office, and the Department of the State Auditor, any agency or office of State government (i) having an identifiable self-contained budget, or (ii) having its financial records maintained according to an accounting system which identifies to the satisfaction of the State Auditor the expenditures and receipts properly attributable to that agency or office may make application to the committee for selection as a candidate for the award of incentive pay to its employees. Such application must be submitted at least three months prior to the beginning of any fiscal year and must have the approval of the head of the State department within which the unit is located.

Applications shall be in the format specified by the committee and shall contain such information as it may require, including but not limited to those evaluation components developed by the applying agency or office which will provide quantitative measures of program output and performance.

The committee shall evaluate the applications submitted. From those proposals which are considered to be reasonable and practical, and which are found to include developed performance indicators which lend themselves to a judgment of success or failure, the committee shall select the agencies and offices to participate in the incentive pay program for the fiscal year.

"§ 126-66. *Qualifications.*—(a) To qualify for the award of incentive pay to its employees, an agency or office selected must demonstrate to the satisfaction of the committee that it has met both of the following two criteria in its operations during the fiscal year, after adjustment for inflation or deflation:

(1) Operated at a lower 'unit cost.' Unit cost shall be defined as expenditures in dollars to complete a measurable unit of work.

a. For first time participants the unit cost for the participating year shall be compared to either the unit cost for the immediately preceding fiscal year or a standard unit cost approved by the committee.

b. For participants with one or more years in the program, the unit cost for the participating year shall be compared to either the average unit cost of prior successful participating years in the program or a standard unit cost approved by the committee; and

(2) Operated at no greater total dollar expenditures, except:

a. In a case where unit cost(s) are reduced but total expenditures increase due to the agency or office maintaining its level of service; or

b. In a case where the legislature or department head specifically mandates an increase in the workload.

(b) The committee shall satisfy itself that the claimed unit dollar cost of operation is real and not merely apparent, and that it is not, in whole or in part, the result of:

(1) a lowering of the level or quality of the service rendered;

(2) reduced pass-through on transfer expenditures;

(3) receipts realized in excess of amounts budgeted;

(4) nonrecurrence of expenditures which were single outlay, or one-time expenditures, in the preceding fiscal year;

(5) failure to reward deserving employees through promotions, reclassificiation, award of merit salary increments, or salary increases authorized by salary range revisions;

(6) postponement of normal purchases and repairs to a future fiscal year;

(7) stockpiling inventories in the immediately preceding fiscal year so as to reduce requirements in the eligible fiscal year;

(8) substitution of federal funds, other receipts, or non-State funds for State appropriations;

(9) unreasonable postponement of payments of accounts payable until the fiscal year immediately following the eligible fiscal year;

(10) shifting of expenses to another agency or office of government;

(11) any other practice, event, or device which the committee decides has caused a distortion which misrepresents that a savings or increase in level of services has occurred.

(c) Conversely, the committee may consider, but is not limited to considering, as legitimate savings those reductions in expenditures made possible by such items as the following:

(1) reductions in overtime;
(2) elimination of consultant fees;
(3) less temporary help;
(4) elimination of budgeted positions;
(5) improved methods of communication;
(6) improved systems and procedures;
(7) better development and utilization of manpower;
(8) elimination of unnecessary travel;
(9) elimination of unnecessary printing and mailing;
(10) elimination of unnecessary payments for advertising, memberships, dues, subscriptions, etc.
(11) elimination of waste, duplication, and operations o doubtful value;
(12) improved space utilization;
(13) proven cost reduction techniques;
(14) any other items considered by the committee as representing true savings.

"§ 126-67. *Awards.*—At the conclusion of the eligible fiscal year, the committee shall compare the unit dollar expenditures for that year of each agency or office selected against the base year(s) data and, after making such adjustments as in its judgment are required to eliminate distortions, shall determine the amount, if any, that the agency or office has reduced its unit dollar cost of operations or increased its level of services in the eligible fiscal year. Adjustments to eliminate distortions may include any legislative increases in employee compensation and inflationary increases in the cost of services,

materials and supplies. If the committee shall also determine that in its judgment an agency or office qualifies for award, it is hereby authorized to award, after consultation with the Advisory Budget Committee, to the employees of that agency or office a sum not in excess of twenty-five percent (25%) of the amount determined to be the total unit dollar savings to the State for the level of services rendered. Incentive pay awards provided under this Chapter shall be exempt from retirement contributions and shall not be included for the purpose of computing a retirement allowance under any public retirement system of this State. The amount awarded shall be divided and distributed in equal shares to the employees of the agency or office except that employees who worked for that unit less than the full 12 months of the fiscal year shall receive only a pro rata share based on the fraction of the year to the day worked for that agency or office. Employees leaving voluntarily to work outside of State government, or employees dismissed for cause will forfeit their share. Funds for this incentive pay shall be drawn from the agency's or office's principal department's ending balance for the eligible fiscal year.

"§ 126-68. *Annual report.*—The Secretary of Administration shall cause to be prepared and submitted to the General Assembly a comprehensive annual status report on the committee's activities, decisions, awards, and recommendations with respect to the employee incentive pay program."

Sec. 2. Section 3 of Chapter 945, Session Laws of 1979, is amended by deleting "and will expire July 1, 1984", and inserting in lieu thereof "and will expire July 1, 1989".

On a day that employees are required to report for a workday but pupils are not required to attend school due to inclement weather, an employee may elect not to report due to hazardous travel conditions and to take one of his annual vacation days or to make up the day at the time agreed upon by the employee and his immediate supervisor."

Sec. 3. G.S. 115C-302(a)(1) is amended by rewriting the fourth sentence to read as follows:

On December 31 of each year, any teachers with more than 30 days of accumulated leave shall have the excess accumulation cancelled so that only 30 days are carried forward to January 1 of the next year. All vacation leave taken by the teacher will be upon the authorization of his immediate supervisor and under policies established by the local board of education. An employee shall be paid in a lump sum for accumulated annual leave not to exceed a maximum of 240 hours when separated from service due to resignation, dismissal, reduction in force, death, or service retirement. "The first 10 days of annual leave earned by a 10- or 11-month employee during any fiscal year period shall be scheduled to be used in the school calendar adopted by the respective local boards of education. Vacation days shall not be used for extending the term of employment of individuals. All vacation leave taken by these employees will be upon the authorization of their immediate supervisor and under policies established by the local board of education. An employee shall be paid in a lump sum for accumulated annual leave not to exceed a maximum of 240 hours when separated from service due to resignation, dismissal, reduction in force, death or service retirement. If the last day of terminal leave falls on the last workday in the month, payment shall be made for the remaining non-workdays in that month. Employees retiring on disability retirement may exhaust annual leave rather than be paid in a lump sum. However, due to emergency situations which may occur on a day when students are in attendance, the State Board of Education shall continue provisions for personal leave for teachers and other instructional support personnel.

Sec. 9. The State Board of Education, Controller's Office, in cooperation with the Office of State Budget and Management, shall develop procedures which school units shall follow in determining the use of available salary funds in order to pay for accumulated annual leave when an employee is separated from employment.

Sec. 10. The State Board of Education is further directed to adopt sick leave policies for public school employees, insofar as is practicable, which are comparable with policies for State employees.

The official by whom the scallops, shellfish or crustacea was detained or embargoed shall petition a judge of the district or superior court in whose jurisdiction the article is detained or embargoed for an order for condemnation of the article. "ARTICLE 2.

"Local Administration.

"Part 1. Local Health Departments.

"§ 130A-34. *Provision of local public health services.*—(a) A county shall provide public health services.

(b) A county shall operate a county health department, participate in a district health department or contract with the State for the provision of public health services.

"§ 130A-35. *County board of health; appointment; terms.*—(a) A county board of health shall be the policy-making, rule-making and adjudicatory body for a county health department.

(b) The members of a county board of health shall be appointed by the county board of commissioners. The board shall be composed of 11 members. The composition of the board shall reasonably reflect the population makeup of the county and shall include: one physician licensed to practice medicine in this State, one licensed dentist, one licensed optometrist, one licensed veterinarian, one registered nurse, one licensed pharmacist, one county commissioner and four representatives of the general public. All members shall be residents of the county. If there is not a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist available for appointment, an additional representative of the general public shall be appointed. If however, one of the six designated professions has only one person residing in the county, the county commissioners shall have the option of appointing that person or a member of the general public.

(c) Except as provided in this subsection, members of a county board of health shall serve three-year terms. No member may serve more than three consecutive three-year terms. The county commissioner member shall serve only as long as the member is a county commissioner. When a representative of the general public is appointed due to the unavailability of a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist, that member shall serve only until a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist becomes available for appointment. In order to establish a uniform staggered term structure for the board, a member may be appointed for less than a three-year term.

(d) Vacancies shall be filled for any unexpired portion of a term.

(e) A chairperson shall be elected annually by a county board of health. The local health director shall serve as secretary to the board.

(f) A majority of the members shall constitute a quorum.

(g) A member may be removed from office by the county board of commissioners for cause.

(h) A member may receive a per diem and reimbursement for subsistence and travel in an amount established by the county board of commissioners, not to exceed the amount established in G.S. 138-5.

(i) The board shall meet at least quarterly. The chairperson or three of the members may call a special meeting.

"§ 130A-36. *Creation of district health department.*—(a) A district health department including more than one county may be formed in lieu of county health departments upon agreement of the county boards of commissioners and local boards of health having jurisdiction over each of the counties involved. A county may join a district health department upon agreement of the boards of commissioners and local boards of health having jurisdiction over each of the counties involved. A district health department shall be a public authority as defined in G.S. 159-7(b)(10).

(b) Upon creation of or addition to a district health department, the existing rules of the former board or boards of health shall continue in effect until amended or repealed by the district board of health.

"§ 130A-37. *District board of health.*—(a) A district board of health shall be the policy-making, rule-making and adjudicatory body for a district health department and shall be composed of 15 members.

(b) The county board of commissioners of each county in the district shall appoint one county commissioner to the district board of health. The county commissioner members of the district board of health shall appoint the other members of the board, including at least one physician licensed to practice medicine in this State, one licensed dentist, one licensed optometrist, one licensed veterinarian, one registered nurse and one licensed pharmacist. The composition of the board shall reasonably reflect the population makeup of the entire district and provide equitable district-wide representation. All members shall be residents of the district. If there is not a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist available for appointment, an additional representative of the general public shall be appointed. If however, one of the six designated professions has only one person residing in the district, the county commissioner members shall have the option of appointing that person or a member of the general public.

(c) Except as provided in this subsection, members of a district board of health shall serve terms of three years. Two of the original members shall serve terms of one year and two of the original members shall serve terms of two years. No member shall serve more than three consecutive three-year terms. County commissioner members shall serve only as long as the member is a county commissioner. When a representative of the general public is appointed due to the unavailability of a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist, that member shall serve only until a licensed physician, a licensed dentist, a licensed optometrist, a licensed veterinarian, a registered nurse or a licensed pharmacist becomes available for appointment. The county commissioner members may appoint a member for less than a three-year term to achieve a staggered term structure.

(d) Whenever a county shall join or withdraw from an existing district health department, the district board of health shall be dissolved and a new board shall be appointed as provided in subsection (c).

(e) Vacancies shall be filled for any unexpired portion of a term.

(f) A chairperson shall be elected annually by a district board of health. The local health director shall serve as secretary to the board.

(g) A majority of the members shall constitute a quorum.

(h) A member may be removed from office by the district board of health for cause.

(i) A member may receive a per diem and reimbursement for subsistence and travel in an amount established by the county board of commissioners, not to exceed the amount established in G.S. 138-5.

(j) The board shall meet at least quarterly. The chairperson or three of the members may call a special meeting.

(k) A district board of health is authorized to provide liability insurance for the members of the board and the employees of the district health department. A district board of health is also authorized to contract for the services of an attorney to represent the board, the district health department and its employees, as appropriate. The purchase of liability insurance pursuant to this subsection waives both the district board of health's and the district health department's governmental immunity, to the extent of insurance coverage, for any act or omission occuring in the exercise of a governmental function. By entering into a liability insurance contract with the district board of health, an insurer waives any defense based upon the governmental immunity of the district board of health or the district health department.

"§ 130A-38. *Dissolution of a district health department.*—(a) Whenever the board of commissioners of each county constituting a district health department determines that the district health department is not operating in the best health interests of the respective counties, they may direct that the district health department be dissolved. In addition, whenever a board of commissioners of a county which is a member of a district health department determines that the district health department is not operating in the best health interests of that county, it may withdraw from the district health department. Dissolution of a district health department or withdrawal from the district health department by a county shall be effective only at the end of the fiscal year in which the action of dissolution or withdrawal transpired.

(b) Notwithstanding the provisions of subsection (a), no district health department shall be dissolved without prior written notification to the Department.

(c) Any budgetary surplus available to a district health department at the time of its dissolution shall be distributed to those counties comprising the district on the same pro rata basis that the counties appropriated and contributed funds to the district health department budget during the current fiscal year. Distribution to the counties shall be determined on the basis of an audit of the financial record of the district health department. The district board of health shall select a certified public accountant or an accountant who is subsequently certified by the Local Government Commission to conduct the audit. The audit shall be performed in accordance with G.S. 159-34. The same method of distribution of funds described above shall apply when one or more counties of a district health department withdraw from a district.

(d) Upon dissolution or withdrawal, all rules adopted by a district board of health shall continue in effect until amended or repealed by the new board or boards of health.

"§ 130A-39. *Powers and duties of a local board of health.*—(a) A local board of health shall have the responsibility to protect and promote the public health. The board shall have the authority to adopt rules necessary for that purpose.

(b) A local board of health may adopt a more stringent rule in an area regulated by the Commission for Health Services or the Environmental Management Commission where, in the opinion of the local board of health, a more stringent rule is required to protect the public health; otherwise, the rules of the Commission for Health Services or the rules of the Environmental Management Commission shall prevail over local board of health rules. However, a local board of health may not adopt a rule concerning the grading and permitting of food and lodging facilities as listed in Part 6 of Article 8 of this Chapter and a local board of health may adopt rules concerning sanitary sewage collection, treatment and disposal systems which are not designed to discharge effluent to the land surface or surface waters and which are not public or community systems only in accordance with G.S. 130A-335(c).

(c) The rules of a local board of health shall apply to all municipalities within the local board's jurisdiction.

(d) Not less than 10 days before the adoption, amendment or repeal of any local board of health rule, the proposed rule shall be made available at the office of each county clerk within the board's jurisdiction, and a notice shall be published in a newspaper having general circulation within the area of the board's jurisdiction. The notice shall contain a statement of the substance of the proposed rule or a description of the subjects and issues involved, the proposed effective date of the rule and a statement that copies of the proposed rule are available at the local health department. A local board of health rule shall become effective upon adoption unless a later effective date is specified in the rule.

(e) Copies of all rules shall be filed with the secretary of the local board of health.

(f) A local board of health may, in its rules, adopt by reference any code, standard, rule or regulation which has been adopted by any agency of this State, another state, any agency of the United States or by a generally recognized association. Copies of any material adopted by reference shall be filed with the rules.

(g) A local board of health may contract with any person, including any governmental agency, for the provision or receipt of public health services. A local board of health may impose a fee for services to be rendered by a local health department, except where the imposition of a fee is prohibited by statute or where an employee of the local health department is performing the services as an agent of the State. Notwithstanding any other provisions of law, a local board of health may impose a fee for services performed pursuant to Article 11 of this Chapter, 'Sanitary Sewage Systems'. Fees shall be based upon a plan recommended by the local health director and approved by the local board of health and the appropriate county board or boards of commissioners. The fees collected under the authority of this subsection are to be deposited to the account of the local health department so that they may be expended for public health purposes in accordance with the provisions of the County Fiscal Control Act.

"§ 130A-40. *Appointment of local health director.*—A local board of health, after consulting with the appropriate county board or boards of commissioners, shall appoint a local health director. A local health director shall possess the qualifications established for the position by the Commission for Health Services under G.S. 143B-142(a) and qualifications established for the position

by the State Personnel Commission in accordance with Chapter 126 of the General Statutes. However, a local health director shall not be required to be a physician. When a local board of health fails to appoint a local health director within 60 days of the creation of a vacancy, the State Health Director may appoint a local health director to serve until the local board of health appoints a local health director in accordance with this section.

"§ 130A-41. *Powers and duties of local health director.*—(a) A local health director shall be the administrative head of the local health department, shall perform public health duties prescribed by and under the supervision of the local board of health and the Department and shall be employed full time in the field of public health.

(b) A local health director shall have the following powers and duties:

(1) To administer programs as directed by the local board of health;

(2) To enforce the rules of the local board of health;

(3) To investigate the causes of infectious, communicable and other diseases;

(4) To exercise quarantine authority and isolation authority pursuant to G.S. 130A-145;

(5) To disseminate public health information and to promote the benefits of good health;

(6) To advise local officials concerning public health matters;

(7) To enforce the immunization requirements of Part 2 of Article 7 of this Chapter;

(9) To examine and investigate cases of tuberculosis pursuant to Part 5 of Article 6 of this Chapter;

(10) To examine, investigate and control rabies pursuant to Part 6 of Article 6 of this Chapter;

(11) To abate public health nuisances and imminent hazards pursuant to G.S. 130A-19 and G.S. 130A-20; and

(12) To employ and dismiss employees of the local health department in accordance with Chapter 126 of the General Statutes.

(c) Authority conferred upon a local health director may be exercised only within the county or counties comprising the local health department.

"§ 130A-42. *Personnel records of district health departments.*—Employee personnel records of a district health department shall have the same protections from disclosure as county employee personnel records under G.S. 153A-98. For the purposes of this section, the local health director shall perform the duties assigned to the county manager pursuant to G.S. 153A-98 and the district board of health shall perform the duties assigned to the county board of commissioners pursuant to G.S. 153A-98.

"§ 130A-43 to 130A-46: Reserved for future codification purposes.

"Part 2. Sanitary Districts.

"§ 130A-47. *Creation by Commission.*—For the purpose of preserving and promoting the public health and welfare, the Commission may create sanitary districts without regard for county, township or municipal lines. However, no municipal corporation or any part of the territory in a municipal corporation shall be included in a sanitary district except at the request of the governing board of the municipal corporation. If the municipal corporation has not levied

any tax nor performed any official act nor held any elections within a period of four years preceding the date of the petition for the sanitary district, a request of the governing board shall not be required.

"§ 130A-48. *Procedure for incorporating district.*—A sanitary district shall be incorporated as follows. Either fifty-one percent (51%) or more of the resident freeholders within a proposed sanitary district or fifty-one percent (51%) or more of the freeholders within a proposed sanitary district, whether or not the freeholders are residents of the proposed sanitary district, may petition the county board of commissioners of the county in which all or the largest portion of the land of the proposed district is located. This petition shall set forth the boundaries of the proposed sanitary district and the objectives of the proposed district. For the purposes of this Part, the term 'freeholder' shall mean a person holding a deed to a tract of land within the district or proposed district, and also shall mean a person who has entered into a contract to purchase a tract of land within the district or proposed district, is making payments pursuant to a contract and will receive a deed upon completion of the contractual payments. The contracting purchaser, rather than the contracting seller, shall be deemed to be the freeholder. Upon receipt of the petition, the county board of commissioners, through its chairperson, shall notify the Department and the chairperson of the county board of commissioners of any other county or counties in which any portion of the proposed district lies of the receipt of the petition. The chairperson shall request that the Department hold a joint public hearing with the county commissioners of all the counties in which a portion of the district lies concerning the creation of the proposed sanitary district. The Secretary and the chairperson of the county board of commissioners shall name a time and place within the proposed district to hold the public hearing. The chairperson of the county board of commissioners shall give prior notice of the hearing by posting a notice at the courthouse door of the county and also by publication at least once a week for four successive weeks in a newspaper published in the county. In the event the hearing is to be before a joint meeting of the county boards of commissioners of more than one county, or in the event the land to be affected lies in more than one county, publication and notice shall be made in each of the affected counties. In the event that all matters pertaining to the creation of this sanitary district cannot be concluded at the hearing, the hearing may be continued at a time and place within the proposed district named by the Department.

"§ 130A-49. *Declaration that district exists; status of industrial villages within boundaries of district.*—(a) If, after the required public hearing, the Commission and the county commissioners determine that a district shall be created for the purposes stated in the petition, the Commission shall adopt a resolution defining the boundaries of the district and declaring the territory within the boundaries to be a sanitary district. The Commission may make minor deviation in defining the boundaries from those prescribed in the petition when it determines the change to be in the interest of the public health.

(b) The owner or controller of an industrial plant may make application requesting that the plant or the plant and its contiguous village be included within or excluded from the sanitary district. The application shall be filed with the Commission on or before the date of the public hearing. If an

application is properly filed, the Commission shall include or exclude the industrial plant and contiguous village in accordance with the application.

(c) Each district when created shall be identified by a name or number assigned by the Commission.

"§ 130A-50. *Election and terms of office of sanitary district boards.*—(a) The Department shall send a copy of the resolution creating the sanitary district to the county board or boards of county commissioners of the county or counties in which all or part of the district is located. The board or boards of commissioners shall hold a meeting or joint meeting for the purpose of electing the members of the sanitary district board.

(b) The sanitary district board shall be composed of either three or five members as the county commissioners in their discretion shall determine. The members first appointed shall serve as the governing body of the sanitary district until the next regular election for municipal and special district officers as provided in G.S. 163-279, which occurs more than 90 days after their appointment. At that election, their successors shall be elected. The terms of the members shall be for two years or four years and may be staggered as determined by the county board of commissioners so that some members are elected at each biennial election. The members of the sanitary district board shall be residents of the district. The county board of commissioners shall notify the county board of elections of any decision made under this subsection.

(c) The election shall be nonpartisan and decided by simple plurality as provided in G.S. 163-292 and shall be held and conducted by the county board of elections in accordance with the applicable provisions of Articles 23 and 24 of Chapter 163 of the General Statutes. If the district is in more than one county, then the county board of elections of the county including the largest part of the district shall conduct the election for the entire district with the assistance and full cooperation of the boards of elections in the other counties.

(d) The board of elections shall certify the results of the election to the clerk of superior court. The clerk of superior court shall take and file the oaths of office of the board members elected.

(e) The elected members of the board shall take the oath of office on the first Monday in December following their election and shall serve for the term elected and until their successors are elected and qualified.

"§ 130A-51. *City governing body acting as sanitary district board.*—(a) When the General Assembly incorporates a city or town that includes within its territory fifty percent (50%) or more of the territory of a sanitary district, the governing body of the city or town shall become ex officio the governing board of the sanitary district if the General Assembly provides for this action in the incorporation act and if the existing sanitary district board adopts a final resolution pursuant to this section. The resolution may be adopted at any time within the period beginning on the day of ratification of the incorportion act and ending 270 days after the effective date.

(b) To begin the process leading to the city or town board becoming ex officio the sanitary district board, the board of the sanitary district shall first adopt a preliminary resolution finding that the interests of the citizens of the sanitary district and of the city or town will be best served if both units of local government are governed by a single governing body. This resolution shall also set the time and place for a public hearing on the preliminary resolution.

(c) Upon adoption of this preliminary resolution, the chairperson of the sanitary district board shall publish a notice of the public hearing once at least 10 days before the hearing in a newspaper of general circulation within the sanitary district. This notice shall set forth the time and place of the hearing and shall briefly describe its purpose. At the hearing, the board shall hear any citizen of the sanitary district or of the city or town who wishes to speak to the subject of the preliminary resolution.

(d) Within 30 days after the day of the public hearing, the sanitary district board may adopt a final resolution finding that the interests of the citizens of the sanitary district and of the city or town will be best served if both units are governed by a single board. This resolution shall set the date on which the terms of office of the members of the sanitary district board end and that board is dissolved and service by the ex officio board begins. This date may be the effective date of the incorporation of the city or town or any date within one year after the effective date. At that time, the sanitary district board is dissolved and the mayor and members of the governing body of the city or town become ex officio the board of the sanitary district. The mayor shall act ex officio as chairperson of the sanitary district board.

(e) The chairperson of the sanitary district board that adopts a final resolution shall within 10 days after the day the resolution is adopted, send a copy of the resolution to the mayor and each member of the city or town governing board and to the Department.

"§ 130A-52. *Special election if election not held in November of 1981.*—(a) If in a sanitary district, an election of board members was required to be held in November of 1981 under G.S. 130A-50 but was not held, the board of commissioners of the county or counties in which the district is located may by resolution order a special election of all the board members to be held at the same time as the General Election in November of 1982.

(b) The election shall be held under the procedures of Articles 23 and 24 of Chapter 163 of the General Statutes and in accordance with G.S. 130A-50, except that filing shall open at noon on Monday, August 9, 1982, and close at noon on Monday, August 23, 1982.

(c) In the election held under this section, all of the members of the board shall be elected. If the board of commissioners has provided for two- or four-year terms, the members elected in 1982 shall serve until the 1983 or 1985 election, respectively, and then their successors shall be elected for the two- or four-year terms provided by the county board or boards of commissioners.

(d) Any resolution adopted under subsection (a) of this section shall be filed with the Department.

"§ 130A-53. *Actions validated.*—Any action of a sanitary district taken prior to June 1, 1982, shall not be invalidated by failure to hold an election for members of the board.

"§ 130A-54. *Vacancy appointments to district boards.*—Any vacancy in a sanitary district board shall be filled by the county commissioners until the next election for sanitary district board members. If the district is located in more than one county, the vacancy shall be filled by the county commissioners of the county from which the vacancy occurred.

"§ 130A-55. *Corporate powers.*—A sanitary district board shall be a body politic and corporate and may sue and be sued in matters relating to the sanitary district. Notwithstanding any limitation in the petition under G.S.

130A-48, but subject to the provisions of G.S. 130A-55(17)e., each sanitary district may exercise all of the powers granted to sanitary districts by this Article. In addition, the sanitary district board shall have the following powers:

(1) To acquire, construct, maintain and operate sewage collection, treatment and disposal systems of all types, including septic tank systems or other on-site collection, treatment or disposal facilities or systems; water supply systems; water purification or treatment plants and other utilities necessary for the preservation and promotion of the public health and sanitary welfare within the district. The utilities shall be constructed, operated and maintained in accordance with applicable statutes and rules.

(2) To acquire, construct, maintain and operate sewage collection, treatment and disposal systems of all types, including septic tank systems or other on-site collection or disposal facilities or systems, water supply systems; water purification or treatment plants and other utilities, within and outside the corporate limits of the district, as may be necessary for the preservation of the public health and sanitary welfare outside the corporate limits of the district, within reasonable limitation. The utilities shall be constructed, operated and maintained in accordance with applicable statutes and rules.

a. The authority granted to a sanitary district by the provisions of this subsection is supplemental to the authority granted to a sanitary district by other provisions of law.

b. Actions taken by a sanitary district to acquire, construct, maintain and operate sewage collection, treatment and disposal systems of all types; water supply systems; water purification or treatment plants and other utilities within and outside the corporate limits to provide service outside the corporate limits are approved and validated.

c. This subsection shall apply only in counties with a population of 70,000 or greater, as determined by the most recent decennial federal census.

(3) To levy taxes on property within the district in order to carry out the powers and duties conferred and imposed on the district by law, and to pay the principal of and interest on bonds and notes of the district.

(4) To acquire either by purchase, condemnation or otherwise and hold real and personal property, easements, rights-of-way and water rights in the name of the district within or without the corporate limits of the district, necessary or convenient for the contruction or maintenance of the works of the district.

(5) To employ and compensate engineers, counsel and other persons as may be necessary to carry out projects.

(6) To negotiate and enter into agreements with the owners of existing water supplies, sewage systems or other utilities as may be necessary to carry out the intent of this Part.

(7) To adopt rules necessary for the proper functioning of the district. However, these rules shall not conflict with rules adopted by the Commission for Health Services, Environmental Management Commission, or the local board of health having jurisdiction over the area.

(8) a. To contract with any person within or outside the corporate limits of the district to supply raw water without charge to the person in return for an agreement to allow the district to discharge sewage in the person's previous water supply. The district may so contract and construct at its expense all improvements necessary or convenient for the delivery of the

water when, in the opinion of the sanitary district board and the Department, it will be for the best of the district.

b. To contract with any person within or outside the corporate limits of the district to supply raw or filtered water and sewer service to the person where the service is available. For service supplied outside the corporate limits of the district, the sanitary district board may fix a different rate from that charged within the corporate limits but shall not be liable for damages for failure to furnish a sufficient supply of water and adequate sewer service.

c. To contract with any person within or outside the corporate limits of the district for the treatment of the district's sewage in a sewage disposal or treatment plant owned and constructed or to be constructed by that person.

(9) After adoption of a plan as provided in G.S. 130A-60, the sanitary district board may, in its discretion, alter or modify the plan if the Department determines that the alteration or modification does not constitute a material deviation from the objective of the plan and is in the public health interest of the district. The alteration or modification must be approved by the Department. The sanitary district board may appropriate or reappropriate money of the district for carrying out the altered or modified plan.

(10) To take action, subject to the approval of the Department, for the prevention and eradication of diseases transmissible by vectors by instituting programs for the eradication of the mosquito.

(11) To collect and dispose of garbage, waste and other refuse by contract or otherwise.

(12) To establish a fire department, or to contract for fire-fighting apparatus and personnel for the protection of life and property within the district.

(13) To provide or contract for rescue service, ambulance service, rescue squad or other emergency medical services for use in the district. The sanitary district shall be subject to G.S. 153A-250.

(14) To have privileges and immunities granted to other governmental units in exercise of the governmental functions.

(15) To use the income of the district, and if necessary, to levy and collect taxes upon all the taxable property within the district sufficient to pay the costs of collecting and disposing of garbage, waste and other refuse, and to provide fire protection and rescue services in the district. Taxes shall be levied and collected at the same time and in the same manner as taxes for debt service as provided in G.S. 130A-62.

(16) To adopt rules for the promotion and protection of the public health and for these purposes to possess the following powers:

a. To require any person owning, occupying or controlling improved real property within the district to connect with either or both the water or sewage systems of the district when the local health director, having jurisdiction over the property, determines that the health of the people residing within the district will be endangered by a failure to connect.

b. To require any person owning, occupying or controlling improved real property within the district where the water or sewage systems of the district are not immediately available or it is impractical with the systems, to install sanitary toilets, septic tanks and other health

equipment or installations in accordance with applicable statutes and rules.

c. To order a person to abate a public health nuisance of the district. If the person being ordered to abate the nuisance refuses to comply with the order, the sanitary district board may institute an action in the superior court of the county where the public health nuisance exists to enforce the order.

d. To abolish or regulate and control the use and occupancy of all pigsties and other animal stockyards or pens within the district and for an additional distance of 500 feet beyond the outer boundaries of the district, unless the 500 feet is within the corporate limits of a city or town.

e. Upon the noncompliance by a person of a rule adopted by the sanitary district board, the board shall notify the person of the rule being violated and the facts constituting the violation. The person shall have a reasonable time to comply with the rule as determined by the local health director of the person's residence. Upon failure to comply within the specified time or within a time extended by the sanitary district board, the person shall be guilty of a misdemeanor.

f. The sanitary district board is authorized to enforce the rules adopted pursuant to this Part by criminal action or civil action, including injunctive relief.

(17) For the purpose of promoting and protecting the public health, safety and the general welfare of the State, a sanitary district board is authorized to establish as zoning units any portions of the sanitary district not under the control of the United States or this State or any agency or instrumentality of either, in accordance with the following:

a. No sanitary district board shall designate an area a zoning area until a petition signed by two-thirds of the qualified voters in the area, as shown by the registration books used in the last general election, and with a petition signed by two-thirds of the owners of real property in the area, as shown by the records in the office of the register of deeds for the county, is filed with the sanitary district board. The petition must be accompanied by a map of the proposed zoning area. The board shall hold a public hearing to obtain comment on the proposed creation of the zoning area. A notice of public hearing must be published in a newspaper of general circulation in the county at least two times, and a copy of the notice shall be posted at the county courthouse and in three other public places in the sanitary district.

b. When a zoning area is established within a sanitary district, the sanitary district board as to the zoning area shall have all rights, privileges, powers and duties granted to municipal corporations under Part 3, Article 19, Chapter 160A of the General Statutes. However, the sanitary district board shall not be required to appoint any zoning commission or board of adjustment. If neither a zoning commission nor board of adjustment is appointed, the sanitary district board shall have all rights.

c. A sanitary district board may enter into an agreement with any city, town or sanitary district for the establishment of a joint zoning commission.

d. A sanitary district board is authorized to use the income of the district and levy and collect taxes upon the taxable property within the district necessary to carry out and enforce the rules and provisions of this subsection.

e. This subsection shall apply only to sanitary districts which adjoin and are contiguous to an incorporated city or town and are located within three miles or less of the boundaries of two other cities or towns.

(18) To negotiate for and acquire by contract any distribution system located outside the district when the water for the distribution system is furnished by the district. If the distribution system is acquired by a district, the district may continue the operation of the system even though it remains outside the district.

(19) To accept gifts of real and personal property for the purpose of operating a nonprofit cemetery; to own, operate and maintain cemeteries with the donated property; and to establish perpetual care funds for the cemeteries in the manner provided by G.S. 160A-347.

(20) To dispose of real or personal property belonging to the district according to the procedures prescribed in Article 12 of Chapter 160A of the General Statutes. For purposes of this subsection, references in Article 12 of Chapter 160A to the 'city', the 'council', or a specific city official refer, respectively, to the sanitary district, the sanitary district board, and the sanitary district official who most nearly performs the same duties performed by the specified city official. For purposes of this subsection, references in G.S. 160A-266(c) to 'one or more city officials' are deemed to refer to one or more sanitary district officials designated by the sanitary district board.

(21) To acquire, renovate property for or construct a medical clinic to serve the district, and to maintain real and personal property for a medical clinic to serve the district.

"§ 130A-56. *Election of officers; board staff.*—(a) Upon election, a sanitary district board shall meet and elect one of its members as chairperson and another member as secretary. Each member of the board may receive a per diem compensation and other compensation as provided for members of State boards under G.S. 138-5, payable from the funds of the district.

(b) The board may employ a clerk, stenographer or other assistants as necessary and may fix duties of and compensation for employees. A sanitary district board may remove employees and fill vacancies.

"§ 130A-57. *Power to condemn property.*—A sanitary district board may purchase real estate, right-of-way or easement within or outside the corporate limits of the district for improvements authorized by this Part. If a purchase price cannot be agreed upon, the board may condemn the real estate, right-of-way or easement in accordance with Chapter 40A of the General Statutes.

"§ 130A-58. *Construction of systems by corporations or individuals.*—When it is inadvisable or impractical for the sanitary district to build a water supply, sewage system or part of either to serve an area within the sanitary district, a corporation or residents within the sanitary district may build and operate a system at its or their own expense. The system shall be constructed and operated under plans and specifications approved by the district board and by the Department. The system shall also be constructed and operated in accordance with applicable rules and statutes.

"§ 130A-59. *Reports.*—Upon the election of a sanitary district board, the board shall employ engineers licensed by this State to make a report on the problems of the sanitary district. The report shall be prepared and filed with the sanitary district board and shall include the following:

(1) Comprehensive maps showing the boundaries of the sanitary district and, in a general way, the location of the various parts of the work that is proposed to be done and information as may be useful for a thorough understanding of the proposed undertaking;

(2) A general description of existing facilities for carrying out the purposes of the district;

(3) A general description of the various plans which might be adopted for accomplishment of the purposes of the district;

(4) General plans and specifications for the work;

(5) General description of property proposed to be acquired or which may be damaged in carrying out the work;

(6) Comparative detail estimates of cost for the various construction plans; and

(7) Recommendations.

"§ 130A-60. *Consideration of reports and adoption of a plan.*—(a) A report filed by the engineers pursuant to G.S. 130A-59 shall be given consideration by the sanitary district board and the board shall adopt a plan. Before adopting a plan the board may hold a public hearing for the purpose of considering objections to the plan. Once adopted, the sanitary district board shall submit the plan to the Department. The plan shall not become effective until it is approved by the Department.

(b) The provisions of this section and of G.S. 130A-58 shall apply when the sanitary district board determines that adoption of the plan requires the issuance of bonds. However, these provisions shall not apply to a proposed purchase of fire-fighting equipment and apparatus. Failure to observe or comply with these provisions shall not, however, affect the validity of the bonds of a sanitary district.

"§ 130A-61. *Bonds and notes authorized.*—A sanitary district is authorized to issue bonds and notes under the Local Government Finance Act.

"§ 130A-62. *Annual budget; tax levy.*—(a) A sanitary district shall operate under an annual balanced budget adopted in accordance with the Local Government Budget and Fiscal Control Act.

(b) A sanitary district has the option of either collecting its own taxes or having its taxes collected by the county or counties in which it is located. Unless a district takes affirmative action to collect its own taxes, taxes shall be collected by the county.

(c) For sanitary districts whose taxes are collected by the county, before May 1 of each year, the tax supervisor of each county in which the district is located shall certify to the district board the total assessed value of property in the county subject to taxation by the district, and the county's assessment ratio. By July 1 or upon adoption of its annual budget ordinance, the district board shall certify to the county board of commissioners the rate of ad valorem tax levied by the district on property in that county. If the assessment ratios are not identical in all counties, the district budget ordinance shall levy separate rates of ad valorem taxes for each county. These rates shall be adjusted so that the effective rate is the same for all property located in the district. The 'effective

rate' is the rate of tax which will produce the same tax liability on property of equal appraised value. Upon receiving the district's certification of its tax levy, the county commissioners shall compute the district tax for each taxpayer and shall separately state the district tax on the county tax receipts for the fiscal year. The county shall collect the district tax in the same manner that county taxes are collected and shall remit these collections to the district at least monthly. Partial payments shall be proportionately divided between the county and the district. The district budget ordinance may include an appropriation to the county for the cost to the county of computing, billing and collecting the district tax. The amount of the appropriation shall be agreed upon by the county and the district, but may not exceed five percent (5%) of the district levy. Any agreement shall remain effective until modified by mutual agreement. The amount due the county for collecting the district tax may be deducted by the county from its monthly remittances to the district or may be paid to the county by the district.

(d) Sanitary districts electing to collect their own taxes shall be deemed cities for the purposes of the Machinery Act. If a district is located in more than one county, the district board may adopt the assessments placed upon property located in the district by the counties in which the district is located if, in the opinion of the board, the same appraisal and assessment standards will apply uniformly throughout the district. If the board determines that adoption of the assessments fixed by the counties will not result in uniform appraisals and assessments throughout the district, the board may, by horizontal adjustments, equalize the appraisal values fixed by the counties and in accordance with the procedure prescribed in the Machinery Act, select and adopt an assessment ratio to be applied to the appraised values of property subject to district taxation as equalized by the board. Taxes levied by the district shall be levied uniformly on the assessments.

"§ 130A-63. *Engineers to provide plans and supervise work; bids.*—(a) The sanitary district board shall retain engineers licensed by this State to provide detailed plans and specifications and to supervise the work undertaken by the district. The work or any portion of the work may be done by the sanitary district board by purchasing the material and letting a contract for the work or by letting a contract for furnishing all the materials and doing the work.

(b) All contracts for work performed for construction or repair and for the purchase of materials by sanitary districts shall be in accordance with the provisions of Article 8, Chapter 143 of the General Statutes which are applicable to counties and municipal corporations.

(c) All work done shall be in accordance with the plans and specifications prepared by the engineers in conformity with the plan adopted by the sanitary district board.

"§ 130A-64. *Service charges and rates.*—A sanitary district board shall apply service charges and rates based upon the exact benefits derived. These service charges and rates shall be sufficient to provide funds for the maintenance, adequate depreciation and operation of the work of the district. If reasonable, the service charges and rates may include an amount sufficient to pay the principal and interest maturing on the outstanding bonds and, to the extent not otherwise provided for, bond anticipation notes of the district. Any surplus from operating revenues shall be set aside as a separate fund to be applied to the payment of interest on or to the retirement of bonds or bond anticipation notes.

The sanitary district board may modify and adjust these service charges and rates.

"§ 130A-65. *Liens for sewer service charges in sanitary districts not operating water distribution system; collection of charges; disconnection of sewer lines.*—In sanitary districts which maintain and operate a sewage system but do not maintain and operate a water distribution system, the charges made for sewer service or for use of sewer service facilities shall be a lien upon the property served. If the charges are not paid within 15 days after they become due and payable, suit may be brought in the name of the sanitary district in the county in which the property served is located, or the property, subject to the lien, may be sold by the sanitary district under the same rules, rights of redemption and savings as are prescribed by law for the sale of land for unpaid ad valorem taxes. A sanitary district is authorized to adopt rules for the use of sewage works and the collection of charges. A sanitary district is authorized in accordance with its rules to enter upon the premises of any person using the sewage works and failing to pay the charges, and to disconnect the sewer line of that person from the district sewer line or disposal plant. A person who connects or reconnects with district sewer line or disposal plant without a permit from the sanitary district shall be guilty of a misdemeanor.

"§ 130A-66. *Removal of member of board.*—A petition with the signatures of twenty-five percent (25%) or more of the voters within a sanitary district which requests the removal from office of one or more members of a sanitary district board for malfeasance or nonfeasance in office may be filed with the board of commissioners of the county in which all or the greater portion of the voters of a sanitary district are located. Upon receipt of the petition, the county board of commissioners shall meet and adopt a resolution to hold an election on the question of removal. In the event that more than one member of a sanitary district board is subjected to recall in an election, the names of each member of the board subjected to recall shall appear upon separate ballots. If in a recall election, a majority of the votes within the sanitary district are cast for the removal of a member or members of the sanitary district board subject to recall, the member or members shall cease to be a member or members of the sanitary district board. A vacancy shall be immediately filled. The expenses of holding a recall election shall be paid from the funds of the sanitary district.

"§ 130A-67. *Rights-of-way granted.*—A right-of-way in, along or across a county or State highway, street or property within a sanitary district is granted to a sanitary district in case the board finds it necessary or convenient for carrying out the work of the district. Any work done in, along or across a State highway shall be done in accordance with the rules of the Board of Transportation.

"§ 130A-68. *Returns of elections.*—In all elections provided for in this Part, the board of elections shall file copies of the returns with the county boards of commissioners, sanitary district board and clerk of superior court in which the district is located.

"§ 130A-69. *Procedure for extension of district.*—(a) If after a sanitary district has been created or the provisions of this Part have been made applicable to a sanitary district, a petition signed by not less than fifteen percent (15%) of the resident freeholders within any territory contiguous to and adjoining the sanitary district may be presented to the sanitary district board requesting annexation of territory described in the petition. The sanitary district board

shall send a copy of the petition to the board of commissioners of the county or counties in which the district is located and to the Department. The sanitary district board shall request that the Department hold a joint public hearing with the sanitary district board on the question of annexation. The Secretary and the chairperson of the sanitary district board shall name a time and place for the public hearing. The chairperson of the sanitary district board shall publish a notice of public hearing once in a newspaper or newspapers published or circulating in the sanitary district and the territory proposed to be annexed. The notice shall be published not less than 15 days prior to the hearing. If after the hearing, the Commission approves the annexation of the territory described in the petition, the Department shall advise the board or boards of commissioners of the approval. The board or boards of commissioners shall order and provide for the holding of a special election upon the question of annexation within the territory proposed to be annexed.

(b) If at or prior to the public hearing, a petition is filed with the sanitary district board signed by not less than fifteen percent (15%) of the freeholders residing in the sanitary district requesting an election be held on the annexation question, the sanitary district board shall send a copy of the petition to the board or boards of commissioners who shall order and provide for the submission of the question to the voters within the sanitary district. This election may be held on the same day as the election in the territory proposed to be annexed, and both elections and registrations may be held pursuant to a single notice. A majority of the votes cast is necessary for a territory to be annexed to a sanitary district.

(c) The election shall be held by the county board or boards of elections as soon as possible after the board or boards of commissioners orders the election. The cost of the election shall be paid by the sanitary district. Registration in the area proposed for annexation shall be under the same procedure as G.S. 163-288.2.

(d) Notice of the election shall be given as required by G.S. 163-33(8) and shall include a statement that the boundary lines of the territory to be annexed and the boundary lines of the sanitary district have been prepared by the district board and may be examined. The notice shall also state that if a majority of the those voting in the election favor annexation, then the territory annexed shall be subject to all debts of the sanitary district.

(e) The ballot shall be substantially as follows:

'☐ FOR annexation to the _____ Sanitary District
☐ AGAINST annexation to the _____ Sanitary District.'

The board or boards of elections shall certify the results of the election to the sanitary district board and the board or boards of commissioners of the county or counties in which the district is located.

(f) Notwithstanding any other provisions of this section, if a petition for extension of the boundaries of a sanitary district is signed by not less than fifty-one percent (51%) of the resident freeholders within the territory proposed to be annexed, it shall not be necessary to hold an election provided for by this section on the question of the extension of the boundaries of the sanitary district.

(g) Notwithstanding any other provisions of this section, if a petition for extension of the boundaries of a sanitary district is signed by the owners of all

the real property within the territory proposed to be annexed, it shall not be necessary to hold any election or any hearings provided for by this section on the question of the extension of the boundaries of the sanitary district.

(h) No right of action or defense founded upon the invalidity of the election shall be asserted, nor shall the validity of the election be open to question in any court on any ground unless the action or proceeding is commenced within 30 days after the certification of the results by the board or boards of elections.

(i) When additional territory has been annexed to a sanitary district and the proposition of issuing bonds of the sanitary district after the annexation has been approved by the voters at an election held within one year subsequent to annexation, fifty-one percent (51%) or more of the resident freeholders within the annexed territory may petition the sanitary district board for the removal and exclusion of the territory from the sanitary district. No petition may be filed after bonds of the sanitary district have been approved in an election held at any time after annexation. If the sanitary district board approves the petition, it shall send a copy to the Department requesting that the petition be granted and shall send additional copies to the county board or boards of commisioners. A public hearing shall be conducted under the same procedure provided for the annexation of additional territory. If the Commission deems it advisable to comply with the request of the petition, the Commission shall adopt a resolution to that effect and shall redefine the boundaries of the sanitary district.

"§ 130A-70. *District and municipality extending boundaries and corporate limits simultaneously.*—(a) When the boundaries of a sanitary district lie entirely within or are coterminous with the corporate limits of a city or town and the sanitary district provides the only public water supply and sewage disposal system for the city or town, the boundaries of the sanitary district and the corporate limits of the city or town may be extended simultaneously as provided in this section.

(b) Twenty-five percent (25%) or more of the resident freeholders within the territory proposed to be annexed to the sanitary district and to the city or town may petition the sanitary district board and the governing board of the city or town setting forth the boundaries of the area proposed to be annexed and the objects annexation is proposed to accomplish. The petition may also include any area already within the corporate limits of the city or town but not already within the boundaries of the sanitary district. Upon receipt of the petition, the sanitary district board and the governing board of the city or town shall meet jointly and shall hold a public hearing prior to approval of the petition. Notice of the hearing shall be made by posting a notice at the courthouse door of the county or counties and by publishing a notice at least once a week for four consecutive weeks in a newspaper with a circulation in the county or counties. If at or after the public hearing the sanitary district board and the governing board of the city or town, acting jointly, shall each approve the petition, the petition shall be submitted to the Commission for approval. If the Commission approves the petition, the question shall be submitted to a vote of all voters in the area or areas proposed to be annexed voting as a whole. The election shall be held on a date approved by the sanitary district board and by the governing board of the city or town.

(c) The words 'For Extension' and 'Against Extension' shall be printed on the ballots for the election. A majority of all the votes cast is necessary for a district and municipality to extend boundaries and corporate limits simultaneously.

(d) After declaration of the extension, the territory and its citizens and property shall be subject to all debts, ordinances and rules in force in the sanitary district and in the city or town, and shall be entitled to the same privileges and benefits as other parts of the sanitary district and the city or town. The newly annexed territory shall be subject to the sanitary district and the city or town taxes levied for the fiscal year following the date of annexation.

(e) The costs of holding and conducting the election for annexation pursuant to this section, shall be shared equally by the sanitary district and by the city or town.

(f) The sanitary district board and the governing board of the city or town acting jointly, may order the board or boards of elections of the county or counties in which the sanitary district and the city or town are located, to call, hold, conduct and certify the result of the election, according to the provisions of Chapter 163 of the General Statutes.

(g) When the boundaries of a sanitary district and the corporate limits of a city or town are extended as provided in this section, and the proposition of issuing bonds of the sanitary district as enlarged has not been approved by the voters at an election held within one year subsequent to the extension, the annexed territory may be removed and excluded from the sanitary district in the manner provided in G.S. 130A-69. If the petition includes areas within the present corporate limits of the city or town but not within the present boundaries of the sanitary district, these areas shall not be removed or excluded from the city or town under the provisions of this section.

(h) The powers granted by this section shall be supplemental and additional to powers conferred by any other law and shall not be regarded as in derogation to any powers now existing.

"§ 130A-71. *Procedure for withdrawing from district.*—Fifty-one percent (51%) or more of the resident freeholders of a portion of a sanitary district which has no outstanding indebtedness, with the approval of the sanitary district board, may petition the county board of commissioners of the county in which a major portion of the petitioners reside, that the identified portion of the district be removed and excluded from the district. If the county board of commissioners approves the petition, an election shall be held in the entire district on the question of exclusion. A majority of all the votes cast is necessary for a district to be removed and excluded from a sanitary district. The county board of commissioners shall notify the Commission who shall remove and exclude the portion of the district, and redefine the limits accordingly.

"§ 130A-72. *Dissolution of certain sanitary districts.*—Fifty-one percent (51%) or more of the resident freeholders of a sanitary district which has no outstanding indebtedness may petition the board of commissioners of the county in which all or the greater portion of the resident freeholders of the district are located to dissolve the district. Upon receipt of the petition, the county board of commissioners shall notify the Department and the chairperson of the county board of commissioners of any other county or counties in which any portion of the district lies, of the receipt of the petition, and shall request that the Department hold a joint public hearing with the county commissioners concerning the dissolution of the district. The Secretary

and the chairperson of the county board of commissioners shall name a time and place within the district for the public hearing. The county board of commissioners shall give prior notice of the hearing by posting a notice at the courthouse door of the county or counties and by publication in a newspaper or newspapers with circulation in the county or counties at least once a week for four consecutive weeks. If all matters pertaining to the dissolution of the sanitary district cannot be concluded at the hearing, the hearing may be continued to a time and place determined by the Department. If after the hearing, the Commission and the county board or boards of commissioners deem it advisable to comply with the request of the petition, the Commission shall adopt a resolution to dissolve the sanitary district. The sanitary district board of the dissolved district is authorized to convey all assets, including cash, to any county, municipality, or other governmental unit, or to any public utility company operating or to be operated under the authority of a certificate of public convenience and necessity granted by the North Carolina Utilities Commission in return for the assumption of the obligation to provide water and sewage services to the area served by the district at the time of dissolution.

"§ 130A-73. *Dissolution of sanitary districts having no outstanding indebtedness and located wholly within or coterminous with corporate limits of city or town.*—When the boundaries of a sanitary district which has no outstanding indebtedness are entirely located within or coterminous with the corporate limits of a city or town, fifty-one percent (51%) or more of the resident freeholders within the district may petition the board of commissioners within the county in which all or the greater portion of the resident freeholders of the district are located to dissolve the district. The rules shall contain a system for grading facilities, such as Grade A, Grade B and Grade C.

(b) No facility shall commence or continue operation that does not have a permit issued by the Department. The permit shall be issued to the owner or operator of the facility and shall not be transferable. A permit shall be issued only when the facility satisfies all of the requirements of the rules. A permit shall be revoked for failure of the facility to maintain a minimum grade of C, and a permit may be revoked for failure to comply with the other provisions of the rules where an imminent health hazard may exist.

"§ 130A-249. *Inspections; report and grade card.*—The Secretary may enter any facility where food or drink is prepared or served for pay or where lodging is provided for pay for the purpose of making inspections. The person responsible for the management or control of a facility shall permit the Secretary to inspect every part of the facility and shall render all aid and assistance necessary for the inspection. The Secretary shall leave a copy of the inspection form and a card showing the grade of the facility with the responsible person. The Secretary shall post the grade card in a conspicuous place as determined by the Secretary where it may be readily observed by the public upon entering the facility. "Part 7. Mass Gatherings.

"§ 130A-251. *Legislative intent and purpose.*—The intent and purpose of this Part is to provide for the protection of the public health, safety and welfare of those persons in attendance at mass gatherings and of those persons who reside near or are located in proximity to the sites of mass gatherings or are directly affected by them.

"§ 130A-252. *Definition of mass gathering.*—For the purposes of this Part, 'mass gathering' means a congregation or assembly of more than 5,000 people in an open space or open air for a period of more than 24 hours. A mass gathering shall include all congregations and assemblies organized or held for any purpose, but shall not include assemblies in permanent buildings or permanent structures designed or intended for use by a large number of people. To determine whether a congregation or assembly extends for more than 24 hours, the period shall begin when the people expected to attend are first permitted on the land where the congregation or assembly will be held and shall end when the people in attendance are expected to depart. To determine whether a congregation or assembly shall consist of more than 5,000 people, the number reasonably expected to attend, as determined from the promotion, advertisement and preparation for the congregation or assembly and from the attendance at prior congregations or assemblies of the same type, shall be considered.

"§ 130A-253. *Permit required; information report; revocation of permit.*—(a) No person shall organize, sponsor or hold any mass gathering unless a permit has been issued to the person by the Secretary under the provisions of this Part. A permit shall be required for each mass gathering and is not transferable.

(b) A permit may be revoked by the Secretary at any time if the Secretary finds that the mass gathering is being or has been maintained or operated in violation of this Part. A permit may be revoked upon the request of the permittee or upon abandonment of the operation. A permit will otherwise expire upon satisfactory completion of the post-gathering cleanup following the close of the mass gathering.

(c) The Secretary, upon information that a congregation or assembly of people which may constitute a mass gathering is being organized or promoted, may direct the organizer or promoter to submit within five calendar days an information report to the Department. The report shall contain the information required for an application for permit under G.S. 130A-254(b) and other information concerning the promotion, advertisement and preparation for the congregation or assembly and prior congregations or assemblies, as the Secretary deems necessary. The Secretary shall consider all available information including any report received and shall determine if the proposed congregation or assembly is a mass gathering. If the Secretary determines that a proposed congregation or assembly is a mass gathering, the Secretary shall notify the organizer or promoter to submit an application for permit at least 30 days prior to the commencement of the mass gathering.

"§ 130A-254. *Application for permit.*—(a) Application for a permit for a mass gathering shall be made to the Secretary on a form and in a manner prescribed by the Secretary. The application shall be filed with the Secretary at least 30 days prior to the commencement of the mass gathering. A fee as prescribed by the Secretary, not to exceed one hundred dollars ($100.00), shall accompany the application.

(b) The application shall contain the following information: identification of the applicant; identification of any other person or persons responsible for organizing, sponsoring or holding the mass gathering; the location of the proposed mass gathering; the estimated maximum number of persons reasonably expected to be in attendance at any time; the date or dates and the

hours during which the mass gathering is to be conducted; and a statement as to the total time period involved.

(c) The application shall be accompanied by an outline map of the area to be used, to approximate scale, showing the location of all proposed and existing privies or toilets; lavatory and bathing facilities; all water supply sources including lakes, ponds, streams, wells and storage tanks; all areas of assemblage; all camping areas; all food service areas; all garbage and refuse storage and disposal areas; all entrances and exits to public highways; and emergency ingress and egress roads.

(d) The application shall be accompanied by additional plans, reports and information required by the Secretary as necessary to carry out the provisions of this Part.

(e) A charge shall be levied by the Secretary to cover the cost of additional services, including police, fire and medical services, provided by the State or units of local government on account of the mass gathering. The Secretary shall reimburse the State or the units of local government for the additional services upon receipt of payment.

"§ 130A-255. *Provisional permit; performance bond; liability insurance.*—(a) Within 15 days after the receipt of the application, the Secretary shall review the application and inspect the proposed site for the mass gathering. If it is likely that the requirements of this Part and the rules of the Commission can be met by the applicant, a provisional permit shall be issued.

(b) The Secretary shall require the permittee within five days after issuance of the provisional permit to file with the Secretary a performance bond or other surety to be executed to the State in the amount of five thousand dollars ($5,000) for up to 10,000 persons and an additional one thousand dollars ($1,000) for each additional 5,000 persons or fraction reasonably estimated to attend the mass gathering. The bond shall be conditioned on full compliance with this Part and the rules of the Commission and shall be forfeitable upon noncompliance and a showing by the Secretary of injury, damage or other loss to the State or local governmental agencies caused by the noncompliance.

(c) The permittee shall in addition file satisfactory evidence of public liability and property damage insurance in an amount determined by the Secretary to be reasonable, not to exceed one million dollars ($1,000,000) in amount, in relation to the risks and hazards involved in the proposed mass gathering.

"§ 130A-256. *Issuance of permit; revocation; forfeiture of bond; cancellation.*—(a) If, upon inspection by the Secretary five days prior to the starting date of the mass gathering, or earlier upon request of the permittee, the required facilities are found to be in place, satisfactory arrangements are found to have been made for required services, the charge for additional services levied in accordance with G.S. 130A-254(e) has been paid and other applicable provisions of this Part and the rules of the Commission are found to have been met, the Secretary shall issue a permit for the mass gathering. If, upon inspection, the facilities, arrangements or other provisions are not satisfactory, the provisional permit shall be revoked and no permit shall be issued.

(b) Upon revocation of either the provisional permit or the permit, the permittee shall immediately announce cancellation of the mass gathering in as effective a manner as is reasonably possible including, but not limited to, the use or whatever methods were used for advertising or promoting the mass gathering.

(c) If the provisional permit or the permit is revoked prior to or during the mass gathering, the Secretary may order the permittee to install facilities and make arrangements necessary to accommodate persons who may nevertheless attend or be present at the mass gathering despite its cancellation and to restore the site to a safe and sanitary condition. In the event the permittee fails to comply with the order of the Secretary, the Secretary may immediately proceed to install facilities and make other arrangements and provisions for cleanup as may be minimally required in the interest of public health and safety, utilizing any State and local funds and resources as may be available.

(d) If the Secretary installs facilities or makes arrangements or provisions for cleanup pursuant to subsection (c), the Secretary may apply to a court of competent jurisdiction prior to or within 60 days after the action to order forfeiture of the permittee's performance bond or surety for violation of this Part or the rules of the Commission. The court may order that the proceeds shall be applied to the extent necessary to reimburse State and local governmental agencies for expenditures made pursuant to the action taken by the Secretary upon the permittee's failure to comply with the order. Any excess proceeds shall be returned to the insurer of the bond or to the surety after deducting court costs.

"§ 130A-257. *Rules of the Commission.*—For the protection of the public health, safety and welfare of those attending mass gatherings and of other persons who may be affected by mass gatherings, the Commission shall adopt rules to carry out the provisions of this Part and to establish requirements for the provision of facilities and services at mass gatherings. The rules shall include, but not be limited to, the establishment of requirements as follows:

"§ 130A-258. *Local ordinances not abrogated.*—Nothing in this Part shall be construed to limit the authority of units of local government to adopt ordinances regulating, but not prohibiting, congregations and assemblies not covered by this Part.

"§ 130A-259 to 130A-260: Reserved for future codification purposes.

(d) A stamp exemption permit may be issued to a person who has not done business in this State throughout the preceding calendar year upon an initial payment of seven hundred twenty dollars ($720.00) per year, prorated in accordance with the quarter of the calendar year in which the person makes application for the permit. After submission of proof of business volume amounts in accordance with subsection (h) for that part of the preceding calendar year in which the person used a stamp exemption permit issued under this subsection, the Department shall determine the cost of the permit for that time period by using a rate of eighteen dollars ($18.00) for each 500 bedding units or fraction of 500 units. If the person's initial payment is more than the cost of the permit, the Department shall make a refund or an adjustment to the cost of the next permit in the amount of the difference. Each material entering into willowed or other mixtures shall be shown on the invoice. The bedding manufacturer shall keep the invoice on file for one year subject to inspection by the Department.

(d) When the Secretary has reason to believe that bedding is not tagged or filled as required by this Part, the Secretary shall have authority to open a seam of the bedding to examine the filling, and, if unable after this examination to determine if the filling is of the kind stated on the tag, shall have the authority to examine purchase or other records necessary to determine

definitely the kind of material used in the bedding. The Secretary shall have authority to seize and hold for evidence any records and any bedding or bedding material which in the Secretary's opinion is made, possessed or offered for sale in violation of this Part or the rules of the Commission. The Secretary shall have authority to take a sample of any bedding or bedding material for the purpose of examination or for evidence.

The Department shall issue permits for the operation of Grade 'A' dairy farms,

processing plants and haulers in accordance with the provisions of the rules of the Commission and shall suspend or revoke permits for violations in accordance with the rules. Upon request by a local board of health the Department shall delegate enforcement and permit authority to the local health department.

"§ 130A-278. *Certain authorities of Department of Agriculture not replaced.*—This Part shall not repeal or limit the Department of Agriculture's authority to carry out labeling requirements, required butterfat testing, aflatoxin testing, pesticide testing, other testing performed by the Department of Agriculture and any other function of the Department of Agriculture concerning Grade 'A' milk which is not inconsistent with this Article.

"§ 130A-279. *Sale of milk.*—Only milk which is Grade 'A' pasteurized milk may be sold directly to consumers for human consumption.

(20) 'Solid waste generation' means the act or process of producing solid waste.

(21) 'Solid waste management' means purposeful, systematic control of the generation, storage, collection, transport, separation, treatment, processing, recycling, recovery and disposal of solid waste.

(22) 'Solid waste management facility' means land, personnel and equipment used in the management of solid waste.

(23) 'Storage' means the containment of solid waste, either on a temporary basis or for a period of years, in a manner which does not constitute disposal.

(24) 'Treatment' means any method, technique or process, including neutralization, designed to change the physical, chemical or biological character or composition of any solid waste to neutralize the waste or to render the waste nonhazardous, safer for transport, amenable for recovery, amenable for storage or reduced in volume. The term includes any activity or processing designed to change the physical form or chemical composition of solid waste to render it nonhazardous.

"§ 130A-291. *Solid waste unit in Department.*—For the purpose of promoting and preserving an environment that is conducive to public health and welfare, and preventing the creation of nuisances and the depletion of natural resources, the Department shall maintain an appropriate administrative unit to promote sanitary processing, treatment, disposal and overall management of solid waste and the greatest possible recycling and recovery of resources, and the Department shall employ and retain qualified personnel as necessary. To the extent necessary, practicable and appropriate, the Department shall consult and coordinate with other State agencies, units of local government, the federal government, industries and individuals in the promotion of sanitary processing, treatment, disposal and overall management of solid waste and the recycling and recovery of resources.

"§ 130A-292. *Conveyance of land used for hazardous waste landfill facility to the State.*—(a) No land may be used for a commercial hazardous waste landfill facility until fee simple title to the land has been conveyed to this State. In consideration for the conveyance, the State shall enter into a lease agreement with the grantor for a term equal to the estimated life of the facility in which the State will be the lessor and the grantor the lessee. The lease agreement shall specify that for an annual rent of fifty dollars ($50.00), the lessee shall be allowed to use the land for the development and operation of a hazardous waste landfill facility. The lease agreement shall provide that the lessor or any person authorized by the lessor shall at all times have the right to enter without a search warrant or permission of the lessee upon any and all parts of the premises for monitoring, inspection and all other purposes necessary to carry

out the provisions of this Article. The lessee shall remain fully liable for all damages, losses, personal injury or property damage which may result or arise out of the lessee's operation of the facility, and for compliance with regulatory requirements concerning insurance, bonding for closure and post-closure costs, monitoring and other financial or health and safety requirements as required by applicable law and rules. The State, as lessor, shall be immune from liability except as otherwise provided by statute. The lease shall be transferable with the written consent of the lessor and the consent will not be unreasonably withheld. In the case of a transfer of the lease, the transferee shall be subject to all terms and conditions that the State deems necessary to ensure compliance with applicable laws and rules. If the lessee or any successor in interest fails in any material respect to comply with any applicable law, rule or permit condition, or with any term or condition of the lease, the State may terminate the lease after giving the lessee written notice specifically describing the failure to comply and upon providing the lessee a reasonable time to comply. If the lessee does not effect compliance within the reasonable time allowed, the State may reenter and take possession of the premises.

(b) Notwithstanding the termination of the lease by either the lessee or the lessor for any reason, the lessee shall remain liable for, and be obligated to perform, all acts necessary or required by law, rule, permit condition or the lease for the permanent closure of the site until the site has either been permanently closed or until a substitute operator has been secured and has assumed the obligations of the lessee.

(c) In the event of changes in laws or rules applicable to the facility which make continued operation by the lessee impossible or economically infeasible, the lessee shall have the right to terminate the lease upon giving the State reasonable notice of not less than six months, in which case the lessor shall have the right to secure a substitute lessee and operator.

(d) In the event of termination of the lease by the lessor as provided in subsection (a) of this section, or by the lessee as provided in subsection (c) of this section, the lessee shall be paid the fair market value of any improvements made to the leased premises less the costs to the lessor resulting from termination of the lease and securing a substitute lessee and operator. However, the lessor shall have no obligation to secure a substitute lessee or operator and may require the lessee to permanently close the facility.

"§ 130A-293. *Local ordinances prohibiting hazardous waste facilities invalid; petition to establish facility.*—(a) Notwithstanding any authority granted to counties, municipalities or other local authorities to adopt local ordinances, including those regulating land use, any local ordinance which prohibits or has the effect of prohibiting the establishment or operation of a hazardous waste facility or a hazardous waste landfill facility which the Governor's Waste Management Board and the Governor have approved pursuant to subsections (b) and (c) of this section, shall be invalid only to the extent necessary to effectuate the purposes of this Article. For the purpose of this section, the Governor's Waste Management Board shall include, in addition to the members enumerated in G.S. 143B-216.12(a), two members appointed by the local governing body: (1) of the city in which the proposed site is located; or (2) of the county in which the proposed site is located (if the proposed site is outside city limits). The terms of the members appointed by the local governing body shall end upon the final determination made by the Governor under this section.

(b) When a hazardous waste facility would be prevented from construction or operation by a county, municipal or other local ordinance(s), the developer or operator of the facility may petition the Governor's Waste Management Board to review the matter. After receipt of a petition, the Board shall hold a hearing in accordance with the procedures in subsection (c) of this section and shall recommend that the Governor either approve or disapprove the establishment and operation of the facility. After receiving a written recommendation from the Board, if the Governor makes the four findings set forth in subsection (c) of this section, the Governor shall approve the establishment or operation of the facility. If the Governor does not make all of the four findings set forth in subsection (c) of this section, the Governor shall disapprove the establishment or operation of the facility. The Governor shall affirm or disaffirm the findings of the Board and may make additional findings. The decision of the Governor shall be final unless a party to the action shall, pursuant to G.S. 7A-29, file a written appeal within 30 days of the date of the decision. The record on appeal shall include all materials and information submitted to or considered by the Governor in accordance with subsection (c) of this section. The scope of judicial review shall be limited to questions of abuse of discretion.

(c) When a petition as described in subsection (b) of this section has been filed with the Governor's Waste Management Board, the Board shall hold a public hearing to consider the petition. The hearing shall be held in the affected locality in accordance with Article 2 of Chapter 150A of the General Statutes within a reasonable time after receipt of the petition by the Board. The Board shall publish notice of the hearing twice a week for two successive weeks in a newspaper of general circulation in the county where the proposed site is located. The final notice shall appear at least 15 days, but not more than 25 days, before the hearing date. Any interested persons may appear before the Board at the hearing to offer testimony. In addition to testimony before the Board, an interested person may submit written material to the Board for its consideration. No later than 60 days after the hearing, the Board shall present its written recommendation to the Governor to approve or disapprove the facility. Before recommending that the Governor approve the facility, the Board must make the following findings:

(1) That the proposed facility is needed in order to establish adequate capability for the management of hazardous waste generated in this State and serves the interests of the citizens of the State as a whole;

(2) That all legally required State and federal permits or approvals have been issued by the appropriate State and federal agencies;

(3) That local citizens and elected officials have had adequate opportunity to participate in the siting process; and

(4) That the construction and operation of the facility will not pose an unreasonable health or environmental risk to the surrounding locality and that the facility developer or operator has taken or consented to take any reasonable measures to avoid or manage foreseeable risks and to comply to the maximum feasible extent with applicable ordinance(s).

The Board's written recommendation shall include a complete transcript of the hearing, all written material presented to the Board regarding the site location and the specific findings required in this subsection and any minority positions on the recommendation and the specific findings required in this subsection. The Governor shall issue a decision within a reasonable time

following receipt of the recommendation from the Board and may consider any additional relevant information. The Governor's decision shall be in writing and shall identify the material submitted by the Board plus any additional materials used in arriving at the decision.

(d) The provisions of this section shall not apply to the siting of a hazardous waste landfill facility until the rules for the operation of the facilities have been adopted by the appropriate State agencies.

"§ 130A-294. *Solid waste management program.*—(a) The Department is authorized and directed to engage in research, conduct investigations and surveys, make inspections and establish a statewide solid waste management program. In establishing a program, the Department shall have authority to:

(1) Develop a comprehensive program for implementation of safe and sanitary practices for management of solid waste;

(2) Advise, consult, cooperate and contract with other State agencies, units of local government, the federal government, industries and individuals in the formulation and carrying out of a solid waste management program;

(3) Develop and adopt rules to establish standards for qualification as a waste 'recycling, reduction or resource recovering facility' or as waste 'recycling, reduction or resource recovering equipment' for the purpose of special tax classifications or treatment, and to certify as qualifying those applicants which meet the established standards. The standards shall be developed to qualify only those facilities and equipment exclusively used in the actual waste recycling, reduction or resource recovering process and shall exclude any incidental or supportive facilities and equipment;

(4) Develop a permit system governing the establishment and operation of solid waste management facilities. No permit shall be granted for a solid waste management facility having discharges which are point sources until the Department has referred the complete plans and specifications to the Environmental Management Commission and has received advice in writing that the plans and specifications are approved in accordance with the provisions of G.S. 143-215.1. In any case where the Department denies a permit for a solid waste management facility, it shall state in writing the reason for denial and shall also state its estimate of the changes in the applicant's proposed activities or plans which will be required for the applicant to obtain a permit;

(5) Delegate authority and responsibility to units of local government, including counties, to perform all or any portion of a solid waste management program within a jurisdictional area. No authority over or control of the operations or properties of one unit of local government shall be delegated to any other unit of local government; and

(6) The Department is authorized to charge and collect fees from operators of hazardous waste landfill facilities. The fees shall be used to establish a fund sufficient for each individual facility to defray the anticipated costs to the State for monitoring and care of the facility after the termination of the period during which the facility operator is required by applicable State and federal statutes, regulations or rules to remain responsible for post-closure monitoring and care. In establishing the

fees, consideration shall be given to the size of the facility, the nature of the hazardous waste and the projected life of the facility.

(b) The Commission shall adopt and the Department shall enforce rules for the establishment, location, operation, maintenance, use and discontinuance of solid waste management sites and facilities. These rules shall be designed to accomplish the maintenance of safe and sanitary conditions in and around solid waste management sites and facilities, and shall be based on recognized public health practices and procedures, sanitary engineering research and studies, and current technological development in equipment and methods. The rules shall not apply to the management of solid waste that is generated by an individual or individual family or household unit on the individual's property and is disposed of on the individual's property.

(c) The Commission shall adopt and the Department shall enforce rules concerning the management of hazardous waste. These rules shall establish a complete and integrated regulatory scheme in the area of hazardous waste management and shall provide for:

(1) Establishing criteria for hazardous waste, identifying the characteristics of hazardous waste and listing particular hazardous waste;

(2) Record-keeping and reporting by generators and transporters of hazardous waste and owners and operators of hazardous waste facilities;

(3) Proper labeling of hazardous waste containers;

(4) Use of appropriate containers for hazardous waste;

(5) A manifest system to assure that all hazardous waste is designated for treatment, storage or disposal at a hazardous waste facility to which a permit has been issued;

(6) Proper transportation of hazardous waste;

(7) Treatment, storage and disposal standards of performance and techniques to be used by hazardous waste facilities;

(8) Location, design, ownership and construction of hazardous waste facilities; provided, however, that no hazardous waste landfill facility or polychlorinated biphenyl landfill facility shall be located within 25 miles of any other hazardous waste landfill facility or polychlorinated biphenyl landfill facility;

(9) Plans to minimize unanticipated damage from treatment, storage or disposal of hazardous waste; and a plan or plans providing for the establishment and/or operation of one or more hazardous waste facilities in the absence of adequate approved hazardous waste facilities established or operated by any person within the State;

(10) Proper maintenance and operation of hazardous waste facilities, including requirements for ownership by any person or the State, financial responsibility (including requirements for sufficient availability of funds for facility closure and post-closure monitoring and corrective measures), training of personnel, continuity of operation and procedures for establishing and maintaining hazardous waste facilities;

(11) Monitoring by owners or operators of hazardous waste facilities;

(12) Inspection or copying of records required to be kept;

(13) Obtaining and analyzing hazardous waste samples and samples of hazardous waste containers and labels from generators and transporters and from owners and operators of hazardous waste facilities;

(14) A permit system governing the establishment and operation of hazardous waste facilities; and

(15) Additional requirements as necessary for the effective management of hazardous waste.

(16) The operator of the hazardous waste landfill facility shall maintain adequate insurance to cover foreseeable claims arising from the operation of the facility. The Board shall determine what constitutes an adequate amount of insurance.

(17) The bottom of a hazardous waste landfill facility shall be at least 10 feet above the seasonal high water table and more when necessary to protect the public health and the environment.

(18) The operator of a hazardous waste landfill facility shall make monthly reports to the Governor's Waste Management Board and to the board of county commissioners of the county in which the facility is located on the kinds and amounts of hazardous wastes in the facility.

(d) The Commission is authorized to adopt and the Department is authorized to enforce rules where appropriate for public participation in the consideration, development, revision, implementation and enforcement of any permit rule, guideline, information or program under this Article. Such rules shall not limit in any way the rights of aggrieved parties to judicial review of decisions regarding permits as provided for by Article 4 of Chapter 150A of the General Statutes. For the purposes of such judicial review of permit decisions, 'aggrieved persons' shall include, but not be limited to, organizations with members residing in the county where the permitted activity is to take place, and organizations whose members regularly use the area of the permitted activity for recreational purposes.

(e) The rules adopted under this section shall be no less stringent than the most recent regulations adopted under the federal act and may be amended.

(f) Within five days of receiving an application for a permit or for an amendment to an existing permit for a hazardous waste facility, the Department shall notify the clerk to the county board of commissioners or, if the facility is located within a city, the city clerk where the facility is proposed to be located. Prior to the issuance of a permit or an amendment of an existing permit for a hazardous waste facility, the Department shall issue public notice and conduct a public hearing in any county in which a hazardous waste facility is to be located. Notice and public hearings shall be in accordance with the appropriate federal regulations adopted pursuant to the federal act and with Chapter 150A of the General Statutes. Where the provisions of the federal regulations and Chapter 150A of the General Statutes are inconsistent, the federal regulations shall apply.

"§ 130A-295. *Additional requirements for hazardous waste facilities.*—An applicant for a permit for a hazardous waste facility shall satisfy the Department that:

(1) Any hazardous waste facility constructed or operated by the applicant, or any parent or subsidiary corporation if the applicant is a corporation, has been operated in accordance with sound waste management practices and in substantial compliance with federal and State laws, regulations and rules; and

(2) The applicant, or any parent or subsidiary corporation if the applicant is a corporation, is financially qualified to operate the proposed hazardous waste facility.

"§ 130A-296. *Limitations on powers of local governments.*—It is the intent of the General Assembly to prescribe a uniform system for the management of hazardous waste and to place limitations upon the exercise by all units of local government in the State of the power to regulate the management of hazardous waste by means of special, local, or private acts or resolutions, ordinances, property restrictions, zoning regulations, or otherwise, as provided in G.S. 143B-216.10(b).

"§ 130A-297. *Receipt and distribution of funds.*—The Department may accept loans and grants from the federal government and other sources for carrying out the purposes of this Article, and shall adopt reasonable policies governing the administration and distribution of funds to units of local government, other State agencies, and private agencies, institutions or individuals for studies, investigations, demonstrations, surveys, planning, training, and construction or establishment of solid waste management facilities.

"§ 130A-298. *Hazardous waste fund.*—A nonreverting hazardous waste fund is established within the Department which shall be available to defray the cost to the State for monitoring and care of hazardous waste landfill facilities after the termination of the period during which the facility operator is required by applicable State and federal statutes, rules or regulations to remain responsible for post-closure monitoring and care. The establishment of this fund shall in no way be construed to relieve or reduce the liability of facility operators or any persons for damages caused by the facility. The fund shall be maintained by fees collected pursuant to the provisions of G.S. 130A-294(a)(6).

"§ 130A-299. *Single agency designation.*—The Department is designated as the single State agency for purposes of the federal act or any State or federal legislation enacted to promote the proper management of solid waste.

"§ 130A-300. *Effect on laws applicable to water pollution control.*—This Article shall not be construed as amending, repealing or in any manner abridging or interfering with those sections of the General Statutes of North Carolina relative to the control of water pollution as now administered by the Environmental Management Commission nor shall the provisions of this Article be construed as being applicable to or in any way affecting the authority of the Environmental Management Commission to control the discharges of wastes to the waters of the State as provided in Articles 21 and 21A, Chapter 143 of the General Statutes.

"§ 130A-301. *Recordation of permits for disposal of waste on land.*—(a) Whenever the Department approves a permit for a sanitary landfill or a facility for the disposal of hazardous waste on land, the owner of the facility shall be granted both an original permit and a copy certified by the Secretary. The permit shall include a legal description of the site that would be sufficient as a description in an instrument of conveyance.

(b) The owner of a facility granted a permit for a sanitary landfill or a facility for the disposal of hazardous waste on land shall file the certified copy of the permit in the register of deeds' office in the county or counties in which the land is located.

(c) The register of deeds shall record the certified copy of the permit and index it in the grantor index under the name of the owner of the land.

(d) The permit shall not be effective unless the certified copy is filed as required under subsection (b).

(e) When a sanitary landfill or a facility for the disposal of hazardous waste on land is sold, leased, conveyed or transferred, the deed or other instrument of transfer shall contain in the description section in no smaller type than that used in the body of the deed or instrument a statement that the property has been used as a sanitary landfill or a disposal site for hazardous waste and a reference by book and page to the recordation of the permit.

"§ 130A-302. *Sludge deposits at sanitary landfills.*—Sludges generated by the treatment of wastewater discharges which are point sources subject to permits granted under Section 402 of the Federal Water Pollution Control Act, as amended (PL 92-500), or permits generated under G.S. 143-215.1 by the Environmental Management Commission shall not be deposited in or on a sanitary landfill permitted under this Article unless in compliance with the rules concerning solid waste adopted under this Article.

"§ 130A-303. *Imminent hazard.*—(a) The judgement of the Secretary that an imminent hazard exists concerning solid waste shall be supported by findings of fact made by the Secretary.

(b) In order to eliminate an imminent hazard, the Secretary may, without notice or hearing, issue an order requiring that immediate action be taken to protect the public health or the environment. This order may be directed to a generator or transporter of solid waste or to the owner or operator of a solid waste management facility.

"§ 130A-304. *Information received pursuant to this Article.*—(a) For the purposes of this Article, upon a showing satisfactory to the Department by a person that all or any part of records, reports or information to which the Department has access under G.S. 130A-16, would divulge information entitled to protection under subsection (b), the Department shall consider the information confidential in accordance with the purposes of that subsection, except that the record, report or information may be disclosed to other officers, employees or authorized representatives of the Department concerned with carrying out this Article or when relevant in any proceeding under this Article.

(b) For the purposes of this Article, if an officer or employee of the Department publishes, divulges, discloses or makes known in any manner or to any extent not authorized by law any information revealed in the course of employment or official duties or by reason of examination or investigation made by, or return, report or record made to or filed with the Department which information concerns or relates to the trade secrets, processes, operations, style of work, or apparatus, or to the identity, confidential statistical data, amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation, or association; or permits any income return or copy or any book containing any abstract or its particulars to be seen or examined by any person except as provided in subsection (a) shall be guilty of a misdemeanor and fined not more than five hundred dollars ($500.00) or imprisoned not more than two years or both; and shall be removed from office or employment.

"§ 130A-305. *Construction.*— This Article shall be interpreted as enabling the State to obtain federal financial assistance in carrying out its solid waste management program and to obtain the authority needed to assume primary enforcement responsibility for that portion of the solid waste management program concerning the management of hazardous waste.

"§ 130A-306 to 130A-310: Reserved for future codification purposes.

(4) Is not a carrier which conveys passengers in interstate commerce.

(b) A provision of any charter granted to a public water system in conflict with the provisions of this Article is repealed.

"§ 130A-315. *Drinking water rules.*—(a) The Commission shall adopt and the Secretary shall enforce drinking water rules to regulate public water systems. The rules may distinguish between community water systems and noncommunity water systems.

(b) The rules shall:

(1) Specify contaminants which may have an adverse effect on the public health;

(2) Specify for each contaminant either:

a. A maximum contaminant level which is acceptable in water for human consumption, if it is feasible to establish the level of the contaminant in water in public water systems; or

b. One or more treatment techniques which lead to a reduction in the level of contaminants sufficient to protect the public health, if it is not feasible to establish the level of the contaminants in water in a public water system; and

(3) Establish criteria and procedures to assure a supply of drinking water which dependably complies with maximum contaminant levels and treatment techniques as determined in paragraph (2) of this subsection. These rules may provide for:

(c) The drinking water rules may be amended as necessary in accordance with required federal regulations.

"§ 130A-316. *Department to examine waters.*—The Department shall examine all waters and their sources and surroundings which are used as, or proposed to be used as, sources of public water supply to determine whether the waters and their sources are suitable for use as public water supply sources.

"§ 130A-317. *Department to provide advice; submission and approval of public water system plans.*—(a) The Department shall advise all persons and units of local government locating, constructing, altering or operating or intending to locate, construct, alter or operate a public water system of the most appropriate source of water supply and the best practical method of purifying water from that source having regard to the present and prospective needs and interests of other persons and units of local government which may be affected. The Department shall also advise concerning accepted engineering practices in the location, construction, alteration and operation of public water systems.

(b) All persons and units of local government constructing or altering a public water system shall give prior notice and submit plans, specifications and other information to the Department. The Commission shall adopt rules providing for the amount of prior notice required to be given and the nature and detail of the plans, specifications and other information required to be submitted. The Commission shall take into consideration the complexity of the construction or alteration which may be involved and the resources of the Department to review the plans, specifications and other information. The Department shall review the plans, specifications and other information, and notify the person, Utilities Commission and unit of local government of compliance or lack of compliance with applicable statutes and rules of the Commission.

(c) No person or unit of local government shall begin construction or alteration of a public water system or award a contract for construction or alteration unless:

(1) The plans for construction or alteration have been prepared by an engineer licensed by this State;

(3) The Department has determined that the system is capable of interconnection at an appropriate time with an expanding municipal, county or regional system;

(4) The Department has determined that adequate arrangements have been made for the continued operation, service and maintenance of the public water system; and

(5) The Department has approved the plans and specifications.

"§ 130A-318. *Disinfection of public water systems.*—(a) The Department is authorized to require disinfection of:

(1) Public water systems introduced on or after January 1, 1972; and

(2) All public water systems, regardless of the date introduced, whenever:

a. The maximum microbiological contaminant level is exceeded; or

b. Conditions exist which make continued use of the water potentially hazardous to public health.

(b) Public water systems shall employ disinfection methods and procedures approved by the Department.

"§ 130A-319. *Condemnation of lands for public water systems.*—All units of local government operating public water systems and all water companies operating under franchise from the State or units of local government, may acquire by condemnation lands and rights in lands and water necessary for the successful operation and protection of their systems. Condemnation proceedings under this section shall be the same as prescribed by law under Chapter 40A of the General Statutes.

"§ 130A-320. *Sanitation of watersheds; rules; inspections.*—(a) The Commission shall adopt rules governing the sanitation of watersheds from which public drinking water supplies are obtained. In adopting these rules the Commission is authorized to consider the different classes of watersheds, taking into account general topography, nature of watershed development, density of population and need for frequency of sampling of raw water. The rules shall govern the keeping of livestock, operation of recreational areas, maintenance of residences and places of business, disposal of sewage, establishment of cemeteries or burying grounds, and any other factors which would endanger the public water supply.

(b) Any person operating a public water system and furnishing water from unfiltered surface supplies shall inspect the watershed area at least quarterly, and more often when the Department determines that more frequent inspections are necessary.

"§ 130A-321. *Variances and exemptions; considerations; duration; condition; notice and hearing.*—(a) The Secretary may authorize variances from the drinking water rules.

(1) The Secretary may grant one or more variances to a public water system from any requirement respecting a maximum contaminant level of an applicable drinking water rule upon a finding that:

a. Because of characteristics of the raw water sources reasonably available to the system, the system cannot meet the requirements respecting the maximum contaminant levels of the drinking water rules despite application of the best technology, treatment techniques or other means which the Secretary finds are generally available (taking costs into consideration); and

b. The granting of a variance will not result in an unreasonable risk to public health when considering the population exposed, the projected duration of the requested variance and the degree to which the maximum contaminant level is being or will be exceeded.

(2) The Secretary may grant one or more variances to a public water system from any requirement of a specified treatment technique of an applicable drinking water rule upon a finding that the public water system applying for the variance has demonstrated that the treatment technique is not necessary to protect the public health because of the nature of the raw water source of the system.

(3) In consideration of whether the public water system is unable to comply with a contaminant level required by the drinking water rules because of the nature of the raw water sources, the Secretary shall consider factors such as:

a. The availability and effectiveness of treatment methods for the contaminant for which the variance is requested; and

b. Costs of implementing the best treatment(s), improving the quality of the raw water by the best means or using an alternate source.

(4) In consideration of whether a public water system should be granted a variance from a required treatment technique because the treatment is unnecessary to protect the public health, the Secretary shall consider factors such as:

a. Quality of the water source including water quality data and pertinent sources of pollution; and

b. Source protection measures employed by the public water system.

(b) The Secretary may authorize exemptions from the drinking water rules.

(1) The Secretary may exempt a public water system from any requirement respecting a maximum contaminant level or any treatment technique requirement, or from both, of an applicable drinking water rule upon a finding that:

a. Due to compelling factors, including economic factors, the public water system is unable to comply with the contaminant level or treatment technique requirement;

b. The public water system was in operation on the effective date of the contaminant level or treatment technique requirement or, for a system that was not in operation on that date, only if no reasonable alternative source of drinking water is available to the new system; and

c. The granting of the exemption will not result in an unreasonable risk to public health when considering the population exposed, the projected duration of the requested exemption and the degree to which the maximum contaminant level is being or will be exceeded.

(2) In consideration of whether the public water system is unable to comply due to compelling factors, the Secretary shall consider factors such as:

a. Construction, installation or modification of treatment equipment or systems;

b. The time needed to put into operation a new treatment facility to replace an existing system which is not in compliance; and

c. Economic feasibility of immediate compliance.

(c) As a condition of issuance of either a variance or an exemption, the Secretary shall require that the public water system adhere to a schedule of compliance, including increments of progress with each drinking water rule for which the variance or exemption was issued. As a further condition of the variance or exemption, the Secretary shall require implementation by the public water system of any necessary control measures prescribed by the Secretary during the period ending on the date of compliance with the requirement. The schedules of compliance must be prescribed within one year of the date the variance or exemption has been granted. The compliance schedule for an exemption shall require compliance as expeditiously as practical but no later than January 1, 1984, for the initial drinking water rules, and no later than seven years after the date of revised drinking water regulations setting new maximum contaminant levels or treatment techniques. Compliance dates can be extended two years if the public water supply has entered into an enforceable agreement to become part of a regional water system.

(d) The Secretary shall provide notice and opportunity for public hearing on proposed variances and proposed variance and exemption schedules.

"§ 130A-322. *Imminent hazard; power of the Secretary.*—(a) The Secretary shall judge whether an imminent hazard exists concerning a present or potential condition in a public water system.

(b) In order to eliminate an imminent hazard, the Secretary may, without notice or hearing, issue an order requiring the person or persons involved to immediately take action necessary to protect the public health. A copy of the order shall be delivered by certified mail or personal service. The order shall become effective immediately and shall remain in effect until modified or rescinded by the Secretary or by a court of competent jurisdiction.

"§ 130A-323. *Emergency plan for drinking water; emergency circumstances defined.*—(a) The Secretary shall develop and implement an adequate plan for the provision of drinking water under emergency circumstances. When the Secretary determines that emergency circumstances exist with respect to a need for drinking water, the Secretary may take action in accordance with the plan as necessary in order to provide drinking water.

(b) Emergency circumstances shall exist whenever the available supply of drinking water is inadequate.

"§ 130A-324. *Notice of noncompliance, failure to perform monitoring, variances and exemptions.*—Whenever a public water system:

(1) Is not in compliance with the drinking water rules;

(2) Fails to perform an applicable testing procedure or monitoring required by the drinking water rules;

(3) Is subject to a variance granted for inability to meet a maximum contaminant level requirement;

(4) Is subject to an exemption; or

(5) Fails to comply with the requirements prescribed by a variance or exemption,

the supplier shall as soon as possible, but not later than 48 hours after discovery, notify the Department and give public notification as prescribed by the drinking water rules.

"§ 130A-325. *Prohibited acts.*—The following acts are prohibited:

(1) Failure by a supplier of water to comply with this Article, an order issued under this Article, or the drinking water rules;

(2) Failure by a supplier of water to comply with the requirements of G.S. 130A-324 or the dissemination by a supplier of any false or misleading information with respect to remedial actions being undertaken to achieve compliance with the drinking water rules;

(3) Refusal by a supplier of water to allow the Department or local health department to inspect a public water system as provided for in G.S. 130A-16;

(4) The willful defiling by any person of any water supply of a public water system or the willful damaging of any pipe or other part of a public water system;

(5) The discharge by any person of sewage or other waste above the intake of a public water system, unless the sewage or waste has been passed through a system of purification approved by the Department and the Department of Natural Resources and Community Development; and

(6) The failure by a person to maintain a system approved by the Department for collecting and disposing of all accumulations of human excrement located on the watershed of a public water system.

"§ 130A-326. *Powers of the Secretary.*—To carry out the provisions of this Article, the Secretary is authorized to:

(1) Administer and enforce the provisions of this Article, the drinking water rules and orders issued under this Article;

(2) Enter into agreements or cooperative arrangements with, or participate in related programs of other states, other state agencies, federal or interstate agencies, units of local government, educational institutions, local health departments or other organizations or individuals;

(3) Receive financial and technical assistance from the federal government and other public or private agencies;

(4) Require public water systems to take actions or make modifications as necessary to comply with the requirements of this Article or the drinking water rules;

(5) Prescribe policies and procedures necessary or appropriate to carry out the Secretary's function under this Article; and

(6) Establish and collect fees to recover the costs of laboratory analyses performed for compliance with this Article. The fees shall not exceed two hundred dollars ($200.00) for each analysis.

"§ 130A-327. *Construction.*—This Article shall be interpreted as giving the State the authority needed to assume primary enforcement responsibility under the federal act.

"ARTICLE 11.

"Sanitary Sewage Systems.

"§ 130A-333. *Purpose.*—The General Assembly finds and declares that continued installation, at a rapidly and constantly accelerating rate, of septic tank systems and other types of sanitary sewage systems in a faulty or improper manner and in areas where unsuitable soil and population density adversely affect the efficiency and functioning of these systems, has a detrimental effect on the public health and environment through contamination of land, groundwater and surface waters. Recognizing, however, that sewage can be rendered ecologically safe and the public health protected if methods of sewage collection, treatment and disposal are properly regulated and recognizing that sanitary sewage collection, treatment and disposal will continue to be necessary to meet the needs of an expanding population, the General Assembly intends to ensure the regulation of sewage collection, treatment and disposal systems so that these systems may continue to be used, where appropriate, without jeopardizing the public health.

"§ 130A-334. *Definitions.*—The following definitions shall apply throughout this Article:

(1) 'Construction' means any work at the site of placement done for the purpose of preparing a residence, place of business or place of public assembly for initial occupancy, or subsequent additions or modifications which increase sewage flow.

(2) 'Land sales business' means a business engaged in sales of land where a sanitary sewage collection, treatment and disposal system may be required. This definition shall not include sales of land upon which any residence, place of

business or place of public assembly is being or has been constructed and for which an improvement permit has been issued pursuant to G.S. 130A-336.

(3) 'Location' means the initial placement for occupancy of a residence, place of business or place of public assembly.

(4) 'Mobile home dealer' means a person or firm offering mobile homes for sale or lease within the State.

(5) 'Mobile home sales lot' means a place where two or more mobile homes are displayed and offered for sale or lease.

(6) 'Place of business' means a store, warehouse, manufacturing establishment, place of amusement or recreation, service station, office building or any other place where people work.

(7) 'Place of public assembly' means a fairground, auditorium, stadium, church, campground, theater or any other place where people assemble.

(8) 'Public or community sewage system' means a single system of sewage collection, treatment and disposal owned and operated by a sanitary district, a metropolitan sewage district, a water and sewer authority, a county or municipality or a public utility.

(9) 'Relocation' means the displacement of a residence or place of business from one site to another.

(10) 'Residence' means a private home, dwelling unit in a multiple family structure, hotel, motel, summer camp, labor work camp, mobile home, institution or any other place where people reside.

(11) 'Sanitary sewage system' means a complete system of sewage collection, treatment and disposal including approved privies, septic tank systems, connection to public or community sewage systems, sewage reuse or recycle systems, mechanical or biological treatment systems, or other such systems.

(12) 'Septic tank system' means a subsurface sanitary sewage system consisting of a settling tank and a subsurface disposal field.

(13) 'Sewage' means the liquid and solid human body waste and liquid waste generated by water-using fixtures and appliances, including those associated with foodhandling. The term does not include industrial process wastewater or sewage that is combined with industrial process wastewater.

"§ 130A-335. *Sanitary sewage collection, treatment and disposal; rules.*—(a) A person owning or controlling a residence, place of business or a place of public assembly shall provide a sanitary sewage system. A sanitary sewage system may include components for collection, treatment and disposal of sewage.

(b) Any public or community sanitary sewage system and any sanitary sewage system which is designed to discharge effluent to the land surface or surface waters shall be approved by the Department of Natural Resources and Community Development under rules adopted by the Environmental Management Commission. All other sanitary sewage systems shall be approved by the Department of Human Resources under rules adopted by the Commission for Health Services.

(c) A sanitary sewage system subject to approval under rules of the Commission shall be reviewed and approved under rules of a local board of health in the following circumstances:

(1) The local board of health, on its own motion, has requested the Department to review its proposed rules concerning sanitary sewage systems; and

(2) The Department has found that the rules of the local board of health concerning sanitary sewage collection, treatment and disposal systems are at least as stringent as the Commission's rules, and are sufficient and necessary to safeguard the public health.

(d) The Department may, upon its own motion, upon the request of a local board of health or upon the request of a citizen of an affected county, review its findings under subsection (c) of this section.

(e) The rules of the Commission and the rules of the local board of health shall address at least the following: Sewage characteristics; Design unit; Design capacity; Design volume; Criteria for the design, installation, operation, maintenance and performance of sanitary sewage collection, treatment and disposal systems; Soil morphology and drainage; Topography and landscape position; Depth to seasonally high water table, rock and water impeding formations; Proximity to water supply wells, shellfish waters, estuaries, marshes, wetlands, areas subject to frequent flooding, streams, lakes, swamps and other bodies of surface or groundwaters; Density of sanitary sewage collection, treatment and disposal systems in a geographical area; Requirements for issuance, suspension and revocation of permits; and Other factors which affect the effective operation and performance of sanitary sewage collection, treatment and disposal systems. The rules regarding required design capacity and required design volume for sanitary sewage systems shall provide that exceptions may be granted upon a showing that a system is adequate to meet actual daily water consumption.

(f) The rules of the Commission and the rules of the local board of health shall classify sanitary systems of sewage collection, treatment and disposal according to size, type of treatment and any other appropriate factors. The rules shall provide construction requirements, standards for operation and ownership requirements for each classification of sanitary systems of sewage collection, treatment and disposal in order to prevent, as far as reasonably possible, any contamination of the land, groundwater and surface waters. The Department and local health departments may impose conditions on the issuance of permits and may revoke the permits for failure of the system to satisfy the conditions, the rules or this Article. The permits shall be valid for a period prescribed by the rules and may be renewed upon a showing satisfactory to the Department or the local health department that the system is in compliance with the current rules and this Article.

"§ 130A-336. *Improvement permit required.*—(a) No person shall commence or assist in the construction, location or relocation of a residence, place of business or place of public assembly in an area not served by an approved sanitary sewage system unless an improvement permit is obtained from the local health department. This requirement shall not apply to a residence exhibited for sale or stored for later sale and intended to be located at another site after sale.

(b) The local health department shall issue an improvement permit authorizing work to proceed and the installation or repair of a sanitary sewage system when it has determined after a field investigation that the system can be installed and operated in compliance with the rules and this Article. The Department and the local health department may impose conditions on the issuance of an improvement permit.

"§ 130A-337. *Inspection; operation permit required.*—(a) No sanitary system of sewage collection, treatment and disposal shall be covered or placed into use by any person until an inspection by the local health department has determined that the system has been installed or repaired in accordance with any conditions of the improvement permit, the rules and this Article.

(b) Upon determining that the system is properly installed or repaired and that the system is capable of being operated in accordance with the conditions of the improvement permit, the rules, this Article and any conditions to be imposed in the operation permit, the local health department shall issue an operation permit authorizing the residence, place of business or place of public assembly to be occupied and for the system to be placed into use. However, if the system is limited to a single septic tank system without a pump or other appurtenances serving a single one-family dwelling, then a certificate of completion shall be issued instead of an operation permit; also, if the system is limited to a single septic tank system without a pump or other appurtenances serving a single residence other than a one-family dwelling, or serving a place of business or a place of public assembly and having a design daily flow of not more than 480 gallons, then a certificate of completion shall be issued instead of an operation permit. A certificate of completion shall be issued when the septic tank system is properly installed or repaired and is capable of being operated in accordance with the conditions of the improvement permit, the rules and this Article.

(c) Upon determination that an existing sanitary sewage system has a valid operation permit or a valid certificate of completion and is operating properly in a mobile home park, the local health department shall issue authorization in writing for a mobile home to be connected to the existing system and to be occupied. Notwithstanding G.S. 130A-336, an improvement permit is not required for the connection of a mobile home to an existing system with a valid operation permit or a valid certificate of completion in a mobile home park.

(d) No person shall occupy a residence, place of business or place of public assembly, or place a sanitary sewage system into use or reuse for a residence, place of business or place of public assembly until an operation permit or a certificate of completion has been issued or authorization has been obtained pursuant to G.S. 130A-337(c).

"§ 130A-338. *Improvement permit or authorization required before other permits to be issued.*—Where construction, location or relocation is proposed to be done upon a residence, place of business or place of public assembly, no permit required for electrical, plumbing, heating, air conditioning or other construction, location or relocation activity under any provision of general or special law shall be issued until an improvement permit has been issued under G.S. 130A-336 or authorization has been obtained under G.S. 130A-337(c).

"§ 130A-339. *Limitation on electrical service.*—No person shall allow permanent electrical service to a residence, place of business or place of public assembly upon construction, location or relocation until the official electrical inspector with jurisdiction as provided in G.S. 143-143.2 certifies to the electrical supplier that the required improvement permit and an operation permit, a certificate of completion or authorization under G.S. 130A-337(c) has been obtained. Temporary electrical service necessary for constructing a residence, place of business or place of public assembly can be provided upon compliance with G.S. 130A-338.

"§ 130A-340 to 130A-345: Reserved for future codification purposes.

"ARTICLE 12.

"Mosquito and Vector Control.

"Part 1. Mosquito and Vector Control Program.

"§ 130A-346. *Mosquito and vector control program.*—(a) The Department shall establish and administer a vector control program to protect the public health and to promote an environment suitable for habitation. A vector is a living transporter and transmitter of the causative agent of a disease. The program shall address the problems presented by vectors and other arthropods and rodents of public health significance in this State, including, but not limited to, mosquitoes, ticks, rodents, fleas and flies. The Department is authorized to engage in research, conduct investigations and surveillance, implement a vector control program and take other actions necessary to control vectors.

(b) The Commission shall adopt rules necessary to implement the program including rules for the control of vectors and other arthropods and rodents.

"§ 130A-347. *Mosquito control funds.*—Funds received by the Department for mosquito control may be used to aid mosquito control districts and other units of local government engaged in mosquito control. The Commission shall adopt rules concerning the allocation of the funds. The rules may include provisions to withhold part of the mosquito control funds for the suppression of potential or documented mosquito-borne disease outbreaks. State aid for local physical control methods such as, but not limited to, cleaning, reopening or construction of ditches, restoration of streams and construction of impoundments shall not exceed the amount of funds and the value of services and facilities provided locally except State aid may be provided up to twice the locally provided amount for physical control methods in salt marsh areas. State aid for local chemical and biological control methods such as, but not limited to, control of immature and adult mosquitoes by use of chemicals, bacteria, fungi and mosquito fish shall not exceed the amount of funds and the value of services and facilities provided locally. State aid shall not be granted with respect to each individual project until the Department finds and certifies in writing for each project that: (1) the required local share is available; (2) there is a documented mosquito problem which requires abatement; (3) a work plan describing the method and procedures to be used for abatement is appropriate; and (4) the rules of the Commission have been met.

"§ 130A-348. *Control of impounded water.*—For the protection of the public health, the Commission shall adopt rules concerning the impoundment of water. The rules shall address proper preparation of the land for inundation, maintenance of the shoreline after inundation and any other factors necessary to control mosquitoes. Persons shall obtain permits from the Department before constructing impoundments and impounding water.

"§ 130A-349. *Control of outbreaks.*—In the event of potential or documented outbreaks of vector-borne disease as determined by the Secretary, the Secretary is authorized to use all appropriate means, including the expenditure of unallocated mosquito control funds, to prevent or suppress the outbreaks.

"§ 130A-350 to 130A-351: Reserved for future codification purposes.

"Part 2. Mosquito Control Districts.

"§ 130A-352. *Creation and purpose of mosquito control districts.*—For the purpose of protecting and promoting the public health and welfare by providing for the control of mosquitoes and other arthropods of public health significance,

mosquito control districts may be created in accordance with the provisions of this Part. A mosquito control district may be comprised of one or more contiguous counties or contiguous parts of one or more counties.

"§ 130A-353. *Nature of district; procedure for forming districts.*—(a) A mosquito control district shall be a body politic and corporate and a political subdivision of the State. A mosquito control district may sue and be sued in its corporate name.

(b) If the proposed district lies wholly within a county, ten percent (10%) or more of the resident freeholders within the proposed district may petition the board of commissioners of the county in which the proposed district lies setting forth the boundaries of the district and a suggested name for the district. For the purposes of this Part, the term 'freeholders' shall mean persons holding a deed to a tract of land within the district or proposed district, and also shall mean a person who has entered into a contract to purchase a tract of land within the district or proposed district, is making payments pursuant to a contract, and will receive a deed upon completion of the contractual payments. If the county board of commissioners considers the formation of the district to be in the interest of the public health, the board shall forward the petition to the Department. If the Department considers the formation of the district to be in the interest of the public health, the Department shall notify the county board of commissioners. Upon notification, the board shall give notice of a public hearing on the question of the formation of the district by advertising the time, place and purpose of the hearing once a week for four successive weeks prior to the hearing in a newspaper either published in the county or having a general circulation in the county. The public hearing shall be presided over by the chairman of the county board of commissioners and shall be attended by a representative of the Department. The hearing may be continued as may be necessary to hear the proponents and opponents of the formation of the district. If after the hearing, the county board of commissioners deem it advisable that the district be created, the board shall submit the question of whether or not the district shall be created to the voters residing within the proposed district at an election called for that purpose. Upon determining that the district should be created and established, and prior to the submission of the question of the formation of the district to the voters of the proposed district, the county board of commissioners may determine the maximum amount of special tax to be levied for mosquito control purposes should the formation of the district be approved by the voters. In no event shall the maximum authorized levy exceed thirty-five cents (35¢) upon the one hundred dollar ($100.00) assessed valuation. If the county board of commissioners determines that the maximum amount of special tax to be levied for mosquito control purposes is to be less than thirty-five cents (35¢) on the one hundred dollar ($100.00) valuation, the maximum amount must appear on the ballot to be used by the voters on the question of the creation of the district.

(c) Prior to the election, the county board of commissioners may make minor deviations in defining the boundaries of the proposed district if: (1) the board determines that minor deviation from the boundaries described in the petition is in the interest of public health; and (2) ten percent (10%) of the resident freeholders within the revised boundaries have signed the petition proposing the creation of the district or additional resident freeholders within the revised boundaries of the proposed district sign the petition to bring the total number

of petitioners within the proposed revised boundaries to not less than ten percent (10%) of the voters therein.

(d) The county board of commissioners shall request the county board of elections to hold the election and shall pay the expense of the election. The election shall be held in accordance with the applicable provisions of Chapter 163 of the General Statutes. Notice shall be given as provided in G.S. 163-33(8).

(e) The form of the question to be stated on the ballot shall be in substantially the following words:

'☐ FOR creation of the (here insert name) Mosquito Control District and the levy of a special tax (here insert the words "not to exceed" and the maximum amount of special tax to be levied for mosquito control purposes if the county board of commissioners has determined that the maximum authorized amount is to be less than thirty-five cents (35¢) on the one hundred dollar ($100.00) assessed valuation) for mosquito control purposes.

☐ AGAINST creation of the (here insert name) Mosquito Control District and the levy of a special tax (here insert the words "not to exceed" and the maximum amount of special tax to be levied for mosquito control purposes if the county board of commissioners has determined that the maximum authorized amount is to be less than thirty-five cents (35¢) on the one hundred dollar ($100.00) assessed valuation) for mosquito control purposes.'

The affirmative and negative forms shall be printed on one ballot and the voters shall make a mark of an 'X' in one of the squares preceding the form.

(f) If a majority of the voters voting at the election vote in favor of creation of the district and the levy of the special tax, the county board of commissioners shall declare the district created and shall adopt a resolution to that effect.

(g) In the event the proposed mosquito control district shall embrace lands lying in two or more counties, the petition signed by the requisite number of resident freeholders within the proposed district shall be addressed to the Department. If the Department deems the formation of the proposed district to be in the interest of the public health, the Department shall hold public hearings within the proposed district after first giving notice of the time and place of the hearings by publication once a week for four successive weeks in a newspaper published or circulated in the proposed district. A public hearing shall be held in the courthouse of each of the counties in which any part of the proposed district is situated. After the hearing, if the Department deems the formation of the district to be in the interest of the public health, the Department shall order an election to be held upon the question of the formation of the district after first advertising the time of the election in the manner provided in subsection (d). At the request of the Commission, the county commissioners of the counties in which the proposed district lies shall request the county board of elections to hold an election on the question with substantially the same form of ballot set forth in subsection (e). Each county shall bear the expense of the election held in that county. The board of elections shall certify the results to the county commissioners and the Commission. If a majority of the votes cast favor creation of the district and the levy of the special tax, the Commission shall declare the district created and the county commissioners shall enter the certification upon the minutes of the board. Registration shall be in accordance with G.S. 163-288.2.

"§ 130A-354. *Governing bodies for mosquito control districts.*—(a) A mosquito control district shall be governed by a board of commissioners. In the case of a district lying wholly within a single county, the board shall be composed of five members, all of whom shall be residents of the district. Three of the members shall be appointed by the county board of commissioners, one for an initial term of one year, one for an initial term of two years and one for an initial term of three years. All subsequent appointments made by the county board of commissioners shall be for terms of three years. One member shall be appointed by the Secretary and one member by the Director of the Wildlife Resources Commission. These two appointees shall serve at the pleasure of the appointing authority. A vacancy shall be filled by the authority which appointed the member creating the vacancy.

(b) In the case of a district lying in two or more counties, the Secretary shall appoint one member and the Director of the Wildlife Commission shall appoint one member. The board of commissioners of each county in which any part of the district lies shall appoint one member. In the event the district lies in only two counties, the board of commissioners of the county in which a majority of the acreage of the district lies shall appoint two members, one for an initial term of one year and the other for an initial term of two years. The other county shall appoint one member for an initial term of three years. All succeeding terms of county appointees shall be for three years. A vacancy shall be filled by the authority which appointed the member creating the vacancy, and the appointees of the Secretary and the Director of the Wildlife Resources Commission shall hold office at the pleasure of the appointing authority.

(c) At its first meeting, the board shall elect a chairman, a vice-chairman, a secretary and a treasurer. The office of secretary and treasurer may be held by the same member. All official acts done by the board shall be entered in a book of minutes to be kept by the secretary. The board shall meet at least quarterly and may meet in a special meeting at any time upon call of the chairman or any two members, and upon notice of the time, place and purpose of the meeting of not less than three days. Before entering upon the discharge of their duties, each member shall take and subscribe an oath of office as follows and the oath shall be entered in the minute book:

'I, ____, do solemnly swear that I will well and truly perform my duties as a Commissioner of the ____ Mosquito Control District.

_____

Signature

Affirmed and subscribed before me this ____ day of _____ 19__.

_____

Signature of Officer Administering Oath.'

"§ 130A-355. *Corporate powers.*—A mosquito control district created in accordance with the provisions of this Part shall have and exercise through its board of commissioners the following corporate powers in addition to any incidental powers as may be necessary in order to discharge its corporate functions:

(1) To levy ad valorem taxes upon all the taxable property within the district at a rate not to exceed thirty-five cents (35¢) upon the adjusted one hundred dollar ($100.00) assessed valuation, except as provided in subdivision (a) of this subsection.

a. Where a mosquito control district lies solely within a single county and includes the entire county, the county board of commissioners may levy and determine the rate of ad valorem tax to be levied at a rate not to exceed thirty-five cents (35¢) upon the adjusted one hundred dollar ($100.00) assessed valuation. Where a mosquito control district lies wholly within a single county and the maximum authorized special tax approved by the voters at the time of voting on the creation of the district was less than thirty-five cents (35¢) on the one hundred dollar assessed valuation, the ad valorem tax levy shall not exceed the lesser amount.

b. In the case of a district lying wholly within a single county, the valuations assessed by the county tax authorities shall be used by the mosquito control district or the county board of commissioners as the basis for its tax assessment. The mosquito control district or the county board of commissioners shall certify its tax rate to the county tax collector or supervisor in time to have the rate and the amount of tax due upon the valuation entered upon the official county tax receipts and stubs or duplicates. The county tax collector shall collect the taxes at the same time as county taxes are collected and shall deposit the receipts to the credit of the mosquito control district in a depository or depositories designated by the governing board of the district.

c. In the case of a district lying in two or more counties, the commissioners of the mosquito control district shall horizontally equalize the assessed valuations of the property in all counties in which the district lies by adjusting the ratio of assessed valuation in the counties to the true values of the taxable property in the counties. From the adjusted and equalized valuations, any county board of commissioners may appeal to the Department of Revenue using the procedures set forth in Subchapter II of Chapter 105 of the General Statutes.

d. The board of commissioners of the mosquito control district shall levy a tax based upon the equalized assessed valuations and shall certify the amount of the levy against each taxpayer to the appropriate county tax collector or supervisor in time for the amount of the mosquito control district tax to be entered upon the county tax receipts and stubs or duplicates. The county tax collectors shall collect the tax and deposit the receipts to the credit of the mosquito control district in a depository or depositories designated by the commissioners of the district.

e. The taxes levied according to this Part shall become due; shall be subject to the same discounts, penalties and interest; and shall have the same remedies for the collection and refund of the taxes as provided for county and municipal ad valorem taxation by Chapter 310 of the Session Laws of 1939 as amended. These taxes shall constitute a lien to the same extent and with the same force and effect as county and municipal ad valorem taxes and shall have equal priority with those taxes;

(2) To accept gifts or endowments and to receive federal and State grants-in-aid. All money or property acquired under this section or any other source, shall be deposited in a separate fund to be used solely for the purpose of carrying out the provisions of this Part. The deposited funds shall be withdrawn by warrants

signed by the chairperson of the governing board of the district and countersigned by the secretary;

(3) To take all necessary and proper steps to prevent the breeding of mosquitoes and other arthropods of public health significance within the district, and to destroy adult mosquitoes and other arthropods of public health significance found within the district;

(4) To conduct arthropod control measures in cooperation with individuals, firms and corporations, and federal, State and local governmental agencies;

(5) To enter all places both publicly and privately owned within the district to inspect, survey and treat with proper means all places where mosquitoes or other arthropods of public health significance are breeding and to take other actions as may be necessary;

(6) To acquire by purchase, condemnation or otherwise, and to hold real and personal property, easements, rights-of-way or other property necessary or convenient for accomplishing the purpose of this Part. Any land which has been acquired by the board and improved by drainage, filling, diking or other treatment, and other real property held by the board may be sold or leased through competitive bidding. All condemnation proceedings are to be in accordance with the provisions of Chapter 40A of the General Statutes;

(7) To employ necessary personnel; fix salaries; purchase equipment, supplies and materials; make contracts; rent office or storage space; and perform other administrative functions necessary for the purpose of carrying out this Part;

(8) To borrow money in anticipation of tax collection and to execute and deliver its notes or bonds. Money shall be borrowed in gross amounts not to exceed the anticipated tax receipts for the fiscal year;

(9) To reimburse members and employees of the board for actual expenditures incurred in authorized travel; and

(10) To employ a district superintendent who is an engineer, entomologist or otherwise qualified as an arthropod control specialist. The professional qualifications of the superintendent must be approved by the Secretary.

"§ 130A-356. *Adoption of plan of operation.*—(a) At least 60 days prior to the initiation of operations, the governing board of each mosquito control district must submit to the Secretary, a plan of procedure and operation in a form and manner prescribed by the Secretary. The Secretary shall have authority to approve, modify or take other appropriate action in regard to the plans. No contract may be entered into, program commenced or work begun prior to the approval of the plan by the Secretary.

(b) At least 60 days prior to the expiration of each fiscal year, the governing board of each mosquito control district must submit to the Secretary a plan of procedure and operation for the next fiscal year in a form and manner prescribed by the Secretary. The Secretary shall have authority to approve, modify or take other appropriate action in regard to the plans. No contract may be entered into, program commenced or work begun or continued prior to the approval of the plan by the Secretary.

No person shall disturb the body at the scene of such a death until authorized by the medical examiner unless in the unavailability of the medical examiner it is determined by the appropriate law enforcement agency that the presence of the body at the scene would risk the integrity of the body or provide a hazard to the safety of others. For the limited purposes of this Part, expression of opinion that death has occurred may be made by a nurse, an emergency medical technician or any other competent person in the absence of a physician.

(b) The discovery of anatomical material suspected of being part of a human body shall be reported to the medical examiner of the county in which the material is found.

"§ 130A-384. *Notification concerning out-of-state body.*—When a body is brought into this State for disposal and there is reason to believe either that the death was not investigated properly or that there is not an adequate certificate of death, the body shall be reported to a medical examiner in the county where the body resides or to the Chief Medical Examiner. These deaths may be investigated by the same procedure as deaths occurring in this State under G.S. 130A-383.

The Chief Medical Examiner or the county medical examiner is authorized to inspect and copy the medical records of the decedent whose death is under investigation. The Chief Medical Examiner shall provide directions as to the nature, character and extent of an investigation and appropriate forms for the required reports. The facilities of the central and district offices and their staff services

shall be available to the medical examiners and designated pathologists in their investigations.

(b) The medical examiner shall complete a certificate of death, stating the name of the disease which in his opinion caused death. If the death was from external causes, the medical examiner shall state on the certificate of death the means of death, and whether, in the medical examiner's opinion, the manner of death was accident, suicide, homicide or undetermined. The medical examiner shall also furnish any information as may be required by the State Registrar of Vital Statistics in order to properly classify the death.

(c) The Chief Medical Examiner shall have authority to amend a medical examiner death certificate.

However, if the deceased is a resident of the county in which the death occurred, that county shall pay the fee. The fee shall be in an amount determined reasonable and appropriate by the Secretary, but shall not exceed fifty dollars ($50.00).

"§ 130A-388. *Medical examiner's permission necessary before embalming, burial and cremation.*—(a) No person knowing or having reason to know that a death may be under the jurisdiction of the medical examiner pursuant to G.S. 130A-383 or G.S. 130A-384, shall embalm, bury or cremate the body without the permission of the medical examiner.

(b) A dead body shall not be cremated or buried at sea unless a medical examiner certifies that he has inquired into the cause and the manner of death and has the opinion that no further examination is necessary. This subsection shall not apply to deaths occurring less than 24 hours after birth or to deaths of patients resulting only from natural disease and occurring in a licensed hospital unless the death falls within the jurisdiction of the medical examiner under G.S. 130A-383 or G.S. 130A-384. The Commission is authorized to adopt rules creating additional exceptions to this subsection. For making this certification, the medical examiner shall be entitled to a fee in an amount determined reasonable and appropriate by the Secretary, not to exceed fifty dollars ($50.00), to be paid by the applicant.

"§ 130A-389. *Autopsies.*—(a) If, in the opinion of the medical examiner investigating the case or of the Chief Medical Examiner, it is advisable and in the public interest that an autopsy or other study be made; or, if an autopsy or other study is requested by the district attorney of the county or by any superior court judge, an autopsy or other study shall be made by the Chief Medical Examiner or by a competent pathologist designated by the Chief Medical Examiner. A complete autopsy report of findings and interpretations, prepared on forms designated for the purpose, shall be submitted promptly to the Chief Medical Examiner. Copies of the report shall be furnished the authorizing medical examiner, district attorney or superior court judge. A copy of the report shall be furnished to other persons upon request. A fee for the autopsy or other study shall be paid by the State. However, if the deceased is a

resident of the county in which the death occurred, that county shall pay the fee. The fee shall be in an amount determined reasonable and appropriate by the Secretary, but shall not exceed four hundred dollars ($400.00).

(b) In deaths where the Chief Medical Examiner and the medical examiner investigating the case do not deem it advisable and in the public interest that an autopsy be performed, but the next-of-kin of the deceased requests that an autopsy be performed, the Chief Medical Examiner or a designated pathologist may perform the autopsy and the cost shall be paid by the next-of-kin.

(c) When the next-of-kin of a decedent whose death does not fall under G.S. 130A-383 or G.S. 130A-384 requests that an autopsy be performed, the Chief Medical Examiner or a designated pathologist may perform that autopsy and the cost shall be paid by the next-of-kin.

(d) The report of autopsies performed pursuant to subsections (b) and (c) shall be a part of the decedents' medical records and therefore not public records open to inspection.

"§ 130A-390. *Exhumations.*—(a) In any case of death described in G.S. 130A-383 or G.S. 130A-384 where the body is buried without investigation by a medical examiner as to the cause and manner of death or where sufficient cause develops for further investigation after a body is buried as determined by a county medical examiner or the Chief Medical Examiner, the Chief Medical Examiner shall authorize an investigation and send a report of the investigation with recommendations to the appropriate district attorney. The district attorney may forward the report to the superior court judge and petition for disinterment. The judge may order that the body be exhumed and that an autopsy be performed by the Chief Medical Examiner. A report of the autopsy and other pathological studies shall be delivered to the judge. The cost of the exhumation, autopsy, transportation and disposition of the body shall be paid by the State. However, if the deceased is a resident of the county in which death occurred, that county shall pay the cost.

(b) Any person may petition a judge of the superior court for an order of exhumation. Upon showing of sufficient cause, the judge may order the body exhumed. The cost incurred shall be assigned to the petitioner.

(c) Without applying for a judicial exhumation order, the next-of-kin of a deceased person may have the remains exhumed, examined by the Chief Medical Examiner and redisposed. The cost shall be paid by the next-of-kin.

"§ 130A-391. *Corneal tissue removal.*—(a) A medical examiner or a regional pathologist may provide corneal tissue from a decedent under the jurisdiction of the medical examiner or the regional pathologist to the North Carolina Eye and Human Tissue Bank or other donee specified in G.S. 130A-405 under the following conditions:

(1) a. Consent from next-of-kin is obtained in accordance with G.S. 130A-404; or

b. A reasonable attempt to determine next-of-kin has failed; or

c. The medical examiner or regional pathologist believes that there are no next-of-kin to be contacted for consent; and

(2) The removal of the corneal tissue for transplant will not interfere with any subsequent course of investigation or autopsy or alter the postmortem facial appearance.

(b) If the requirements of subsection (a) have been met, neither the medical examiner, the regional pathologist, nor the donee shall be liable in any civil

action brought by the next-of-kin on the contention that authorization of next-of-kin was required to remove the corneal tissue.

"§ 130A-392. *Reports and records as evidence.*—Reports of investigations made by a county medical examiner or by the Chief Medical Examiner and toxicology and autopsy reports made pursuant to this Part may be received as evidence in any court or other proceeding. Copies of records, photographs, laboratory findings and records in the Office of the Chief Medical Examiner, any county medical examiner or designated pathologist, when duly certified, shall have the same evidentiary value as the original.

"§ 130A-393. *Rules.*—The Commission shall adopt rules to carry out the intent and purpose of this Part.

"§ 130A-394. *Coroner to hold inquests.*—In every case requiring the medical examiner to be notified, as provided by G.S. 130A-198, the coroner shall be notified by the medical examiner, and the coroner shall hold an inquest and preliminary hearing in those instances as required in G.S. 152-7. The coroner shall file a written report of his investigation with the district attorney of the superior court and the medical examiner. The body shall remain in the custody and control of the medical examiner. However, if a county has abolished the office of coroner pursuant to the provisions of Chapter 152A at a time when Chapter 152A was in effect in the county: (i) The provisions of this Article relating to coroner shall not be applicable to the county, (ii) the provisions of G.S. 152A-9 shall remain in full force and effect in the county, and (iii) Chapter 152 of the General Statutes shall not be applicable in the county.

The examination shall be of a scope and nature necessary to promote knowledge of the human organism and its disorders.

"§ 130A-400. *Written consent for postmortem examinations required.*—An administrator of an institution shall not authorize a postmortem examination described in G.S. 130A-399 without first securing the written consent of the deceased person's spouse, one of the next-of-kin or nearest known relative, or other person charged by law with the duty of burial, in the order named and as known. The document, which may be a card designed to be carried on the individual, must be signed by the donor in the presence of two witnesses who must sign the document in the donor's presence. If the donor cannot sign, the document may be signed for the donor at the direction and in the presence of the donor and in the presence of two witnesses who must sign the document in the donor's presence. Delivery of the document of gift during the donor's lifetime is not necessary to make the gift valid.

(c) The gift may be made to a specified donee or without specifying a donee. If the latter, the gift may be accepted by the attending physician as donee upon or following death. AN ACT RELATING TO THE PREVENTION OF CHILD ABUSE AND NEGLECT AND ESTABLISHING A CHILDREN'S TRUST FUND FOR THAT PURPOSE.

Whereas, the large number of confirmed cases of child abuse and neglect places an enormous burden upon the citizens and government of North Carolina because victimized and maltreated children often bear the scars of abuse and neglect for many years and even throughout their lives and because siblings, parents and entire families suffer from the disruption and turmoil which accompany incidents of child abuse and neglect; and

Whereas, the taxpaying public labors under the heavy economic burden of paying for the destructive effects of child maltreatment including subsequent juvenile delinquency, educational problems, adult criminal activity, mental illness, and poor parenting behavior; and

Whereas, the General Assembly recognizes that child abuse and neglect is a problem that should be approached through prevention efforts and that society presently possesses the ability to prevent many of these problems before the suffering and social costs begin to mount; Now, therefore,

AN ACT TO AUTHORIZE COUNTIES TO LEVY ONE-HALF PERCENT SALES AND USE TAXES AND TO DESIGNATE HOW PART OF THE REVENUE FROM THESE TAXES SHALL BE USED, TO ALLOW CERTAIN CITIES TO SPEND SALES TAX REVENUE ON HOUSING, AND TO AUTHORIZE VARIOUS TRANSIENT OCCUPANCY TAXES.

The General Assembly of North Carolina enacts:

Part I. Local Sales and Use Taxes.

Section 1. Subchapter VIII of Chapter 105 of the General Statutes is amended by adding two new Articles to read:

"Article 40.

"Supplemental Local Government Sales and Use Taxes.

"§ 105-480. *Short title.*—This Article shall be known as the Supplemental Local Government Sales and Use Tax Act.

"§ 105-481. *Purpose and intent.*—It is the purpose of this Article to afford the counties and cities of this State an opportunity to obtain an added source of revenue with which to meet their growing financial needs, and to reduce their reliance on other revenues, such as the property tax, by providing all counties of the State that are subject to this Article with authority to levy one-half percent (1/2%) sales and use taxes.

"§ 105-482. *Limitations.*—This Article applies only to counties that levy one percent (1%) sales and use taxes under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws and do not levy one-half percent (1/2%) local sales and use taxes under Article 41 of this Chapter.

"§ 105-483. *Levy and collection of additional taxes.*—Any county subject to this Article may levy one-half percent (1/2%) local sales and use taxes in addition to any other State and local sales and use taxes levied pursuant to law. Except as provided in this Article, the adoption, levy, collection, distribution, administration, and repeal of these additional taxes shall be in accordance with Article 39 of this Chapter. In applying the provisions of Article 39 of this Chapter to this Article, references to 'this Article' mean Article 40 of Chapter 105. All taxes levied pursuant to this Article shall be collected by the Secretary and may not be collected by a taxing county. The exemption for building materials in G.S. 105-468.1 does not apply to taxes levied under this Article.

"§ 105-484. *Form of ballot.*—(a) The form of the question to be presented on a ballot for a special election concerning the additional taxes authorized by this

Article shall be: 'FOR additional one-half percent (1/2%) local sales and use taxes' or 'AGAINST additional one-half percent (1/2%) local sales and use taxes.'

(b) The form of the question to be presented on a ballot for a special election concerning the repeal of any additional taxes levied pursuant to this Article shall be: 'FOR repeal of the additional one-half percent (1/2%) local sales and use taxes' or 'AGAINST repeal of the additional one-half percent (1/2%) local sales and use taxes.'

"§ 105-485. *Retail collection bracket.*—The following bracket applies to collections by retailers in a county that levies additional sales and use taxes under this Article:

(1) No amount on sales of less than 10¢;

(2) 1¢ on sales of 10¢ to 25¢;

(3) 2¢ on sales of 26¢ to 53¢;

(4) 3¢ on sales of 54¢ to 75¢;

(5) 4¢ on sales of 76¢ to 95¢;

(6) 5¢ on sales of 96¢ to $1.22; and

(7) Sales of over $1.22 - straight four and one-half percent (4-1/2%) with major fractions governing.

"§ 105-486. *Distribution and use of additional taxes.*—The Secretary shall, on a quarterly basis, distribute the net proceeds of the additional one-half percent (1/2%) sales and use taxes levied under this Article to the taxing counties on a per capita basis according to the most recent annual population estimates certified to the Secretary by the State Budget Officer. The amount distributed to a taxing county shall then be divided among the county and its municipalities in accordance with the method by which the one percent (1%) sales and use taxes levied in that county pursuant to Article 39 of this Chapter or Chapter 1096 of the 1967 Session Laws are distributed. If any taxes levied under this Article by a county have not been collected in that county for a full quarter because of the levy or repeal of the taxes, the Secretary shall distribute a pro rata share to that county for that quarter based on the number of months the taxes were collected in that county during the quarter.

"§ 105-487. *Use of additional tax revenue by counties and municipalities.*—(a) Except as provided in subsection (c), forty percent (40%) of the revenue received by a county from additional one-half percent (1/2%) sales and use taxes levied under this Article during the first five fiscal years in which the additional taxes are in effect in the county and thirty percent (30%) of the revenue received by a county from these taxes in the second five fiscal years in which the taxes are in effect in the county may be used by the county only for public school capital outlay purposes or to retire any indebtedness incurred by the county for these purposes.

(b) Except as provided in subsection (c), forty percent (40%) of the revenue received by a municipality from additional one-half percent (1/2%) sales and use taxes levied under this Article during the first five fiscal years in which the additional taxes are in effect in the municipality and thirty percent (30%) of the revenue received by a municipality from these taxes in the second five fiscal years in which the taxes are in effect in the municipality may be used by the municipality only for water and sewage capital outlay purposes or to retire any indebtedness incurred by the municipality for these purposes.

(c) The Local Government Commission may, upon petition by a county or municipality, authorize a county or municipality to use part or all its tax revenue, otherwise required by subsection (a) or (b) to be used for public schools or water and sewage capital needs, for any lawful purpose. The petition shall be in the form prescribed by the Local Government Commission and shall demonstrate that the county or municipality can provide for its public school or water and sewage capital needs without restricting the use of part or all of the designated amount of the additional one-half percent (1/2%) sales and use tax revenue for these purposes.

In making its decision, the Local Government Commission may consider information from sources other than the petition. The Commission shall issue a written decision on each petition stating the findings of the Commission concerning the public school or water and sewage capital needs of the petitioning county or municipality and the percentage of revenue otherwise restricted by subsection (a) or (b) that may be used by the petitioning county or municipality for any lawful purpose.

Decisions of the Commission allowing counties or municipalities to use a percentage of their tax revenue that would otherwise be restricted under subsection (a) or (b) for any lawful purpose are final and shall continue in effect until the restrictions imposed by those subsections expire. A county or municipality whose petition is denied, in whole or in part, by the Commission may subsequently submit a new petition to the Commission.

(d) For purposes of determining the number of fiscal years in which one-half percent (1/2%) sales and use taxes levied under this Article have been in effect in a county or municipality, these taxes are considered to be in effect only from the effective date of the levy of these taxes and are considered to be in effect for a full fiscal year during the first year in which these taxes were in effect, regardless of the number of months in that year in which the taxes were actually in effect.

(e) A county or municipality may expend part or all of the revenue restricted for public school or water and sewage capital needs pursuant to subsections (a) and (b) in the fiscal year in which the revenue is received, or the county or municipality may place part or all of this revenue in a capital reserve fund and shall specifically identify this revenue in accordance with Chapter 159 of the General Statutes.

"Article 41.

"Alternative Local Government Sales and Use Taxes.

"§ 105-488. *Short title.*—This Article shall be known as the 'Alternative Local Government Sales and Use Tax Act.'

"§ 105-489. *Limitations.*—This Article applies only to counties that do not levy one percent (1%) sales and use taxes under Article 39 of this Chapter or under Chapter 1096 of the 1967 Session Laws.

"§ 105-490. *Levy and collection of taxes.*—Any county subject to this Article may levy one-half percent (1/2%) local sales and use taxes pursuant to the procedures established in G.S. 105-465 and G.S. 105-466 for the levy of one percent (1%) sales and use taxes authorized by Article 39 of this Chapter. Except as provided in this Article, the provisions of Article 39 of this Chapter apply to any one-half percent (1/2%) local sales and use taxes levied under this Article. In applying the provisions of Article 39 of this Chapter to this Article, references to 'this Article' mean Article 41 of Chapter 105. All taxes levied

pursuant to this Article shall be collected by the Secretary and may not be collected by a taxing county. The exemption for building materials in G.S. 105-468.1 does not apply to taxes levied under this Article.

"§ 105-491. *Form of ballot.*—(a) The form of the question to be presented on a ballot for a special election concerning the taxes authorized by this Article shall be: 'FOR one-half percent (1/2%) local sales and use taxes' or 'AGAINST one-half percent (1/2%) local sales and use taxes.'

(b) The form of the question to be presented on a ballot for a special election concerning the repeal of any taxes levied pursuant to this Article shall be: 'FOR repeal of the one-half percent (1/2%) local sales and use taxes' or 'AGAINST repeal of the one-half percent (1/2%) local sales and use taxes.'

"§ 105-492. *Retail collection bracket.*—The following bracket applies to collections by retailers in a county that levies sales and use taxes under this Article:

(1) No amount on sales of less than 10¢;

(2) 1¢ on sales of 10¢ to 30¢;

(3) 2¢ on sales of 31¢ to 65¢;

(4) 3¢ on sales of 66¢ to 95¢;

(5) 4¢ on sales of 96¢ to $1.28; and

(6) Sales of over $1.28 - straight three and one-half percent (3-1/2%) with major fractions governing.

"§ 105-493. *Distribution and use of taxes.*—The Secretary shall, on a quarterly basis, distribute the net proceeds of any one-half percent (1/2%) sales and use taxes levied under this Article in accordance with G.S. 105-486. For purposes of the distribution under G.S. 105-486, a county that levies one-half percent (1/2%) sales and use taxes under this Article is considered a taxing county under that section. To make the distribution required by G.S. 105-486 and this section, the Secretary shall add the net proceeds of local sales and use taxes levied under Article 40 of this Chapter and under this Article, and shall then distribute this amount to the taxing counties on a per capita basis as provided in G.S. 105-486. The amount distributed to a county that levies one-half percent (1/2%) sales and use taxes under this Article shall be divided among the county and its municipalities on either a per capita or an ad valorem tax basis, as designated by the board of county commissioners in a resolution adopted pursuant to G.S. 105-472. If any taxes levied under this Article by a county have not been collected in that county for a full quarter because of the levy or repeal of the taxes, the Secretary shall distribute a pro rata share to that county for that quarter based on the number of months the taxes were collected in that county during the quarter.

"§ 105-494. *Use of additional tax revenue by counties and municipalities.*—Sales and use tax revenue received by a county or municipality from one-half percent (1/2%) sales and use taxes levied under this Article are subject to the restrictions imposed by G.S. 105-487 on revenue received by counties and municipalities from one-half percent (1/2%) sales and use taxes levied under that Article."

Sec. 2. G.S. 159-6 is amended by adding a new subsection to read:

"(e) In addition to any other fees authorized by this section, the Commission may charge and collect fees for services rendered and expenses incurred in reviewing and processing petitions of counties or cities concerning use of local sales and use tax revenue in accordance with G.S. 105-487(c)."

Part II. Repeal of Authority to Issue Clean Water Bonds.

Sec. 3. (a) Sections 4 and 5 of Chapter 993, Session Laws of 1981 are repealed, and no bonds may be issued under that act.

(b) Section 54 of Chapter 1282, Session Laws of 1981 (Regular Session 1982) is repealed.

Part III. Sales Tax Revenue for Housing.

Sec. 4. G.S. 160A-456(e) is rewritten to read:

Otherwise, a city council of any city may not expend State or local tax revenue pursuant to this section for a purpose not expressly authorized by G.S. 160A-209 unless the issue is first submitted to a vote of the people as provided therein. The most recent annual estimates of population certified by the State Budget Officer shall be used to determine the population of a city under this subsection."

Part IV. Mecklenburg Occupancy Tax.

Sec. 5. It is the purpose and intent of this Part to provide Mecklenburg County the authority to levy a transient occupancy tax as hereinafter set forth.

Sec. 6. (a) Mecklenburg County is hereby authorized to impose and levy a tax not to exceed three percent (3%) of the gross receipts of any person, firm, corporation or association derived from the rental of any sleeping room or lodging furnished in any hotel, motel, or inn located in Mecklenburg County and subject to the three percent (3%) sales tax levied by the State of North Carolina. The tax shall not apply, however, to any room or rooms, lodging or accommodations supplied to the same person for a period of 90 continuous days or more. The tax shall also not apply to sleeping rooms or lodgings furnished by charitable, educational, benevolent or religious institutions or organizations not operated for profit.

(b) Before adopting or amending an ordinance imposing and levying such a tax, the board of commissioners shall hold a public hearing on the ordinance or amendment. The Board shall cause notice of the hearing to be published not less than 10 days nor more than 25 days before the date fixed for the hearing.

Sec. 7. (a) Such tax, if levied, shall be due and payable to the county in monthly installments on or before the 15th of the month next succeeding the month in which the tax accrues. Every person, firm, corporation or association liable for the tax imposed pursuant to this Part shall, on or before the 15th day of each month, prepare and render a return on a form prescribed by the county, a true and correct statement showing the total gross receipts derived in the preceding month from rentals upon which the tax is levied. Collection of the tax, and liability therefor, shall begin and continue only on and after the first day of the calendar month set by the board of commissioners in the ordinance levying the tax.

(b) Any person, firm, corporation or association who fails or refuses to file the return required by this Part shall pay a penalty of ten dollars ($10.00) for each day's omission.

(c) In case of failure or refusal to file the return or pay the tax for a period of 30 days after the time required for filing such return or for paying such tax,

there shall be an additional tax, as a penalty, of five percent (5%) of the tax due, in addition to the penalty prescribed in subsection (b) hereof, with an additional tax of five percent (5%) for each additional month or fraction thereof until the occupancy tax is paid.

(d) Any person who willfully attempts in any manner to evade the occupancy tax, if levied on any person required to pay the occupancy tax, or to make a return and who willfully fails to pay such tax or make and file such return, shall, in addition to the penalties provided by law be guilty of a misdemeanor, and shall be punished by a fine not to exceed one thousand dollars ($1,000) or by imprisonment not to exceed six months, or by both such fine and imprisonment.

Sec. 8. Mecklenburg County shall allocate the net proceeds collected as follows:

(a) Mecklenburg County shall retain from the gross proceeds of the tax collected an amount sufficient to pay its direct costs for administrative and collection expenses. "Net proceeds" shall mean gross proceeds less direct costs for administrative and collection expenses not to exceed three percent (3%).

(b) At least fifty percent (50%) of the first one million dollars ($1,000,000) of net proceeds from the tax in a fiscal year, at least thirty-five percent (35%) of the second one million dollars ($1,000,000) of net proceeds from the tax in a fiscal year, and at least twenty-five percent (25%) of the net proceeds in excess of two million dollars ($2,000,000) from the tax in the fiscal year shall be allocated for activities and programs aiding and encouraging convention and visitor promotion. These amounts shall be transferred by Mecklenburg County to the City of Charlotte for allocation by the City of Charlotte for activities and programs aiding and encouraging convention and visitor promotion, and in so doing, the City of Charlotte shall be acting as agent for Mecklenburg County.

(c) The amount of net proceeds remaining after allocation of the sums for activities and programs aiding and encouraging convention and visitor promotion shall be allocated by Mecklenburg County among itself and each municipality in Mecklenburg County (presently Charlotte, Cornelius, Davidson, Huntersville, Matthews, Mint Hill and Pineville) using the following formula: the ratios of expenditures by the county and each municipality for acquiring, constructing, financing (including debt service), maintaining and operating convention centers, civic centers, performing arts centers, coliseums, auditoriums, and museums (including off-street parking facilities for use in conjunction therewith) and for visitor-related programs and activities including, but not limited to, museums and other art or cultural programs, events, or festivals as such bears to total county and municipal expenditures for such purposes. Such ratios shall be computed annually on the basis of the prior fiscal years's expenditures. As to the municipalities, the maximum amount payable by Mecklenburg County to each municipality shall be the net proceeds collected from hotels, motels and inns located within the corporate limits of said municipality.

(d) The proceeds distributed and retained pursuant to subsection (c) may be expended by Mecklenburg County and the municipalities only for acquiring, constructing, financing (including debt service), maintaining and operating convention centers, civic centers, performing arts centers, coliseums, auditoriums, and museums (including off-street parking facilities for use in conjunction therewith) and for visitor-related programs and activities including,

but not limited to, museums and other art or cultural programs, events, or festivals.

(e) Mecklenburg County shall distribute the amounts due each municipality by the 20th day of the month in which the tax is collected.

Sec. 9. Mecklenburg County and each municipality located within Mecklenburg County are hereby each individually authorized to contract with any person, agency, association or nonprofit corporation to undertake or carry out any of the activities and programs for which the tax proceeds levied by this act may be expended. Any contract entered into pursuant to this section shall contain provisions requiring an annual financial audit of any funds expended and a performance audit of contractual obligations.

Part V. Haywood Occupancy Tax.

Sec. 10. Levy of Tax. (a) The Haywood County Board of Commissioners may by resolution, after not less than 10 days' public notice and after a public hearing held pursuant thereto, levy a room occupancy and tourism development tax.

Sec. 11. Occupancy Tax. The county room occupancy and tourism development tax that may be levied under this Part shall be two percent (2%) of the gross receipts derived from the rental of any room, lodging, or similar accommodation furnished by any hotel, motel, inn, tourist camp, or other similar place within the county now subject to the three percent (3%) sales tax imposed by the State under G.S. 105-164.4(3). This tax is in addition to any local sales tax. This tax does not apply to accommodations furnished by nonprofit charitable, educational, benevolent, or religious organizations.

Sec. 12. Administration of Tax. Every person, firm, corporation, or association liable for the tax shall, on or before the 15th day of each month, prepare and render a return on a form prescribed by the county. Sec. 13. Collection of Tax. Every operator of a business subject to the tax levied pursuant to this Part shall, on and after the effective date of the levy of the tax, collect the two percent (2%) room occupancy tax.

This tax shall be collected as part of the charge for the furnishing of any taxable accommodations. The tax shall be stated and charged separately from the sales records, and shall be paid by the purchaser to the operator of the business as trustee for and on account of Haywood County. It is the intent of this Part that the room occupancy tax levied by Haywood County shall be added to the sales price and that the tax shall be passed on to the purchaser instead of being borne by the operator of the business. The county shall design, print, and furnish to all appropriate businesses in the county the necessary forms for filing returns and instructions to ensure the full collection of the tax.

Sec. 14. Disposition of Taxes Collected. no repeal of taxes levied under this Part shall be effective until the end of the fiscal year in which the repeal resolution was adopted.

(b) No liability for any tax levied under this Part that attached prior to the date on which a levy is repealed is discharged as a result of the repeal, and no right to a refund of a tax that accrued prior to the effective date on which a levy is repealed may be denied as a result of the repeal.

The tax shall be stated and charged separately from the sales records, and shall be paid by the purchaser to the operator of the business as trustee for and on account of Buncombe County. The room occupancy tax levied pursuant to this Part shall be added to the sales price and shall be passed on to the purchaser instead of being borne by the operator of the business. The advisory board shall consist of not less than 12 members, and shall include, insofar as possible, judges, district attorneys, attorneys, social workers, law enforcement officers, probation officers, and other interested persons. The advisory board shall meet on a regular basis and advise the community penalties program.

"§ 143B-506. *Limitation on funds.*—Funds provided for use under the provisions of this act shall not be used for the operating costs, construction, or any other costs associated with local jail confinement.

"§ 143B-507. *Evaluation.*—The Secretary shall evaluate each community penalties program on an annual basis to determine the degree to which the prison commitments have been reduced or have kept from increasing as a result of the community penalties program. H. B. 517 CHAPTER 913

AN ACT TO REVISE THE STATUTES RELATING TO THE STATE AUDITOR.

The General Assembly of North Carolina enacts:

Section 1. Article 5 of Chapter 147 is repealed except for G.S. 147-62, 63 and 64 which are recodified as provided herein.

Sec. 2. Chapter 147 of the General Statutes is amended by adding a new Article 5A to read:

"ARTICLE 5A.

"Auditor.

"§ 147-64.1. *Auditor's salary; office location.*—The salary of the State Auditor shall be the same as for superior court judges as set by the General Assembly in the Budget Appropriations Act. The Auditor's office shall be in the City of Raleigh.

"§ 147-64.2. *Legislative policy and intent.*—The General Assembly is ultimately responsible for authorizing the expenditure of public moneys, designating the sources from which moneys may be collected, and shaping the administrative structure to perform the work of government throughout the State, and is held finally accountable for how the funds are spent and what is

accomplished with them. The Legislature should, therefore, provide the basic direction for audits of State agencies.

In the interest of reducing audit overlap and expense at all levels of government, the General Assembly and the Auditor should promote, to the extent possible, coordinated nonduplicating audits of public programs and activities of all governmental levels throughout the State.

It is the intent of this Article that all State agencies, and entities supported, partially or entirely, by public funds be subject to audit under the policy guidance of the Auditor. Such audits shall be made to assist in furnishing the General Assembly, the Governor, the executive departments and agencies of the State, the governing bodies and executive departments of the political subdivisions of the State, and the public in general with an independent evaluation of public program performance.

"§ 147-64.3. *Legislative and management control system.*—It is the intent of this Article that the State Auditor shall perform or coordinate all audit functions for State government. As appropriate, all State agencies are encouraged to establish, maintain, and use effective systems of management control. The adequacy of these control systems will be reviewed by the Auditor. The Auditor may, at his discretion, use such reviews to limit his audit activity or to suggest guidelines, make recommendations, and provide assistance where necessary within the resources available.

"§ 147-64.4. *Definitions.*—The words and phrases used in this Article have the following meanings:

(1) 'Audit'. An independent review or examination of government organizations, programs, activities, and functions. The purpose of an audit is to help ensure full accountability and assist government officials and employees in carrying out their responsibilities. The elements of such an audit are:

a. Financial and compliance: to determine whether financial operations are properly conducted, whether the financial reports of an audited entity are presented fairly, and whether the entity has complied with applicable laws and regulations; and,

b. Economy and efficiency: to determine whether the entity is managing or utilizing its resources (such as personnel and property) in an economical and efficient manner and the causes of any inefficiencies or uneconomical practices, including inadequacies in laws and regulations, management information systems, administrative policies and procedures, or organizational structures; and,

c. Program results: to determine whether the desired results or benefits are being achieved, whether the objectives established by the General Assembly or other authorizing body are being met, and whether the agency has considered alternatives which might yield desired results at lower costs.

d. An audit may include all three elements or only one or two. It is not intended or desirable that every audit include all three. Economy and efficiency and program result audits should be selected when their use will meet the needs of expected users of audit results.

(2) 'Accounting system'. The total structure of records and procedures which discover, record, classify, and report information on the financial position and operating results of a governmental unit or any of its funds, balanced account groups, and organizational components.

(3) 'Federal agency'. Any department, agency, or instrumentality of the federal government and any federally owned or controlled corporation.

(4) 'State agency'. Any department, institution, board, commission, committee, division, bureau, officer, official or any other entity for which the State has oversight responsibility, including but not limited to, any university, mental or specialty hospital, community or technical college, technical institute, clerk of court.

"§ 147-64.5. *Cooperation with Joint Legislative Commission on Governmental Operations and other governmental bodies.*—(a) Joint Legislative Commission on Governmental Operations. The Auditor shall furnish copies of any and all audits requested by the Joint Legislative Commission on Governmental Operations. Accordingly, the Auditor shall, upon request by the chairmen, appear before the Commission to present findings and answer questions concerning the results of these audits. The Commission is hereby authorized to use these audit findings in its inquiries concerning the operations of State agencies and is empowered to require agency heads to advise the Commission of actions taken or to be taken on any recommendations made in the report or explain the reasons for not taking action.

(b) Requests for Auditor assistance. Committees of the General Assembly, the Governor, and other State officials may make written requests that the Auditor undertake, to the extent deemed practicable and within the resources provided, a specific audit or investigation; provide technical assistance and advice; and provide recommendations on management systems, finance, accounting, auditing, and other areas of management interest.

(c) Cooperation with other governmental bodies. The Auditor shall cooperate, act, and function with other audit or evaluation organizations in the State, with appropriate councils or committees of other states, with governing bodies of the political subdivisions of the State, and with federal agencies in an effort to maximize the extent of intergovernmental audit coordination and thereby avoid unnecessary duplication and expense of audit effort. Nothing in this Article is intended nor shall it be construed as giving the Auditor control over the internal auditors of any agency.

"§ 147-64.6. *Duties and responsibilities.*—(a) It is the policy of the General Assembly to provide for the auditing of State agencies by the impartial, independent State Auditor.

(b) The duties of the Auditor are independently to examine into and make findings of fact on whether State agencies:

(1) Have established adequate operating and administrative procedures and practices; systems of accounting, reporting and auditing; and other necessary elements of legislative or management control.

(2) Are providing financial and other reports which disclose fairly, consistently, fully, and promptly all information needed to show the nature and scope of programs and activities and have established bases for evaluating the results of such programs and operations.

(3) Are promptly collecting, depositing, and properly accounting for all revenues and receipts arising from their activities.

(4) Are conducting programs and activities and expending funds made available in a faithful, efficient, and economical manner in compliance with and in furtherance of applicable laws and regulations of the State, and, if applicable, federal law and regulation.

(5) Are determining that the authorized activities or programs effectively serve the intent and purpose of the General Assembly and, if applicable, federal law and regulation.

(c) The Auditor shall be responsible for the following acts and activities:

(1) Audits made or caused to be made by the Auditor shall be conducted in accordance with generally accepted auditing standards as prescribed by the American Institute of Certified Public Accountants, the United States General Accounting Office, or other professionally recognized accounting standards-setting bodies.

(2) Financial and compliance audits may be made at the discretion of the Auditor without advance notice to the organization being audited. Audits of economy and efficiency and program results shall be discussed in advance with the prospective auditee unless an unannounced visit is essential to the audit.

(3) The Auditor, on his own initiative and as often as he deems necessary, or as requested by the Governor or the General Assembly, shall, to the extent deemed practicable and consistent with his overall responsibility as contained in this act, make or cause to be made audits of all or any part of the activities of the State agencies.

(4) The Auditor, at his own discretion, may, in selecting audit areas and in evaluating current audit activity, consider and utilize, in whole or in part, the relevant audit coverage and applicable reports of the audit staffs of the various State agencies, independent contractors, and federal agencies. He shall coordinate, to the extent deemed practicable, the auditing conducted within the State to meet the needs of all governmental bodies.

(5) The Auditor is authorized to contract with federal audit agencies, or any governmental agency, on a cost reimbursable basis, for the Auditor to perform audits of federal grants and programs administered by the State departments and institutions in accordance with agreements negotiated between the Auditor and the contracting federal audit agencies or any governmental agency. In instances where the grantee State agency shall subgrant these federal funds to local governments, regional councils of government and other local groups or private or semiprivate institutions or agencies, the Auditor shall have the authority to examine the books and records of these subgrantees to the extent necessary to determine eligibility and proper use in accordance with State and federal laws and regulations.

The Auditor shall charge and collect from the contracting federal audit agencies, or any governmental agencies, the actual cost of all the audits of the grants and programs contracted by him to do. Amounts collected under these arrangements shall be deposited in the State Treasury and be budgeted in the Department of State Auditor and shall be available to hire sufficient personnel to perform these contracted audits and to pay for related travel, supplies and other necessary expenses.

(6) The Auditor is authorized and directed in his reports of audits or reports of special investigations to make any comments, suggestions, or recommendations he deems appropriate concerning any aspect of such agency's activities and operations.

(7) The Auditor shall charge and collect from each examining and licensing board the actual cost of each audit of such board. Costs collected under this subdivision shall be based on the actual expense incurred by the Auditor's office in making such audit and the affected agency shall be entitled to an itemized statement of such costs. Amounts collected under this subdivision shall be deposited into the General Fund as nontax revenue.

(8) The Auditor shall examine as often as may be deemed necessary the accounts kept by the Treasurer, and if he discovers any irregularity or deficiency therein, unless the same be rectifed or explained to his satisfaction, report the same forthwith in writing to the General Assembly, with copy of such report to the Governor and Attorney General. In addition to regular audits, the Auditor shall check the treasury records at the time a Treasurer assumes office (not to succeed himself), and therein charge him with the balance in the treasury, and shall check the Treasurer's records at the time he leaves office to determine that the accounts are in order.

(9) The Auditor may examine the accounts and records of any bank or financial institution relating to transactions with the State Treasurer, or with any State agency, or he may require banks doing business with the State to furnish him information relating to transactions with the State or State agencies.

(10) The Auditor may, as often as he deems advisable, conduct a detailed review of the bookkeeping and accounting systems in use in the various State agencies which are supported partially or entirely from State funds. Such examinations will be for the purpose of evaluating the adequacy of systems in use by these agencies and institutions. In instances where the Auditor determines that existing systems are outmoded, inefficient, or otherwise inadequate, he shall prescribe and supervise the installation of such changes, as in his judgment, appear necessary to secure and maintain internal control and facilitate the recording of accounting data for the purpose of preparing reliable and meaningful financial statements and reports. In all cases in which major changes in the accounting systems are made, he will be responsible for seeing that the new system is designed to accumulate information required for the preparation of budget reports and other financial reports. In instances in which State agencies wish to develop, upgrade, revise, or otherwise alter their accounting systems, said agencies shall request the Auditor to make a survey of their systems to ascertain if the change is desirable. To the extent that he deems necessary and within available resources, the Auditor shall review the proposed changes in the system which may include an examination of the system's justification, design, documentation, controls, applications and specifications, or any other related documentation he may determine necessary in formulating his opinion on the requested change. Equipment or related software to be used, in whole or in part, to operate the accounting system may be acquired only upon the prior written approval of the Auditor.

(11) The Auditor shall transmit to the General Assembly annually a complete statement of the funds of the State, of its revenues and of the

public expenditures during the preceding fiscal year, with copies of such statements furnished to the Governor and to such other persons as may be deemed advisable.

This Comprehensive Annual Financial Report shall be prepared in accordance with generally accepted principles of governmental accounting. Accordingly, each and every State agency is hereby required to furnish by September 1 of each year financial statements to the Auditor for all its funds prepared in accordance with generally accepted principles of governmental accounting and in the form required by the Auditor.

Furthermore, the Auditor shall, through appropriate tests, satisfy himself concerning the propriety of the data presented in said comprehensive report and express the appropriate auditor's opinion in accordance with generally accepted auditing standards.

(12) The Auditor shall provide in a written statement to the Governor and Attorney General, and other appropriate officials, such facts as are in his possession which pertain to the apparent violation of penal statutes or apparent instances of malfeasance, misfeasance, or nonfeasance by an officer or employee.

(13) At the conclusion of an audit, the Auditor or his designated representative shall discuss the audit with the official whose office is subject to audit and submit necessary underlying facts developed for all findings and recommendations which may be included in the audit report. On audits of economy and efficiency and program results, the auditee's written response shall be included in the final report if received within 30 days from receipt of the draft report.

(14) The Auditor shall provide copies of each audit report to the General Assembly, the Governor, the Chief Executive Officer of each agency audited, and other persons as the Auditor deems appropriate. He shall also file a copy of the audit report in the Auditor's office, which will be a permanent public record; provided, nothing in this subsection shall be construed as authorizing or permitting the publication of information whose disclosure is otherwise prohibited by law.

(15) It is not the intent of the audit function, nor shall it be so construed, to infringe upon or deprive the General Assembly and the executive or judicial branches of State government of any rights, powers, or duties vested in or imposed upon them by statute or the Constitution.

(d) Reports and work papers. The Auditor shall maintain for 10 years a complete file of all audit reports and reports of other examinations, investigations, surveys, and reviews issued under his authority. Audit work papers and other evidence and related supportive material directly pertaining to the work of his office shall be retained according to an agreement between the Auditor and State Archives. To promote intergovernmental cooperation and avoid unnecessary duplication of audit effort, pertinent work papers and other supportive material related to issued audit reports may be, at the discretion of the Auditor and unless otherwise prohibited by law, made available for inspection by duly authorized representatives of the State and federal government who desire access to and inspection of such records in connection with some matter officially before them.

Except as provided above, or upon subpoena issued by a duly authorized court or court official, audit work papers shall be kept confidential.

"§ 147-64.7. *Authority.*—(a) Access to persons and records.

(1) The Auditor and his authorized representatives shall have ready access to persons and may examine and copy all books, records, reports, vouchers, correspondence, files, investments, and any other documentation of any State agency. The review of State tax returns shall be limited to matters of official business and the Auditor's report shall not violate the confidentiality provisions of tax laws.

(2) The Auditor and his duly authorized representatives shall have such access to persons, records, papers, reports, vouchers, correspondence, books, and any other documentation which is in the possession of any individual, private corporation, institution, association, board, or other organization which pertain to:

a. Amounts received pursuant to a grant or contract from the federal government, the State, or its political subdivisions.

b. Amounts received, disbursed, or otherwise handled on behalf of the federal government or the State. In order to determine that payments to providers of social and medical services are legal and proper, the providers of such services will give the Auditor, or his authorized representatives, access to the records of recipients who receive such services.

(3) The Auditor shall, for the purpose of examination and audit authorized by this act, have the authority, and will be provided ready access, to examine and inspect all property, equipment, and facilities in the possession of any State agency or any individual, private corporation, institution, association, board, or other organization which were furnished or otherwise provided through grant, contract, or any other type of funding by the State of North Carolina, or the federal government.

(4) All contracts or grants entered into by State agencies or political subdivisions shall include, as a necessary part, a clause providing access as intended by this section.

(5) The Auditor and his authorized agents are authorized to examine all books and accounts of any individual, firm, or corporation only insofar as they relate to transactions with any agency of the State.

(b) Experts; Contracted Audits.

(1) The Auditor may obtain the services of independent public accountants, qualified management consultants, or other professional persons and experts as he deems necessary or desirable to carry out the duties and functions assigned under the act.

(2) No State agency may enter into any contract for auditing services which may impact on the State's comprehensive annual financial report without consultation with, and the prior written approval of, the Auditor, except in instances where audits are called for by the Governor under G.S. 143-3 and he shall so notify the Auditor. The Auditor shall prescribe policy and establish guidelines containing appropriate criteria for selection and use of independent public accountants, qualified management consultants, or other professional persons by State agencies and governing bodies to perform all or part of the audit function.

(c) Authority to administer oaths, subpoena witnesses and records, and take depositions.

(1) For the purposes of this Article the Auditor or his authorized representative shall have the power to subpoena witnesses, to take testimony under oath, to cause the deposition of witnesses (residing within or without the State) to be taken in a manner prescribed by law, and to assemble records and documents, by subpoena or otherwise. The subpoena power granted by this section may be exercised only at the specific written direction of the Auditor or his chief duputy.

(2) In case any person shall refuse to obey a subpoena, the Auditor shall invoke the aid of any North Carolina court within the jurisdiction of which the investigation is carried on or where such person may be, in requiring the attendance and testimony of witnesses and the production of books, papers, correspondence, memoranda, contracts, agreements, and other records. Such court may issue an order requiring such person to appear before the Auditor or officers designated by the Auditor, there to produce records, if so ordered, or to give testimony touching the matter under investigation or in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

"§ 147-64.8. *Independence.*—The Auditor shall maintain independence in the performance of his authorized duties. Except as otherwise provided by law, neither the General Assembly nor the Governor nor any department or agency of the executive or judicial branches of State government shall have the authority to limit the scope, direction, or report of an audit undertaken by the Auditor. No State regulatory agency shall by any fiscal or administrative requirements attempt to limit the scope, direction, or report of an audit undertaken by the Auditor.

"§ 147-64.9. *Rules and regulations.*—The Auditor shall make and enforce such reasonable rules and regulations as are necessary for the operation of his office. The Auditor shall install an adequate accounting system for his office and shall keep or cause to be kept a complete, accurate, and adequate record of all fiscal transactions of his office.

"§ 147-64.10. *Powers of appointment.*—The Auditor may, subject to the provisions of the State Personnel Act, appoint all employees necessary to perform the duties and functions assigned to him by the provisions of this Article.

Except where otherwise provided in this Article, all powers and duties vested in the Auditor may be delegated by him to deputies, assistants, employees, or other auditors, consultants, professionals, and experts, whose services are obtained in accordance with the provisions of this act; but the Auditor shall retain responsibility for the powers and duties so delegated.

"§ 147-64.11. *Review of office.*—The Auditor may, on his own initiative and as often as he deems necessary, or as requested by the General Assembly, cause to be made a quality review audit of the operations of his office. Such a 'peer review' shall be conducted in accordance with standards prescribed by the accounting profession. Upon the recommendation of the Advisory Budget Commission, the Joint Legislative Commission on Governmental Operations may contract with an independent public accountant, qualified management consultant, or other professional person to conduct a financial and compliance, economy and efficiency, and program result audit of the State Auditor.

"§ 147-64.12. *Conflict of Interest.*—(a) To preserve the independence and objectivity of the audit function, the Auditor and his employees may not, unless otherwise expressly authorized by statute, serve in any capacity on an administrative board, commission, or agency of government of a political subdivision of the State or any other organization that, under the provisions of this act, they have the responsibility or authority to audit. Nor shall they have a material, direct or indirect financial, or other economic interest in the transactions of any State agency.

(b) The Auditor shall not conduct an audit on a program or activity for which he had management responsibility or in which he has been employed during the preceding two years. The General Assembly shall otherwise provide for the necessary audit of programs and activities within the meaning of this subsection.

"§ 147-64.13. *Construction.*—This Article shall be construed liberally in the aid of its declared purpose. It is the intent of this Article that the establishment of the Office of the Auditor and the duties, powers, qualifications, and purposes herein specified shall take precedence over any conflicting part or application of any other law.

"§ 147-64.14. *Severability.*—If any provision of this Article or the application thereof to any person, State agency, political subdivision, or circumstance is held invalid, such invalidation shall not affect other provisions or applications of this Article which can be given effect without the invalid provision of application, and to this end the provisions of this Article are declared severable."

"§ 143B-29.1. *Governor's Administrative Rules Review Commission established.*—The Governor's Administrative Rules Review Commission is hereby created in the Office of the Governor. The Commission shall consist of ten members, four to be appointed by the Governor and six by the General Assembly, three upon the recommendation of the President of the Senate, and three upon the recommendation of the Speaker of the House of Representatives. A quorum of the Commission shall consist of the Chairman and four other Commission members, or a majority of the Commission, whichever is fewer.

"§ 143B-29.2. *Review of rules.*—(a) Rules adopted by an agency to be effective on or after January 1, 1984, shall be filed in the Office of the Governor prior to the filing made with the Attorney General pursuant to G.S. 150A-59.

(b) After a rule is filed with the Governor, he shall submit it to the Commission which shall determine whether the rule:

(1) is within the statutory authority of the agency;

(2) is clear and unambiguous;

(3) is necessary.

The Commission shall review a rule submitted to it by the Governor not later than the last day of the first calendar month following the filing of the rule with the Governor. The Commission, by a majority vote of the members present and voting, may extend the time for review of a rule by 60 days to obtain additional information on a rule. The Commission shall file notice of the extension of time for review of a rule with the agency and the Attorney General. Upon that filing, the effectiveness of the rule is delayed for a 60-day period.

(c) If the Commission finds that an agency did not act within its statutory authority in promulgating a rule or a part of a rule, or that a rule is not clear and unambiguous, or that a rule is unnecessary, the Commission shall object and delay the effectiveness of said rule or part of a rule. The Commission shall transmit to the agency, the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Attorney General a written report of the objection and delay of the rule or its part and the reasons for the delay. A rule or its part that is delayed is not 'effective', as defined by G.S. 150A-2(2a).

(d) Within 30 days after receipt of the Commission's written report, an agency shall either amend or repeal the rule to cure the defects cited as reasons for the Commission's objection or return the rule unamended to the Commission.

(e) While the effectiveness of a rule or its part is delayed, the agency which has promulgated it may not adopt another rule which has substantially identical provisions to those for which the Commission delayed the effectiveness of the original rule or part of a rule.

(f) The filing of an amendment to a rule places the entire rule before the Commission for its review.

(g) If an agency does not amend or repeal a delayed rule to cure the defects cited as reasons for the Commission's objection and delay, the Commission shall veto the rule. The Commission shall transmit to the agency, the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Attorney General the written report of the veto of the rule. A rule that is vetoed is not 'effective', as defined by G.S. 150A-2(2a).

"§ 143B-29.3. *Temporary rules.*—Rules adopted in accordance with the procedures in G.S. 150A-13 shall be reviewed by the Commission and are subject to objection as provided in G.S. 143B-29.2. The Commission shall review the reasons given for the adoption of a temporary rule and may veto the rule due to the agency's failure to make the finding required by G.S. 150A-13.

"§ 143B-29.4. *Hearings.*—(a) Notwithstanding the time limitation on review of rules contained in G.S. 143B-29.2, the chairman of the Commission may at any time call a public hearing before the Commission on any rule or part of a rule upon the recommendation of the Commission or upon motion of any

member of the Commission. Within 60 days after the public hearing, the Commission may find that the agency did not act within its statutory authority in promulgating the rule, or that the rule is not clear and unambiguous or that the rule is unnecessary, and object to the rule in accordance with G.S. 143B-29.2.

S. R. 64 RESOLUTION 5

A JOINT RESOLUTION ENCOURAGING HEALTH INSURANCE CARRIERS TO OFFER AND PROMOTE COVERAGE FOR MENTAL HEALTH AND RELATED SERVICES.

Whereas, the Mental Health Study Commission has received testimony and reports repeatedly over the last several years regarding the need for expanded insurance coverage for mental health, mental retardation and substance abuse services; and

Whereas, the Department of Human Resources Ad Hoc Committee on Insurance, at the Commission's request, completed a thorough review of current practices related to third party coverage of mental health and related services; and

Whereas, scientific research indicates that general health care costs and specific inpatient costs for psychiatric and related services can be reduced by the provision of outpatient treatment for persons suffering from mental illness, substance abuse and behavioral problems related to mental retardation; and

Whereas, insurance carriers in North Carolina do not consistently offer or provide third party coverage for outpatient treatment for mental health and related problems; and

Whereas, the Study Commission has received further testimony regarding the efficacy of Employee Assistance Programs and their ability through the early identification of employee problems to reduce the costly and debilitating health effects of those problems;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

All companies which offer health insurance policies for group or individual coverage are encouraged to include benefits for outpatient mental health, substance abuse and behavioral therapy comparable to outpatient benefits provided for other illnesses. Furthermore, these companies are encouraged to conduct studies as they deem relevant to assess the impact of this coverage on the regular utilization of both general health care and specific inpatient psychiatric and related care. Furthermore, these companies are encouraged to explore and investigate the positive impact that Employee Assistance Programs can have on lowering health care costs and to consider incentives which they might provide to employers who provide Employee Assistance Services.

S. R. 108 RESOLUTION 6

A JOINT RESOLUTION URGING THE CONGRESS OF THE UNITED STATES TO OPPOSE THE PASSAGE OF A FEDERAL TUITION TAX CREDIT BILL.

Whereas, our country nearly two hundred years ago established the democratic goal of equality of opportunity for all citizens of the republic; and

Whereas, the principle of separation of church and state was also established as a fundamental precept of the First Amendment to the United States Constitution; and

Whereas, passage of legislation supporting federal tuition tax credits for persons who send their children to private schools would violate the above goal and principle which have been major factors in building our American democracy; and

Whereas, adoption of federal tuition tax credit legislation would give the force of law to a vast social experiment which virtually would destroy public education as conceived over the years through adherence to the above goal and principle; and

Whereas, tuition tax credits give private schools an unfair competitive advantage over public schools because private schools can refuse to offer services that public schools must provide and they can be selective with regard to whom they admit; and

Whereas, adoption of tuition tax credits would lead to an educational caste system by drawing middle and higher income children into private schools; and since many families are too poor to claim the tax break, the poor and minorities would be barred from participation; and

Whereas, tuition tax credits would erode voter support for local school budgets because some parents who would be most likely to support quality programs and facilities for the public schools would be attracted to private schools as federal revenues shift from public to private schools; and

Whereas, North Carolina's own, venerable, Constitutional Statesman, former Senator Sam J. Ervin, Jr., has forcefully characterized the proposed tuition tax credit legislation as unwise, unjust, and unconstitutional; and

Whereas, North Carolina's Governor, James B. Hunt, Jr., has declared 1982-83 as "The Year of the Public Schools" in obvious pride in and support for North Carolina's system of public education; and

Whereas, virtually every organization which represents public schools opposes the concept and the proposal known as tuition tax credits;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The General Assembly urges the members of the Congress of the United States from North Carolina to oppose the introduction and passage of a tuition tax credit bill.

Sec. 2. The General Assembly urges Congress not to pass a tuition tax credit bill, if introduced.

Sec. 3. The Secretary of State shall transmit copies of this resolution to the members of the Congress of the United States from North Carolina and to the Clerk of the U.S. House of Representatives and the Secretary of the U.S. Senate.

Whereas, Nathan H. Yelton with dignity, efficiency and dedication expanded the services of the Division of Aging to and for the older citizens of this State; and

Whereas, Nathan H. Yelton worked for over 50 years for the State; and

Whereas, Nathan H. Yelton was a Lion, a Mason, and a Presbyterian; and

Whereas, Nathan H. Yelton on April 16, 1922, married the former Cerena Polk of Maryville, Tennessee, now deceased; daughter, Natalie Y. Morton; and

Whereas, Nathan H. Yelton on May 12, 1956, married the former Betty Holland of Clinton, North Carolina; daughters, Molly Y. Barber and Yolanda Jane; and

Whereas, Nathan H. Yelton's motto was "I don't want to rust out, I want to wear out. Age is a mental thing."; and

H. R. 279 RESOLUTION 9

A JOINT RESOLUTION MEMORIALIZING CONGRESS IN OPPOSITION TO FEDERAL TERMINATION OF LOW-INCOME HOUSING PROGRAMS.

Whereas, the Federal Government has, through actions and expressed intentions, begun to transfer to the state governments the responsibility for many of its housing programs; and

Whereas, funding for these programs has never fully supported existing needs; and

Whereas, the existing funding levels are in jeopardy of diminishing as the programs are being transferred to state control;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. H. R. 280 RESOLUTION 10

A JOINT RESOLUTION MEMORIALIZING CONGRESS TO PASS LEGISLATION AUTHORIZING TAX DEDUCTIONS FOR MONEY SAVED FOR PURCHASE OF A HOME.

Whereas, escalating home prices have resulted in a significant increase in the down payment required to purchase a home; and

Whereas, the lack of funds for a down payment has reduced the number of persons able to buy a home; and

Whereas, the reduced volume of home purchases has impeded the improvement of housing and has had a regressive effect upon the economy; and

Whereas, a tax deduction for money saved for a down payment would make the dream of homeownership a reality for people who would otherwise not be able to purchase a home; and

Whereas, a greater number of home purchases will spur many sectors of our economy; and

Whereas, a tax deduction for monies set aside for purchase of a principal residence will also help encourage the philosophy of saving; and

Whereas, in the 97th Congress, bills such as H. R. 2033, H. R. 3061, H. R. 3785, H. R. 4752, H. R. 5926, and H. R. 7257 were introduced to allow Individual Housing Accounts;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The North Carolina General Assembly urges the Congress of the United States to pass legislation allowing a tax deduction to encourage monies to be set aside for the first time purchase of a principal residence.

Sec. 2. The Secretary of State shall send a certified copy of this resolution to the members of the United States Congress representing North Carolina and to the Clerk of the United States House of Representatives and the Secretary of the United States Senate.

Whereas, the members of the North Carolina General Assembly are keenly aware of the serious problems being caused by unemployment, in North Carolina and in the entire nation; and

Whereas, this matter of critical importance is an issue for legislative consideration requiring the best thought and the most effective action that can be taken; and

Whereas, private owners are under no obligation to maintain the lush forestation of these lands; and

Whereas, the federal government proposes to sell these lands to raise money; and

Whereas, the Forest Service already leases timber rights and has recently leased oil and gas exploration rights, sources of income that will vanish if the land is sold outright; and

Whereas, Lieutenant Governor Jimmy Green and Governor Jim Hunt have both publically stated opposition to the proposal; and

Whereas, this proposal may forbode greater and greater intrusions into federal recreational areas in North Carolina;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The North Carolina General Assembly urges Congress to oppose the Department of Agriculture's proposal to sell National Forest Service land in North Carolina.

Sec. 2. The North Carolina General Assembly urges Congress to protect North Carolina's national forests so that our citizens may continue to enjoy and treasure these recreational preserves.

Sec. 3. The Secretary of State shall send certified copies of this resolution to all members of the North Carolina Congressional delegation, the Secretary of Agriculture, and the President.

Sec. 4. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 13th day of June, 1983.

S. R. 211 RESOLUTION 30

A JOINT RESOLUTION URGING THE UNITED STATES GOVERNMENT TO REFRAIN FROM OCEAN DISPOSAL OF DECOMMISSIONED NUCLEAR SUBMARINES OFF THE NORTH CAROLINA COAST.

Whereas, the Navy is searching for a safe disposal of approximately 100 defueled nuclear submarines; and

Whereas, one of the proposals that the Navy is most seriously considering is dumping these radioactive submarines in the Atlantic Ocean about 200 miles off the North Carolina coast; and

Whereas, scientific evidence now shows that species of marine life have been contaminated by radioactive materials dumped at sea and these species of marine life enter into the food chain and will be consumed by humans; and

Whereas, North Carolina's coastal economy is dependent upon clean and unpolluted water and beaches for commercial and sports fishing and tourism and recreational opportunities; and

Whereas, the State is vitally concerned about the health of its citizens; and

Whereas, the citizens of North Carolina have themselves placed a high priority on a clean and healthy environment as shown through a 1982 citizens' survey conducted by the Commission on the Future of North Carolina; and

Whereas, the radioactivity may have adverse health and environmental effects; and

Whereas, the dumping will almost surely have adverse psychological effects because our citizens have not been assured of the complete safety of the proposal and have a general fear and lack of understanding of radioactivity; and

Whereas, the Outer Banks Chamber of Commerce and many other groups, organizations and private citizens have joined in expressing great concern or opposition to the proposed dumping; and

Whereas, Jane Patterson, North Carolina Secretary of Administration, has stated that "it is the policy of the State of North Carolina to oppose the ocean dumping of nuclear submarines until a national ocean use policy has been developed with a consistent and complete regulatory system"; and

Whereas, Secretary Patterson has raised concerns about lack of adequate scientific data, lack of sufficient monitoring, and other inadequacies in the Navy's Environmental Impact Statement on the proposal; and

Whereas, because of safety considerations, the United States has not dumped radioactive wastes in the ocean since 1970; and

Whereas, Congress has banned ocean dumping of radioactive wastes until 1985; and

Whereas, these defueled submarines will continue to emit radioactivity into the ocean's waters for 30,000 years; and

Whereas, burying the submarines in the earth would permit better monitoring and easier retrieval if problems arose; and

Whereas, the General Assembly has great concern at this time about the Navy's plans to move forward with its proposal to dump these radioactive submarines in the Atlantic Ocean off the North Carolina coast;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The General Assembly of North Carolina respectfully urges the Congress of the United States to direct the Secretary of the Navy to immediately halt all plans for the sinking of decommissioned nuclear submarines in the Atlantic Ocean off the coast of North Carolina.

Sec. 2. The General Assembly further urges Congress to insure that the United States Environmental Protection Agency, the United States Navy, and all other involved parties have the necessary, correct, and detailed information that is needed to reach a decision that will protect the health, safety, and welfare of all citizens of North Carolina and other coastal states that may be affected.

Sec. 3. The General Assembly of North Carolina respectfully urges the Secretary of the Navy to research fully the possibility of completely dismantling these submarines and utilizing land disposal areas for radioactive parts because land disposal would appear to provide a safer and more controlled and controllable disposal method with less chance of causing environmental damage, pollution problems, or adverse economic effects.

Sec. 4. The General Assembly urges Congress at the very least to consider immediately a comprehensive national ocean use policy with a complete regulatory system. Without such a policy, haphazard ocean dumpings may prove dangerous to persons and property.

Sec. 5. The General Assembly urges Congress to delay the further consideration of any ocean dumpings. Recent amendments to the Ocean Dumping Act ban dumping of low-level radioactive wastes in the oceans until 1985, so the proposed dumping cannot occur until then, but the General Assembly urges Congress to consider a permanent ban if health, safety, and economic considerations make such a ban wise.

Sec. 6. The Secretary of State shall send a certified copy of this resolution to every member of the congressional delegation from North Carolina, the Secretary of the United States Navy, the administrator of the Environmental Protection Agency, the Governor of North Carolina, and the North Carolina Secretary of Administration.

Sec. 7. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 17th day of June, 1983.

H. R. 621 RESOLUTION 31

A JOINT RESOLUTION ENCOURAGING LOCAL BOARDS OF EDUCATION TO SCHEDULE TEACHER WORKDAYS WITHIN TEN DAYS OF ELECTION DAY ON ELECTION DAY.

Whereas, public school campuses are used as polling places in statewide general elections, statewide primary elections and municipal elections; and

Whereas, in many instances, students are in attendance on said election days; and

Whereas, traffic hazards resulting from the presence of voters on campus may endanger the health and safety of students;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. Local boards of education are encouraged to designate any day on which a statewide general election, a statewide primary election, or a municipal general election is scheduled to occur as a workday on which pupils are not required to attend school.

Sec. 2. County boards of election are requested to notify local boards of education in advance of the dates on which statewide general elections, statewide primary elections and municipal general elections will be held and to do so early enough to permit all local boards of education to incorporate the election days into the school calendar.

Sec. 3. A copy of this resolution shall be mailed to the superintendent and chairman of each local board of education and each election board chairman and supervisor in North Carolina for presentation to the individual boards of education for their consideration.

Sec. 4. This resolution is effective upon ratification and applies to school years beginning with the 1983-84 school year.

In the General Assembly read three times and ratified, this the 17th day of June, 1983.

S. R. 468 **RESOLUTION 32**

A JOINT RESOLUTION REQUESTING THE STATE'S CONGRESSIONAL DELEGATION TO ENCOURAGE THE UNITED STATES FISH AND WILDLIFE SERVICE TO ADJUST THE FEDERAL BIRD HUNTING SEASON LIMITATIONS SO AS TO RESTORE TO THE WATERFOWL HUNTERS OF NORTH CAROLINA THE HUNTING DAYS LOST BY REASON OF THE STATE'S PROHIBITION OF HUNTING WITH FIREARMS ON SUNDAY.

Whereas, it is the practice of the United States Fish and Wildlife Service to establish the outside dates within which the several states may select migratory bird hunting seasons; and

Whereas, the lengths of the seasons made available for selection by the several states are limited to maximum numbers of days which include all Sundays between the beginning and ending dates of the seasons so selected; and

Whereas, the State of North Carolina, in the exercise of its inherent power, and recognizing the wishes of its citizens, has long prohibited hunting with firearms on Sunday; and

Whereas, the conflict between the federal practice and the State law results in an annual loss to the hunters of North Carolina of approximately seven migratory bird hunting days as compared with the hunters of other states in which migratory bird hunting is permitted on Sundays; and

Whereas, the United States Fish and Wildlife Service has been unreceptive to requests from this and other states in which Sunday hunting is prohibited to adjust the options made available for selection by the states so as to equalize as nearly as practicable the number of migratory bird hunting days available to the hunters of the several states;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The North Carolina General Assembly requests that the members of the State's delegations to the United States Senate and to the United States House of Representatives take such action as they may deem most effectual to encourage the United States Fish and Wildlife Service to adjust the season options made available to the several states to the end that the hunters in those states in which hunting migratory birds on Sundays is prohibited may be afforded numbers of hunting days equal to those afforded to hunters in those states in which the hunting of migratory birds on Sunday is permitted.

Sec. 2. The Secretary of State shall transmit a certified copy of this resolution to each member of the State's delegations to the United States Senate and the United States House of Representatives.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 17th day of June, 1983.

H. R. 988 RESOLUTION 33

A JOINT RESOLUTION AUTHORIZING THE LEGISLATIVE RESEARCH COMMISSION TO STUDY THE REGULATION OF NONPUBLIC AND PUBLIC POST-SECONDARY EDUCATIONAL INSTITUTIONS.

Whereas, it has been the legislative policy of this State since at least 1923 to require that nonpublic educational institutions seeking to confer degrees in North Carolina obtain a license therefor; and

Whereas, in recent years new kinds of educational programs and new types of organizational structures have begun to be used by institutions seeking to confer degrees; and

Whereas, in recent months news media across the nation have reported abuse of the degree-granting process and fraud in the conduct of degree programs of institutions of higher education; and

Whereas, since 1923 there has been no thorough legislative review of the provisions of G.S. 116-15, the statute by which licensure to confer degrees is required;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Legislative Research Commission is authorized to study the regulation of nonpublic and public post-secondary educational institutions which engage in "post-secondary degree activity" as defined in HB 988 introduced in the 1983 Session of the General Assembly. The Commission may make an interim report to the 1984 Session of the General Assembly and shall make a final report to the 1985 Session of the General Assembly.

Sec. 2. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 21st day of June, 1983.

Whereas, Fate James Beal first practiced law in Asheboro before moving his law office to Lenoir in 1943 where he continued to practice for his lifetime; and

Whereas, Fate James Beal served his county and State as a Judge of the Caldwell County Recorders Court, as Judge of the District Court, and from 1967 until 1971 as Special Judge of the Superior Court after being appointed by Governor Dan Moore; and

Whereas, Fate James Beal was survived by his wife, Faye Smith Beal; a son, David J. Beal, Clerk of the Superior Court of Surry County; and a son, Beverly T. Beal, an attorney practicing in Lenoir;

Section 1. The General Assembly of North Carolina expresses its deep appreciation for the life and service of Fate James Beal.

Sec. 2. The General Assembly of North Carolina extends its deepest sympathy to the family and friends of Fate James Beal for the loss of a beloved husband, father, and friend.

Sec. 3. This resolution shall become part of the public records of this Session of the General Assembly and a copy of it shall be certified by the Secretary of State and transmitted to the family of Fate James Beal.

A JOINT RESOLUTION CALLING UPON THE SPEAKER OF THE HOUSE OF REPRESENTATIVES AND THE PRESIDENT OF THE SENATE TO APPOINT A LEGISLATIVE DELEGATION TO ATTEND CEREMONIES IN GREAT BRITAIN CELEBRATING THE FOUR HUNDREDTH ANNIVERSARY OF THE ROANOKE VOYAGES.

Whereas, Sir Walter Raleigh sent his first exploring expedition from Plymouth, England, for the New World on April 27, 1584; and

Whereas, the America's Four Hundredth Anniversary Committee of the North Carolina Department of Cultural Resources has scheduled as its initial anniversary event a celebration on April 27, 1984, at Plymouth, England; and

Whereas, a marker will be dedicated in Plymouth Harbor and other events will be held in Devonshire, home of many of the early Roanoke Island colonists; and

Whereas, an exhibition including 18 of John White's watercolors painted in this State 400 years ago, and maps, books, prints, and other objects that belonged to Raleigh, Sir Francis Drake, Queen Elizabeth, and others will open in London's British Library as part of the April 1984 celebration; and

Whereas, this event in Great Britain will serve as the send-off for all other activities planned for the four hundredth anniversary celebration; and

Whereas, the General Assembly, which established the America's Four Hundredth Anniversary Committee during the 1973 legislative session, wishes to support the Committee and join in the celebration of the anniversary;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The General Assembly of North Carolina joins in the celebration of the four hundredth anniversary of the initial exploratory voyages to Roanoke Island.

Sec. 2. The Speaker of the House of Representatives and the Lieutenant Governor shall appoint a delegation from the membership of the General Assembly to attend the events scheduled for April 1984 in Great Britain. The

appointees shall serve as the official representatives of the General Assembly to this event but shall not be reimbursed by the State for their traveling expenses incurred in attending.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 23rd day of June, 1983.

S. R. 586 **RESOLUTION 36**

Whereas, Lee Burrus Nichols served as a member of the North Carolina Senate from 1949 to 1951, representing the thirty-third district;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. The North Carolina General Assembly expresses its high regard for the life and service of Lee Burrus Nichols and mourns the loss of such a distinguished citizen.

Sec. 2. The Secretary of State shall send a certified copy of this resolution to the family of Lee Burrus Nichols.

Sec. 3. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 27th day of June, 1983.

H. R. 1135 RESOLUTION 37

A JOINT RESOLUTION TO ESTABLISH THE PROCEDURE FOR NOMINATING AND ELECTING MEMBERS OF THE BOARD OF GOVERNORS OF THE UNIVERSITY OF NORTH CAROLINA.

Be it resolved by the House of Representatives, the Senate concurring:

Section 1. The following procedures for nominating and electing members of the Board of Governors of The University of North Carolina are adopted:

I. COMMITTEE RESPONSIBILITIES.

1. It is the duty of the University Board of Governors Nominating Committee in the House of Representatives to choose at least two candidates for each opening in each category of seats on the Board of Governors of The University of North Carolina to which the House of Representatives is to elect members. It is the duty of the Committee on Rules and Operation of the Senate to choose at least two candidates for each opening in each category of seats on the Board of Governors of The University of North Carolina to which the Senate is to elect members. The committees shall act separately for the purpose of carrying out these duties.

2. The Senate shall vote only upon those persons chosen as candidates for nomination in the eight-year at-large category by the Committee on Rules and Operation of the Senate, or proposed as candidates from the floor of the joint session of the Senate and House of Representatives. The House of Representatives shall vote only upon those persons chosen as candidates for nomination in the eight-year at-large category by the University Board of Governors Nominating Committee in the House of Representatives, or proposed as candidates from the floor of the joint session of the Senate and House of Representatives.

3. The Committee on Rules and Operation of the Senate shall receive suggestions of persons to be considered for election to the University Board of Governors through June 28, 1983. In order for a person to have standing to be considered as a candidate for nomination by the Senate Committee, that person must be formally proposed as a candidate for nomination by a member of the Senate Committee.

4. The University Board of Governors Nominating Committee in the House of Representatives shall receive suggestions of persons to be considered for election to the University Board of Governors through June 28, 1983. Any person proposed in writing by a member of the House of Representatives to the Chairman of the University Board of Governors Nominating Committee shall be considered as a candidate for nomination by the House Committee.

5. After June 28, 1983, the Senate and House committees shall meet separately and receive from members of each committee formal proposals for nomination. A committee member may propose candidates only for the categories available for election by the house of which he is a member.

6. The House and Senate committees shall screen the proposed candidates for nomination as to their qualifications and background, and may interview each one to make sure that suitable candidates for election are nominated for each category and that each is willing and able to serve and has no statutory disability.

7. There is no limit on the number of persons a Senator may propose as candidates. When the proposing process is closed, the Committee on Rules and Operation of the Senate shall list all proposed candidates by category and shall vote "aye" or "no" on each proposed candidate for nomination and listed on the Senate ballot. A vote of a majority of those members of the Senate Committee present and voting shall constitute one a candidate for nomination. An individual cannot be a candidate for nomination in more than one category.

8. A Representative may propose only as many persons as candidates as there are places to be filled by the House. When the proposing process is closed, the University Board of Governors Committee in the House of Representatives shall list all proposed candidates by category. The House Committee shall vote to determine whether each person considered shall be placed on the House ballot as a "Recommended Nominee" or a "Nominee". A majority vote of the members of the House Committee who are present shall constitute one a "Recommended Nominee" or a "Nominee" as the Committee shall determine. An individual cannot be a candidate for nomination in more than one category.

9. Committee candidates shall be placed before and recommended to a joint session of the House of Representatives and Senate.

II. JOINT SESSION—SELECTION OF NOMINEES.

1. The Senate and House of Representatives shall meet in joint session at 2:00 p.m. on July 5, 1983, for the purpose of nominating persons for election to the Board of Governors of The University of North Carolina. In the joint session of the Senate and House of Representatives, committee nominations shall be made first and then the floor shall be opened for the nomination by any Senator or Representative of persons for election to the Board of Governors. Nominees shall be grouped into the following categories, as required by G.S. 116-6:

(1) Women nominees for eight-year term,
(2) Minority race nominees for eight-year term,
(3) Minority party nominees for eight-year term,
(4) At-large nominees for eight-year term, Senate
(5) At-large nominees for eight-year term, House of Representatives.

2. In proposing a nominee, the nominator shall state the category for which the nominee is being proposed. An individual cannot be proposed in more than one category.

3. There is no limit on the number of persons one Senator may propose as nominees and no limit on the categories for which he may propose persons in the joint session. In the joint session, a Representative may propose as nominees only as many persons as there are positions to be filled in each category.

4. Names shall continue to be received until the number of nominees is at least twice the number of places to be filled in each category, that is, there shall be a minimum of two women, two Republicans, two racial minority members, six at-large nominees (Senate), and four at-large nominees (House of Representatives) all for eight-year terms.

5. No vote shall be taken on the nominees in the joint session. When the names of all candidates for nomination have been received, the joint session shall be dissolved.

6. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the Committee on Rules and Operation of the Senate shall contact all nominees and

ascertain whether they would serve if elected. Any nominee may withdraw his name without the approval of the person who proposed his name. If withdrawals reduce the number of nominees below twice the number of places to be filled in any category, another joint session of the Senate and House shall be held to receive sufficient additional nominations in that category.

III. ELECTIONS IN THE SENATE.

1. A ballot shall be prepared under the supervision of the Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the Committee on Rules and Operation of the Senate for the use of the Senate.

2. The ballot shall list only those nominees proposed by the Committee on Rules and Operation of the Senate who have consented to run and all those nominees proposed from the floor in the joint session who have consented to run and for whom the Senate is entitled to vote. Their names shall be arranged (a) by category and (b) within each category, alphabetically by surname.

3. The Senate shall hold its election at the beginning of the daily session on July 6, 1983. Before the voting begins, the President of the Senate shall explain the voting rules, which are:

(i) No nominations will be received from the floor.

(ii) In order to be chosen, a nominee must receive the votes of a majority of all members present and voting for his category.

(iii) Each member present and voting shall vote for as many nominees as there are positions to be filled in each category, and any ballot not so marked shall be deemed void as to that category.

(iv) When a nominee for a category containing a single position is to be chosen and no candidate receives a majority of the votes cast for all the candidates in that category, a runoff shall be conducted between the person receiving the highest and the person receiving the second highest number of votes cast.

(v) When fewer than three nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, a runoff to fill the open position or positions shall be conducted among the nominees receiving the highest number of votes cast, and the number of nominees eligible to be voted on in the runoff shall be twice the number of positions to be filled.

(For the purpose of illustration, if when the first ballot is taken, no nominee receives a majority, then the top six vote-getters will be in the runoff, because there must be twice the number of persons in the runoff that there are positions to be filled and the Senate has three such positions to fill. If one person receives the votes of a majority of all members present and voting for that category, then he is elected and a runoff will be held among the four next highest vote-getters. This is so because there are two positions remaining to be filled and there must be twice the number of nominees in the runoff that there are positions available, therefore four. If two people receive the votes of a majority of the members present and voting, both will be elected and a runoff will be held between the two next highest vote-getters, because only one position remains to be filled.)

(vi) If there is a tie for the last position between two nominees who are eligible for the next runoff, both nominees will be included in the next runoff balloting, even though there would thereby be more than two nominees per available position on the Board of Governors.

(vii) When more than three nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, then the three nominees receiving the highest number of votes shall be deemed to have been chosen.

4. The Senators shall proceed to mark their ballots for the following: Three persons in the at-large category for eight-year terms, and one person in the minority party category for an eight-year term.

5. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the Committee on Rules and Operation of the Senate shall be responsible for canvassing the vote and declaring the results thereof. The number of votes received by each candidate shall not be released.

6. When the Chairman of the Committee on Rules and Operation of the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives have determined that the Senate has chosen one member of the Board of Governors from the minority party category for a term of eight years and three members of the Board of Governors from the at-large category for a term of eight years, the Chairman of the Committee on Rules and Operation of the Senate shall make a motion for the simultaneous election of those four persons by the Senate to the indicated positions and for the indicated terms. The roll of the Senate shall then be called electronically. If a majority of those voting shall vote "aye" the persons whose names appear on the list shall be declared to have been elected.

7. The results of the election in the Senate shall then be sent by Special Messenger to the House of Representatives.

IV. ELECTIONS IN THE HOUSE OF REPRESENTATIVES.

1. A ballot shall be prepared under the supervision of the Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the Committee on Rules and Operation of the Senate for the use of the House of Representatives.

2. The ballot shall list only those nominees proposed by the University Board of Governors Nominating Committee in the House of Representatives who have consented to run and all those nominees proposed from the floor in the joint session who have consented to run and for whom the House is entitled to vote. Their names shall be arranged (a) by category and (b) within each category, alphabetically by surname. Each person whose name appears on the ballot shall be thereby designated as a "Recommended Nominee" or "Nominee" as the University Board of Governors Nominating Committee in the House of Representatives shall have determined.

3. The House of Representatives shall hold its election immediately after being notified by Special Messenger that the Senate has completed its election. Before the voting begins, the Speaker of the House of Representatives shall explain the voting rules, which are:

(i) No nominations will be received from the floor.

(ii) In order to be chosen, a nominee must receive the votes of a majority of all members present and voting for his category.

(iii) Each member present and voting shall vote for as many nominees as there are positions to be filled in each category, and any ballot not so marked shall be deemed void as to that category.

(iv) When a nominee for a category containing a single position is to be chosen and no candidate receives a majority of the votes cast for all the candidates in that category, a runoff shall be conducted between the person receiving the highest and the person receiving the second highest number of votes cast.

(v) When fewer than two nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, a runoff to fill the open position or positions shall be conducted among the nominees receiving the highest number of votes cast, and the number of nominees eligible to be voted on in the runoff shall be twice the number of positions to be filled.

(For the purpose of illustration, if when the first ballot is taken, no nominee receives a majority, then the top four vote-getters will be in the runoff, because there must be twice the number of persons in the runoff that there are positions to be filled and the House has two such positions to fill. If one person receives the votes of a majority of all members present and voting in that category, then he is elected and a runoff will be held between the two next highest vote-getters. This is so because there is one position remaining to be filled and there must be twice the number of nominees in the runoff that there are positions available, therefore two.)

(vi) If there is a tie for the last position between two nominees who are eligible for the next runoff, both nominees will be included in the next runoff balloting, even though there would thereby be more than two nominees per available position on the Board of Governors.

(vii) When more than two nominees in the eight-year at-large category receive the votes of a majority of all members present and voting for positions in that category, then the two nominees receiving the highest number of votes shall be deemed to have been chosen.

4. The members of the House of Representatives shall proceed to mark their ballots for the following:

Two persons in the at-large category for eight-year term,
One person in the minority race category for an eight-year term, and
One person in the women's category for an eight-year term.

5. The Chairman of the University Board of Governors Nominating Committee in the House of Representatives and the Chairman of the Committee on Rules and Operation of the Senate shall be responsible for canvassing the vote and declaring the results thereof. The number of votes received by each candidate shall not be released.

6. When the Chairman of the Committee on Rules and Operation of the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives have determined that the House of Representatives has chosen two members of the Board of Governors from the at-large category for a term of eight years, one member of the Board of Governors from the minority race category for a term of eight years, and one member of the Board of Governors from the women's category for an eight-year

term, the Chairman of the University Board of Governors Nominating Committee in the House of Representatives shall make a motion for the simultaneous election of those four persons by the House of Representatives to the indicated positions and for the indicated terms. The roll of the House shall then be called electronically. If a majority of those voting shall vote "aye", the persons whose names appear on the list shall be declared to have been elected.

7. The results of the election in the House of Representatives shall then be sent by Special Messenger to the Senate.

V. NOTIFICATION OF ELECTION RESULTS.

1. When the election process is complete, the Chairman of the Committee on Rules and Operation of the Senate and the Chairman of the University Board of Governors Nominating Committee in the House of Representatives shall notify the Secretary of the Board of Governors of The University of North Carolina of the names of the persons elected by the General Assembly and the category for which and term for which each of them was elected.

Sec. 2. This resolution is effective upon ratification.

In the General Assembly read three times and ratified, this the 27th day of June, 1983.

H. R. 1184 RESOLUTION 38

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF MARION D. THORPE.

Whereas, Dr. Marion Dennis Thorpe, who died on April 28, 1983, devoted his life to the enrichment of countless other lives, as an educator, as a reconciler of racial differences, and as an exemplary human being, it therefore is fit and proper that the General Assembly acknowledge the eminent contributions of this native son to the State of North Carolina;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. Dr. Thorpe cared passionately about the education of young people of all races. He cherished knowledge and deplored ignorance. As a black man, he was especially sensitive to the role of education in transcending social and economic disadvantage. His will be an enduring example of the value of education, for generations to come.

Dr. Thorpe built bridges between black people and white people. He did so with a rare combination of grace, patience, sensitivity, and courage. The bridges he built will last, because they were constructed with great care.

Dr. Thorpe championed human rights. He imparted substance, through his own attitudes, beliefs, and conduct, to the proposition that each human life is precious. As a black man, he worked tirelessly to promote meaningful equality of opportunity for all people, without reference to race. His influence changed minds and hearts, and those changes will persist.

Sec. 2. As the chief executive officer of Elizabeth City State University, from 1968 until his death, Marion Thorpe infused that special institution with a new awareness of mission, with a justified sense of pride, and with an enhanced regard for quality. With forthrightness, intelligence, and perserverance, he successfully led Elizabeth City State through three major transitions. First, he superintended the real beginning and the successful fruition of efforts to achieve substantial and constructive racial integration of

what formerly had been a segregated public institution established for black citizens; he did so in a manner that preserved the proud heritage of that school, while rendering it a highly relevant and vital force in the lives of all of the people of that region of our State. Second, he led his institution into the family of institutions which today comprise the multi-campus University of North Carolina; he did so in a spirit of genuine cooperation, and succeeded to an extraordinary degree in maximizing the benefits of that new administrative structure, while protecting the distinctive identity of the school. Third, he encouraged and shepherded the major expansion and diversification of the academic program of Elizabeth City State University, thereby converting it from a school of narrow and limited focus to one which now can offer its students a broad array of enriching academic opportunities.

Sec. 3. Marion Thorpe was, above all, a person who cared genuinely about the plight of his fellow citizens, and he devoted his talents and energies to their betterment within a professional context that can and will have lasting impact for generations to come. This good man was a true servant of humankind.

Sec. 4. The General Assembly expresses its appreciation for the life, the service, and the example of Dr. Marion Dennis Thorpe, and directs that a copy of this Resolution be spread upon the minutes of both the House of Representatives and the Senate, and that copies of this Resolution be duly certified by the Secretary of State and presented to his loving wife, Lula Glenn, and to each of his children, Pamela Monique and Marion Dennis.

Conservation of Prime Agricultural and Forest Lands

WHEREAS, it is the policy of the State of North Carolina, as set forth in N.C.G.S. 139-1, et seq., 106-583 and 113A-3, to provide for the conservation of soil to promote the efficient production and utilization of the products of the soil as essential to the health and economic well-being of its citizens, and to conserve and protect natural resources; and

WHEREAS, prime agricultural and forest lands are being converted to urban, commercial, industrial, transportation and water impoundment uses at a rate in excess of 36,000 acres per year; and

WHEREAS, the conversion of prime lands to irreversible non-farm uses may ultimately reduce food and fiber production capacity, thus forcing a reliance on marginally productive lands that would result in greater soil erosion, higher energy and fertilizer requirements and increased enviromental damage; and

WHEREAS, the public investment policies and actions of State agencies and instrumentalities contribute significantly to the conversion of prime agricultural and forest lands, when there may be alternatives available that are less destructive to our best lands; and

WHEREAS, the State seeks to support and assist compliance with the Farmland Protection Policy Act adopted by the United States Congress on December 22, 1981;

NOW, THEREFORE, IT IS HEREBY ORDERED:

Section 1. (A) It shall be State policy that farm and timber production are the highest priority uses of prime agricultural and forest lands.

(B) All State agencies, as defined in N.C.G.S. 143B-3, under the jurisdiction of the Governor shall ensure that actions taken by those agencies will minimize the loss of prime agricultural and forest lands. As used herein, "agency" shall refer to an agency under the jurisdiction of the Governor.

(C) As used herein, the term "actions" shall mean all public investments and land acquisitions by the State.

(D) As used herein, the term "prime agricultural and forest land" shall mean those lands, as defined in the federal Farmland Protection Policy Act, which possess the best combination of physical and chemical characteristics for producing food, feed, fiber (including forest products), forage, oilseed, and other agricultural products (including livestock), without intolerable soil erosion. This policy does not apply to lands which are already in or committed to development projects such as water impoundment, transportation, and urban development.

Section 2. (A) To these ends I direct the following steps be taken:

1. The Secretary of the Department of Natural Resources and Community Development is hereby designated as the agent principally responsible for carrying out this directive. The Secretary shall review the actions of other State agencies and advise the Governor when it appears that any such action does not comply with the intent of this directive with respect to the conservation of prime agricultural and forest lands. The Secretary, in consultation with the Secretary of the Department of Administration, may establish such procedures as it deemed appropriate to ensure the timely cooperation of such other State agencies. All procedures shall, to the maximum extent possible, adhere to the state clearinghouse intergovernmental review process.
2. The Soil and Water Conservation Commission shall have the coordination responsibility for the program of conservation of agricultural and forest lands to be established by this Order.
3. The Commission, in cooperation with the Secretary and appropriate Federal, State and local agencies, shall develop, implement, and publicize the program.

(B) The Soil and Water Conservation Commission shall:

1. Seek the participation and support of each soil and water conservation district in North Carolina in carrying out this program.

2. Work closely with each district to develop a map of prime agricultural and forest lands within the district. The districts shall authenticate the county maps and shall work with the Commission to provide for the distribution of copies of each county's maps to appropriate public officials. The Secretary of Transportation, the Secretary of Administration, and the Chairman of the North Carolina Utilities Commission shall receive copies of the maps for each county.

3. Assist each district board of supervisors in developing local procedures for:

   a. The identification of proposed State actions subject to review by the local board;

   b. The review process to determine if proposed State actions will have significant adverse effect on prime agricultural and forest lands in the district; and

   c. The reporting of findings by the local board to include recommendations of feasible and prudent alternatives to the proposed State actions, when appropriate.

(C) Agencies under the jurisdiction of the Governor will provide sufficient information and incorporate the district review process into their normal review procedures consistent with this Executive Order. The review process must be completed and its outcome reported within 60 days after notice is mailed to the district

board. If an agency has not received a report from the district board or commission within 60 days, the agency may proceed without such report.

(D) An agency will give due consideration to comments of the district board of supervisors or the commission or both. If, after the review process is completed, an agency modifies its proposed action is a way which will or may substantially increase the adverse effects on prime agricultural and forest lands, or shift adverse effects to lands in a different location, the agency will repeat the review process.

(E) After consulting with the Commission, any State agency may classify its activities by size or type so as to exclude from the notice process de minimis cases which will not have a significant adverse effect on prime agricultural and forest lands.

Section 3. By June 30, 1984, all State agencies shall report to the Governor on (a) the overall effect of their actions, programs regulations, procedures and operations on the conversation of prime agricultural and forest lands; and (b) corrective measures that the agency intends to take to avoid and minimize the conversion of such lands to other uses; and (c) any statutory authorities whch may hinder compliance with this directive.

Moratorium on Terminating
Social Security Disability Benefits

WHEREAS, it is the policy of the State of North Carolina to protect the rights of disabled citizens; and

WHEREAS, approximately 10,000 North Carolinians have suffered the loss of Social Security disability benefits as a result of reevaluations ordered by the Social Security Administration; and

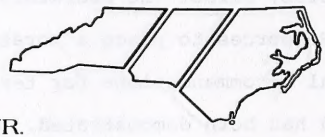
WHEREAS, these actions appear to have gone beyond the intent of the United States Congress; and

WHEREAS, many citizens are suffering from the termination of benefits even though their medical condition has not improved; and

WHEREAS, the United States Congress is considering legislation that would review the medical criteria used in the reevaluation of disability recipients;

NOW, THEREFORE, I, James B. Hunt Jr., Governor of the State of North Carolina, under the authority vested in me as Governor, do hereby direct the Secretary of the Department of Human Resources to place a moratorium on processing any initial recommendations for terminating benefits unless fraud has been demonstrated.

The review of claims forwarded by the Social Security Administration shall be permitted to progress to completion. Favorable recommendations shall continue to be processed in the normal manner.



This order shall become effective immediately. It shall remain in effect until appropriate medical improvement standards are enacted by the United States Congress, or until modified or superseded by further Executive Order.

Done in the Capital City of Raleigh, North Carolina, this the Seventh day of September, 1983.
